

BEFORE THE STATE WATER BOARD OF OREGON

BAKER COUNTY

IN THE MATTER OF THE DETERMINATION)
OF THE RELATIVE RIGHTS OF THE VARIOUS)
CLAIMANTS TO THE USE OF THE WATERS OF)
BURNT RIVER, A TRIBUTARY OF SNAKE)
RIVER.)

FINDINGS OF FACT
A N D
ORDER OF DETERMINATION

Now on this 13th day of April, 1921, the above entitled matter coming on before the State Water Board of the State of Oregon at a meeting of said Board commenced and held on said date, and it appearing to said Board that all of the evidence and testimony taken in the above entitled proceeding has been duly filed in the office of the said Board, and the said Board having carefully considered all of said evidence, proofs and testimony taken, and the information and data gathered by the State Engineer, and being now fully advised in the premises, makes and orders to be entered of record in its office the following:

FINDINGS OF FACT AND ORDER OF DETERMINATION

1.

That on the 28th day of October, 1914, there was filed in the office of the State Water Board of the State of Oregon, a petition signed by Wm L. Morfitt and others, water users upon said stream, requesting a determination of the relative rights of the various claimants to the waters of said stream, and that said petitioners are now users of the waters of said Burnt River and its tributaries, a tributary of Snake River, as appears from the order of determination herein. That thereafter the State Water Board, after a full investigation and due consideration of said petition, finding the facts and conditions such as to justify the making of a determination of the relative rights of the various claimants to the waters of said stream and its tributaries, made and entered an order in the records of said office, fixing a time and place for the beginning and making of such an examination of said stream by the State Engineer as would enable the said Board to determine the rights of the said claimants, and also the time and place for the beginning and taking of testimony by the Superintendent of Water Division No. 2 (now State Water Superintendent). That the said time and place where said State Engineer or his assistants should begin the examination of said stream was set by said Board for Monday, the 30th day of April, 1917, and the time when the Superintendent of Water Division No. 2 should attend and take the testimony of the various claimants was set by order of said Board for

Tuesday, the first day of May, 1917, at the hour of nine o'clock A. M., at the City Hall in Huntington, Baker County, Oregon, and at Shaw Hall in Durkee, Baker County, Oregon, on Wednesday, the 2nd day of May, 1917, at ten o'clock A. M., and at Hereford, Baker County, Oregon, on Friday, the 4th day of May, 1917, at ten o'clock A. M., and at the public school house in Unity, Baker County, Oregon, on Saturday the 5th day of May, 1917, at ten o'clock A. M., and at the Court House in Baker, Baker County, Oregon, on Monday, the 7th day of May, 1917, and continuously thereafter for a period of 60 days at the office of the Superintendent of Water Division No. 2, at La Grande, Oregon.

2.

That a notice was prepared by said Board setting forth the date when the State Engineer, or his assistants, would begin the investigation of the flow of said stream and the ditches diverting water therefrom, and the time and place certain when the Superintendent of Water Division No. 2 would begin the taking of testimony as to the relative rights of the various claimants to the waters thereof, and said notice was published in two issues of the Baker Herald, a newspaper published daily at Baker, Baker County, Oregon, said two issues being those of March 26 and 27, 1917; and said notice was also published in two issues of the Morning Democrat, a newspaper published daily at Baker, Baker County, Oregon, said two issues being those of March 29 and 30, 1917; both of which newspapers being of general circulation in the county of Baker, State of Oregon, the date of the last publication of said notices being more than thirty days prior to the date fixed for the making of said examination and measurement of said streams and ditches by the State Engineer, and for the beginning of the taking of testimony by the Division Superintendent.

3.

That prior to the 28th day of March, 1917, the Superintendent of Water Division No. 2 did send by registered mail, to each person, firm and corporation claiming a right to the use of the waters of said stream, or any tributary thereof, and to each person, firm and corporation, owning or being in possession of land bordering on or having access to said stream or its tributaries, insofar as said claimants, owners, firms and corporations in possession could be reasonably ascertained, a similar notice to such published notice, setting forth the date when the State Engineer would commence the examination of the said stream and its tributaries, and the ditches diverting water therefrom, and the time and place certain when the Superintendent of said Water Division would commence the taking of testimony as to the relative rights of the various claimants to said stream and its tributaries, and the said Superintendent did enclose with each of said notices a blank form upon which the said claimants or persons in possession should

present in writing all the particulars necessary for the determination of their rights to the waters of said stream, or a tributary thereof, under oath. That due proof of publication of said notice and of the sending of said notice by registered mail has been made and is duly filed and is a part of the record herein,

4.

That at the time specified in said original notice, a duly qualified assistant of the State Engineer of the State of Oregon, did proceed to make an examination of the said stream and its tributaries, and all of the ditches diverting water therefrom, and of the land irrigated and susceptible to irrigation from said ditches and canals, together with the measurements thereof, which observations and measurements were made a matter of record in the office of the State Engineer, and the State Engineer did prepare a plat and a map of a scale of measurement of 4 inches to the mile, showing with substantial accuracy the course of said stream and its tributaries and the location of the various ditches diverting water therefrom, and the legal subdivisions of land which had been irrigated or which were susceptible to irrigation from said ditches and canals already constructed, blue prints and copies of the said maps and information, duly certified to by the State Engineer, being now on file herein, and a part of the records hereof.

5.

That statements and proof of claimants to the use of the waters of said stream and its tributaries were filed with the Superintendent of Water Division No. 2 by the following named persons, firms and corporations:

7.

That upon the completion of the taking of the testimony by the Superintendent of Water Division No. 2, said Superintendent did, on the 20th day of August, 1918, give notice by registered mail to each of the various claimants to the waters of said stream and its tributaries, that at the times and places named in said notice, to-wit: for a period of 5 days beginning Tuesday, the 3rd day of September, 1918, and ending on Saturday the 7th day of September, 1918, at the County Court House in Baker, Baker County, Oregon; for a period of 12 days beginning on Monday the 9th day of September, 1918, and ending on Saturday, the 21st day of September, 1918, (Sundays excepted), at the office of the Superintendent of Water Division No. 2, in La Grande, Union County, Oregon, all of said evidence would be open to inspection by the various claimants or owners. That said Superintendent did, in accordance with said notice, attend at said times and places and keep said evidence open for a period of twenty days; and said notice did also state therein the county in which the determination of the State Water Board would be heard by the Circuit Court of the State of Oregon, to-wit: the Circuit Court of the State of Oregon for Baker County. That due proof of the holding

of said inspection and the sending of the said notices by registered mail has been made and filed herein.

8.

That within five days from the closing of the public inspection of the statements and proof of claim of the various claimants, notice of contests were filed by the following named contestants against the following named contestees:

Contest No. 1

C. C. Smelcer,

Contestant,

vs.

James Gallagher and Patrick Gallagher,

Contestees.

Contest No. 2

Alfred Whited, Wilson Whited, Grace Whited, Thomas P. Whited, Belle Whited, and Fred Cundiff,

Contestants,

vs.

Michael Rouse, John Rouse, Maude Rouse, John Rouse as administrator of the estate of Joseph Wham, Deceased.

Contestees.

Contest No. 3

Alfred Whited and Wilson Whited,

Contestants,

vs.

Thomas Mickey,

Contestee.

Contest No. 4

Alfred Whited, Wilson Whited, Grace Whited, Thomas P. Whited, Maude Rouse as administrator of the estate of Joseph Wham, Deceased, Belle Whited and Fred Cundiff,

Contestants,

vs.

Ella Powell Haskins, Ella Powell Haskins as administratrix of the estate of John Powell, Deceased, Ella Powell Haskins as guardian of the persons and estates of Adel Adelaide Powell, Marguerite Powell, and John Leland Powell, the minor children and heirs of the said John Powell, Deceased,

Contestees.

Contest No. 5

John S. Hale,

Contestant,

vs.

Oregon Lumber Company, a corporation,

Contestee.

Contest No. 6

Augustus B. Vandecar,

Contestant,

vs.

Adam Schuck,

Contestee.

Contest No. 7

C. A. Butts, James Trimble and Charles Cole,

Contestants,

vs.

Fred E. Boyer,

Contestee.

Contest No. 8

Charles Wendt, Henry Wendt, N. N. Elliott, W. E. Lovelace,
Milton Eddy, Frank Elliott, Frank Leatherman, Jasper Wicks,
Otis Elliott, Johanna Elliott, John L. Sullivan, Morris
Sullivan, John Trimble, James Trimble, O. C. Koontz, M. E.
Davidson, Wm. Fleetwood, Charles Fleetwood, E. H. Ware,

Richard Boyer, Charles Cole, Barney Eastham, Walter L.
Eastham, Ralph Yeakley, Ed Sullivan, Mike Sullivan, T. B.
Van Cleave, Mary A. Van Cleave,

Contestants,

vs.

The Eastern Oregon Land Company, a corporation,

Contestee.

Contest No. 9

E. H. Ware, John Crossen, Robert Watkins, Oscar Watkins,
Mrs. Caleb Butts, Mrs. Fred Shaw, Mrs. James H. Watkins,
Estate of James H. Watkins, Deceased, H. T. Homewood,
I. B. Yates, J. H. Murray, Archie J. Murray,

Contestants,

vs.

Eastern Oregon Land Company

Contestee.

Contest No. 10

Michael Rouse, John Rouse, George W. Fleetwood, C. P. Lawrence,
H. C. Elms, Thomas Elms, George W. Elms, Joseph M. LaPorte,
William Morfitt, Joseph N. Shelton, George M. Whited, Belle
Whited, James K. Whited, M. L. Stout, Louise Haggerty, Lizzie
B. Carnegie, Fred Shanklin, Otto Paustian, Anna Paustian,

Contestants,

vs.

