

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR  
THE COUNTY OF UNION.

IN THE MATTER OF THE DETERMINATION OF THE  
RELATIVE RIGHTS OF THE VARIOUS CLAIMANTS  
TO THE USE OF THE WATERS OF GRANDE RONDE  
RIVER ABOVE THE MOUTH OF GORDON CREEK AND  
OF ALL ITS TRIBUTARIES ABOVE SAID POINT,  
INCLUDING GORDON CREEK, EXCEPT MILL CREEK, HERETOFORE  
ADJUDICATED, IN UNION COUNTY, OREGON.

Now at this time the above entitled matter coming on for consideration by the Court, and it appearing that certain appeals were taken from the former decree of this Court as entered March 13th, 1924, and that mandates of the Supreme Court were filed with the Clerk of this Court February 16, 1925, modifying said decree of this Court as to the rights allowed to E. E. Grout and to the estate of George Gekeler, and that otherwise no changes have been made in the water rights adjudicated to the respective claimants, as set forth in the findings of the State Water Board dated the 10th day of April, 1913, and supplemental findings of said Board dated the 22nd day of June, 1921, as modified by said decree of this Court, and it further appearing that a final consolidated decree may now be entered completely describing all rights, as provided by said decree, it is

CONSIDERED, ORDERED, ADJUDGED AND DECREED, that the relative rights of the various claimants to the use of the waters of GRANDE RONDE RIVER above the mouth of Gordon Creek, and all of its tributaries above said point, including Gordon Creek, excepting Mill Creek, heretofore adjudicated, are hereby adjudicated, determined and settled as follows, to-wit:

1.

That the Grande Ronde River rises in the southwest part of Union County in the Blue Mountains and flows in a northerly direction and easterly direction through the Grande Ronde Valley, and empties into the Snake River; that from the mouth of Gordon Creek to Snake River the river flows through a long narrow canyon, and there is very little or no irrigation from the stream; that Catherine Creek rises in the southeast part of Union County and flows in a northerly and westerly direction until it empties into the Grande Ronde River near Cove, Oregon.

That the land irrigated from said river and its tributaries is arid land and irrigation is necessary for the raising of profitable crops; that said stream is a perennial stream and that various appropriations of water users have been made therefrom under the laws of the State of Oregon existing at the time of

the initiation of such water rights.

2.

Contest No. 2

George Hempe, et al.,

Contestants,

vs.

Amalgamated Sugar Company, A. T. Hill, H. E. Coolidge and  
Floyd McKennon,

Contestees.

Contest No. 3.

George Hempe, et al.,

Contestants,

vs.

G. W. Benson, S.I. Benson and Dick Benson, individually and as  
partners, doing business under the firm name and style of Benson Brothers.

Contestees.

Contest No. 4.

George Hempe, et al.,

Contestants,

vs.

W.J. Townley, Myrtle McNaugh and Mr. McNaugh,

Contestees.

That these contests were settled by the decision and decree of the  
United States Court for the District of Oregon, together with the stipulation  
of the parties to the said contests. Said stipulation was signed by all parties  
except the Amalgamated Sugar Company, and is as follows:

"Whereas, the above named contestants have an interest in and  
to the waters of Catherine Creek for irrigation purposes and have made use of such  
water right through various ditches named and described in their respective proofs  
of claim and particularly that certain ditch known as the Swackhamer ditch and the  
ditch known as the Hempe-Wright-Hutchinson ditch and other ditches, and that  
certain ditch known as Godley ditch No. 2, the Stoddard ditch and ditches "A" and  
"B", as a part thereof and other ditches, and

"Whereas, the date of priority of the Swackhamer-Hutchinson-  
Schoonover ditch above mentioned is September 6th, 1896, and of the Hempe-Wright-  
Hutchinson ditch is March, 1905, and of the Godley ditch No. 2, is the year 1884,  
as to the contestants herein, and

"Whereas, the said contestants as the interested parties in said  
~~certain contests against George Benson, S. I. Benson, and J. A. Benson, individually and as partners, doing business under the firm name and style of Benson Brothers, and who are the owners of the following described lands:~~

