3 N	26 E	WM	14	SW NE	WELL 1 - 2540 FEET SOUTH AND 1520 FEET WEST FROM NE CORNER, SECTION 14

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. The use shall conform to any reasonable rotation system ordered by the proper state officer.

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

The water user shall maintain and operate totalizing flow meters for measuring and recording the rate and volume of water appropriated for righted irrigation use, agricultural use for dairy, and exempt use from both wells (existing and new). The water user must be able to separate and account for the total use of each righted use and exempt use.

The water user shall submit a yearly record of the measurements from all the meters to the Watermaster, due on the 15<sup>th</sup> of January of each year for the preceding year's uses on a form provided by the Department. The report shall contain the total volume of water diverted from the wells for righted irrigation use, righted agricultural use for dairy, and exempt uses for the previous year. The Watermaster may modify the reporting requirements as needed.

The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water available from the original point of appropriation.

Water shall be acquired from the same aquifer as the original point of appropriation.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

This certificate is issued to confirm an ADDITIONAL POINT OF APPROPRIATION, PLACE OF USE, and USE approved by an order of the Water Resources Director entered September 16, 2002, at Special Order Volume 56, Page 967, approving Transfer Application T-8867, and together with Certificate 83438, supercedes Certificate 34282, State record of Water Right Certificates.

Issued JAN 14 2025.
