

IN THE CIRCUIT COURT OF THE STATE OF OREGON

FOR BAKER COUNTY.

IN THE MATTER OF THE DETERMINATION)
OF THE RELATIVE RIGHTS OF THE VARIOUS)
CLAIMANTS TO THE USE OF THE WATERS OF) **D E C R E E.**
BURNT RIVER, AND ITS TRIBUTARIES, A)
TRIBUTARY OF SNAKE RIVER.)

Now at this time, on the 4th day of May, 1925, the above entitled matter coming on for the entry of a final decree upon the findings of fact and order of determination of the State Water Board, heretofore filed herein, exceptions to said findings having been filed with the Court by the following claimants herein, to-wit: C. A. Butts, et al., Milton Eddy, Norman Elliott, H. C. Elms, Jeremiah Fleetwood, William Morfitt, H. C. Elms and George W. Elms, William L. Morfitt, Otto Paustain, et al., Charles Weidt, et al., Alfred Whited, et al., E. D. Shook and Anna M. Morgan, et al., and after due hearing and consideration of such exceptions, the Court having heretofore entered separate decrees and orders, and now being fully advised in the premises:

It is hereby CONSIDERED and ORDERED that the findings of fact and order of determination of the State Water Board heretofore filed in the office of the County Clerk of this county on the 13th day of April, 1921, is hereby confirmed in all things, except as in this decree modified or set aside; and the rights to the use of the waters of Burnt River and its tributaries are hereby adjudicated determined and settled, in accordance with, and as set forth herein.

1.

That Burnt River rises in the southwestern part of Baker County in the Blue Mountains, and flows in a northerly and easterly direction and empties into Snake River. That the land irrigated from said river and its tributaries is arid land, and irrigation is necessary for the raising of profitable crops. That said stream and its tributaries are perennial streams, and their waters are subject to appropriation under the laws of the State of Oregon.

BURNT RIVER - COURT -

2.

Contest No. 1

C. G. Smelcer,

Contestant,

vs.

James Gallagher and Patrick Gallagher,

Contestee.

That this contest was settled by a stipulation wherein it was stipulated that the contestees should have the right to lay a pipe line of a half inch inside diameter tapping a spring rising in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 2, T. 11 S. R. 44 E.W.M., within two years, and that after the installation of said pipe, said water would be used at the place of use on the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 2, said Township and Range, for domestic purposes only, and that means would be provided for stopping the run of water through said pipe when said water was not in use; and that if said pipe was not installed within two years from date of such stipulation, to-wit: The 17th day of April, 1919, that then the contestees should lose all further rights. It was further stipulated that the rights of the contestant should be as claimed in the tabulation hereinafter set forth, tabulating the claims of said contestant and said contestees as so stipulated.

3.

Contest No. 2

Alfred Whited, Wilson Whited, Grace Whited, Thomas P. Whited, Belle Whited and Fred Gundiff,

Contestants,

vs.

Michael Rouse, John Rouse, Maude Rouse, John Rouse as administrator of the estate of Joseph Wham, Deceased.

Contestees.

That the above contest was withdrawn, it being understood that the stipulation hereinafter referred to in Contest No. 26, Paragraph 24, settles all controversy between the parties to said contest.

4.

Contest No. 3

Alfred Whited and Wilson Whited,

Contestants,

vs.

Thomas Mickey,

Contestee.

That by the allegations of this contest the ownership of the Curoy ditch is in question, and inasmuch as the State Water Board only deals with water rights, and has no jurisdiction for determining the ownership of the ditch, and said contest is dismissed.

5.

Contest No. 4

Alfred Whited, Wilson Whited, Grace Whited, Thomas P. Whited, Maude Rouse as administrator of the estate of Joseph Wham, Deceased, Belle Whited and Fred Cuniff,

Contestants,

vs.

Ella Powell Haskins, Ella Powell Haskins as administratrix of the estate of John Powell, Deceased, Ella Powell Haskins as guardian of the persons and estates of Adel Adelaide Powell, Marguerite Powell and John Leland Powell, the minor children and heirs of said John Powell, Deceased,

Contestees.

That this contest involves to some extent the ownership of the Tiger ditch, and so far as the title to this ditch is concerned, such title is separate from the water right and the Water Board has no jurisdiction to decide the same. Insofar as the priorities for the use of water are concerned, the case of Whited vs. Gavin, reported in 55 Or. p. 98, established the dates of priority for the Wham-Whited Upper ditch as 1881 and for the Wham-Whited Lower ditch as 1887, and for the Tiger ditch as 1895.

The contestees herein with the exception of Ella Haskins, were not parties to the case of Whited vs. Gavin. Ella Powell Haskins was a party and was named as the administratrix of the estate of John Powell, deceased. The contestees herein are the widow and children of said John Powell deceased, and Ella Powell Haskins is the same Ella Powell named as administratrix of his estate in that case.