"All that part of the north half of the southwest quarter of Section three (3) lying west of Catherine Creek, and all that part of the west half of the northwest quarter of Section three (3) lying west of Catherine Creek; also the northeast quarter and the north half of the southeast quarter of Section four (4) T. 4 S.R. 39 E.W.M., and who, as such owners have filed claims to the rights to the use of waters of Catherine Creek for irrigation purposes, which said claims are now on file with the Superintendent of Water Division No. 2, and to which reference is hereby made for all the information therein contained, and which proofs of claim are by such reference made a part of this stipulation, and

"Whereas, W.J. Townley, one of the contestees above named, is the owner of the following described land:

"The north half of the northeast quarter and the northeast quarter of the northwest quarter of Section nine (9) and the east half of the southwest quarter of Section four (4) Township four (4) South, Range thirty-nine,(39) E. W.M., for which said lands the said Townley claims a right for irrigation purposes to the waters of Catherine Creek by and through a ditch called Sugar Beet Irrigation Company's ditch, claims respecting which are now on file with the Superintendent of Water Division No. 2 and to which reference is hereby made, and by such reference said claims are made a part of this stipulation. And said Townley is also the owner of the north half of the northwest quarter of section four (4) and the northeast quarter of the northwest quarter of Section four (4), and the north half of the northeast quarter of Section five (5), and the north half of the northwest quarter of Section five (5) Township four (4), South, Range 39 E. W. M., also Section thirty-two (32) the west half of Section thirty-three (33), the southwest quarter of the southeast quarter of the southeast quarter of section thirty-three (33), also the south seventy acres of the south half of the southwest quarter of section twenty-nine (29), also the south fifty acres of the south half of the southeast quarter of Section twenty-nine (29), Township three South, Range thirty-nine, (39), E.W.M., for which said lands rights for irrigation purposes to the waters of Catherine Creek have been claimed and proofs of claim are now on file with Superintendent of Water Division No. 2 of the State of Oregon, to which reference is hereby made for all the information contained

therein, and by such reference said claims are made a part hereof, and

"Whereas, said lands last above described were not a part nor was said Townley a party to the litigation hereinafter mentioned wherein Amalgamated Sugar Company was complainant and Frank Hempe, et al., who are contestants herein were defendants, which suit has been and now is pending for final decree in the District Court of the United States for the District of Oregon, and

"Whereas, the said W. J. Townley is also the owner of the following described lands:

"All that part of Section Thirty-four (34) Township three South, Range thirty-nine (39) E.W.M., lying west of Catherine Creek, (by Catherine Creek we include what is known as and called Nodine Cutoff, the same now carrying all the waters and in the principal channel of Catherine Creek); also the east half of the southeast quarter, the northwest quarter of the southeast quarter of Section thirty-three (33), Township and Range aforesaid; also the southeast quarter of Section twenty-eight (28); and also that part of the southwest quarter of Section twenty-seven, township three (3) South, Range thirty-nine, E.W.M., lying west of Catherine Creek, and which said lands last above described are lands to which said Townley has succeeded to the title thereto from the Amalgamated Sugar Company, a predecessor in interest and claims for the irrigation of which from the waters of Catherine Creek by said Townley have been made and are now on file with the Superintendent of Water Division No. 2, of the State of Oregon, to which proofs of claim reference is made for all of the information therein contained, and by such reference said claims are hereby made a part hereof, and

"Whereas, generally speaking, the claims to water by the said Benson Brothers, Townley, Myrtle McMaugh, Logan and Earl McMaugh, have indicated a date of priority for the use of said waters, antedating those of the contestants herein, and by reason thereof, these contests as above described and entitled have been initiated, and

"Whereas, the parties to said contests, both contestants and contestees, are desirous of mutually settling, determining and having such settlement and determination approved and entered of record of all the matters in dispute between them of and concerning the use of the waters of Catherine Creek,

"NOW THEREFORE, in consideration of the mutual agreements and dependent promises of each other and for the promises aforesaid, the parties hereto, their respective attorneys, and their successors, heirs and assigns do hereby agree

and stipulate as follows:

"1. That the duty of water as applied to the lands of the parties to this contest shall be in the amount per acre and according to the decree of the State Water Board of the State of Oregon.