Eastern Oregon Land Company, a corporation,

Contestee.

Contest No. 11

Jacob Butts,

Contestant,

vs.

Thomsen and Company, a corporation,

Contestee.

Contest No. 12

Ella Powell Haskins and J. M. LaPorte,

Contestants,

vs.

John Rouse and Michael Rouse

Contestees.

Contest No. 13

Ella Powell Haskins and J. M. LaPorte,

Contestants,

vs.

John Rouse and Michael Rouse,

Contestees.

Contest No. 14

Ella Powell Haskins and J. M. LaPorte,

Contestants,

vs.

Alice Wham, individually, and as successor in interest of
Joseph Wham, Deceased, Hannah Isabel Whited, Alfred Whited,
and Wilson Whited,

Contestees.

Contest No. 15

Ella Powell Haskins and J. M. Labadie,

Contestants,

vs.

Elizabeth McCullough and Alice Wham, successor in interest
and devisee of Joseph Wham, Deceased,

Contestees.

Contest No. 16

Albert Hindman,

Contestant,

vs.

Chas. F. Chadwell,

Contestee.

Contest No. 17

Walter W. Dorsett and Mary Dorsett,

Contestants,

vs.

Emil F. Foersterling,

Contestee.

Contest No. 18

Uno T. Engstrom,

Contestee.

9.

That after the filing of said contests the Superintendent of Water Division No. 2 did fix the time and place for the hearing of each and every of said contests and served notice of hearing of said contests on each of the parties to each and every of said contests, which said notice of hearing set the date for said hearing at more than thirty days and less than sixty days from the date of said notice of hearing was served upon each of the parties.

That due proof of service has been filed herein.

That said Superintendent of Water Division No. 2 did, at the time so set by said notices begin the taking of testimony upon said contests from time to time until each and every of said contests were fully heard, settled or otherwise disposed of.

10.

That Burnt River rises in the southwestern part of Baker County, in the Blue Mountains, and flows in a northerly and easterly direction and empties into Snake River. That the land irrigated from said river and its tributaries is arid land, and irrigation is necessary for the raising of profitable crops. That said stream and its tributaries are perennial streams, and its waters are subject to appropriation under the laws of the State of Oregon.

Contest No. 1

C. C. Smelcer,

Contestant,

vs.

James Gallagher and Patrick Gallagher,

Contestees.

That this contest was settled by a stipulation, wherein it was stipulated that the contestees should have the right to lay a pipe line of a half inch inside diameter tapping a spring rising in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 2, Tp. 11, S.R. 44, E. W. M., within two years, and that after the installation of said pipe, said water would be used at the place of use on the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 2, said township and range, for domestic purposes only, and that means would be provided for stopping the run of water through said pipe when said water was not in use; and that if said pipe was not installed within two years from date of such stipulation, to wit: the 17th day of April, 1919, that then the contestees should lose all further rights. It was further stipulated that the rights of the contestant should be as claimed in the tabulation hereinafter set forth, tabulating the claims of said contestant and said contestees as so stipulated.

12.

Contest No. 2Alfred Whited, Wilson Whited, Grace Whited, Thomas P. Whited,
Belle Whited and Fred Cundiff,

Contestants,

vs.

Michael Rouse, John Rouse, Maude Rouse, John Rouse as
administrator of the estate of Joseph Wham, Deceased.

Contestees.

That the above contest was withdrawn, it being understood that the stipulation hereinafter referred to in Contest No. 26, Paragraph 36, settles all controversy between the parties to said contest.

13.

Contest No. 3

Alfred Whited and Wilson Whited,

Contestants,

vs.

Thomas Mickey,

Contestee.

That by the allegations of this contest the ownership of the Curop Ditch is in question, and inasmuch as the State Water Board only deals with water rights, and has no jurisdiction for determining the ownership of the ditch, and said contest is dismissed.

14.

Contest No. 4

Alfred Whited, Wilson Whited, Grace Whited, Thomas P. Whited, Maude Rouse as administrator of the estate of Joseph Wham, Deceased, Belle Whited and Fred Cundiff,

Contestants,

vs.

Ella Powell Haskins, Ella Powell Haskins as administratrix of the estate of John Powell, Deceased, Ella Powell Haskins as guardian of the persons and estates of Adel Adelaide Powell, Marguerite Powell and John Leland Powell, the minor children and heirs of said John Powell, Deceased,

Contestees.

That this contest involves to some extent the ownership of the Tiger Ditch, and so far as the title to this ditch is concerned, such title is separate from the water right and the Water Board has no jurisdiction to decide the same. Insofar as the priorities for the use of water are concerned, the case of Whited vs. Gavin, reported in 55 Or. p. 98, establishes the dates of priority for the Wham-Whited Upper Ditch as 1881 and for the Wham-Whited Lower Ditch as 1887, and for the Tiger Ditch as 1895.

The contestees herein, with the exception of Ella Powell Haskins, were not parties to the case of Whited vs. Gavin. Ella Powell Haskins was a party and was named as the administratrix of the estate of John Powell, deceased. The contestees herein are the widow and children of said John Powell, deceased, and Ella Powell Haskins is the same Ella Powell named as administratrix of his estate in that case.

From the decree rendered in that case by the Circuit Court, Ella Powell Haskins, with other defendants, appealed to the Supreme Court, and the Supreme Court, at page 103, says "the Tiger and Curop and Co.'s ditches were constructed after the appropriation made by appellants through their canals herein described." The Supreme Court then proceeds to fix the date of appellants, which would be the same as contestee Ella Powell Haskins in this case, for the East Side Ditch as 1884, for the Powell-LaPorte Ditch, which is the same as the Powell-Hill Ditch in this proceeding, as 1887, and then on page 105 says that "plaintiffs (contestants herein) do not in this proceeding assert any claim to a water right as against defendants (contestee Ella Powell Haskins herein) through the Tiger Ditch," and that such defendants have established a prior right to such quantity of water as was diverted and in actual use by them in 1895, when the

Tiger Ditch was built, and the court refused to allow the date of the Tiger Ditch to relate back to the old appropriation of the contestants herein, on the ground that it was merely a change of point of diversion, and in Paragraph 4 of the opinion of the Supreme Court, at page 106 of the Oregon Reports, the Supreme Court refused to make any finding or determination of the water right claimed through the Tiger Ditch except that such appropriation is subsequent in time and right to the interests of the defendants.

That the claims of the contestants and contestees herein set forth their acreage in detail, and the State Water Board finds that the dates of priority as hereinafter set out in the tabulation, and the acreages as hereinafter described in such tabulation under such dates of priority, fully and comprehensively describe the rights of the parties to the use of the waters adjudicated in this proceeding.

15.

Contest No. 5.

John S. Hale,

Contestant,

vs.

Oregon Lumber Company, a corporation,

Contestee.

That testimony was taken in the above contest, and it showed that within the past few years the Oregon Lumber Company had increased its irrigated area to quite a large extent, but what the amount of that increase was does not appear in the testimony. It does appear, however, in the testimony, that there is plenty of water for both parties to this contest during the high water season of the river, which lasts until in the month of June in each year, and some years into the month of July. It further appears that through Ditch No. 3 the Oregon Lumber Company irrigates lands with water from Gimlet Creek in addition to the Camp Creek water. It further appears that the contestant herein has used the water since 1900 without any interference from the contestee, and the contestant takes water from Camp Creek above the contestee. It further appears that the contestant irrigates 109 acres, and the contestee irrigates 155 acres, out of Ditch No. 3 from Camp Creek, and 39 acres out of Ditch No. 4. Taking all of the testimony and considering it, it would be fair and equitable if the waters of Camp Creek were divided equally, so that the contestee and contestant could use the water on an equal basis up until 109 acres is irrigated by each of the parties, and thereafter, for the additional acreage of the contestee, such additional acreage would be subsequent in time and inferior in right to the rights of the contestant, and whenever there is not sufficient water to irrigate 109 acres for each of the parties hereto, then such water shall be divided equally between the contestant and the contestee.

Contest No. 6

Augustus B. Vandecar,

Contestant,

vs.

Adam Schuck,

Contestee.

That this contest involves the waters of Durkee Creek, and it appears that the contestant uses water out of Durkee Creek through the Vaughn Ditches Nos. 2, 3, 6, and 8. That under Vaughn Ditch No. 2 he has 28 acres as of 1884, and 20 acres as of 1911; under Vaughn Ditch No. 3 he has 27 acres as of 1884 and 45 acres as of 1906; under Vaughn Ditch No. 6 he has 101.5 acres as of 1885, and under Vaughn No. 8 he has 60 acres as of 1885 and 12 acres as of 1900. The contestee uses water out of Durkee Creek for the irrigation of 31 acres under date of 1897, and the generation of power to the extent of 1 horsepower. There is testimony to the effect that the contestant has used all of the water of Durkee Creek upon his lands, and turned none down to the contestee, and the contestant thereby claims a priority for all of his lands over that of contestee. Durkee Creek flows a great deal of water during the high water season, and there is water then sufficient for everyone. After the spring freshets are over, there is not very much water in Durkee Creek, and probably not enough even to irrigate the lands of contestant that have a priority date over the lands of the contestee. Under such conditions, the Board finds that the distribution of water according to the dates of priority as set forth will give an equitable distribution of water, and the rights of the contestant and contestee shall therefore be as hereinafter tabulated.

