The Director may require the water user to install a totalizing flow meter or other suitable measuring devices at each point of diversion. If the Director notifies the water user to install totalizing flow meters or other measuring devices, the water user shall install such devices specified by the Director within the period allowed in the notice. Once installed, the water user shall maintain the meters or measuring devices in good working order and shall allow the Watermaster access to the meters or measuring devices.

When required by the Department, the water user shall install, maintain and operate a headgate to control and regulate the quantity of water diverted. The types of plans of the headgate must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The water user shall maintain and operate the fish screen and/or by-pass device, as appropriated, at Troy #2 point of diversion consistent with Oregon Department of Fish and Wildlife's operational and maintenance standards.

Said right shall be subject to all other conditions and limitations contained in said decree. The right to the use of the water for irrigation purposes is restricted to lands or place of use herein described.

This certificate is issued to confirm a change in POINTS OF DIVERSION and PLACE OF USE approved by an order of the Water Resources Director entered July 20, 2012, at Special Order Volume 88, Page 216, approving Transfer Application T-10961, and together with Certificate 87090, supercedes Certificate 5961, State record of Water Right Certificates.

Issued July 31, 2026.