"2. That the location and capacity of the ditches of the respective parties is and shall be as the same exists or is shown of record in the respective claims of the water users, parties to these contests, and as found to be the facts and entered of record by and decrees made by the State Water Board, it being understood that there is now in existence and without describing each particular ditch, appropriate ditches, covering the lands of the parties contestant and contestee to this proceeding by which the waters of Catherine Creek are and have been applied to the irrigation of said lands.

"3. The date of priority of Godley Ditch No. 2, and Stoddard Ditch, include therein, and ditches "A" and "B", laterals therefrom, as to and for contracts herein; has been fixed by decree of the district court of the United States for the district of Oregon in the case of Amalgamated Sugar Company, vs. Frank Hempe, et als, to be the year 1884, and Benson Brothers, by this stipulation agree to amend their claims so far as the same shall effect the rights of the contestants to the use of any of the waters of Catherine Creek so that the date of priority to the use of the waters of Catherine Creek in any of the ditches extending therefrom and covering their lands, shall be identical with the date of priority of Godley Ditch No. 2, namely, 1884, and the said W.J. Townley, as to all land owned by him except those lands covered by the Sugar Beet Irrigation Company's ditch, shall amend his proofs of claim so far as the same shall affect the rights and interests and dates of priority of the contestants above named to a date the same and identical with that of Godley <sup>ditch</sup> No. 2, namely, the year 1884, and as to the lands covered by the Sugar Beet Irrigation Company's ditch, the priority date will be as allowed by the State Water Board, and if the proof of claim in respect to that ditch requires amendment to conform, same will be made.

"4. It is understood and agreed that the lands, claims for water for which have been made by Myrtle Mc Maugh Logan and Earl McMaugh are now leased by Benson Brothers, and are included in this stipulation under that ownership, and that the said Mc Maugh Logan lands shall take a priority date of 1884, identical in time with that of Godley Ditch No. 2 in like manner as the water rights to the lands of Benson Brothers is hereby fixed.

"5. It is further agreed and stipulated that the owners who are contestants herein, having water rights through Godley Ditch No. 2, and the contestees

above mentioned using water from Catherine Creek for irrigation purposes, as of a date of priority of 1884, through any and all ditches now existing shall use the waters to the extent of their respective rights thereto in common and in rotation in such manner as may be agreed upon by the parties hereto or their successors and assigns, and if unable to agree, then as fixed and determined by the decree of the State Water Board of the State of Oregon, to the end that neither of the rights having a date of priority of 1884 shall be prior to the other but shall, at all times, be equal in right and identical in time. The water available under said right to be used in common and in quality identical in time and to be used continuously during each irrigating season henceforth until July 10th of each year, and from and after July 10th of each year to and inclusive of August 10th of each year, the contestee, Townley, Myrtle McMaugh Logan, Earl McMaugh, and Benson Brothers, individually and as partners and those of contestants and their successors, heirs and assigns, who are owners and using water from Godley Ditch No. 2 and Stoddard ditch and laterals "A" and "B", shall not as against those of the contestants, their successors, heirs and assigns, who are owners in and irrigating their lands from Hempe-Wright-Hutchinson ditch and Swackhamer-Hutchinson-Schoonover ditch except as to waters passing their headgates of either of those ditches, use the waters of Catherine Creek for irrigation, but continuously after August 10th of each year the relative rights of the contestants and the contestees to the use of the waters of Catherine Creek shall be and remain identical in time and right as heretofore defined with respect to the use thereof from the beginning of the irrigation season to July 10th of each year, and shall be used in common and in rotation in the same manner as the same is provided for, for the time prior to July 10th, provided, however, that after August 10th of each year, the owners and water users, their successors, heirs and assigns in Hempe-Wright-Hutchinson ditch and Swackhamer-Hutchinson-Schoonover ditch shall be entitled to such an amount of water solely for stock water purposes in common with the balance of the parties hereto contestants and contestees, to the extent as is customarily allowed by the State Water Board for such purposes.

"6. This stipulation and agreement shall be deemed binding upon the parties to these contests, and upon their heirs, executors and administrators, successors and assigns, inuring to the benefit of each according to their respective interests.