Contest No. 7

C. A. Butts, James Trimble and Charles Cole,

Contestants,

vs.

Fred E. Boyer,

Contestee.

That the foregoing contest involves the use of waters through the Packwood Ditch. It appears that each of the parties to this contest owns a two-thirteenths interest in the Packwood Ditch; that C. A. Butts irrigates 148 acres through the ditch, 136 under date of 1888 and 12 under date of 1910; that James Trimble irrigates 100 acres through the Packwood Ditch, 85 of which is under date of 1888 and 15 under date

of 1896; that Charles Cole irrigates 60 acres through the Packwood Ditch, 8 of which is under date of 1888 and 52 under date of 1900; that contestee Fred E. Boyer irrigates 51 acres from the Packwood Ditch, all of which is under date of 1888. There was considerable testimony herein that the Packwood Ditch was not used by contestants until 1899 or 1900. It appears in fact they did clean the ditch in 1898, but that their lands had been irrigated by other ditches from Burnt River prior to that time, and the use of the Packwood Ditch amounted merely to a change in the point of diversion, so that the dates of the use will be left the same and the rights of the parties tabulated accordingly.

18.

Contest No. 8

Charles Wendt, Henry Wendt, N. N. Elliott, W. E. Lovelace, Milton Eddy, Frank Elliott, Frank Leatherman, Jasper Wicks, Otis Elliott, Johanna Elliott, John L. Sullivan, Morris Sullivan, John Trimble, James Trimble, O. C. Koontz, M. E. Davidson, Wm. Fleetwood, Charles Fleetwood, E. H. Ware, J. M. Fleetwood, Jerry Fleetwood, Caleb A. Butts, Fred Boyer, Richard Boyer, Charles Cole, Barney Eastham, Walter L. Eastham, Ralph Yeakley, Ed Sullivan, Mike Sullivan, T. B. Van Cleave, Mary A. Van Cleave,

Contestants,

vs.

The Eastern Oregon Land Company, a corporation,

Contestee.

That the claim of The Eastern Oregon Land Company is based upon an appropriation made on the 9th day of November, 1867, by the Burnt River Ditch & Mining Company, and also upon State Engineer's Permits Nos. 2025 and R 327 filed in the office of the State Engineer October 6th, 1911, and December 30th, 1913, respectively, for an enlargement of the ditch constructed under the first named appropriation and the storage of the water in the Willow Creek watershed. The name of the ditch constructed by the Burnt River Ditch & Mining Company was the Eldorado Ditch, and the appropriation will hereafter be referred to by that name.

The Eldorado Ditch was first used for conveying water from the various tributaries of Burnt River to various places around Malheur City, and sold by the company to water users for the purpose of mining. The first appropriators did not make any use of the water themselves, nor did they intend to do so, but the appropriation was made for the purpose of sale to other parties. The original appropriators got into financial difficulties, and the ownership of the Eldorado Ditch passed from them to various people until finally it came into the hands of The Eastern Oregon Land Company, the present claimant. During all this time caretakers had been in charge of the ditch, and these caretakers sold water to all persons who desired to

use it, and the water was used not only for mining purposes but for agricultural purposes as well.

That The Eastern Oregon Land Company owns a large amount of land in Townships 16 and 17 South, Range 43 E. W. M., and Townships 16 and 17 South, Range 44 E. W. M., amounting to 4818 acres, which land is covered by the State Engineer's permit, and which lands said company intends to irrigate by means of the water in the Eldorado Ditch. Inasmuch as the water has already been taken by the Eldorado Ditch from the watershed of Burnt River and placed in the watershed of Willow Creek, the change in the place of use of the water or in the use to which the water was put, would not in any manner affect any of the appropriators from Burnt River. The use of the water for irrigation on Lower Willow Creek would, however, make it possible for about fifty miles of ditch to be abandoned, and the water would be placed across the divide between the Willow Creek watershed and the Burnt River watershed at a point known as Beam Creek Divide. The Eastern Oregon Land Company began to use the water from the Eldorado Ditch on Lower Willow Creek for irrigation of its own lands about the year 1912. In the year 1914 complaints were filed and injunctions issued restraining the Eastern Oregon Land Company from using water from said ditch for irrigation between the first day of May and the first day of September of each year, and in the operation of the ditch since that time, due regard has been paid to this injunction. The injunction is a temporary one, and the parties to the suit have stipulated that the adjudication of the water rights of Burnt River by the Water Board shall be decisive of such suit.

That the amount of water that has been conveyed across into the Willow Creek watershed through the Eldorado Ditch has varied considerably during the different years, and a large amount of somewhat conflicting testimony and evidence has been submitted as to the quantity of water diverted from the various streams at different periods. However, by taking into consideration all the evidence and making a careful examination of the same, it has been possible to determine with a fair degree of accuracy the extent to which the original appropriation has been maintained. The testimony shows that during the early mining days the practice was to begin cleaning the ditch at the lower end as early as the season would permit, filling the ditch from the lower streams, and only turning in the upper streams as needed. However, for some years prior to the purchase of the ditch by The Eastern Oregon Land Company, the demand for water became less and less, and consequently the ditch was somewhat neglected and its carrying capacity was decreased; and on this account for many years the water was allowed to flow down the natural channel, especially during the early season of the year, and was used below for irrigation by the Contestants to a considerable extent. This condition especially prevailed with respect to the streams above the South Fork of Burnt River, from which no water has been diverted through the Eldorado Ditch for

a period of some 12 or 15 years, and the right of the Contestee to the use of water from these streams has therefore been lost by non-use.

That it further appears that the total appropriation of the Contestee through the Eldorado Ditch under its rights initiated November 9, 1867, from streams westward of Beam Creek Divide, is limited to 28 second feet, and that the amount of water that has been diverted through the Eldorado Ditch over Beam Creek Divide under said rights so initiated is limited to 15 second feet. That in order to secure a flow of 15 second feet over said Beam Creek Divide there has been diverted into said Eldorado Ditch the waters of East Camp Creek, West Camp Creek, Bull Run Creek and the South Fork of Burnt River, and also all of the smaller creeks between East Camp Creek and the South Fork of Burnt River, but the combined diversion from all of said streams has at no time exceeded 28 second feet.

That it further appears that the maximum amount of water that has been carried through a certain section of the Eldorado Ditch in the vicinity of Squaw Creek, near the Southeast corner of Section 8, T. 14 S., R. 37 E., is 15 second feet. That the maximum amount diverted from each stream appears to have been 15 second feet from East Camp Creek, 15 second feet from West Camp Creek and the tributaries between East and West Camp Creeks, 15 second feet from Bull Run Creek and the tributaries between West Camp Creek and Bull Run Creek, and 15 second feet from the South Fork of Burnt River and the tributaries between Bull Run Creek and said South Fork.

That it further appears that the diversion from East Camp Creek has been commenced in some seasons as early as the 25th day of May, from West Camp Creek about the 15th of June, from Bull Run Creek about the 1st of July, and from the South Fork of Burnt River about the 15th of July. And the appropriations from said streams should be limited to the period after said dates respectively of each year.

That it is therefore ordered, that the appropriation of the Contestee through the Eldorado Ditch, as of date November 9, 1867, shall be as follows:

From the streams between Beam Creek Divide and Shasta Gap, to be diverted through Shasta Gap, 6 second feet beginning at the breaking up of winter of each year and ending on the 15th day of April of each year; and 2 second feet beginning on the 15th day of April of each year and ending with the latest date in each year that water can be diverted through said Shasta Gap.

That no diversion shall be made prior to the 25th day of May of each year from East Camp Creek, or prior to the 15th day of June of each year from the streams between East and West Camp Creeks including West Camp Creek, or prior to the first day of July of each year from the streams between West Camp Creek and Bull Run Creek

including Bull Run Creek, or prior to the 15th day of July of each year from the streams between Bull Run Creek and the South Fork of Burnt River including said South Fork; provided, that the fixing of said dates for the beginning of such diversions shall not prohibit a diversion prior to such dates under and by virtue of other rights, when water is available in said streams for such other rights.

That water may be appropriated from the above named streams by the Contestee herein, beginning on the dates as above indicated in each season and ending with the latest date in each season that it is practicable to divert water through Beam Creek Divide; provided, that in no case shall more than 15 second feet be diverted from East Camp Creek, 15 second feet from the streams between East Camp Creek and West Camp Creek including West Camp Creek, 15 second feet from the streams between West Camp Creek and Bull Run Creek including Bull Run Creek, and 15 second feet from the streams between Bull Run Creek and the South Fork of Burnt River including said South Fork of Burnt River. Provided further, that the combined appropriation from all the above sources shall not exceed 28 second feet measured at the respective points of diversion, and that in no case shall more than 15 second feet be diverted over Beam Creek Divide nor more than 15 second feet be carried past that certain section of the Eldorado Ditch in the vicinity of Squaw Creek, near the Southeast corner of Section 8, T 14 S. R. 37 E.,; and provided that the water shall at all times be diverted from the most easterly stream or streams first, to the extent of Contestee's rights as herein limited, until the full appropriation of 28 second feet is secured. And provided further, that if the combined diversion of 28 second feet or any less amount measured at the respective diversion points from the streams, will produce a flow of more than 15 second feet across Beam Creek Divide, then such diversion shall be correspondingly lessened so as to reduce the flow to 15 second feet at said Beam Creek Divide.

That the above findings and order have only to do with the appropriation of Contestee as of date November 9, 1867, and in no way affect the rights of Contestee under its appropriation Under State Engineer's Permits Nos. 2025 and R 327, which said appropriations shall be governed by the laws and statutes governing the proving up and completion of rights under such permits.

