

IN THE CIRCUIT COURT OF THE STATE OF OREGON
FOR HOOD RIVER COUNTY.

IN THE MATTER OF THE DETERMINATION OF
THE RELATIVE RIGHTS OF THE VARIOUS
CLAIMANTS TO THE USE OF THE WATER OF
HOOD RIVER AND ITS TRIBUTARIES, A
TRIBUTARY OF THE COLUMBIA RIVER IN
HOOD RIVER COUNTY, OREGON.

On this 24th day of October, 1921, the above matter came on in open court for the entry of decree herein, the same having heretofore been submitted to and taken under advisement by the court, the several parties appearing in person or by their respective counsel.

And certain objections to the form of the proposed decree and to the entry thereof having been filed herein by the Oregon Lumber Company, and by Pacific Power & Light Co., Claimants in the above matter, and said objections having been submitted at at this time by the respective counsel for said objecting claimants, the said objections and each of them were overruled, and said proposed decree, being the same to which said objections were directed and made, was signed by the Court as the Decree of this Court in this matter and the Clerk of the Court was directed to enter the same as such decree of this Court.

Thereupon said objections and each of them were renewed and overruled by the Court.

Said decree so signed and ordered entered follows:

IN THE CIRCUIT COURT OF THE STATE OF OREGON
FOR HOOD RIVER COUNTY.

In the matter of the determination of)
the relative rights of the various)
claimants to the use of the waters of)
HOOD RIVER and its tributaries, a)
tributary of the Columbia River, in)
Hood River County, Oregon.)

D E C R E E

Now at this time this matter came on for hearing upon the exceptions filed to the findings of fact and order of determination of the State Water Board of the State of Oregon, and it appearing to the court that the following exceptions to said findings of fact and order of determination were filed in this court, to-wit:

<u>EXCEPTOR</u>	<u>ATTORNEY FOR EXCEPTOR.</u>
Oregon Lumber Company	Huntington & Wilson
Pacific Power & Light Company	John A. Laing & Henry S. Gray
Glacier Irrigating Company	George R. Wilbur
Mt Hood Water Company	J. H. Hazlett
J. I. Miller, et al	Winter & McGuire

That thereafter said findings of fact were referred to the said State Water Board for further action, and modified findings were filed, to which the following exceptions were thereafter filed:

<u>EXCEPTOR</u>	<u>ATTORNEY FOR EXCEPTOR</u>
Oregon Lumber Company	Huntington & Wilson
Glacier Irrigating Company	George R. Wilbur
East Fork Irrigation District	George R. Wilbur
Pacific Power & Light Company	Laing & Gray

That thereafter hearing was had upon each and all of said exceptions, and the court having carefully considered all of the evidence, and the testimony taken in the above entitled proceeding by the State Water Board, and all of the information and data gathered by the State Engineer, and the arguments and presentations of the exceptors by counsel for the exceptors, and being now fully advised in the premises, IT IS CONSIDERED, ORDERED AND DECREED:

That each and all of said exceptions be and the same are hereby denied except as against the Mount Hood Water Company, which company is hereby allowed 433.5 acres with a priority date of October, 1895, and said findings of fact and order of determination of said State Water Board are hereby modified to read as follows, to-wit:

I.

That on the 29th day of September, 1916, this matter came on for consideration of the State Water Board in accordance with the provisions of the decision of the Supreme Court of the State of Oregon in the case of the Oregon Lumber Company, vs East Fork Irrigation District directing the transfer of such controversy to the State Water Board and holding that the complaint of the Oregon Lumber Company in that case should be deemed a petition for determination of the rights to the use of the waters of Hood River and its tributaries, and inasmuch as said decision contemplated the determination of all water rights of Hood River and its tributaries, the State Water Board made and entered an order in the records of said office, fixing a time and place for the beginning and making of such an examination of said stream by the State Engineer, as would enable the said Board to determine the rights of the said claimants, and also the time and place for the beginning and taking of testimony by the Superintendent of Water Division No. 2 (now State Water Superintendent). That the said time and place where said State Engineer or his assistants should begin the examination of said stream was set by said Board for Monday, the 3rd day of December, 1917, and the time when the State Water Superintendent should attend and take the testimony of the various claimants

was set by order of said Board for Wednesday, the 5th day of December, 1917, at the Commercial Club, in the City of Hood River, Hood River County, Oregon, at the hour of nine o'clock A. M., and on Thursday the 6th day of December, 1917, at McIsaac Hall, in the Town of Parkdale, Hood River County, Oregon, at the hour of nine o'clock A. M., and for a period of sixty days thereafter at the office of the Superintendent of Water Division No. 2 (Now State Water Superintendent), in the City of La Grande, Union County, Oregon.

2.

That a notice was prepared by said Board setting forth the date when the State Engineer, or his assistant, would begin the investigation of the flow of said stream and the ditches diverting water therefrom and the time and place certain when the State Water Superintendent would begin the taking of testimony as to the relative rights of the various claimants to the waters thereof, and said notice was published in two issues of the Hood River News, a news paper published weekly at Hood River, Hood River County, Oregon, and of general circulation in the County of Hood River, Oregon, said two issues being those of October 17, 1917 and October 24, 1917, the date of the last publication of said notice being more than thirty days prior to the date fixed for the making of said examination and measurements of said stream and ditches by the State Engineer, and for the beginning of the taking of testimony by the State Water Superintendent.

3.

That prior to the 31st day of October, 1917, the State Water Superintendent did send by registered mail, to each person, firm and corporation claiming a right to the use of the water of said stream, or any tributary thereof, and to each person, firm and corporation, owning or being in possession of land bordering on or having access to said stream or its tributaries, insofar as said claimants, owners, firms, or corporations in possession, could be reasonably ascertained, a similar notice to such published notice, setting forth the date when the State Engineer would commence the examination of the said stream and its tributaries, and the ditches diverting water therefrom and the time and place certain when the State Water Superintendent would commence the taking of testimony as to the relative rights of the various claimants to said stream and its tributaries, and the said Superintendent did enclose with each of said notices a blank form upon which the said claimants or persons in possession, should present in writing all the particulars necessary for the determination of his rights to the waters of said stream, or a tributary thereof, under oath. That due proof of publication of said notice and of the sending of said notice by registered mail has been made, and is duly filed and is a part of the record hereof.

4.

That at the time specified in said original notice, a duly qualified assistant of the State Engineer of the State of Oregon, did proceed to make an examination of the said stream and its tributaries, and all of the ditches diverting water therefrom, and of the land irrigated and susceptible to irrigation from said ditches and canals, together with the measurements thereof, which observations and measurements were made a matter of record in the office of the State Engineer, and the State Engineer did prepare a plat and a map on a scale of measurement of 2 inches to the mile, showing with substantial accuracy the course of said stream and its tributaries and the location of the various ditches diverting water therefrom, and the legal subdivisions of land which had been irrigated or which were susceptible to irrigation from said ditches and canals already constructed, blue prints and copies of the said maps and information duly certified to by the State Engineer being now on file herein, and a part of the records hereof.

5.

That statements and proof of claimants to the use of the waters of said stream and its tributaries were filed with the Superintendent of Water Division No. 2, (Now State Water Superintendent), by the following named persons, firms and corporations:

Alloway, C. F.
Apple Growers Association

7.

That upon the completion of the taking of the testimony by the Superintendent of Water Division No. 2 (Now State Water Superintendent), said Superintendent did on the 2nd day of December, 1918, give notice by registered mail to each of the various claimants to the waters of said stream and its tributaries, that at the times and places named in said notice, to-wit: Beginning on

Thursday the 19th day of December, 1918, and ending on Tuesday, the 31st day of December, 1918 (excepting Dec. 22nd, 25th and 29th) from 9:00 to 12:00 o'clock A. M., and from 2:00 to 5:00 o'clock P. M., at the County Court House in Hood River, Hood River County, Oregon; and for a period of 15 days, beginning on Thursday, the 2nd day of January, 1919, and ending on Saturday, the 18th day of January, 1919 (Sundays excepted) from 9:00 to 12:00 o'clock A. M., and from 2:00 to 5:00 o'clock P. M., at the office of said Superintendent, in La Grande, Oregon; all of said evidence would be open to inspection by the various claimants or owners. That said Superintendent did in accordance with said notice attend at said times and places and keep said evidence open for a period of twenty-five days and said notice did also state therein the county in which the determination of the State Water Board would be held by the Circuit Court of the State of Oregon, to-wit: The Circuit Court of the State of Oregon for Hood River County. That due proof of the holding of said inspection and the sending of the said notices by registered mail has been made and filed herein.

8.

That within five days after the closing of the public inspection of the statements and proof of claim of the various claimants, notice of contests were filed by the following named contestants against the following named contestees:

Contest No. 1:

Oregon Lumber Company, a corporation

Contestant

vs

East Fork Irrigation District, a municipal corporation;
First National Bank of Portland, a corporation, James H. Ganoe;
Glacier Irrigating Company, a corporation; Wm Keeling and E. O.
McCorm; Mt Hood Water Company, a corporation and Security
Savings & Trust Company, a corporation

Contestees.