"7. This stipulation and agreement also shall be taken as and for a correct definition, proof and establishment of the respective rights of the parties hereto, their heirs, administrators, successors and assigns in respect to all matters at issue in this contest and shall be binding upon the parties before the State Water Board of the State of Oregon, or any of the courts of the State of Oregon or of the United States, where said matters are now in controversy, or to which they may be hereafter taken.

"8. The dates of priority of the individual claims of the contestants reflected by their proofs of claim which are filed herein shall be taken as and for the correct dates of priority, and any decree, so far as the parties hereto are concerned that may hereafter be entered respecting the administration of the waters of Catherine Creek and the respective rights of the users therein shall be in accordance with this stipulation and their respective claims, as the same now exist or may be amended pursuant to this stipulation insofar as the same affects the parties hereto.

"9. There is attached hereto a map of the lands covered by the various ditches taken from Catherine Creek, whereby the waters of such creek are applied to said lands, for irrigation purposes, and in which the lands for each owner is distinctively marked thereon. Same is attached to further identify and explain this stipulation, and which map is marked Exhibit "A" and made a part of this stipulation.

"10. By the term, irrigation purposes, as used in this stipulation, the parties mean the use of water for irrigation, domestic use, and stock water, which said uses are to be included in any rights decreed under this stipulation.

"11. This stipulation is to include in its scope all of the contests mentioned in the above title.

"12. It is further stipulated that inasmuch as a portion of the lands described in this stipulation are contained within the meandered lines of Tule Lake according to the Government survey that so far as such lands are contained within such meandered line the same is described in the manner as it would be if said Government survey as to sectionizing had been extended thereto.

Dated at La Grande, Oregon, this 25th day of February, 1918.

(Signed)      B. F. Wilson,  
                  C. E. Cochran, Attorneys for Contestants  
                  Crawford & Eakin, Attorneys for Contestees".

That the decree of said United States Court covers all of the lands now owned by the Amalgamated Sugar Company, and said stipulation covers all of the lands owned by said Benson Brothers, Townley, Logan and McMaugh.

That the tabulation hereinafter set forth tabulates the water rights of the Amalgamated Sugar Company in accordance with said decree.

That the water rights of the lands now owned by the Benson Brothers, Townley, Logan and McMaugh are tabulated in accordance with their claims except such water rights as were transferred from the Amalgamated Sugar Company to Townley, which are tabulated in accordance with this stipulation; that the water shall be distributed upon the lands of contestants and contestees, except the Amalgamated Sugar Company, in accordance with the stipulation set out herein; and as to the lands of the Amalgamated Sugar Company, the water shall be distributed to such lands in accordance with the date of priority set forth in said tabulation, but as between the contestants and contestees who signed said stipulation on the one side and third persons not parties to said stipulation on the other side, said water shall be distributed in accordance with the dates of priority as set forth in the *tabulation* ~~stipulation~~ herein.

The exceptions of the Pioneer Flouring Mill Company and the Irrigation Canal Company and E. E. Grout are settled by the decree in a suit wherein the Island City M. & M. Company was plaintiff and Orodell Canal Company, Irrigation Canal Company, People's Irrigation Canal Company, and City of La Grande, George Gekeler, Homer Nessley, M. Baker, L. Oldenburg, J. E. Hough, F. Gardinier, J. S. McWhirter, Georgie Messner, Jos Richardson, Frank Nessley, Charles Nessley and John Nessley were defendants. The Pioneer Flouring Mill Company is successor in interest of the plaintiff in the above entitled suit, and by such decree said Pioneer Flouring Mill Company is entitled to divert 1500 miner's inches from the Grande Ronde River for use between the first day of September of each year and the first day of July of the following year, and 100 miner's inches between the first day of July and the first day of September of each year. The Orodell Canal Company is the same party as is named the Orodell Ditch Association in the tabulation in the findings of the State Water Board, and by such decree said Orodell Ditch Association is entitled to divert 100 miner's inches between September first of each year and May first of the following year, 500 miner's inches between May first and July first of each year, and 200 miner's inches between July first and September first of each year, but at no time shall said Orodell Ditch Association divert more than half the flow of the river. By said decree the rights of the Irrigation Canal Company are all subsequent to the rights of said Pioneer Flouring Mill Company, and the rights of all other defendants in said suit are subsequent to the rights of the Pioneer Flouring Mill Company.