That the lands upon which these water rights shall be used shall be hereinafter tabulated, and the conditions of the use of water upon them and the time within which such lands shall be put under irrigation, shall be therein fixed.

Contestee.

That this contest involves the same questions as does Contest No. 8, and the decision in that contest settles this contest.

21.

Contest No. 11

Jacob Butts,

Contestant

vs

Thomsen and Company, a corporation,

Contestee.

That this contest was set down for hearing, the contestant appearing by W. H. Strayer and the contestee by W. L. Patterson and John L. Rand. No testimony was offered in support of the claim of the contestee, and it appears from the said claim that water has not been used out of Rock Creek during each year after about the first of July. It further appears that the contestant has been using water since the appropriation made by him, without being called upon by the contestee to turn the water down. It follows, therefore, that the appropriations made by the parties hereto shall have the dates as claimed in the claims of contestant and contestee, but that on and after the first day of July of each year, the contestant shall have the full use of

the water that comes to him or his ditch, without turning any water to the contestee, and the rights of the parties hereto as hereinafter tabulated shall be subject to this finding.

22.

Contest No. 12

Ella Powell-Haskins and J. M. LaPorte,

Contestants,

vs.

John Rouse and Michael Rouse,

Contestees.

That this contest involves only the land irrigated by the contestees through the Lancaster Ditch. It appears that about 37 acres of the land irrigated under that ditch is upon a desert entry made by William Chamberlain, and that the water was first used upon that desert entry about the year 1900. That the dates of priority, therefore, for the lands of John Rouse and Michael Rouse through the Lancaster Ditch, shall be for 125 acres as of 1886 and 37 acres as of 1900. Inasmuch as the acreage is not segregated in the testimony, the tabulation hereinafter made shall give the total acreage under each priority, and the particular forty for each priority shall not be designated.

23.

Contest No. 13

Ella Powell Haskins and J. M. LaPorte,

Contestants,

vs.

John Rouse and Michael Rouse,

Contestees.

That this contest involves the lands irrigated by the Drislane Lower Ditch as used by the contestees. From the testimony produced, it appears that the lands of contestees were irrigated as claimed, and the tabulation hereinafter made shall tabulate the same as claimed in the statement and proofs submitted.

24.

Contest No. 14

Ella Powell Haskins and J. M. LaPorte,

Contestants,

vs.

Alice Wham, individually, and as successor in interest of Joseph Wham, Deceased, Hannah Isabel Whited, Alfred Whited and Wilson Whited,

Contestees.

That this contest is decided by the finding under Contest No. 4.

25.

Contest No. 15

Ella Powell Haskins and J. M. LaPorte,

Contestants,

vs.

Elizabeth McCullough and Alice Wham, successor in interest
and devisee of Joseph Wham, Deceased,

Contestees,

That part of the questions involved in this contest were decided in the finding under Contest No. 4. As to the rights of Elizabeth McCullough, Elizabeth McCullough has filed a disclaimer, and inasmuch as the contest states that the appropriation was made in 1912, the date of priority of Elizabeth McCullough's claim as filed will be placed as of 1912.

26.

Contest No. 16

Albert Hindman,

Contestant,

vs.

Chas. F. Chadwell,

Contestee.

That it appears that J. T. Giroux has succeeded to the interests of Charles F. Chadwell, and the above entitled contest was dismissed upon a stipulation which changed the date of statement and proof of claim of Charles F. Chadwell (J. T. Giroux, successor in interest) to 1906, and the tabulation hereinafter set forth shall show the date as so stipulated.

27.

Contest No. 17

Walter Dorsett and Mary Dorsett,

Contestants,

vs.

Emil F. Foersterling,

Contestee.

That this contest was settled by stipulation settling the priority dates of the contestee as 4 inches of water under 1887, 5 inches under 1891 and 5 inches 1898. The claims filed by the contestee showed 4 acres in 1887, 2 acres in 1888, 7 acres in 1891, 5 acres in 1895 and 2 acres in 1902. The dates of priority for this acreage will therefore be changed so as to read 4 acres in 1887, 9 acres in 1891 and 7 acres in 1898.

28.

Contest No. 18

Walter Dorsett and Mary Dorsett,

Contestants

vs

Fred Foersterling,

Contestee.

That this contest was settled by a stipulation, wherein and whereby it was stipulated that the contestee should be entitled to 7 inches of water as of date of priority of 1909. Inasmuch as the claim states a date of priority of 1909 for 7 acres of land, the tabulation shall be the same as the claim, and not modified in any manner.

29.

Contest No. 19.

Michael Rouse and John Rouse,

Contestants

vs

William Morfitt, Henry C. Elms, George W. Elms,
and Nancy A. Elms,

Contestees.

That this contest was settled by a stipulation, wherein it was stipulated that the contestees shall have 100 inches of water of the South Fork of Burnt River through the Campbell-Elms Ditch as prior in time to the right of the contestants to the use of the waters of Bull Run Creek through the ditches known as Rouse No. 1 and Rouse No. 2. It appears from the claims that H. C. Elms claimed 267.5, George W. Elms and Nancy A. Elms claim 222 acres, and William Morfitt claims 360 acres, all through the Campbell-Elms Ditch under date of 1888, while Michael Rouse and John Rouse claim 48 acres through Rouse Ditches No. 1 and No. 2 under priority date of 1893. Under this stipulation, therefore, the water master will distribute the water one-third of 100 inches to H. C. Elms, one-third to George W. Elms and Nancy A. Elms, and one-third to William Morfitt, under date of 1888, and the balance of the water for the acreage under said Campbell-Elms Ditch shall be distributed as of date of 1894. These dates are placed so as to make distribution of the balance of the water subject to the date of priority of the Rouse Ditches No. 1 and 2. Inasmuch as the acreage has not been segregated by the stipulation, and it is impossible to segregate such acreage, all of the acreage will be tabulated under date of 1888, and such tabulation will be subject to this finding.

30.

Contest No. 20

Contestants

vs

J. M. LaPorte, Ella Powell Haskins, Adel Powell, Madge Powell,
John Powell, Ella Powell Haskins, guardian of said John Powell,

Contestees.

That this contest was settled by the findings heretofore made under Contest No. 4.

31.

Contest No. 21.

Michael Rouse, John Rouse, J. N. Shelton and Otto Paustain

Contestants

vs

Harvey Phipps and E. B. Carlile,

Contestees.

That the above contest was dismissed as to contestee E. B. Carlile, and a stipulation was entered into, wherein it was stipulated that of the lands claimed to be irrigated by contestee Harvey Phipps, 8 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, 18 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 23, 32 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and 6 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24, Tp. 13 S., R. 36 E. W. M., should have a priority date of 1895, and the tabulation hereinafter set forth shall place the priority date of such acreage at said time.

32.

Contest No. 22

Michael Rouse and John Rouse,

Contestants,

vs

Otis J. Elliott,

Contestee.

That this contest was stipulated, to the effect that the contestee should have priority dates for the use of water through the Cleary Ditch of 70 acres in 1879 and 109 acres in 1888, and the tabulation of the claim so fixes such priority date.

33.

Contest No. 23.

J. N. Shelton and Otto Paustain

Contestant

vs

Belle M. Whited,

Contestee.

BURNT RIVER -30-

That this contest was stipulated to the effect that the contestee should have a priority date of 1900 for 30 acres in the ~~W&NW~~ Section 29, Tp. 12 S. R. 37, through the Wham-Whited Upper Ditch, instead of a priority date of 1881, and the tabulation hereinafter set forth shall designate the priority as so specified.

34.

Contest No. 24.

Michael Rouse and John Rouse,

Contestants,

vs

Sam Cavin, James Burnside, Harvey Phipps, Louise Tureman Haggerty, E. B. Carlile, J. M. LaPorte, Ella Powell Haskins, Adel Powell, Madge Powell, John Powell, Ella Powell Haskins, guardian of said John Powell,

Contestees

That the above entitled contest was dismissed with regard to contestee E. B. Carlile, and as to contestees James Burnside, Harvey Phipps and Louise Tureman Haggerty, a stipulation was entered into wherein it was agreed that the rights of the contestants to the use of the waters through the Lancaster Ditch were prior in time to the rights of said contestees in the use of their water through the Cavin Ditch. As to the other contestees, testimony was taken and heard by the Water Board, and it was found that the rights of the contestants to the irrigation of lands under the Lancaster Ditch as claimed by them in their statement and proof of claim, are prior in time and superior in right to the rights of the contestees to the irrigation of lands under the Cavin Ditch as described and set out in their claim, and the lands as described under each ditch shall be set forth in the tabulation hereinafter. Such description shall be the described lands, and those described as belonging to the contestants under the Lancaster Ditch shall have a right prior in time and superior in right to the lands owned by the contestees and described in the tabulation hereinafter under the Cavin Ditch. But this finding shall only apply to the waters of Burnt River, and shall not apply to any springs which may supply water into the Cavin Ditch.

35

In the distribution of water, the water master shall distribute to such described lands in accordance with such stipulation.

36.

Contest No. 26 is a stipulation between Michael Rouse and John Rouse on the one hand, and Alfred Whited, Wilson Whited, Belle M. Whited and Alice Wham on the other hand, relative to the use of water from the Dresher Ditch, the Drislane Upper Ditch, the Drislane Lower East Side Ditch, the Wham-Whited Upper Ditch and the Wham-Whited Lower Ditch, as follows:

First: That the appropriation of water from the South Fork of Burnt River in Baker County, Oregon, appurtenant to the said ditches is: The said Rouses are entitled to a priority of appropriation of said waters to the extent of 250 miners inches for use in any of the said ditches belonging to them, to-wit, the Drislane Upper Ditch, the Dresher Ditch and the Drislane Lower East Side Ditch.

