The quantity of water diverted at the additional point of appropriation (Well 5), together with that diverted at the old points of appropriation, shall not exceed the quantity of water available from the original points of appropriation (Wells 3 and 4).

Water use measurement conditions:

- A. The water user shall maintain, in good working order, a totalizing flow meter, or another meter as approved by the Director, at each point of appropriation.
- B. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer (water source) as the original points of appropriation.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times. When required by the Department, the water user shall install and maintain a weir, meter, or other suitable measuring device and keep a complete record of the amount of ground water withdrawn.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or groundwater rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

This certificate is issued to confirm a change in PLACE OF USE AND AN ADDITIONAL POINT OF APPROPRIATION approved by an order of the Water Resources Director entered July 21, 2017, at Special Order Volume 105, Page 363, approving Transfer Application 12362, supercedes Certificate 85697, State record of Water Right Certificates.