In the mutual contests filed by Andrew Anderson and Ansel Comstock, the issues were formed concerning a certain tributary of Murphy Creek known as Spring Branch, and also as to certain springs rising on the lands of Andrew Anderson, and it was stipulated by and between the parties that Andrew Anderson should have the exclusive use of the spring from which said Anderson has run pipes for domestic use, and that as to the other springs rising upon his lands, and the said branch of Murphy Creek which is called Spring Branch, both parties shall have a right to the use of the waters thereof under date of 1864.

As to the exceptions of Joe Clark and H. H. Taylor, wherein the parties are contesting the rights as established by the Order and Findings of the State Water Board, such exceptions were settled by stipulation herein, it being agreed by and between the parties that neither of said parties shall have any priority over the other, but that each of them shall have an equal right to the use of the waters of Spring Creek or Spring Branch, from which both parties are using water, and that each of the parties shall have the right to irrigate 20 acres with equal priority. That any other acreage irrigated by either party shall be subsequent in time to the twenty acres irrigated by the other party. That the tabulation herein contained shall be modified by this stipulation as to the use of water, and the water master shall divide the water equally between them for the irrigation of twenty acres each, and in case there is more water than is sufficient to irrigate forty acres, then he may give to either of the parties hereto additional water for the irrigation of other land.

Exceptions of M. W. Mitchell and wife for the irrigation of ten acres described as the NW<sup>1/4</sup> SE<sup>1/4</sup> of Section 16, T. 3 S.R. 40 from the springs rising on claimant's lands and also from springs extending to the claim of G.M. Baker, were settled by stipulation, and an additional supply of water for the irrigation of said lands is allowed from springs rising on the lands of G.M. Baker, but the use of said water from the springs rising on the lands of G.M. Baker shall in no way interfere with or prevent the use of such water upon the lands of said G.M. Baker, it being intended to give only the surplus water to said lands after the rights of said G.M. Baker to the use of such water have been satisfied. As to Murphy Creek, mentioned in said stipulation, the dates of priority are the same, said stipulation providing for equal division of the waters from said Murphy Creek; and the water master shall so divide said waters in accordance with such dates of priority.

Also as to the exceptions of the Mitchells to the claim of Emma E. Pixton, where the right to the use of water from springs rising on the lands of Emma E. Pixton, is also claimed for said described land, the right to the use of such water is first given to Emma E. Pixton, and any surplus water that there may be may be used as a supplemental right upon the lands of said M. W. Mitchell and wife, in the same manner and with the same effect as the water from the springs rising on the lands of G. M. Baker.

7.

That as shown by the exception of Carrie Hunter and Pearl Harrison, the streams from which appropriations are made by S.A. Pennick, E.D. Whiting and E. L. Whiting are the same streams which furnish water to Hunter Canyon Creek, from which W. G. Hunter Estate has an appropriation; and that in the suit wherein W. G. Hunter was plaintiff and F.M. Stanley and Harry Huntley were defendants, in the Circuit Court of the State of Oregon for the County of Union, the rights of the predecessors in interest of E. D. Whiting, E.L. Whiting and S. A. Pennick were decreed inferior to the right of the said W.G. Hunter.

The original tabulation of the rights of the W.G. Hunter Estate should stand as rights superior to those of the said S. A. Pennick and E.D. Whiting and E.L. Whiting, as tabulated herein.

8.