Second: The said Whiteds and said Alice Wham are entitled to the next appropriation thereof, to be used through said Wham-Whited Upper Ditch and Wham-Whited Lower Ditch to the extent of 400 inches similarly measured.

Third: The said Rouses are entitled to the next appropriation thereof to the extent of 150 inches thereof similarly measured to be used by them in either or any of their said ditches.

In the distribution of water, the water master shall distribute the same in accordance with this stipulation, regardless of the priorities, having at all times due regard to the necessity for irrigation and whether at the time such diversion is made, it would be a beneficial use.

37.

Contest No. 27.

Walter W. Dorsett and Mary Dorsett,

Contestants

vs

Thomas Roach,

Contestee.

That this contest was settled by a stipulation, wherein it was provided that the contestee should have 1.5 inches of water as of a priority date of 1865 out of said stream for use upon the $SE\frac{1}{2}SE\frac{1}{4}$ of Section 19, Tp 12 S. R. 44 E. W. M., subject to the rights of C. H. Metzker to 15.5 inches of water, and that he should have 3 inches of water under date of 1882 for the irrigation of 4 acres in the $NW\frac{1}{4}NE\frac{1}{4}$ of Section 30, same township and range.

38.

Contest No. 28.

William Bohna, Fred Foersterling, E. F. Foersterling,
U. T. Engstrom, Frank Sewell and Thomas Roach,

Contestants

vs

Walter W. Dorsett and Mary Dorsett, his wife

Contestees

That this contest was settled by a stipulation. Said stipulation re-arranges the acreage as set forth in the claims, and under such stipulation it appears that the contestees irrigate 2.5 acres in the $SW\frac{1}{4}NE\frac{1}{4}$, 17 acres in the $NW\frac{1}{4}NE\frac{1}{4}$, Section 9, 2 acres in the $SW\frac{1}{4}SE\frac{1}{4}$, and 7 acres in the $SE\frac{1}{4}SE\frac{1}{4}$ of Section 4, Tp. 12 S. R. 44 E. W. M., for which land said contestees are entitled to divert from the waters of Sisley Creek 5 inches under priority date of 1881, 14 inches under date of 1900 and 3 inches under date of 1911. That they also irrigate 2.5 acres in the $NE\frac{1}{4}SE\frac{1}{4}$ Section 4, 8.5 acres in the $NW\frac{1}{4}SW\frac{1}{4}$, 8 acres in the $SW\frac{1}{4}NW\frac{1}{4}$ and 5 acres in the $SE\frac{1}{4}NW\frac{1}{4}$ of Section 3, Tp 12 S. R. 44 E. W. M. for which lands said contestees are entitled to divert 17.5 inches under date of 1881 and 7.5 inches under date of 1896. That contestees also irrigate 15 acres in the $NE\frac{1}{4}SW\frac{1}{4}$ of Section 9, Tp 12 S. R. 44 E. W. M., for which lands said contestees are entitled to divert 7.5 inches under date of 1890 and 7.5 inches under date of 1897, and the tabulation

hereinafter set forth shall specify the lands as in this finding described, instead of the lands as described in the claims of said contestees.

39.

Contest No. 29

H. C. Elms, George W. Elms, Nancy A. Elms
and William L. Morfitt

Contestants

vs

John Rouse and Michael Rouse

Contestees.

That this contest was dismissed. See testimony, Volume 1, page 737.

40.

Contest No. 30

H. C. Elms,

Contestant

vs

The Eastern Oregon Land Company, a corporation

Contestee.

That this contest is settled by the findings made in Contest No. 9.

41.

Contest No. 31

H. C. Elms, George W. Elms, Nancy A. Elms, Wm. L. Morfitt,

Contestants

vs

Ella Powell Haskins, Adelaide Powell, Margaret
Powell, John Powell, Jr., and J. M. LaPorte,

Contestees.

That the findings in Contest No. 4, and the tabulation hereinafter made, set forth the respective rights of the parties hereto and settle the same.

42.

Contest No. 32

Harvey L. Homewood and Leota Homewood, his wife

Contestants

vs

Emily Hough,

Contestee.

That this contest was settled by a stipulation, wherein and whereby the contestants were to have prior right over the contestee for all water wherein their statement and proofs of claim herein had a priority date prior to and including the year 1887, and that the contestee should have a prior right to waters of Camp Creek wherein the contestant's statement and proof was for a date subsequent to 1887. The effect of this stipulation is to place the date of priority of Emily Hough at 1887 and the tabulation shall so show the same.

43.

Contest No. 33

William Sutherland and George Johnson,

Contestants

vs

Charles L. Low, J. M. Pearce, Gertrude Pearce,
John Troy, Ben C. Rizor, A. L. LaViers, Dorcas
Hambleton, L. G. Braden, F. E. Eppinger and
Harvey Hambleton,

Contestees

That the above entitled contest was dismissed as to Charles L. Low, J. M. Pearce, Gertrude Pearce and Ben C. Rizor. As to contestee F. W. Eppinger, it was stipulated that said F. W. Eppinger should have the right to divert not more than 3 miner's inches of water from Alder Creek, or the springs feeding the same, for the purpose of domestic and stock purposes and for the irrigation of a farm garden upon the premises described in his proof of claim, upon the condition that said water shall not be diverted away from the natural water shed of Alder Creek, and that the surplus water shall be turned back into Alder Creek through a well defined ditch channel, and along the most direct route. (Vol. 1, testimony, page 457). As to the rights of contestee L. G. Braden, it appears that the first water was used upon the Braden place in 1883 by a homesteader, and that afterwards the homestead was contested and the homestead entry cancelled, and the water then was used by the successful contestant first in 1886. There being no transfer of water right, the L. G. Braden date of priority will be fixed at 1886. The rights of contestee John Troy are the same as claimed in the statement and proof of claim. The rights of contestee A. L. LaViers are set forth in the tabulation herein. It appears that said La Viers had filed an amendment to his claim claiming a date of 1863 in place of February 12, 1873, and such priority date of 1863 is the correct date. The contestees Dorcas Hambleton and Harvey Hambleton claim in their statement and proof of claim that they take water from Alder Creek, but from the testimony of Dorcas Hambleton it appears that in place of taking water from Alder Creek they take water from the Sawmill and Pratt Gulches, and from springs, being two regular springs and some other springs developed from two marshes.

The date of priority shall remain the same, and the name of the creek will be changed in the tabulation in accordance with this finding.

44.

Contest No. 34

Harvey L. Homewood and Leota Homewood,

Contestants

vs

Archie J. Murray, Angeline Murray, J. E. Rutherford
and M. Rutherford, co-partners as Rutherford Brothers,

Contestees.

That this contest was stipulated to the effect that the parties to the contest should have an equal date of priority to the use of water through the Homewood-Murray Upper Bench Ditch, and that the water used upon the lands irrigated from said ditch should be apportioned on the basis of the number of acres of land shown by the proof and belonging to each of said parties to be reclaimed and cultivated under said ditch. The water master shall distribute the water accordingly.

45.

Contest No. 35.

Fred Boyer,

Contestant

vs

James Trimble, John Trimble, Mary Davidson,
O. C. Koontz and William Fleetwood,

Contestees.

That the above contest was dismissed on the 28th day of April, 1919.

46.

Contest No. 36

R. D. Shook,

Contestant

vs

Paul Herold,

Contestee

That this contest was called for trial and hearing; that the parties had been duly served with notice, but that neither of the parties desired to submit any testimony. That the statements and proof of claimants shall be tabulated as set forth in their original claims.

47.

Contest No. 37

Thomsen and Company, a corporation,

Contestant

vs

Fred E. Boyer,

Contestee

That it appears that this contest involves the title to the old Clark Creek Ditch, and not the water rights of the parties, and this Board has no jurisdiction to establish or settle the title to ditches.

48

Contest No. 38

C. H. Metsker,

Contestant

vs

Thomas Roach,

Contestee

That this contest was settled by a stipulation, and is governed by the findings under Contest No. 27.

49.

Contest No. 39

C. H. Metsker,

Contestant

vs

U. T. Engstrom.

Contestee.

That this contest was settled by a stipulation, wherein the contestee, U. T. Engstrom is to receive 3 miners inches of water under a priority date of 1877, 8 inches under date of 1884 and 9 inches under date of 1890. It appearing that the contestee has 29 acres under irrigation, the distribution of such water will be prorated among the acreage, and gives such contestee 5 acres as of date of 1887, 10 acres as of 1884 and 14 acres as of 1890.

50.

Contest No. 40

Walter W. Dorsett and Mary Dorsett,

Contestants

vs

Will Bohma,

Contestee

That this contest was settled by a stipulation, wherein the contestee was given 10 miners inches of water as of date of 1880, 7 inches as of 1887 and 5 inches as of 1894. The contestee has 24 acres of land, and the distribution of water pro rata among the acreage would give the contestee 10 acres with a priority date of 1880, 7 acres as of 1887 and 7 acres as of 1894.

51.

Contest No. 41.

Walter W. Dorsett and Mary Dorsett,

Contestants

vs

George E. Morin and his successors in interest,

Contestees.

