The quantity of water diverted at the additional point of appropriations (Well #2 and Well #3), together with that diverted at the original point of appropriation (WAYNE HOWES WELL #2), shall not exceed the quantity of water lawfully available at the original point of appropriation (WAYNE HOWES WELL #2).

Water use measurement conditions:

- A. The water user shall maintain the totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, in good working order at each point of appropriation (new and existing).
- B. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer (water source) as the original points of appropriation.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

This certificate is issued to confirm a change in PLACE OF USE and an ADDITIONAL POINTS OF APPROPRIATIONS approved by an order of the Water Resources Director entered January 3, 2022, at Special Order Volume 122, Page 275, approving Transfer Application T-13395, and together with Certificate 95999, supercedes Certificate 28656, State record of Water Right Certificates.

Issued DEC 19 2025.