As to the various exceptions involving the use of the waters of Warm Creek, it appears that Warm Creek flows in a westerly direction through Sections 11, 10, 9 and 8 in T. 3 S.R. 40 E.W.M., that in the SE<sup>1</sup><sub>4</sub>NW<sup>1</sup><sub>4</sub> of Section 11, Warm Creek divides into two branches, the northerly branch flowing westerly through the NW<sup>1</sup><sub>2</sub> SW<sup>1</sup><sub>2</sub> of Section 10 and the NE<sup>1</sup><sub>2</sub> SW<sup>1</sup><sub>2</sub> of Section 9, and the south branch taking a southeasterly course from said point through the NE<sup>1</sup><sub>4</sub>SW<sup>1</sup><sub>4</sub> of Section 11, and thence through the SW<sup>1</sup><sub>2</sub> SE<sup>1</sup><sub>2</sub> of Section 10 and Section 9 respectively, that at a point on the SW<sup>1</sup><sub>4</sub>SE<sup>1</sup><sub>4</sub> of Section 10, the south branch of Warm Creek again divides and the most southerly branch thereof for a distance flows through the NW<sup>1</sup><sub>2</sub> NW<sup>1</sup><sub>4</sub> of Section 15. The use of water from all of these branches has been in a way to take and use all of the water that might come down either branch, and in some instances water users have gone to the point where the stream divides and turned all the water down either one or the other of the branches, according as to which branch such water user would be using the water from. In the development of the lands about the same

amount of water has been used upon the lands irrigated from the north fork as has been used upon the lands irrigated from the south fork. Springs arising along the stream and upon the lands irrigated from the stream supplement the supply from each of the creeks, and at low water time of the creek, in many instances supply all of the water used for irrigation upon certain particular pieces of land. It appears, therefore, that the water should be divided equally at the division point in the SE<sup>1</sup><sub>4</sub>NW<sup>1</sup><sub>4</sub> of Section 11, and it is therefore ordered that division boxes be placed at the dividing point of said stream by the water users interested, and that such division boxes be placed in accordance with the plans and specifications to be furnished by the water master, and under his supervision, and such division boxes shall be so placed as to divide the water equally between the north and south branches of said stream.

As to the division point in the SE<sup>1</sup><sub>4</sub>SE<sup>1</sup><sub>4</sub> of Section 10, it appears that a number of years ago a part of the northerly branch of said south branch was covered over with a conduit to carry the water, and that the water for the Dean place in the SW<sup>1</sup><sub>4</sub>SW<sup>1</sup><sub>4</sub> of Section 10 was run down through this conduit, and the balance of the water went through the most southerly branch of the stream; that for the irrigation of the Payne Estate in the NW<sup>1</sup><sub>4</sub> of Section 15, ditches were dug from the most northerly of said branches of the south branch of Warm Creek and diversion made in the SE<sup>1</sup><sub>4</sub>SW<sup>1</sup><sub>4</sub> of Section 10, and carried in a southerly direction to the most southerly branch, and onto the lands of the Payne Estate. Such diversion will be subject to the water needs of the Dean lands in the SW<sup>1</sup><sub>4</sub>SW<sup>1</sup><sub>4</sub> of said Section 10, and any diversion made by the Conklin Estate from the most northerly branch of said south fork of Warm Creek would be subject to their rights. In order to provide such rights, it appears that Dean should have the right to repair and place in good condition the conduit through which Warm Creek has heretofore flowed water for the irrigation of his lands, and that not more than one-fourth of the water of Warm Creek should be diverted through that conduit; and if there is more water in said stream than necessary for use upon the Dean lands, then the Conklin Estate shall have the right to divert that extra amount. Provided that the owners of the Conklin Estate lands shall have the first right to the use of the waters from the springs rising on said Conklin Estate lands, and on the Payne Estate lands, to the extent that same are beneficially used.

, the dates of priority as tabulated  
As between Stackland and Love  
herein will control the distribution of water. The nature of use upon the lands shall be left to the owner of each piece of land.

It appears that the waters of Ladd Creek should be divided between the two branches thereof. Said creek flows in a northerly direction, and upon emerging from the canyon in which it arises it divides into two branches called the East Branch and the West Branch, and the waters of Ladd Creek should be divided equally between the two said branches. Upon the waters of said Ladd Creek defraying the expenses, a concrete division box should be installed at the forks of said creek, under the superivision and specifications of the water master.