That this contest was stipulated, and it appearing that Frank Sewell is the successor in interest of George E. Morin, it was stipulated that the said contestee should have 4 miners inches of water as of date of 1893, 3 inches as of 1898, for the lands irrigated in the NE $\frac{1}{2}$ NW $\frac{1}{4}$ and SE $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 20, Tp 12 S. R. 44 E. W. M., and it appearing that there is 7 acres irrigated in those two forties, the acreage shall stand with 4 acres under date of 1893 and 3 acres under date of 1898. It appearing that Frank Sewell is also successor in interest of V. L. Sullivan, it was stipulated that for the lands tabulated under the name of Sullivan, said Frank Sewell should have 8.5 inches of water with a priority date of 1901, and it appearing that there is 8.5 acres irrigated, the priority date for the whole acreage so irrigated will be 1901.

52.

Contest No. 42

Walter W. Dorsett and Mary Dorsett,

Contestants

vs

Virgil Sullivan,

Contestee.

That this contest is settled by the finding under Contest No. 41.

53.

Contest No. 43

Thomas B. Van Cleave,

Contestant

vs

James M. Fleetwood,

Contestee

That testimony was taken in this contest, and it appears that James M. Fleetwood had filed claims for water through the Ware-Fleetwood Ditch for a priority date of 1892, and through the James M. Fleetwood Ditch under a date of 1895. From the testimony it appears that the lands irrigated by the Ware-Fleetwood Ditch were first irrigated in 1896, but that the ditch was begun to be constructed in 1895. That the James M. Fleetwood Ditch was constructed in 1902, and the lands began to be irrigated on that ditch the same year, so that the priority date for the James M. Fleetwood Ditch is 1902. At the same time, the contestee asked to amend his claim to show 3 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, 5 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23, and 2 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 22, Tp 12 S. R. 37 E. W. M., and such amendment is allowed and the tabulation shall so show. (Testimony, Vol. 1, p. 828).

54.

Contest No. 44

Mary J. Holbrook,

Contestant

vs

Ada Peterson,

Contestee.

That this contest was settled by a stipulation, in which Frank Fallers and G. J. Stull joined with the parties to said contest, and it was stipulated that at all times when the water flowing in the stream from which said parties use water is more than 75 miners inches, measured immediately above the head of the ditches diverting water to the lands of G. J. Stull, then said water shall be apportioned to said parties to said stipulation as follows: .05 inches to the lands of F. Fallers, .40 inches to the lands of Ada Peterson, .40 inches to the lands of Mary J. Holbrook, and .15 inches to the lands of G. J. Stull. That when the water in said stream at said point of measurement is less than 75 inches, then said lands shall rotate in the use of the water as follows: The lands of Frank Fallers shall use said water beginning at 10 A. M. on Sunday and ending such use at 6 P. M. on Sunday; the lands of Ada Peterson shall use said water beginning at 5:30 P. M. on Sunday, for ditches above the lands of Frank Fallers, and at 6 P. M. Sunday for any land below said Fallers, and shall have the continuous use of such water up until 11:30 A. M. on Wednesday. The lands of Mary J. Holbrook shall use said water beginning at 11 A. M. Wednesday and shall have the continuous use of the waters of said stream until 5:30 A. M. Saturday, and the lands of G. J. Stull shall have the use of said water beginning at 5 A. M. Saturday and until 6 A. M. Sunday, it being estimated that it will take approximately four hours for the full head of water in said stream to run down the channel and be available for use on the lands of said Fallers. It was further stipulated

that there was one spring on the Stull lands and about three springs on the Holbrook lands, and about three springs on the Peterson lands, and that the parties on whose lands the springs rise should have the full use of the waters from said springs and should not be required to turn any water from said springs down to the channel of said creek.

55.

Contest No. 45.

Archie J. Murray,

Contestant

vs

J. H. Murray,

Contestee

That this contest was settled by the contestee changing the date of his claim from 1884 to 1890, and the tabulation shall so set out the use of water from Whiskey Creek by said contestee, as of a date of 1890.

56.

Contest No. 46.

Thomson and Company, a corporation

Contestant

vs

Charles S. Cole,

Contestee

That this contest was settled by the contestee, in open court, withdrawing his claim for any rights to stock water for stock purposes from the old Clark Creek Ditch. (Testimony, Vol. 1, p. 168)

57.

Contest No. 47, and Contest No. 48

Archie J. Murray,

Contestant

vs

Harvey L. Homewood,

Contestee

That these contests were settled by stipulation, and are governed by the findings under Contest No. 34.

Contest No. 49

Archie J. Murray,

Contestant

vs

J. H. Murray

Contestee

That it appears that J. H. Murray filed with his claim a stipulation entered into by Harvey L. Homewood, A. J. Murray, R. L. Watkins, E. H. Ware, C. A. Butts and Emily Hough, dated May 8, 1917, wherein it was stipulated that for the ditches of J. H. Murray which were subsequent in date of priority to the signers in said stipulation, that so long as there was as much water flowed in the stream as it left the land of J. H. Murray as there was in said stream when it entered the lands of said J. H. Murray, that he would be entitled to as much water as was necessary to irrigate his lands. The effect of this stipulation would be to give the said J. H. Murray the use of any spring water that rose upon his lands, and the use of water from the creek to take the place of any seepage water that ran from his lands into the creek. The contestant above named contested such stipulation as to indefiniteness, but inasmuch as the stipulation can be carried out by the water master, the same will be allowed to stand, and the contest dismissed, and the water master shall follow such stipulation in the distribution of the water of West Camp Creek.

59.

Contest No. 50

Walter E. Dorsett and Mary Dorsett,

Contestants

vs

C. H. Metzker,

Contestee.

That this contest was settled by a stipulation, to the effect that the contestee should have 15.5 inches of water under date of 1865 and 4.5 inches of water after all of the other water users from said stream appearing in these proceedings have been supplied. It appears that said contestee has 17 acres under date of 1865. The date of such acreage shall be left as it is in the tabulation, and the water master shall distribute the water in accordance with said stipulation.

Contest No. 51

Walter W Dorsett and Mary Dorsett.

Contestants

vs

Uno T. Engstrom,

Contestee

That this contest was settled by a stipulation, as is set out under Contest No. 39.

That it was stipulated by the water users from Sisley Creek as to the amount of water which each water user was to receive and as to his priority date. It appears that the water in said creek is short during the greater part of the irrigation season, and the limiting of the number of inches which each water user is to receive is for the purpose of governing the distribution of water during the short season, and if the water in the stream is more than enough to supply the number of inches as set out in the settlement of the various contests between the water users from Sisley Creek, then such remaining water in Sisley Creek shall be used and shared by the said parties upon their several lands in the same ratio or proportion as the several apportionments set out in said stipulation and as set out in the findings hereto relative to the contests between the water users from said Sisley Creek, bear to the total of all of the water in said creek, and this stipulation shall be followed by the water master until sufficient water has been delivered to each party for the irrigation of his lands, and no more.

It was further stipulated and agreed between C. H. Metsker and Thomas Roach, that said Roach may build and maintain at his own cost a ditch from Sisley Creek northerly across the lands of said Metsker to and upon the lands of said Roach which lie north of and immediately adjoining the lands of said Metsker, for the purpose of carrying not to exceed 10 miners inches of water to and upon said lands of Roach, and that said Roach may also construct and maintain a waste water ditch from the northeast corner of the irrigated lands of Metsker, westerly and along the extreme northern side of said irrigated lands of Metsker, to the lands of said Roach lying Westerly from the lands of Metsker, and may run down all of the waste water from the lands of said Metsker, but neither of said ditches shall be constructed, maintained or operated in such a manner as to interfere with the proper irrigation of the Metsker lands, or be of any appreciable damage to said lands, nor shall the water so secured by such ditches be used upon any land which has not been granted a water right by this decree until after the said Roach shall have applied for and received

a proper State Engineer's permit for any new lands so placed under irrigation thereby, and such water so secured for any new lands put under irrigation, shall have the date of priority so established by said State Engineer's Permit.

62.

That it was stipulated between Geo. N. Malsburger and C. H. Metsker that the said Malsburger should have the use of the water for mining purposes through what is commonly known as Chicken Creek Ditch for the operation of what is commonly known as the Chicken Creek Placer Mine, prior to the use of water by C. H. Metsker in the irrigation of his lands, said mine being above the premises of said C. H. Metsker.

63.

That it appears from the tabulation hereinafter set forth that Archie J. Murray claims certain lands to be irrigated from East Camp Creek through the Home Meadow Ditch and the Northeast Meadow Ditch, under a date of 1881, and E. H. Ware claims certain land to be irrigated through the Lower Whited-Barnes Ditch and Upper Whited-Barnes Ditch, from Camp Creek, under date of 1881, and it was stipulated between said Murray and Ware that the lands so irrigated by Ware under date of 1881 were prior in time to the lands so irrigated by said Murray under date of 1881.

It further appears that the heirs of J. H. Watkins, deceased, irrigate certain lands from the Upper-Whited-Barnes Ditch and the Lower Whited-Barnes Ditch under priority date of 1881, and it was stipulated that such lands were prior in time and superior in right to the said lands of Archie J. Murray irrigated under date of 1881 through the Home Meadow Ditch and Northeast Meadow Ditch.

64.

Fred Griffith filed a claim for water in the North half of Section 12, T 13 S., R. 43 E. W. M., but upon the survey of the engineers, it appears that the stream does not run upon said land and none of said land has been irrigated, and said claim for water right is denied.

65.

Mary J. Holbrook filed with her claim a certified copy of the decree in the case of Barnes vs. Ratcliff, in the Circuit Court of the State of Oregon for Baker County. It appears that no one has filed any water right for the lands owned by Ratcliff involved in that decree.