Contest No. 2:

Holland-Washington Mortgage Company, a corporation,
P. P. Dabney, 1310 Yeon Building, Portland, Oregon

Contestant

vs

Catherine Rathbun

Contestee

HOOD RIVER -8-

Contest No. 3:

Pacific Power & Light Company, a corporation

Contestant

vs

East Fork Irrigation District, a municipal corporation;
Hood River Irrigation District, a municipal corporation;
Dee Irrigation & Power Company, a corporation; Farmers
Irrigating Company, a corporation; Glacier Irrigating
Company, a corporation and Middle Fork Irrigating Company,
a corporation,

Contestees

Contest No. 4:

Middle Fork Irrigating Company, a corporation

Contestant

vs

E. J. Welty, Hans T. Hansen, Isaac Allen Macrum, Jr
and A. W. Stone

Contestees.

Contest No. 5:

Farmers Irrigating Company, a corporation

Contestant

Contestee.

Contest No. 10:

I. A. McConn, S. M. McConn and Mary L. McConn
successors in interest of Geo. M. Kirkpatrick,

Contestants

vs

W. F. Tucker,

Contestee.

9.

That after the filing of said contests the State Water Superintendent did fix the time and place for the hearing of each and every of said contests and served notice of hearing of said contests on each of the parties to each and every of said contests, which said notice of hearing set the date for said hearing at more than thirty days and less than sixty days from the date the said notice of hearing was served upon each of the parties. That due proof of service has been filed herein.

That said State Water Superintendent did, at the time so set by said notice, begin the taking of testimony upon said contests from time to time until each and every of said contests were fully heard, settled or otherwise disposed of.

That after the period for inspection as aforesaid, the evidence in the original hearing before the said Superintendent, and the evidence taken in all contests, was duly transmitted by said Superintendent to the office of the State Water Board and filed with said Board.

10.

That Hood River rises in the south and westerly part of Hood River County, Oregon, in the Cascade Mountains, and flows in a northeasterly and easterly direction through Hood River Valley, and empties into the Columbia River. That the land irrigated from said river and its tributaries is arid land, and irrigation is necessary for the raising of profitable crops, which are adapted to that climate and country. That said stream is a perennial stream, having well defined banks, and that various appropriations of water users have been made under the laws of the State of Oregon.

Oregon Lumber Company, a corporation,)	
Contestant)	
vs)	
)	Contest No. 1
East Fork Irrigation District, a)	
municipal corporation; First National)	
Bank of Portland, Oregon, a corporation;)	
James H. Gano; Glacier Irrigating Company,)	
a corporation; Wm Keeling and E. O. McConn;)	
Mt Hood Water Company, a corporation and)	
Security Savings & Trust Company, a cor-)	
poration,)	
Contestees)	

That this contest was set for hearing and evidence taken on the same. From this evidence it appears that the Oregon Lumber Company, without the posting of any notice, went upon the East Fork of Hood River and began to construct a dam for the purpose of diverting the water for use as power. This Company began work upon the dam in September, 1905, and continued the work until the dam was completed and the water applied to the purpose of developing power some time in the middle of the year 1906. With regard to this development there cannot be any question of laches, and their development work was all performed in a reasonable time and with due diligence after the beginning of the work in September, 1905. The date of priority of the Oregon Lumber Company is therefore fixed as September, 1905. As to the amount of water in the Oregon Lumber Company's appropriation, it appears that it requires about 540 actual horsepower to operate their mill, and the testimony shows that the mill is operated at about 51 percent efficiency, which would make 1,060 theoretical horsepower. The fall appears to be 29 feet, and in order to develop 1,060 theoretical horsepower it would require about 322 second feet of water. The testimony further shows that the State has required the Company to install a fish ladder, and also that there is some seepage about the dam which it is impossible to stop. This leakage and the fish ladder ought to be operated on less than 10 second feet of water; but in any event a maximum amount of 13 second feet for those purposes would be sufficient. The State Water Board therefore finds that the amount of water appropriated by the Oregon Lumber Company is 322 second feet for power purposes, with an allowance of 13 second feet for the fish ladder and leakage of the dam, making a total of 335 second feet.

The rights of the East Fork Irrigation District appear to have originated with certain notices of appropriation, one filed by the East Fork Irrigation Canal Company, recorded on the 4th day of October, 1895, together with a map giving the outline of the ditch, and calling for 5,000 miners inches of water, the ditch to be 6 feet wide on the bottom and 12 feet wide on top and 4 feet deep. A second notice was filed by the East Side Water Supply Company, for 2,000 miners inches of water, recorded on October 15, 1895, the ditch to be 6 feet wide on the bottom, 10 feet wide

on top, and 3 feet deep. And a further notice was filed by the East Fork Irrigating Company, for 7,000 inches of water, and recorded about the 25th day of November, 1895, which notice calls for a ditch 12 feet wide on the bottom, 18 feet wide on top, and $4\frac{1}{2}$ feet deep. Maps showing the general course of the ditch were filed with all these notices, and the maps show that the ditches were all to take about the same course, and extend from the point of diversion on the East Fork of Hood River in a northerly and slightly easterly direction to the Columbia River. The claim of the Irrigation District shows that there are about 11,380 acres of irrigable land which can be irrigated from the ditch. Using the latest notice as the basis for their water right, and dating their water right from November 25, 1895, and the size of the ditch as designated in that notice, then by ascertaining the capacity of that ditch, using Kutter's formula and the radical exponent of $N = 0.30$, with the depth of the water at 4 feet, and the grade of the ditch at one-eighth inch per rod (as the testimony shows that it was constructed for a short way and then changed to a grade of one-tenth of an inch per rod), the capacity of such ditch would be 142 second feet, or 5,680 miners inches. At the inception of the right of the East Fork Irrigation District, therefore, the amount of water appropriated would be limited to the capacity of the ditch as provided by the statute of 1891, which capacity the State Water Board finds to be 5,680 miners inches, or 142 second feet of water. The next question with regard to the East Fork Irrigation District's right is to ascertain whether or not they have used due diligence in applying the water to beneficial use. At the inception of the right, the east side of Hood River was a rough, rolling, thickly wooded, undeveloped country. In order to improve any particular tract of land it was necessary to clear the land, prepare it for farming, construct the necessary laterals so as to put water upon the land, and place upon the land the necessary improvements which good husbandry requires for the operation of farming. Such work necessarily takes time. The law does not require an appropriator to do all of that work at one time, but if the work is done within a reasonable time, his appropriation relates back to the date of its initiation. The rules with regard to placing the water to beneficial use also apply to the building of a ditch to its capacity. Where the appropriator intends to appropriate a certain amount of water and ultimately to have his ditch of a certain size, he is not required to build that ditch to that size immediately, but may do so within a reasonable time after the appropriation is made. He may, therefore, build a small ditch and increase its capacity as his development requires, until he has his ditch constructed at the full capacity intended at the time of the initiation of the appropriation, provided all this is done within a reasonable time. The history of the development of this Company shows that the first appropriation was made by a company organized under the act of 1891, and the members of this company were the owners of the farm lands, or a large portion of them, along the course of the ditch. The farmers themselves were pioneers, were limited in means, and performed most of the work upon the ditch and upon their land

in the preparation of it for irrigation, themselves, After having prepared a farm for the operation of farming, the apple industry became one of the principal industries in the Hood River Valley. The experience of the apple raisers taught the various growers that the best trees were produced in this particular climate and country by not irrigating the trees until they began to bear, and this condition of husbandry affected to some degree the development of the project initiated by the predecessors in interest of the East Fork Irrigation District. The East Fork Irrigating Company early got into financial straits, and arrangements were made with one C. R. Bone, who was given financial control of the Company, to do a large amount of work upon the ditch. This was in 1897. And in 1901 water was delivered to water users through the ditch. Work had been performed upon the ditch each and every summer, and from that time on the water began to be used more and more each year, until at the time of the filing of the claim of the East Fork Irrigation District there were irrigated about 7,600 acres of land. There was a general enlargement of the ditch in 1904, and another one in 1908. But in addition to these enlargements, in the meantime, throughout the whole district where the irrigation was carried on, there was continuous construction work of laterals to supply lands which were newly developed each year. In 1912 the Irrigating Company found itself bankrupt, and the East Fork Irrigation District was formed, which district purchased the irrigating plant in the spring of 1913, for about \$110,000, plus the debts of the Company, which were paid by the District. These debts and the new construction work performed by the District up to April 30, 1919, amount to \$134,337.37, making a total of purchase and construction cost to date of \$244,337.37. Since the District was formed many of the laterals have been enlarged, flumes replaced by new ones, and a large amount of pipe laid, putting a large amount of their lands under a pressure system of irrigation, that is, the water is conveyed to the land through pipes under high pressure. There is no evidence in the record of any cessation in the work. The project, being a large one, is impossible to develop in a short time. The State Water Board therefore finds that the East Fork Irrigation District and its predecessors in interest have been diligent, and an unreasonable time has not elapsed since the initiation of its water right; and that its appropriation is limited to 5,680 miners inches, or 142 second feet of water. And inasmuch as the total irrigable area in said District has not been placed under irrigation, the State Water Board hereby fixes 5 years from the 1st day of January, 1920, as the time within which such Irrigation District must complete its appropriation, (or within such further time as may be granted by the State Water Board, upon proper showing) and that all of such appropriation when completed, or such appropriation as may be utilized at the expiration of the time fixed by said Water Board, shall relate back to and have the priority date for the purposes of the distribution of water, of November 25, 1895.

