stock water entire year.

11. Remarks:

The original owners did mention water + its use in their land patents & fillings, as I found out from relatives, but records were lost, probably when Burin & Harney were fighting for County seat, there was some voiding of records etc, and as result many people can't find their relatives orig. fillings as my neighbors have informed me, they have same problem.

This registration statement must be accompanied by a map prepared by a licensed land surveyor or engineer.

Also this water is used by many forms of wild life and has been but I don't think it right I should pay a fee for their use but I intend that they continue sharing this water with me. Some of this area is used as brood area and is included in my acreage claim.

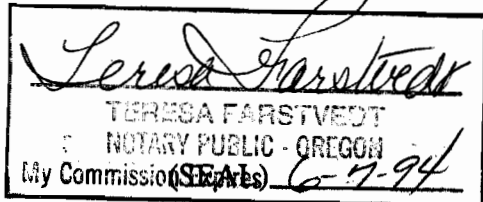

Also there is a house hold spring under the house which has been used for household & lawn & livestock but does not flow off of my property so I understand I need not file on it.