Decree was filed in this proceeding from the Circuit Court of the State of Oregon for Baker County, wherein M. F. Sturgill and Leonard and Fada Neely and Edward Jackson and Ruby Jackson were parties, the first named being plaintiff. Said decree involved the following described lands belonging to the said parties:- M. F. Sturgill, NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19; Defendants Neely, N $\frac{1}{2}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 20; Defendants Jackson, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 15, NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 22, all in T. 11 S. R. 44 E. W. M., and it was decreed by said Circuit Court that the plaintiff, M. F. Sturgill, should have a priority right as of date of 1889 for 25 miners inches of water and of 1898 for 20 miners inches, and that defendants Neely should have a right as of date of 1898 for 15 inches and defendants Jackson should have a right as of date of 1902 for 12 miners inches; and it appearing that the plaintiff Sturgill irrigates 50 acres of land and defendants Neely 14 acres of land, and defendants Jackson 24 acres of land, the Board finds that said plaintiff shall have 30 acres of land with a date of 1889 and 20 acres with a date of 1898; that the priority date of defendants Neely shall be 1898 and the priority date of defendants Jackson shall be 1902. Said decree further provides for rotation between the plaintiff and defendants, which rotation the water master shall follow so far as the same will not interfere with other priority rights.

A decree was filed in this proceeding, which was rendered by the Circuit Court of the State of Oregon for Baker County in the case wherein Michael Rouse, J. N. Shelton and Michael Rouse as executor, substituted for Edward Curop, were plaintiffs, and T. J. Whited, Joseph Wham, George Fosnot, W. E. Thompson, L. M. Haskins, Wm. Robertsog, James Brown, Harvey Phillips, J. M. La Porte, Henry Elms, Thomas Elms, George Elms, Fulton Fleetwood, William Morfitt, E. B. Carlile, Fred Shanklin, John McGrath, John Jones and Horace Walker were defendants. Said decree involves the following lands of plaintiffs: Michael Rouse, SW $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 28, SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 29, T 12 S. R. 37 E. W. M.; J. N. Shelton, E $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 28, and NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 33, T 12 S. R. 37 E. W. M., Edward Curop, N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 32, W $\frac{1}{2}$ NW $\frac{1}{4}$, Section 33 T 12 S. R. 37 E. That Otto Paustain is successor in interest of Edward Curop. That said decree gave to the lands of Michael Rouse 100 inches of water for 100 acres of land, and to the lands of Edward Curop, now owned by Otto Paustain, 100 inches of water for 100 acres of land, and to the lands of J. N. Shelton 125 inches of water for 125 acres of land, all under date of 1887. In the claims herein filed on said lands, from the Curop Ditch, Otto Paustain claimed 89 acres under said date, and J. N. Shelton claimed 181.5 acres of said lands, from the said ditch. Said decree was rendered in 1908, and at that time said J. N. Shelton only had 125 acres in irrigation, and the Board has therefore placed the date of

priority of Michael Rouse, J. N. Shelton and Otto Paustain through the Currop Ditch as 1887 for the lands of Otto Paustain, Michael Rouse and J. N. Shelton, except that for the lands of J. N. Shelton the Board has placed 125 acres under date of 1887 and 56.5 acres under date of 1908. Said decree further defined the rights of Ella M. Haskins, who has filed claims herein under the name of Adelaide Powell, Marguerette Powell, John Powell, Jr., and Ella Powell-Haskins, as prior in right for two old ditches, one on the north side and one on the south side of the South Fork of Burnt River, to the rights of said Ella Powell-Haskins through the Tiger Ditch and the new ditch. It appears that Ella Powell-Haskins and others named in her claim have filed claims for the Powell-Hill Ditch, Tiger Ditch, East Side Ditch and Lyman-Powell Ditch; that the old ditches are the East Side and the Powell-Hill ditches, that the Tiger Ditch was constructed in 1895 and the Lyman-Powell Ditch in 1902, so that the water rights of Ella Powell-Haskins and those named in her claims with her, shall be for the Tiger Ditch, from the South Fork of Burnt River, under date of 1895, and for the Lyman-Powell Ditch, under date of 1902, for the lands irrigated by both of them, but the rights of these parties to the waters of Pole Creek shall not be affected, and the date for the irrigation of the lands under the Tiger Ditch by the waters of Pole Creek shall remain as of date of 1887.

68.

A decree of the Circuit Court of the State of Oregon for Baker County was filed in these proceedings wherein J. W. Trimble was plaintiff and R. R. Ruddell and Clyde Ruddell were defendants. A priority date of 1878 out of Beaver Dam Creek was therein established for 2 acres in the $SW\frac{1}{4}SE\frac{1}{4}$ of Section 19 and 6 acres in the $NW\frac{1}{4}NE\frac{1}{4}$ of Section 30, T 12 S. R. 38 E. W. M., and the defendants' lands for 20 acres in the $SW\frac{1}{4}$ of Section 18 and $NE\frac{1}{4}NW\frac{1}{4}$ of Section 19 was established as having a date of 1902. That James Trimble has claimed in this proceeding 29 more acres in said Sections 19 and 30, and that for such additional acreage he holds Engineer's Permit No. 2359, and shall have the rights as are accorded by law to such permits, and when proven up on in accordance with law, shall have the rights as therein established under the priority date as given by such permit.

69.

A decree of the Circuit Court of the State of Oregon for Baker County in the case of Michael Rouse and John Rouse vs. H. C. Elms and Fannie Elms, his wife, Thomas J. Elms, George W Elms, Fulton Fleetwood, William L. Morfitt, Fred Shanklin, Mrs. G. C. Nelson, wife of George C Nelson, deceased, John McGrath, Sam Cavin, Lizzie Carnega, George F. Fleetwood, C. P. Lawrence and Margaret Lawrence, his wife, William Chamberlain, Harvey Phipps, John Jones, Horace Walker, George Whited and Belle Whited, his wife,

Joseph Wham, Wilse Wham, T. J. Whited, J. N. Shelton, Ed Curoop, M. L. Haskins, formerly Mrs. Powell, widow of John Powell, deceased, William Robertson, James Brown, George Fostnot, William A. Thompson and Joseph W. LaPort and E. B. Carlile, was filed in these proceedings, wherein it was determined that the plaintiffs, for their lands described as the SW $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 21, SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 20, W $\frac{1}{2}$ of Section 28, E $\frac{1}{2}$ of Section 29 and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 29, T 12 S. R. 37 E. W. M., were entitled to a flow of 250 inches of water prior to all of the defendants; then the defendant Whited should be entitled to the use of the water diverted through the upper ditch of Wham and Whited in the amount determined in a suit between himself and others as plaintiff against others as defendants, and thereafter the plaintiffs should be entitled to 150 inches of water prior to all of the other defendants except said defendant Whited. That it was determined in the case of Whited vs Cavin that said Whited was entitled to 400 inches through the Wham-Whited Upper Ditch, so that the distribution of water under this decree shall be 250 miners inches to the plaintiffs Rouse, then 400 miners inches to the defendant Whited, and then 150 miners inches to the plaintiffs Rouse again, prior to the distribution of any water to the balance of the defendants therein. The above decree was rendered upon the theory that the amount of water necessary to irrigate an acre of land was one miners inch, and whenever, under the administration of these findings, it is determined that a less amount of water is necessary to irrigate an acre than as determined in said decree, then in that case such water shall be distributed in the same proportion as set forth in said decree.

70.

A decree of the Circuit Court of the State of Oregon for Baker County in a suit wherein Thomsen and Company, a corporation, was plaintiff, and John Trimble, James Trimble, O. C. Koontz, Fred Boyer, Wm Fleetwood, Chas. Fleetwood and Mrs. M. E. Davidson were defendants, was filed in these proceedings, and it appearing that the claimants named in said suit have filed claims herein with dates of priority in accordance with the decree of said Circuit Court, the tabulation shall set forth their claims as given in the statements and proof of claimants.

71.

That all claimants to the use of the waters of said stream who hold State Engineer's Permits for the appropriation thereof or who have proved up on such permits and received certificates of water right upon the same, shall have the right to use such water in accordance with their dates of priority as established by said permits or certificates, as the case may be, and in accordance with the laws of Oregon covering

said permits and certificates of water right. The following persons holding State Engineer's permits have filed their claims in this proceeding, and their rights shall be such as their permits entitle them to, to-wit:

O. O. Bailey,	Durkee, Oregon,	Permit No. 1325
Martha A. Barton,	Unity, Oregon	Permit No. 726
J. A. Burton,	Unity, Oregon	Permit No. 2331
J. E. Derrick,	Unity, Oregon	Permit No. 3361
Hans P. Mikkelsen,	Durkee, Oregon	Permit No. 1692
Herbert Morfitt,	Unity, Oregon	Permit No. 1816
Wm. L. Morfitt,	Unity, Oregon	Permit No. 639
Archie J. Murray,	Unity, Oregon	Permit No. 2680 and R 344.
Hardy B. Murray,	Unity, Oregon	Permit No. 2655
Wilbert Nichols,	Bridgeport, Oregon	Permit No. 2958 and R 362
Abraham Odeen, et al		Permit No. 2579
F. C. & Clara H. Oxman		Permit No. 1274
Emma Paustain,	Unity, Oregon	Permit No. 1666
John H. Scrivner,	Unity, Oregon	Permit No. 2579
Lawrence Williamson,	Unity, Oregon	Permit No. 1816
James Trimble,	Hereford, Oregon	Permit No. 2359

72.