That the rights of the First National Bank of Portland, Oregon, and of James H. Gano of Portland, Oregon, are included in the appropriation of the East Fork Irrigation District, and their rights are governed thereby.

That the Glacier Irrigating Company filed a notice of appropriation on the 15th day of March, 1906, appropriating water from Fall Creek and Sand Creek. Thereafter the Company began the construction of a ditch out of Sand Creek for the purpose of irrigating the lands lying under the ditch, amounting to about 3,165 acres. The appropriation of water from Sand Creek under the notice was limited to 1,500 inches. The ditch was constructed and work carried on until the first irrigation was done in 1911. On the 28th day of August, 1912 the Company secured a State Engineer's permit, being Enlargement Permit No. 161, for the appropriation of 50 second feet of water from Fall Creek or Cold Springs Creek, the water to be used upon the same lands for which the appropriation was made in 1906. No ditch had ever been constructed from Sand Creek to Fall Creek under the appropriation of 1906. Up to the date of the State Engineer's survey of the land there had been irrigated through the Glacier Irrigating Company's ditch about 562 acres. The lands to be irrigated are situated high up in the southern part of Hood River Valley, and are covered with timber and are very hard to clear and develop, so that the Company and the water users under it have been using reasonable diligence in reducing the lands to cultivation. The lands are of glacial formation and are very porous, and require somewhat more water for irrigation than do the lands in Hood River Valley. The waters of Sand Creek are sufficient for the appropriation from Sand Creek during high water only, but during low water do not furnish sufficient water for said appropriation; and the same condition exists with regard to Fall Creek or Cold Springs Creek. It is necessary, therefore, to use both streams of water, one supplementing the other, to irrigate the lands. The rights of the Glacier Irrigating Company are not yet completed, and the State Water Board fixes five years from the 1st day of January, 1920, (or such further time as may be granted by the State Water Board for good cause shown), as the time within which such appropriation from Sand Creek shall be completed; and the rights of the Glacier Irrigating Company shall relate to and have the priority date of March 15, 1906, to the extent said appropriation shall have been completed within such time. That the appropriation out of Fall Creek or Cold Springs Creek is under a State Engineer's permit, and the Company shall have the rights under such permit as are given by law, and shall prove up and complete its rights in the manner provided by law for an appropriation under a State Engineer's permit.

That Wm Keeling and E. O. McConn appear to be partners in the ownership of a ditch from Dog River. On June 16, 1908, they posted a notice on Dog River and immediately thereafter began work and diverted the water of Dog River and used it

first for irrigation in August, 1909. Up to date they have irrigated about 16 acres in Sections 20 and 29. This land is timbered, and it is necessary to be cleared. There are about 160 acres in the NE $\frac{1}{4}$ and the E $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 29, and in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 20, T 1 S. R. 10 E. W. M., which was intended to be irrigated from this appropriation. Inasmuch as the appropriation is not complete, the State Water Board fixes three years from the 1st day of January, 1920, (or such further time as may be granted by the State Water Board), as the time within which they are to complete their appropriation.

That the Mount Hood Water Supply Company appropriated water out of the East Fork of Hood River in October, 1895, and thereafter built its ditches within a reasonable time and began use of water in June, 1898; and that said waters were appropriated for irrigation and domestic purposes. That 31 acres were irrigated in the year 1898, and that thereafter and continuing down to the present date the area irrigated has been gradually increased, until an area of 433.5 acres is now irrigated under said ditches. That such increase in irrigated area has been made under said appropriation of October, 1895 with due diligence, considering the local conditions, the character of the lands to be reclaimed, and the heavy clearing encountered. And all of such appropriation shall relate back to and have the priority date of October, 1895. That in the year 1905 the Mount Hood Water Company succeeded to all the rights of the Mount Hood Water Supply Company and attempted to make a second appropriation of one thousand miners inches of water for irrigation and domestic purposes; but that the first appropriation made in the year 1895 was made for the purpose of irrigating the lands described in the statement and proof of claim filed by the Mount Hood Water Company herein, and for use for domestic purposes on said lands, and the amount of water which the predecessors of the Mount Hood Water Company attempted to appropriate by said first appropriation was more than sufficient to supply the needs for all purposes for which a right has been perfected herein. That said attempted second appropriation made in the year 1905 was unnecessary, and that no water has been put to beneficial use by virtue thereof, and no rights have been acquired under said attempted appropriation. And the rights of said Mount Hood Water Company shall be limited to sufficient water to irrigate the 433.5 acres as tabulated herein, as of the date October, 1895.

That the rights of the Security Savings & Trust Company are included in and identical with the rights of the Glacier Irrigating Company.

Holland-Washington Mortgage Company
a corporation, P. P. Dabney, Portland,
Oregon, 1310 Yeon Building,

Contestant

vs

Catherine Rathbun, Hood River, Oregon

Contestee.

Contest No. 2

That the contestee made no appearance in the foregoing named contest, and it appeared from the testimony that the contestee is a successor in interest of one Jas. W. Church and one Chas. Albright, and that said Jas. W. Church and Chas. Albright entered into an agreement on the 15th day of August, 1908, with one Chas Hall and one Jas E. Hall, Jr., for the right to use the water of the spring mentioned in the claim of contestee Catherine Rathbun, for domestic purposes at her place of residence, which agreement was recorded in Vol. 1 of Miscellaneous Records of Hood River County, at Page 151. And in the distribution of water from said springs so named in the claim of said contestee and also in the claim of said contestant, the terms of such agreement shall at all times be complied with, and the rights of both the contestant and the contestee in said spring and to the use of the water thereof, are at all times subject to the provisions of said agreement.

Contestees

Contest No. 3.

That the contestant, Pacific Power & Light Company, claims power rights from Hood River, and specifies its rights in two claims filed, being a claim filed for each place of development of power by the Company; the lower development of said Company being called the Powerdale plant, and the upper development being called the Tucker's Bridge plant. At the Powerdale plant the contestant owns lands bordering upon Hood River, and through which Hood River runs, beginning with the south line of the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 12, T 2 N. R. 10 E. W. M., and continuing for more than 2 $\frac{1}{4}$ miles, to the north line of Section 36, T 3 N., R 10 E. W. M. It appears that the title to these lands was derived from the State of Oregon, Section 36, T 3 N. R. 10 E. W. M. being school land under the act of

Congress of August 14, 1848, and title passing from the United States to the State of Oregon in 1859 upon the admission of the State to the Union. Sections 1 and 12, T 2 N. R. 10 E. W. M. were selected by the State of Oregon for internal improvements on July 18, 1864, and under the act of Congress of September 4, 1841, list 23, approved by the Department of the Interior August 12, 1868, and title being in the State of Oregon from the time of such approval. The State of Oregon conveyed the lands through which Hood River runs and which are now owned by the contestant, as follows:

NE $\frac{1}{4}$ NE $\frac{1}{4}$	Section 36, T 3 N. R. 10 E. W. M.	March 27, 1876
SW $\frac{1}{4}$ NE $\frac{1}{4}$	"	May 1, 1889
SE $\frac{1}{4}$ NE $\frac{1}{4}$	"	July 28, 1884
NE $\frac{1}{4}$ SE $\frac{1}{4}$	"	February 28, 1890
W $\frac{1}{2}$ SE $\frac{1}{4}$	"	December 8, 1875
SE $\frac{1}{4}$ SE $\frac{1}{4}$	"	March 30, 1889
NE $\frac{1}{4}$ NE $\frac{1}{4}$	Section 1, T 2 N. R. 10 E. W. M.	January 20, 1890
NW $\frac{1}{4}$ NE $\frac{1}{4}$	"	January 11, 1883
SE $\frac{1}{4}$ NE $\frac{1}{4}$	"	October 16, 1900
SW $\frac{1}{4}$ NE $\frac{1}{4}$	"	January 5, 1887
SE $\frac{1}{4}$ SW $\frac{1}{4}$	"	September 15, 1880
W $\frac{1}{2}$ SE $\frac{1}{4}$	"	September 8, 1891
NE $\frac{1}{4}$ NW $\frac{1}{4}$	Section 12, T 2 N. R. 10 E. W. M.	February 15, 1883

In 1901 the contestant first began to use water at the Powerdale plant, and at the present time utilizes 140 second feet of water. The contestant further attempts to claim a riparian right to said stream for its full undiminished flow, to the amount of 750 second feet. The available measurements of the flow of Hood River at Powerdale shows that in 1913 the minimum flow was 427 second feet in October and the maximum flow was 2,930 second feet in April, while in 1914 the minimum flow was 375 second feet in August and September and the maximum flow 4,890 second feet in January. And the maximum flow of Hood River in August, 1914, was 729 second feet, and in 1913 the maximum flow in August was 1,040 second feet. So that the use of 750 second feet of water at the Powerdale plant would take substantially all of the flow of said stream, and leave none for use in irrigation. One diversion point of the present Powerdale works of the contestant is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, utilized at a plant in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1, and the second diversion point is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 1, all in T 2 N. R. 10 E. W. M., with the plant located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36 T 3 N. R. 10 E. W. M. The lands upon which both points of diversion are situated, and also the point where the place of use of the water is situated, are all lands which have been conveyed by the State since 1877, being the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, conveyed February 28, 1890, the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 1, conveyed January 11, 1883, the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 1, conveyed January 5, 1887, and the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, conveyed September 15, 1880.

