- b. Nonwaiver. The documentation included with this Registration Statement is presented without waiver of the registrants' right to present additional documentation in support of the claims made in this Registration Statement and without waiver of any rights in favor of the registrants or any of them arising by virtue of amounts paid to the State of Oregon as licensing fees or as a result of filing any statement of water power claimant.
- Joint and Several Nature of the Registration c. Statement. Because the water rights claimed by the registrants in this Registration Statement derive from a common plan of industrial development begun by the registrants' predecessor in title in 1889, the registrants have filed this Registration Statement jointly. However, the rights asserted by each registrant in this Registration Statement are several and are claimed by each registrant as independently and as fully as if each such right were set forth by that registrant in a separate registration statement. On the next page of this Registration Statement, authorized representatives of each registrant have certified the matters set forth by that registrant in this Registration Statement.
- d. <u>Fish passage</u>. As a courtesy to the Oregon Department of Fish and Wildlife ("ODF&W") and with the ODF&W's consent, the registrants have agreed to claim water for fish passage on behalf of ODF&W. The 650 CFS claimed is in addition to 430 CFS withdrawn for fish passage purposes by order of the Water Resources

Department dated June 26, 1965. This Registration Statement shall not be construed as a waiver of any position taken by the registrants or any of them with respect to fish passage or an agreement to expand any of the registrants' duties under the registrants' FERC License or otherwise.