That upon a great deal of the land irrigated from Burnt River and its tributaries there has been an excessive amount of water used and a great deal of said land has become water-logged and the grasses growing upon the same are changing from the tame grass to the wild grass; that the irrigation season in the upper Burnt River Valley begins about the first of April and ends about the first of September, while in the lower Burnt River Valley it begins about the first of April and ends about the first of October; that in order to irrigate any land good irrigation practice does not require the continuous flow of water upon each and every acre of the same but does require a sufficient head of water to put the water over the ground. That for this purpose a system of rotation for use of water in turn may be ordered by the proper State officer, and in order to secure an adequate irrigation head in the event no such rotation system is ordered, a diversion of one-fourtheth of a cubic foot per second per acre may be made, for all lands excepting those irrigated from East and West Camp Creeks and their tributaries, for which latter land a diversion of one-twentieth of a cubic foot per second per acre may be made.

That the owners of the lands irrigated from the South Fork of Burnt River, Jobs Creek, and East and West Camp Creeks, and the tributaries of all said streams shall be entitled to divert the amount that can be beneficially used on said lands, not to exceed one acre foot per acre in any period of thirty days prior to June 1st of each year and not to exceed three-fourths acre foot per acre in any thirty day period after June 1st of each year, and not to exceed two and one-half acre feet per acre, at the respective points of diversion, during any irrigation season.

That the owners of all other lands involved in this proceeding shall be entitled for the irrigation thereof, to the amount that can be beneficially used on such lands, not to exceed one and one-half acre feet per acre during any thirty day period prior to June 1st of each year, and one acre foot per acre in any thirty day period after June 1st of each year, and not to exceed three and one-half acre feet per acre, at the respective points of diversion, during any irrigation season. That any spring or seepage water which finds its way into any ditch or canal shall be a part of the appropriation therefor and the amount diverted shall be correspondingly decreased.

73.

That all claimants herein to water for irrigation shall be entitled to use such water for stock and domestic purposes; that the right to the use of water for stock and domestic purposes is hereby confirmed and entitles the owner of such water right to divert and use such a quantity of water as is reasonably necessary for his household and stock use; the amount so diverted and used shall not exceed the rate of one-fourth of one cubic foot per second for each one thousand (1000) head of stock, and the quantity diverted for irrigation purposes during the irrigation season shall include when it is so diverted, such an amount as may be reasonably necessary for said stock and domestic purposes, and the right to divert and use the waters of said stream and its tributaries for stock and domestic purposes continues throughout the year.

74.

That the rights of appropriation hereby confirmed are appurtenant to the lands herein described for irrigation purposes, and the rights to the use of the waters of said stream and its tributaries by virtue of such rights of appropriation, are limited and confined to the irrigation of the lands herein described to the extent of said land as herein set forth, and the priorities herein confirmed confer no right of use of the waters of said stream and its tributaries, on lands other than those specified tracts to which such rights of appropriation are herein set forth as appurtenant, and each and every person shall be and hereby is prohibited, restrained and enjoined from diverting and using water from said stream on such other lands without lawful permit from the State Engineer.

75.

That the order of the rights of the respective appropriators of the waters of said stream and its tributaries, and in which order they are entitled to divert and use the said water, shall be and is according to the date of relative priority of the right as herein

set forth and determined, and the first in order of time according to the date of relative priority shall be and is the first in order of right, and so on, down to the date of the latest priority, and those having prior rights are entitled to divert and use the waters of said stream and its tributaries, when necessary for beneficial use in connection with the irrigation of their respective lands, or other useful and beneficial purposes for which they are decreed a right of use at all times and against those having subsequent rights without let or hinderance, and whenever the water is not required by the appropriator having aprior right to its use for the purpose for which said water was appropriated, he must and shall permit it to flow down in the natural channel of the stream as it was wont to flow in its natural course, without hinderance or diversion thereof, and those having subsequent rights are entitled to the use of such water and to divert the same to the extent of their rights of appropriations, according to the order of their priority rights; and at all times the waters shall be beneficially, economically and reasonably used without waste by those having a right to do so by reason of the priority of their rights, and no rights of appropriation are hereby confirmed to divert a greater quantity of water into the head of the ditch or ditches of the appropriator having a valid right to divert the water than such appropriator can beneficially use for the purpose to which the water is to be put.

76.

That in distributing the water, the water master may arrange systems of rotation in either of the following manners:

1. By arranging a period of irrigation for the lands of a number of appropriators, then by giving to one of such appropriators all of the water belonging to the lands included in the system of rotation for a length of time proportionate to the period of irrigation as the amount of water to which he is entitled bears to the whole amount of water to which all the appropriators in such system are entitled, and so on, until all of the appropriators under the system of rotation are served; and such distribution of water shall be repeated in the same manner throughout the irrigation season.

2. When two or more appropriators agree among themselves as to the manner of rotation as to the use of water the water master shall distribute the water in accordance with such agreement, provided rights of other parties are not interfered with, and provided further than such agreement is in writing and on file with the water master.

That the name and address of each appropriator of water from Burnt River and its tributaries, arranged in a tabulated form, together with date of relative priority of such appropriation, the number of acres to which such appropriation is entitled, the use or uses for which said water was applied and is now applied and to which said use is limited, the name of the ditch or ditches through which such appropriation is diverted, the name of the stream or streams from which such appropriation is diverted and the description of the land upon which such water is used, the tabulated rights of each appropriator being set opposite and following the name and post office address of each such appropriator, are as follows, to-wit:

Name and Postoffice Address of Appropriator	Date of Relative Priority	Amount Cubic Feet Per Second	Number Acres	Use	Name of Ditch	Stream	Description of Land or Place of Use
Allen, A. J. Durkee, Ore.	1887		20.5	Irrigation	Majors	North Fork Swayze Creek also called W.Fork)	15 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$ 2 acres in SW $\frac{1}{4}$ NW $\frac{1}{4}$ 3.5 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29 T 11 S. R. 44 E. W. M.

R. 40 E. W. M.

That the Eastern Oregon Land Company has filed a claim herein for the use of the waters of the following named tributaries of Burnt River, for irrigation, domestic and stock purposes, to-wit: Last Chance Creek, Elk Creek, Spring Creek, Sheep Creek, South Fork of Burnt River, Bear Creek, Stevens Creek, Barney Creek, Amelia Creek, Weiss Springs, Bull Run Creek, West Camp Creek Jr., Shirts Creek, Jobs Creek, Skull Creek, West Camp Creek, Whiskey Creek, Long Creek, Johnson Creek, East Camp Creek, Copper Creek, Mud Springs Creek, Rock Creek, Flint Creek, Independence Creek, Deer Creek, Reed Creek, Steep Creek, Koontz Creek, Cottonwood Creek and Mahogany Flat Creek.

That the extent of the appropriation of said Company from the above named streams through the Eldorado Ditch under its right dating from November 9, 1867, has been hereinbefore fixed in Paragraph 10. That said Company asks that such appropriation be made appurtenant to the lands described in its claim, and also asks the right to store such water for use upon said lands. That said rights of appropriation and storage are hereby confirmed, for use upon the lands hereinafter set forth. It appears that parts of the land to which the Eastern Oregon Land Company desires to make such water rights appurtenant, have a water right from Willow Creek in Malheur County, and also have a water right from the above named streams under said Company's flood water appropriation under State Engineer's permit No. 2025. And this appropriation shall be deemed as supplementary to and in addition to such water rights, for the irrigation of such lands.

That the lands to which such appropriation is hereby made appurtenant are not yet cultivated and irrigated, and said claimant is hereby allowed five years from the 1st day of January, 1921, within which to put the said lands under irrigation, or within such further time as the State Water Board may hereafter allow, upon proper showing. That said company has not as yet provided any permanent facilities for the storage of said water, and said time of five years from January 1, 1921, shall also apply to the providing of suitable reservoir for the utilization of said storage right. That at the expiration of said five years; or extension thereof, the State Water Board shall determine the extent to which said rights of appropriation and storage have been completed and perfected, and the extent of said rights shall be limited to such amount or volume of water as shall have been put to beneficial use by the expiration of said time. That thereafter an order shall be entered by said Board confirming the said rights to the extent the same shall have been completed, and water right certificate shall be issued to said claimant in accordance with such order. That the lands to which such water shall be appurtenant and to which water rights as hereinbefore set out are appurtenant, are described as follows, to-wit:

79.

That on or about the 15th day of September, 1920, H. E. Morin and Freda Morin, by C. T. Godwin, their attorney, filed a petition for the taking of testimony and the allowing of the contest of the claims and rights of other water users of Schlinkman Creek, and especially the rights of Byron Vandecar, Adam Schuck and Albert Hindman. It further appearing that the time for filing contests had passed for more than one year, that the granting of said petition would occasion a delay in the adjudication proceedings, and would cause another irrigation season to pass without such decree being placed in effect, and that the findings of the Water Board were about finished and prepared at time of the filing of said petition, and it is necessary for the best interests of the irrigated land that the decree should be placed in effect as soon as possible, said petition is hereby denied.

80.

And the State Water Board of Oregon, being fully advised in the premises, it is hereby CONSIDERED and ORDERED that the relative rights of the various claimants to the use of the waters of Burnt River and its tributaries are hereby adjudicated, determined and settled in accordance with and as set forth in the foregoing Findings of Fact and Order of Determination.

Dated this 13th day of April, 1921, at Salem, Oregon.

STATE WATER BOARD OF OREGON

By  PERCY A. COOPER

State Engineer, and President State Water Board.

GEO. T. COCHRAN,

State Water Superintendent.

(SEAL OF STATE WATER BOARD)

ATTEST:

R. W. POTTER,
Secretary.