The rights of the contestees with relation to the rights of the contestant, cannot be decided without first determining the rights of the contestant. Contestant claims by riparian rights. The first question to decide is whether or not such riparian rights exist. The doctrine of common law that the waters of a stream must continue to flow in the natural channel undiminished in quantity and unimpaired in,

quality, has been very much modified in Oregon, and all lands conveyed from the United States Government since the Desert Land Act of 1877 have no riparian rights. The arid section of the State and the necessity for using the water upon lands which were not riparian, compelled the early settlers to adopt a code of customs which regulated the manner of appropriation of water for the operation of mines and the cultivation of farms. These customs were in effect in Oregon long prior to the admission of the State into the Union, and provided that he who first changed the course of a natural stream flowing through public lands which at the time was common to all, and appropriated the water so diverted to some useful purpose, thereby acquired a superior right to continue the use thereof against every claimant. These customs were recognized by the courts, which enforced their provisions in opposition to the doctrine of the common law, and the legislative assemblies of the states have passed in many instances acts guaranteeing protection to prior appropriators in their possessory rights in the diversion of water. The State of Oregon by act approved October 24, 1864, which appears as Section 3832, Hill's Annotated Laws, first recognized these customs, subject to the laws of the United States. The United States by act of Congress of July 26, 1866, has recognized these customs. Again, the Legislature of the State of Oregon, in ¹⁸⁶⁸~~1888~~ (L.1868, pp. 21,22, Sec. 9) recognized the rights of appropriation. And by legislative act approved February 24, 1885, right of way over lands belonging to the State was confirmed for ditches to be used in irrigation, manufacturing or mining purposes, and this act was the recognition by the State of Oregon of a pre-existing right, rather than the granting of a new easement in its property. With these recognitions on the part of the Legislature and on the part of the courts, riparian rights were early recognized for State Lands only to the same extent as were the rights of purchasers of lands from the United States Government, and where the State Legislature has waived all its right of riparian ownership, for the benefit of any and all appropriators, it appears that the State thereby waived and abolished any riparian rights attaching to State Lands. And anyone purchasing State land would necessarily purchase that land subject to, and with notice of, the laws of the State relative to the appropriation of water. The first recognition by the State of appropriation of water under the laws of October 24, 1864, (Hill's Annotated Laws, Section 3832) recognized the laws of the United States, and that appropriations could be made on State Lands to the extent that appropriations were made under the laws of the United States on lands of the United States. The growth of the law of appropriation under the laws of the United States abolished riparian rights in 1877, and recognized appropriations to the exclusion of all riparian rights thereafter. The State of Oregon having recognized the laws of the United States relative to appropriations as being applicable to state lands, the rights of riparian owners to the use of water were therefore abolished as to state lands conveyed by the State of Oregon after 1877.

Even if the foregoing were not the case, the Power Company would be held to a reasonable use of the water, and inasmuch as 140 second feet is all that they have used so far, when all of the uses to which the water is put are considered, the State Water Board finds that 140 second feet is a reasonable use, and the use of any more water than 140 second feet would be an unreasonable use. The Company, however, has made claim for a definite amount of water, and the State Water Board finds that such a claim amounts to a claim for appropriation, and the right of the contestant at the Powerdale plant shall be tabulated as an appropriation of the date of 1901, for 140 second feet of water, with a fall of 46 feet, giving 730 theoretical horsepower.

At the Tucker's Bridge plant the Company owns land through which Hood River runs for a distance of between 4 and 5 miles, beginning with the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, T 2 N. R. 10 E. W. M., and ending with the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29, T 2 N., R 10 E. W. M. The present diversion from Tucker's Bridge is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15, and the place of use of the water is in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15. All of the lands owned by the Company, outside of Section 16, were selected by the State of Oregon for internal improvements on July 18, 1864, under the Act of Congress of September 4, 1841, list 23, approved by the Department of the Interior August 12, 1868. Section 16 was school land, and title passed to the State of Oregon upon its admission to the Union in 1859. The SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15, where the point of diversion is located, was conveyed by the State to the predecessors in interest of the contestant on February 1, 1889, and the place of use, being the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15, was conveyed by the State to the predecessors in interest of contestant on August 28, 1882. All of the balance of the land owned at this place of use was conveyed by the State to the predecessors of the contestant at various dates from 1886 to 1903. The amount of water used from 1883 to 1911 has not been shown, or whether the right of use of the water was continued during all of that time. Beginning with the year 1911, contestant's predecessors in interest constructed works which utilized 640 second feet of water at a 28 foot fall, giving 2,036 theoretical horsepower. Fixing a definite amount of water for use in this capacity certainly is an appropriation of that amount of water for use, and the date for the distribution of water under such appropriation will be fixed at 1911.

The rights of contestee East Fork Irrigation District are set forth and described in Paragraph 11, and are the same as against the contestant Pacific Power & Light Company as set forth in that paragraph. The appropriation of the East Fork Irrigation District having been made in 1895, contestant's riparian rights, if any such rights existed, have now become subject to the appropriation of the East Fork Irrigation District, because of the length of time since their appropriation and the use of the water thereunder.

The rights of the Hood River Irrigation District are derived from appropriations made by the district and also by its predecessor in interest, the Water Supply Company of Hood River Valley. It appears that an appropriation was made by the Water Supply Company of Hood River Valley, an association of water users, in 1874, from Ditch Creek. The articles of incorporation were entered into in 1876, and filed in 1893 in the County Clerk's office of the county in which the corporation was doing business. On December 19, 1892, an appropriation to the extent of 600 inches was taken from Dead Point Creek, and on October 6, 1902, an appropriation of 400 inches was made from Dead Point Creek. On December 1, 1905, the district filed an appropriation for 400 inches from the North Fork of Green Point Creek, 600 inches from the South Fork of Green Point Creek, 100 inches from the South Fork of Pine Creek, and 400 inches from Dead Point Creek. According to their claim there are under irrigation at the present time about 2,818 acres of land, and according to the State Engineer's report there were 2,865 acres under irrigation. The testimony shows that at the time of the filing of their claim there were 2,822 acres under irrigation, and that there are 4,176 acres of irrigable land in the district. To irrigate the 2800 acres now under irrigation the district has diverted between 1200 and 1300 inches of water, so that the appropriations of 1874 from Ditch Creek, 1892 from Dead Point Creek, and 1902 from Dead Point Creek, are completely used. The rights of the Hood River Irrigation District will therefore be established for water from Ditch Creek to the extent of 200 inches as of the date of 1874, from Dead Point Creek for 600 inches under date of December 19, 1892, and for 400 inches under date of October 6, 1902, together with the rights of the district under its filing of December 1, 1905, of 400 inches from the North Fork of Green Point Creek, 600 inches from the South Fork of Green Point Creek, 100 inches from the South Fork of Pine Creek, and 400 inches from Dead Point Creek. And inasmuch as all of the irrigable land of the district has not yet been put under irrigation, and the same conditions exist with regard to the lands of this district as with the other districts and under other irrigation projects of Hood River Valley, the State Water Board finds that the appropriations of 1874, 1892 and 1902 have been fully completed, and that the district may have five years from the 1st day of January, 1920, within which to complete the appropriation to beneficial use of the water appropriated December 1, 1905 (or within such further time as may be granted by the State Water Board on proper showing).

That the rights of the Dee Irrigation & Power Company are derived from Permit No. 165 of the State Engineer, and such Company shall have such rights as such permit gives them under the laws and statutes of the State of Oregon, and such Company shall prove up and establish such rights in accordance with such laws and statutes applicable to the same.

That the rights of the Farmers Irrigating Company are derived from a notice of appropriation filed on the 7th day of May, 1906, and at the present time they have about 3,320 acres irrigated, and about 3,860 acres of irrigable land under their ditch, and claim the right to irrigate 1,140 acres in addition thereto, or 5,000 acres in all. The notice of location is for 4,000 miners inches of water from Hood River, and the size of the ditch was fixed as 15 feet wide on top, 8 feet wide on the bottom and 4 feet deep. That the character of the lands to be irrigated is of the same general character as the other lands in Hood River Valley, relative to clearing, and a reasonable time has not yet passed since the appropriation for the placing of said lands under irrigation and the application of water to a beneficial use. The State Water Board therefore fixes five years from the 1st day of January, 1920 (or such further time as may be granted by the Board), as the time within which the total area of 5,000 acres for which a water right is claimed shall be fully irrigated.