## 10.

As to the exceptions of J. F. Dobbin relative to the lands irrigated by the Sugar Beet Irrigation Company, it appears that he has purchased certain lands lying West of Catherine Creek, amounting to approximately 17.73 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ , 2.75 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 10, 15.93 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$  and 3.6 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 3, all in T. 4 S.R. 39 E.W.M. That such lands were tabulated under the name of the Amalgamated Sugar Company as being irrigated through the Sugar Beet Irrigation Company's ditch, and as it appears that J.F. Dobbin is successor in interest in the ownership of said lands, and that such water right was transferred with the land, which stands in his name, that said water right should also stand in his name in this decree, and it is so ordered.

## 11.

That the lands tabulated herein under the names of W. A. Elmer, E. H. Shaw, and B. W. Bates are irrigated from the north fork of Little Creek through a ditch known as the Elmer ditch, and the parties using said ditch have agreed that the waters in said ditch shall be distributed 65% to W. A. Elmer, 25% to E. H. Shaw and 10% to B.W. Bates. The water master shall distribute the water according to said agreement until changed by further agreement, between said parties.

## 12.

That F. H. Johnson, D. W. Murchinson, J. H. Patrick and Jerry Veatch appeared in the proceedings and desired to file a stipulation relative to the use of water from McDonald Creek, a tributary of Grande Ronde River, and thereupon did file such a stipulation; and from such stipulation it appears that each party shall pay his pro rata expense toward the keeping up of the ditch from which he uses water, and if only one party uses water from such ditch, then he shall keep it up himself. That Jerry Veatch has the first right to the use of the water of said creek in the same manner and to the same extent as he now uses it. That the other users of water shall use the same equally in proportion to the number of acres irrigated, and the water master of the county shall have the right to arrange a system of rotation

between the users so as to best conserve and use the water, and as nearly as possible give to each party the time of use in proportion to the number of acres that he irrigates.

13.

In order to successfully irrigate a piece of ground it is necessary to have a sufficient head of water; that three acre feet of water is sufficient to irrigate an acre of ground; that a flow of one-eightieth second foot of water for 120 days will approximately supply such water; that a head of water of one-eightieth second foot is inadequate for the purpose of irrigating an acre of ground; that in order to irrigate any ground it is not necessary to keep a continuous flow of water upon each and every acre of same; that it is necessary to irrigate each acre of land once in every three or four weeks in each growing season; that the intermittent use of water upon each acre of ground makes it possible for the arrangement of a satisfactory system of rotation, so that the head of water necessary for the irrigation of an acre of land can be increased.

In order to irrigate an acre of land a head of water of one miner's inch under a six inch pressure or 1-40 of a second foot is necessary and the water master is hereby directed to formulate systems of rotation whereby irrigators from said stream and its tributaries may have a head of water of one-fortieth second foot per acre.

14.

That all claimants herein to water for irrigation shall be entitled to use such water for stock and domestic purposes; that the right to the use of water for stock and domestic purposes is hereby confirmed and entitles the owner of such water right to divert and use such a quantity of water as is reasonably necessary for his household and stock use; the amount so diverted and used shall not exceed the rate of one-fortieth of one cubic foot per second for each one-thousand (1000) head of stock and the quantity diverted for irrigation purposes during the irrigation season shall include when it is so diverted, such an amount as may be reasonably necessary for said stock and domestic purposes, and the right to divert and use the waters of said stream and its tributaries for stock and domestic purposes continues throughout the year.

15.

That the rights of appropriation hereby confirmed are appurtenant to the lands herein described for irrigation purposes, and the rights to the use of the waters of said stream and its tributaries by virtue of such rights of

appropriation, are limited and confined to the irrigation of the lands herein described to the extent of said land as herein set forth, and the priorities herein confirmed confer no right of use of the waters of said stream and its tributaries, on the lands other than those specified tracts to which such rights of appropriation are herein set forth as appurtenant, and each and every person shall be and hereby is prohibited, restrained and enjoined from diverting and using water from said stream on such other lands without lawful permit from the State Engineer.

16.