That the rights of the Glacier Irrigating Company are set forth in Paragraph 11, of these Findings, and are the same in this contest as therein set forth.

That the rights of the Middle Fork Irrigating Company are derived from numerous appropriations, some of which were taken out under State Engineer's permits and upon which certificates of water right have been issued. The appropriation of water from Roger Creek is covered by a water right certificate recorded in the State Record of Water Right Certificates, Volume 1, Page 704. The appropriation from Wishart Creek is set forth in a water right certificate recorded in the State Record of Water Right Certificates, Volume 2, Page 1393. As to the extent of these water right certificates, the rights of the Company shall be as therein set forth, and shall be governed by the laws relative to water rights under such certificates. That the other appropriations of the Middle Fork Irrigating Company consist of numerous small appropriations from numerous branches of Hood River, which are all supplemented by the appropriation of the Company from the East Branch and Middle Branch of the Middle Fork of Hood River. The appropriations from the smaller branches for which water right certificates have not been issued are as follows: Evans Creek through the East Side lateral, for 79 acres with date of priority of 1896; Hutson Gulch stream, through the Foss ditch for 20 acres with priority date of 1898; Trout Creek through the C. E. Spencer ditch, for 10 acres under priority date of August, 1900; Evans Creek through the Rodenhiser ditch, 75 acres, with date of priority of 1894; Trout Creek through Wishart ditch for 60 acres with priority date of 1892; Cooper ditch for 15 acres with date of 1898; Tomlinson ditch for 10 acres under date of 1902; Thomas ditch for 40 acres under date of 1884. Billings ditch for 30 acres with date of 1897; Evans Creek from Johansen ditch for 30 acres under date of 1900. The waters of all of such small branches and tributaries have been completely applied to

a beneficial use. And in addition to these water rights from these small tributaries, the Company in 1897 filed upon 250 inches of water from the East Branch of the Middle Fork of Hood River, and on November 19, 1906, filed on 3,000 inches from the Middle Branch of the Middle Fork of Hood River, all to be used upon the lands as supplementary rights to the appropriations from the small streams and tributaries herein named and for the development of further lands under their system. That the lands to be developed by the Middle Fork Irrigating Company are of the same general character as the lands of the other irrigation projects in the Hood River district, and require a great deal of work to bring them under cultivation and irrigation. A reasonable time has not yet elapsed since the appropriation made in 1897 and in 1906 for the application of all the water to beneficial use. And the State Water Board hereby fixes five years from the 1st day of January, 1920 (or such further time as may be granted by said Board) as the time within which the water shall be completely applied to beneficial use on said lands.

Contestees)	

That this contest was settled by stipulations which read as follows:

"It is hereby stipulated and agreed between the contestant and the contestees, Hans T. Hansen, Isaac Allen Macrum, Jr., and A. W. Stone, as follows:

That said contestees have a right to appropriate from Trout Creek, at a point about two hundred ninety (290) feet in a northerly direction down the stream from where it crosses the line between the Northeast quarter and the Southeast quarter of Section Thirty (30), Township One (1) North, Range Ten (10) East of the Willamette Meridian, and to convey through a ditch to and upon their respective lands located in Section Nineteen (19) in said Township and Range, seventeen (17) inches, miner's measurement, under six inch pressure, at their headgate or said point of diversion.

That said contestees shall have a right to their said amount of water for irrigation and domestic purposes and for watering live stock upon said lands.

That as between the parties to this stipulation, the contestant has a right to appropriate, divert and use, for its purposes, all other water flowing in said Trout Creek.

That findings, conclusions and a decree may be made and entered in the above entitled matter forever fixing and establishing the respective rights of the parties to this stipulation as hereinbefore set out.

Dated this 6th day of May, 1919

Hans T. Hansen,
Isaac Allen Macrum, Jr
A. W. Stone. "

"It is hereby stipulated and agreed by and between the above named contestant and the contestee, E. J. Welty, as follows:

The contestee, E. J. Welty, has a right to appropriate and divert from Trout Creek sufficient water, allowing for reasonable seepage and evaporation when diverted and conveyed by her through what is known as the Disbrough Ditch and measured in said ditch at the line of said contestee's property in Section Eighteen (18) Township One (1) North, Range Ten (10) East of the Willamette Meridian, to equal twenty-five (25) inches, miner's measurement, under a six-inch pressure.

That said contestee shall have a right to said amount of water for irrigation and domestic purposes and for watering live stock upon said lands.

That said contestee has used said amount of said water for irrigating thirty-four and one-half (34½) acres of her said land for ten (10) years last past and has used said amount of said water for irrigating twenty-five (25) acres of said thirty-one (31) acres for fifteen (15) years last past.

That, as between the parties to this stipulation, the contestant has a right to appropriate and divert and use for its purposes all other water flowing in said Trout Creek.

That findings, conclusions and a decree may be made and entered in the above entitled matter forever fixing and establishing the respective rights of the parties to this stipulation, as hereinbefore set out.

)	
Contestants)	Contest No. 10.
vs)	
W. F. Tucker,)	
Contestee)	

That it appears that the contestants are the successors in interest of Geo. Kirkpatrick and wife in the claim filed in these proceedings.

That this contest was settled by stipulation as follows:

"THIS AGREEMENT, made in duplicate on this 27th day of January, 1919, by and between W. F. Tucker, as party of the first part, and J. A. McConn, S. M. McConn and Mary L. McConn, as parties of the second part, witnesseth: That in consideration of the covenants made by each of the parties to the other, and other valuable consideration, it is stipulated and agreed as follows:

That since claims and proofs were submitted to and filed with the Water Superintendent in the above entitled matter, the parties of the second part have succeeded, as purchasers, to the interest of George Kirkpatrick, and wife, in the real property described in the claims and proofs made by said George Kirkpatrick, and all water rights appurtenant thereto, which are claims and proofs numbered 19 and 20 now filed with said Water Superintendent.

That the parties hereto own the right to appropriate, divert and use all of the water flowing in Cat Creek (sometimes known as Rim Rock Creek), a tributary of the East Fork of said Hood River, which said Cat Creek is mentioned and described in the above mentioned proofs and also in proof numbered 37 made by party of the first part in the above entitled matter. That said right was initiated in the summer of 1903. That these parties own said right in common, party of the first part being the owner of and entitled to one-fourth of said water, and parties of the second part being the owners of and entitled to three-fourths thereof.

It is the intention that this stipulation shall be filed with the said Water Superintendent, and this stipulation shall correct and govern any statements made in any of said proofs and claims which conflict herewith. It is further understood that the final findings and determination in the above entitled matter shall

be in accordance with the terms hereof.

WITNESS our hands the date first herein written

W. F. Tucker,
J. A. McConn
S. M. McConn
Mrs. Mary L. McConn."

That the Water Master shall distribute the water in accordance with such stipulation, so long as such water is beneficially used.

20.

That heretofore and on the 17th day of July, 1914, the State Water Board made and entered its findings and order of settlement of the water rights of the water users from Neal Creek and its tributaries, a tributary of Hood River, That at the time of the opening of the claims filed in these proceedings for inspection, the Superintendent of Water Division No. 2 (now State Water Superintendent), notified all of the users from Neal Creek of said inspection and opened said findings and order of settlement of said Water Board to inspection at said time. That no contests were filed against any of the water users from said Neal Creek, nor did any of the water users from said Neal Creek file any contests as to the use of any of the waters of Hood River or its tributaries. And the findings and order of determination of the State Water Board relative to the waters of Neal Creek remain the same and are hereby confirmed.

21.

That State Engineer's Permits have been filed in these proceedings along with claims to the use of the waters from Hood River, as follows:

Dee Irrigation & Power Company - - - - -	Permit No. 165
Frank L. Keating - - - - -	" " 235
Glacier Irrigating Company - - - - -	" " E.161
J. C. Porter and Amanda Sears - - - - -	" " 12
A. A. Schenck - - - - -	" " 3100

(Water Right certificate No. 1373)

That said State Engineer's Permits and water right certificates and all other State Engineer's permits and water right certificates, whether filed in these proceedings or not, under which water users are or may be using the waters of said stream, shall be governed by the statutes of the State of Oregon appertaining to such State Engineer's permits and water right certificates, and each and all of such rights shall be determined thereby.

That the Middle Fork Irrigating Company filed with its claim a decree in the case of the Middle Fork Irrigating Company vs Bertha I. Folts, Mary L. B. Allen, Albert L. McKamey, a minor, Sarah James as guardian of Albert L. McKamey, a minor, Charles T. Rawson and Alice R. Rawson, defendants, and Chas. Isham Moody, and Marguerite Moody, intervenors, which decree has to do with the distribution of water from the ditch of the plaintiff upon certain lands for which the plaintiff supplies water, and such distribution shall be in accordance with the said decree.

23.

That J. I. Miller, V. H. Lindsay, H. J. Lindsay, Mrs. C. W. Reed, Mrs. L.H. Arneson, Hannah Miller, W. J. Gilstrap, Melvin Vanausdal, Arthur Rogers, Mrs. H. B. King, K. Kawachi, C. A. Hickle, T. Akayama, U. Akiyama, K. Hasegawa, and Mrs. J. J. Seaton for themselves, and H. J. Lindsay, T. Akiyama and Mrs. H. B. King, as trustees, for each and every of the persons above named, duly and regularly filed exceptions to paragraph 23 of the Findings of Fact and Order of Determination of the State Water Board in this cause. That B. W. Schmeer, O. L. Price and E. L. Blanchard as trustees for the creditors and bondholders of the Stanley-Smith Lumber Company, and the Hood River Irrigation District, a municipal corporation, duly and regularly filed answer to the exceptions of the persons above named. That thereafter all of the above named exceptors and the said trustees for the creditors and bond holders of the Stanley-Smith Lumber Company, and the said Hood River Irrigation District entered into certain stipulations and agreements which are now on file in this cause wherein and whereby all matters in the suit between the said exceptors and the said trustees for the creditors and bond holders of the Stanley-Smith Lumber Company and the said Hood River Irrigation District were settled and compromised, and that thereafter said exceptors further filed in this cause a certain agreement whereby the rights to the use of the waters claimed by the said exceptors were apportioned among the several exceptors and their successors in interest and made appurtenant to the several parcels of land owned by said several exceptors and their successors in interest.

That under and by virtue of said agreements and stipulations said exceptors J. I. Miller, V. H. Lindsay, H. J. Lindsay, Mrs. C. W. Reed, Mrs. L. H. Arneson, Hannah Miller, W. J. Gilstrap, Melvin Vanausdal, Arthur Rogers, Mrs. H. B. King, M. Kewachi, C. A. Hickle, T. Akiyama, U. Akiyama, K. Hasegawa, and Mrs. J. J. Seaton and their successors in interest are entitled to the use of 50 inches of water miners measurement, continuous flow for a period of 24 hours each day during the entire irrigation season, beginning on the 15th day of April and ending on the 1st day of October of each year

for irrigation and domestic purposes, said amount of water to be furnished to the exceptors above named, their heirs, administrators, executors, successors and assigns and measured at the present point of delivery on the east side of the Old Pond, situated at or near the West line of Section 13, Township 2 North of Range 9 E. W. M.; and that said water shall be delivered perpetually at said point by the Hood River Irrigation District, its successors and assigns, without charge of any nature whatsoever for maintenance or otherwise.

That under and by virtue of said stipulations and agreements hereinbefore referred to it is provided that the said exceptors and their heirs, administrators, executors and assigns agree to and shall use said waters by combining their individual water rights therein and using the water obtained therefrom according to the rotation system in proportion to their respective holdings so that each party shall receive the amount of water to which he is entitled; that the rights to the use of the said 50 inches of water miners measurement hereinbefore mentioned is distributed among the above named exceptors and their successors in interest and made appurtenant and attached to their respective parcels of land as follows:

4" of water, miners measurement, appurtenant to the 49 acres of land now owned and held by V. H. Lindsay, H. J. Lindsay, Mrs. C. W. Reed and Mrs. L. H. Arneson, as sole heirs of Robert B. Lindsay, deceased, which said land is described as follows:

The $SE\frac{1}{4}$ of the $NE\frac{1}{4}$ and the $S\frac{1}{2}$ of the $SW\frac{1}{4}$ of the $NE\frac{1}{4}$ of Section 18 Township 2 North of Range 10 E. W. M., save and except that 11 acre tract heretofore deeded by Robert B. Lindsay and wife to Humphrey Barton, which is recorded in Book of Deeds of Hood River County, Vol. 6, on page 53.

3" of water, miners measurement, appurtenant to the 20 acres of land now owned and held by H. J. Lindsay, which tract is described as follows:

The $N\frac{1}{2}$ of the $SW\frac{1}{4}$ of the $NE\frac{1}{4}$ of Section 18, Township 2 North of Range 10 E. W. M.

2" of water, miners measurement, appurtenant to the 20 acres of land formerly owned and held by C. A. Hickle, one of the exceptors above named and now held and owned by A. L. Hewitt and Ruth L. Hewitt said Tract of land being described as follows:

$W\frac{1}{2}$ of the $SW\frac{1}{4}$ of the $SW\frac{1}{4}$ of Section 18, Township 2 North of Range 10 E. W. M.

3" of water, miners measurement, appurtenant to the 25 acres of land now owned and held by Malvin Vanausdal as sole heir of Virginia Vanausdal, which tract is described as follows:

Beginning at the SE corner of the $NE\frac{1}{4}$ of the $SE\frac{1}{4}$ of Sec 18, Township 2 North of Range 10 E. W. M., running thence West 1530 ft. to the center of the present Parkertown County Road; thence in a northeasterly direction along the center of said road 805 ft; thence west 200 ft; thence north 80 ft; thence east 220 ft; to the center of said county road; thence along the center of said county road along a northeasterly and easterly direction to the intersection of the north and south line on the east boundary of said $NE\frac{1}{4}$ of the $SE\frac{1}{4}$ of said Sec. 18 and range aforesaid 858 ft to the place of beginning, containing 25 acres more or less.

4" of water, miners measurement, appurtenant to the 14.34 acres now owned and held by W. J. Gilstrap and wife, which land is described as follows:

Beginning at a point on the west line of the $SE\frac{1}{4}$ of Sec. 18, Township 2 North of Range 10 E. W. M., 1320 ft. north of the quarter corner common to Section 18 and 19; thence East 1110 ft. to the center of the county road; thence North 26 degrees 52' East 205.7 ft; thence North 4 degrees 58' East 100 ft; thence 28 degrees 57' east 100 ft; thence North 44 degrees east 100 ft; thence North 59 degrees east 300 ft;

thence west 832 ft; thence south 240 ft; to the place of beginning, containing 14.34 acres.

3" of water, miners measurement, appurtenant to 13.67 acres now owned and held by Arthur Rogers, and described as follows:

Beginning at a point 23 rods north of the quarter section post between Sec. 18 and 19, Township 2 North of Range 10 E. W. M., thence north 57 rods; thence east $75\frac{1}{2}$ rods; thence south 20 degrees west on the line of the county road 79 rods; thence west 22 rods to the place of beginning, containing 13.67 acres.

4" of water, miners measurement, appurtenant to $21\frac{1}{2}$ acres of land now owned by Mrs. H. B. King, which said tract is described as follows:

Beginning at the quarter stake between Sec. 18 and 19 in township 2 North of Range 10 E. W. M., thence west 40 rods; thence North 80 rods; thence east 40 rods; thence in a southerly direction 80 rods to the place of beginning, containing 20 acres, also beginning at the quarter stake between Sec. 18 and 19, thence North 23 rods; thence east 22 rods to county road; thence south and west 32 rods to place of beginning, containing $1\frac{1}{2}$ acres.

6" of water, miners measurement, appurtenant to 35 acres of land which said land is now owned by T. S. Akiyama and is located in the $N\frac{1}{2}$ of Sec. 19, Township 2 North of Range 10 E. W. M., and is more particularly described in the deed dated January 30, 1920, wherein Alice Osborne, a widow, is grantor, and T. S. Akiyama, is grantee, which said deed was recorded Feb. 28, 1920, in Book of Deeds of Hood River County, Vol. 14, page 120.

3" of water, miners measurement, appurtenant to approximately 25 acres of land now held by Mrs. J. J. Seaton, formerly Annie Leaming, which tract is more particularly described as follows:

Beginning at the NE corner of the $SE\frac{1}{4}$ of the $SE\frac{1}{4}$ of Sec. 18, Township 2 North of Range 10 E. W. M., running thence West $84\frac{2}{3}$ rods; thence in a southwesterly course 111 rods to the SW corner of the $SE\frac{1}{4}$ of Sec. 18; thence East 160 rods; thence north 80 rods to the place of beginning, containing 65 acres except four several 10-acre tracts deeded by D. B. Leaming and Annie Leaming to Chas. A. Leaming, Myrtle Leaming, Asa L. Leaming and Walter Leaming on the 4th day of December, 1908.

5" of water, miners measurement, appurtenant to 20 acre tract now owned by M. Kawachi, which tract is more particularly described as follows:

$W\frac{1}{2}$ of the $SE\frac{1}{2}$ of the $SW\frac{1}{4}$ of Sec. 18, Township 2 North of Range 10 E. W. M., containing 20 acres.

2" of water, miners measurement, appurtenant to 10 acre tract now owned by J. I. Miller, which tract is more particularly described as follows:

Commencing at the NE corner of the $SE\frac{1}{4}$ of Sec. 18, Township 2 North of Range 10 E. W. M., west on quarter section line 56 rods; thence South parallel to the east line of section 18, 32 rods; thence East parallel to the north line of said section to center of county road; thence northeasterly following the center of the county road to the east line of Sec. 18; thence north along Section line 28 rods to the place of beginning, containing 10 acres.