That the order of the rights of the respective appropriators of the waters of said stream and its tributaries, and in which order they are entitled to divert and use the said water shall be and is according to the date of the relative priority of the right as herein set forth and determined, and the first in order of time according to the date of relative priority shall be and is the first in order of right, and so on, down to the date of the latest priority, and those having prior rights are entitled to divert and use the waters of said stream and its tributaries, when necessary for beneficial use in connection with the irrigation of their respective lands, or other useful and beneficial purposes for which they are decreed a right of use at all times and against those having subsequent rights without let or hinderance, and whenever the water is not required by the appropriator having a prior right to its use for the purpose for which said water was appropriated, he must and shall permit it to flow down in the natural channel of the stream as it was wont to flow in its natural course, without hinderance or diversion thereof, and those having subsequent rights are entitled to the use of such water and to divert the same to the extent of their rights of appropriations, according to the order of their priority rights; and at all times the waters shall be beneficially, economically and reasonably used without waste by those having a right to do so by reason of the priority of their rights, and no rights of appropriation are hereby confirmed to divert a greater quantity of water into the head of the ditch or ditches of the appropriator having a valid right to divert the water than such appropriator can beneficially use for the purpose to which the water is to be put.

17.

That in distributing the water, the water master may arrange systems of rotation in either of the following manners:

1. By arranging a period of irrigation for the lands of a number of appropriators, then by giving to one of such appropriators all of the water belonging

to the lands included in the system of rotation for a length of time proportionate to the period of irrigation as the amount of water to which he is entitled bears to the whole amount of water to which all the appropriators in such system are entitled, and so on, for each appropriator, until all of the appropriators under the system of rotation are served; and such distribution of water shall be repeated in the same manner throughout the irrigation season.

2. Where two or more appropriators agree among themselves as to the manner of rotation as to the use of water the water master shall distribute the water in accordance with such agreement, provided rights of other parties are not interfered with, and provided further that such agreement is in writing and on file with the water master.

That at all times when there is more water in the stream than is necessary for the irrigation of the lands irrigated from the stream there shall be no restriction upon the water users in using such surplus water.

18.

That the name and address of each appropriator of water from the Grande Ronde River and its tributaries arranged in a tabulated form, together with date of relative priority of such appropriators, the number of acres to which such appropriation is applied, the use or uses for which said water was applied and is now applied and to which said use is limited, the name of the ditch or ditches through which such appropriation is diverted, the name of the stream or streams from which such appropriation is diverted and the description of the land upon which such water is used, the tabulated rights of each appropriator being set opposite and following the name and the post office address of each such appropriator, are as follows, to-wit:

| Name and Postoffice Address of Appropriator                                                      | Date of Relative Priority | Amount Cubic Feet Per Second | Number Acres | Use                           | Name of Ditch         | Stream | Description of Land or Place of Use                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

Done and Dated this 8th day of August

1925 at La Grande, Oregon.

J. W. Knowles  
CIRCUIT JUDGE

STATE OF OREGON)  
ss  
County of Union)

I, C. K. McCormick, County Clerk and Ex-Officio  
Clerk of the Circuit Court of Union County, State of Oregon, do hereby  
certify that the foregoing copy of decree in the matter of the Determin-  
ation of the Relative rights of the various claimants to the use of the  
Waters of Grande Ronde River above the mouth of Gordon Creek and of all  
its Tributaries above said point, including Gordon Creek, except Mill  
Creek, heretofore adjudicated, in Union County, Oregon, has been  
compared by me with the original, and it is a correct transcript there-  
from, and of the whole of such original decree as the same appears of  
record in my office and in my custody.

IN WITNESS WHEREOF, I have hereunto set my hand and  
affixed the seal of said Court this 19th day of August, A.D., 1925.

C. K. MCCORMICK, COUNTY CLERK,

By L. Graham Deputy.

GRANDE RONDE RIVER - 107

STATE OF OREGON )  
              ) ss.  
County of Marion )

I, Rhea Luper, State Engineer of Oregon, do hereby certify that the foregoing copy of Decree in the matter of the determination of the relative rights to the use of the waters of Grande Ronde River has been by me compared with the original, and that it is a true and correct copy therefrom, and of the whole thereof as the same appears of record in my office and custody.

IN WITNESS WHEREOF, I have hereunto set my hand this 2nd day of November,  
1925.

  
Rhea Luper,  
State Engineer.