3" of water, miners measurement, appurtenant to the tract approximately 30 acres now owned by Hannah Miller, which property is more particularly described as follows:

$N\frac{1}{2}$ of $SE\frac{1}{4}$ of Sec. 18, Township 2 North of Range 10 E. W. M. save and except that tract of 14 acres more or less in the SW corner of said tract now owned by W. J. Gilstrap and wife and which is more particularly described in the deed to the said W. J. Gilstrap found in Book of Deeds of Hood River County, Vol. 11, page 232, and save and except that 25 acre tract deeded by J. I. Miller and Hannah Miller to Virginia Vanausdal, which deed is recorded in Book of Deeds for Hood River County, Vol 12

page 544, and also save and except that 10 acre tract now owned by J. I. Miller of which a more particular description is found in deed of Hanery C. Ritz to J. I. Miller recorded in Book of Deeds for Hood River County, Vol. 10, page 623.

8" of water miners measurement, appurtenant to approximately 40 acres of land situate in Sec. 18, Township 2 North of Range 10 E. W. M., now owned by T. Akiyama, and which tract is more particularly described in 5 deeds as follows:

Deed No. 1

D. B. Leaming et ux to Tomeshichi Akiyama:-

Beginning at a point in the center of the county road 40 rods west of intersecting corners of Sec. 17, 18, 19 and 20 in Sec. 18, Township 2 North of Range 10 E. W. M., thence North along and parallel to the west line of the property heretofore conveyed to Chas. A. Leaming and Myrtle Leaming, 53 rods, and thence west 20 ft; thence south 53 rods; thence east along the center of the county road, 20 ft. to the place of beginning.

Deed No. 2

Asa Leaming to Tomeschichi Akiyama:-

Beginning at the SW corner of a tract conveyed by D. B. Leaming and Annie Leaming to Walter Leaming on the 4th day of December, 1908, and running thence north 53 rods; thence west 30 rods and 5 links; thence south 53 rods to the center of the county road; thence east 30 rods and 5 links along the center of the county road to the place of beginning, containing 10 acres.

Deed No. 3

Myrtle Leaming Conway and D. Conway to Tomeshichi Akiyama:-

Beginning at a point on the section line between Sec. 17 and 18, 40 rods north of the intersection corner of Sec. 17, 18, 19 and 20, Township 2 North, of Range 10 E. W. M., which point is the northeast corner of that certain parcel of land heretofore deeded to Chas. A. Leaming by D. B. Leaming and Annie Leaming on the 4th day of December, 1908, and thence north 40 rods; thence west 40 rods; thence south 40 rods to the northwest corner of the Chas. A. Leaming 10 acre tract of land; thence east along the north boundary of said Chas. A. Leaming 10 acre tract to the place of beginning, containing 10 acres.

Deed No. 4

Chas. A. Leaming and Edith Leaming to Tomeshichi Akiyama:½

Beginning at the intersection of Sec. 17, 18, 19 and 20, Township 2 North of Range 10 E. W. M., thence north on the section line between Sec. 17 and 18, 40 rods; thence west 40 rods; thence south 40 rods; thence east along the center of the county road, 40 rods to the place of beginning, containing 10 acres.

Deed No. 5

Chas. A. Leaming and Edith Leaming to Tomeschichi:-

Beginning at a point 41 rods and 3½ feet west of the intersection corner of Sec. 17, 18, 19 and 20 in Township 2 North of Range 10 E. W. M., which point is 20 ft. west of the southwest corner of the 10 acre tract conveyed to Chas. A. Leaming by D. B. Leaming and Annie Leaming on the 4th day of December, 1908, thence north 53 rods; thence west 30 rods and 5 links; thence south 53 rods; to the center of the county road, thence east 30 rods and 5 links along the center of said county road to the place of beginning, containing 10 acres.

The Water Master shall distribute said water accordingly.

24.

That W. F. Tucker filed a decree in the case of W. F. Tucker, plaintiff, Geo. Kirkpatrick and wife defendants, and the County Court of Hood River County, and W. F. Tucker,

Plaintiffs, vs Geo. Kirkpatrick and E. E. Stanton, County Judge of Hood River County, and member of the County Court of said County, and E. Hawks and J. O. Hannum, as Commissioners and members of said court of said County, defendants, but that the Tucker and Kirkpatrick interests have been settled in this case by stipulation, and the Water Master shall distribute the water according to such stipulation, but upon any and all points which if not covered by said stipulation and are covered by said decree, said Water Master shall distribute the water according to said decree.

25.

That Ollie M. Mason filed an additional claim for water for one-third of an acre described as follows: Beginning at a point 365 feet east of the northwest corner of the southeast quarter of the northeast quarter of Section 13, in Township Two North, Range Ten East of the Willamette Meridian, running thence West 186 feet to the east line of the right of way of the Mt. Hood Railroad, as the said railroad is at present constructed; thence in a southerly direction along the east line of said Mt. Hood Railroad right of way 130 feet; thence in the northeasterly direction to a point 82 feet south of the north line of the aforesaid described quarter quarter section; thence in a northeasterly direction to the said north line and place of beginning, containing one-third of an acre, more or less, being in the $SE\frac{1}{4}NE\frac{1}{4}$ of Section 13, T 2 N. R. 10 E. W. M., through the East Fork Irrigation District ditch and by its appropriation. And it appearing that such land is covered by the East Fork Irrigation District's appropriation, upon the final proof of the rights of the acreage of the East Fork District such land will be included in case the same is irrigated.

26.

The claim of Stanley-Smith Lumber Company to the water from Parkertown Spring in the amount of approximately 3.5 cubic feet per second is allowed subject to the rights of J. I. Miller, et al, to 1.25 cubic inches as set forth in Finding #23 hereof. That the claim of the Stanley-Smith Lumber Company from the North Fork of Green Point Creek does not specify any definite quantity, nor does the record disclose the capacity of the works when in operation, though it is estimated that when carrying no logs and with all gates open, the capacity of the log flume is approximately 13.6 second feet. But with the canal in operation the capacity would be greatly reduced. And in the absence of more definite information, the quantity which the Stanley-Smith

Lumber Company is entitled to divert from Green Point Creek and its tributaries is hereby fixed at 5.0 cubic feet including the quantity released from storage, with priority date of 1899. That the Stanley-Smith Lumber Company is entitled to store in Rainy Lake 90 acre feet, and Black Lake 42.5 acre feet of the water tributary to the North Fork of Green Point Creek with the priority date of 1899. That it appears that the successors of the Stanley-Smith Lumber Company have entered into an agreement with the Hood River Irrigation District for the purchase by the District of the rights of said Company as allowed herein, and that a petition for a change of use from power and manufacturing purposes to irrigation and domestic purposes has been approved by the State Water Board. The right to make such change as so approved is hereby confirmed, and the said Hood River Irrigation District shall be entitled to the amount of water and from the sources as hereinafter tabulated under the name of the Stanley-Smith Lumber Company. And the right of the District to so use such water shall be subject to the provisions of the order of the State Water Board approving such change, to the effect that said right shall be treated as a further, inchoate right, to be governed by the same restrictions as to the time limit for completion and the manner of submitting final proof of the completion thereof, as specified in paragraph 13 hereof for the other inchoate rights of said district. And said rights shall at all times be subject to the provisions of this decree contained in paragraph 23 hereof.

27.

Upon the final hearing and entry of the findings and order of determination of the Board upon the above entitled stream, John L. Stranahan and Grace H. Hilles of Hood River, Oregon, appeared and applied to file claims for water from Indian Creek and from certain spring, tributary to Hood River, to supplement the supply of water furnished to their lands by the Hood River Irrigation District. And it appearing that said lands are irrigated from the waters of Hood River through the works of the Hood River Irrigation District and that such water rights are

supplemental, and that all parties interested in Indian Creek will have the opportunity to examine and contest the said claims before the Circuit Court, such applications were allowed, and the rights are tabulated herein under the names of John L. Stranahan and Grace H. Hilles.

28.

In order to successfully irrigate a piece of ground it is necessary to have a sufficient head of water; that three acre feet of water measured at the point of diversion is sufficient to irrigate one acre; that a flow of one-eightieth of one second foot of water for 120 days will approximately supply such water; that a head of one-eightieth of a second foot per acre is inadequate for the purpose of irrigating one acre; that in order to irrigate any ground it is not necessary to keep a continuous flow of water upon each and every acre of the same; that it is necessary to irrigate each acre of land at more or less regular intervals throughout the growing season; that the intermittent use of water upon each acre of ground makes it possible for a set system of rotation, so that the head of water necessary for the irrigation of an acre of land can be obtained.

That in order to meet the foregoing condition the rights to the use of water from Hood River and its tributaries shall be limited to a continuous flow during the irrigation season of one-eightieth of one second foot per acre, or its equivalent in case of rotation, as provided herein, and that the total quantity diverted during the irrigation season shall not exceed three acre feet per acre, measured at the point of diversion.

29.

That all claimants herein to water for irrigation shall be entitled to use such water for stock and domestic purposes; that the right to the use of water for stock and domestic purposes is hereby confirmed and entitled the owner of such water right to divert and use such a quantity of water as is reasonably necessary for his household and stock use; the amount so diverted and used shall not exceed the rate of one-fortieth of one cubic foot per second for each one thousand (1000) head of stock and the quantity diverted for irrigation purposes during the irrigation season shall include when it is so diverted, such an amount as may be reasonably necessary for said stock and domestic purposes, and the right to divert and use the waters of said stream and its tributaries for stock and domestic purposes continues throughout the year.

30.

That the rights of appropriation hereby confirmed are appurtenant to the lands herein described for irrigation purposes, and the rights to the use of the waters of said stream and its tributaries by virtue of such rights of appropriation, are limited and confined to the irrigation of the lands herein described to the extent of said lands as herein set forth, and the priorities herein confirmed confer no right of use of the waters of said stream and its tributaries, on the lands other than those specified tracts to which such rights of appropriation are herein set forth as appurtenant, and each and every person shall be and hereby is prohibited, restrained and enjoined from diverting and using water from said stream on such other lands without permit from the State Engineer.

31.

That the order of the rights of the respective appropriators of the waters of said stream and its tributaries, and in which order they are entitled to divert and use the said water, shall be according to the date of relative priority of the rights as herein set forth and determined, and the first in order of time according to the date of relative priority shall be and is the first in order of right, and so on, down to the date of the latest priority, and those having prior rights are entitled to divert and use the waters of said stream and its tributaries, when necessary for beneficial use in connection with the irrigation of their respective lands, or other useful and beneficial purposes for which they are decreed a right of use at all times and against those having subsequent rights without let or hinderance, and whenever the water is not required by the appropriator having a prior right to its use for the purpose for which said water was appropriated, he must and shall permit it to flow down in the natural channel of the stream as it was wont to flow in its natural course, without hinderance or diversion thereof, and those having subsequent rights are entitled to the use of such water and to divert the same to the extent of their rights of appropriation, according to the order of their priority rights; and at all times the water shall be beneficially, economically and reasonably used without waste by those having a right to do so by reason of the priority of their rights, and no rights of appropriation are hereby confirmed to divert a greater quantity of water into the head of the ditch or ditches of the appropriator having a valid right to divert the water than such appropriator can beneficially use for the purpose to which the water is to be put.

That in the distribution of water, the Water Master may arrange systems of rotation in either of the following manners:

1. By arranging a period of irrigation for the lands of a number of appropriators, then by giving to one of such appropriators all of the water belonging to the lands included in the system of rotation for a length of time proportionate to the period of irrigation as the amount of water to which he is entitled bears to the whole amount of water to which all the appropriators in such system are entitled, and so on, for each appropriator, until all of the appropriators under the system of rotation are served; and such distribution of water shall be repeated in the same manner throughout the irrigation season.

2. Where two or more appropriators agree among themselves as to the manner of rotation as to the use of water, the Water Master shall distribute the water in accordance with such agreement, provided rights of other parties are not interfered with, and provided further that such agreement is in writing and on file with the Water Master.

That the name and address of each appropriator of water from Hood River and its tributaries arranged in a tabulated form, together with the date of relative priority of the appropriations, the number of acres to which such appropriations are applied, the use or uses for which said water was applied and is now applied and to which said use is limited, the name of the ditch or ditches through which such appropriations are diverted, the name of the stream or streams from which such appropriations are diverted, and the description of the land upon which such water is used, the tabulated rights of each appropriator being set opposite and following the name and post office address of each such appropriator, are as follows, to-wit:

(Note: In the following tabulation the amount of water to which the appropriations are entitled is stated only for uses other than irrigation. For the amount of water allowed for irrigation purposes, see Paragraph 28)

R. 10 E. W. M.</p>

The following appropriators have in their statements and proofs of claim showed that their appropriations have not been completed, and have applied to the State Water Board to prescribe the time within which the said amount of water appropriated shall be applied to a beneficial use. And it appears to the State Water Board that the appropriations of said appropriators, and each of them, were initiated prior to February 24, 1909, and that actual construction work had been commenced in good faith prior to said date. In the tabulation hereinafter set forth the State Water Board defines the conditions of development of such water rights at the time of filing said claims, and fixes the time within which the water appropriated by such appropriators shall be applied to a beneficial use. The extent of such appropriations shall be limited to such an amount or volume of water as may have been put to a beneficial use by the expiration of the time fixed in this finding, (or such further time as may be granted by the State Water Board upon proper application and showing). And although in the following tabulation the number of acres yet to be irrigated in each forty acre tract are for convenience described insofar as the same could be reasonably ascertained, in the final determination of the extent of such appropriations such rights shall not be limited to the exact acreage described, so long as the total acreage irrigated by each appropriator shall not exceed that for which a right is herein granted. The name and address of each appropriator of water of said stream and its tributaries who has not completed such appropriation are hereafter in this finding arranged in alphabetical form, together with the date of relative priority of each of such appropriations, the limiting date for the complete application to a beneficial use of the full amount of water appropriated, the number of acres for which the appropriation was made, the use or uses for which such water was appropriated and is to be applied, the name of the ditch or ditches through which such appropriation is to be diverted, the name of the stream or streams from which such water has been appropriated, and description of the lands in each legal subdivision for which the appropriation was made and upon which such water is to be applied to a beneficial use, and a description of the lands upon which such water has been applied to a beneficial use at the time of the filing of the claim, are as follows, to-wit:

T 1 S. R. 10 E. W. M.

Mt. Hood Water S. (see p. 249)

And it is hereby CONSIDERED, ORDERED AND DECREED that the relative rights of the various claimants to the use of the waters of Hood River and its tributaries be and the same are hereby adjudicated, determined and settled in accordance with the tabulation and findings as hereinbefore set forth.

Thereupon, upon the rendition of said decree In the Matter of the Determination of the Relative rights of the Various Claimants to the Use of the Waters of Hood River and its Tributaries, a Tributary of the Columbia River, in Hood River County, Oregon, Pacific Power & Light Company, a corporation, a claimant to the waters of said Hood River and a contestant in and party to said proceeding, appearing by Henry S. Gray, one of its attorneys in said proceeding, gave oral notice of appeal in open court that it, said Pacific Power & Light Company, appeals to the Supreme Court of the State of Oregon from said decree and from the whole thereof, save and except that portion thereof which awards to Oregon Lumber Company 335 second feet of the waters of the East Fork of said Hood River with priority as of September, 1905, and said notice of appeal was thereupon ordered by the court to be entered in the Journal of the Court.

And now comes the East Fork Irrigation District, a municipal corporation, one of the contestants herein, by George R. Wilbur, its attorney of record, and in open court, and at the same time the foregoing Decree is made, gives Notice that it appeals to the Supreme Court of the State of Oregon from that particular portion of the foregoing Decree wherein and whereby there is allowed and decreed to the Mt Hood Water Company, a corporation, water from the East Fork of the Hood River for irrigation and domestic purposes as of a priority date of October, 1895.

And also comes Glacier Irrigating Company, a corporation, one of the contestants herein, by George R. Wilbur, its attorney of record, and in open court, and at the same time the foregoing Decree is made, gives Notice that it appeals to the Supreme Court of the State of Oregon from that particular portion of the foregoing Decree wherein and whereby there is allowed, tabulated and decreed to the Oregon Lumber Company, a corporation, water from the East Fork of the Hood River for power purposes to the extent of 322 second feet, and with and as a priority date of September, 1905.

Thereupon, the Mount Hood Water Company, one of the claimants herein, by its attorney J. H. Hazlett, gave notice in Open Court of its appeal to the Supreme Court of the State of Oregon from that part of the Decree wherein the rights of the said Mount Hood Water Company are limited to sufficient water to irrigate 433.5 acres of land

as of the date October, 1895; and said Notice of Appeal was thereupon ordered by the Court to be entered in the Journal.

Thereupon, at the time the foregoing decree on this matter bearing this date was signed and entered said Oregon Lumber Company, one of the claimants in the above entitled matter, appearing by Huntington & Wilson, its attorneys, gave notice in open court that said Oregon Lumber Company appeals to the Supreme Court of the State of Oregon from said decree and from all portions thereof, save and except the following portions of said decree.

(1) That portion of said decree relating to contenst numbered 2, in which Holland-Washington Mortgage Company, a corporation, P. P. Dabney, 310 Yeon Building, Portland, Oregon, is contestant and Catherine Rathbun of Hood River, Oregon, is contestee.

(1) That portion of said decree relating to contest numbered 7, in which Hood River Irrigation District, a municipal corporation, is contestant and Pacific Power & Light Company, a corporation, is contestee.

(3) That portion of said decree relating to contest numbered 8, in which Hood River Irrigation District, a municipal corporation, is contestant and Frank C. Sherrieb of Hood River, Oregon, is contestee.

(4) That portion of said decree relating to contest numbered 9, in which said Hood River Irrigation District is contestant and Belle Sherrieb of Hood River, Oregon, is contestee.

(5) That portion of said decree contained in paragraph 23 thereof relating to appropriations from Ditch Creek.

(6) That portion of said decree contained in paragraph 26 thereof relating to claims of Stanley Smith Lumber Company and Hood River Irrigation District.