From the decree rendered in that case by the Circuit Court, Ella Powell Haskins, with other defendants, appealed to the Supreme Court, and the Supreme Court, at page 103 says "the Tiger and Curoy and company's ditches were constructed after the appropriation made by appellants through their canals herein described." The Supreme Court then proceeds to fix the date of appellants, which would be the same as contestee Ella Powell Haskins in this case, for the East side ditch, as 1884, for the Powell-La Porte ditch which is the same as the Powell-Hill ditch in this proceeding, as 1887, and then on page 105 says that "plaintiffs (contestants herein) do not in this proceeding assert and claim to a water right

as against defendants (contestee Ella Powell Haskins herein) through the Tiger Ditch," and that such defendants have established a prior right to such quantity of water as was diverted and in actual use by them in 1895, when the Tiger Ditch was built, and the court refused to allow the date of the Tiger Ditch to relate back to the old appropriation of the contestants herein, on the ground that it was merely a change of point of diversion, and in Paragraph 4 of the opinion of the Supreme Court, at page 106 of the Oregon Reports, The Supreme Court refused to make any finding or determination of the water right claimed through the Tiger Ditch except that such appropriation is subsequent in time and right to the interests of the defendants.

That the claims of the contestants and contestees herein set forth their acreage in detail, and the State Water Board finds that the dates of priority as hereinafter set out in the tabulation, and the acreage as hereinafter described in such tabulation under such dates of priority, fully and comprehensively describe the rights of the parties to the use of the waters adjudicated in this proceeding.

6.

Contest No. 5.

John S. Hale,

Contestant,

vs.

Oregon Lumber Company, a corporation,

Contestee.

That testimony was taken in the above contest, and it showed that within the past few years the Oregon Lumber Company had increased its irrigated area to quite a large extent, but what the amount of that increase was does not appear in the testimony. It does appear, however, in the testimony, that there is plenty of water for both parties to this contest during the high water season of the river, which lasts until in the month of June in each year, and some years into the month of July. It further appears that through Ditch No. 3 the Oregon Lumber Company irrigates lands with water from Gimlet Creek in addition to the Camp Creek water. It further appears that the contestant herein has used the water since 1900 without any interference from the contestee, and the contestant takes water from Camp Creek above the contestee. It further appears that the contestant irrigates 109 acres,

and the contestee irrigates 155 acres, out of Ditch No. 3 from Camp Creek, and 39 acres out of Ditch No. 4. Taking all of the testimony and considering it, it would be fair and equitable if the waters of Camp Creek were divided equally, so that the contestee and contestant could use the water on an equal basis up until 109 acres is irrigated by each of the parties, and thereafter, for the additional acreage of the contestee, such additional acreage would be subsequent in time and inferior in right to the rights of the contestant, and whenever there is not sufficient water to irrigate 109 acres for each of the parties hereto, then such water shall be divided equally between the contestant and the contestee.

7.

Contest No. 6

Augustus B. Vandecar,

Contestant,

vs.

Adam Schuck,

Contestee.

That this contest involves the waters of Durkee Creek, and it appears that the contestant uses water out of Durkee Creek through the Vaughn Ditches Nos. 2, 3, 6, and 8. That under Vaughn Ditch No. 2 he has 28 acres as of 1884, and 20 acres as of 1911; under Vaughn Ditch No. 3 he has 27 acres as of 1884 and 45 acres as of 1906; under Vaughn Ditch No. 6 he has 101.5 acres as of 1885, and under Vaughn No. 8 he has 60 acres as of 1885 and 12 acres as of 1900. The contestee uses water out of Durkee Creek for the irrigation of 31 acres under date of 1897, and the generation of power to the extent of 1 horsepower. There is testimony to the effect that the contestant has used all of the water of Durkee Creek upon his lands, and turned none down to the contestee, and the contestant thereby claims a priority for all of his lands over that of contestee. Durkee Creek flows a great deal of water during the high water season, and there is water then sufficient for everyone. After the spring freshets are over, there is not very much water in Durkee Creek, and probably not enough even to irrigate the lands of contestant that have a priority date over the lands of the contestee. Under such conditions, the Board finds that the distribution of water according to the dates of priority as set forth will give an equitable distribution of water, and the rights of the contestant and contestee shall therefore be as hereinafter tabulated.

8.

Contest No. 7

C. A. Butts, James Trimble and Charles Cole,

Contestants,

vs.

Fred E. Boyer,

Contestee.

That the foregoing contest involves the use of water through the Packwood Ditch. It appears that each of the parties to this contest owns a two-thirteenths interest in the Packwood Ditch; that C. A. Butts irrigates 148 acres through the ditch, 136 under date of 1888 and 12 under date of 1910; that James Trimble irrigates 100 acres through the Packwood Ditch, 85 of which is under date of 1888 and 15 under date of 1896; that Charles Cole irrigates 60 acres through the Packwood Ditch, 8 of which is under date of 1888 and 52 under date of 1900; that contestee Fred E. Boyer irrigates 51 acres from the Packwood Ditch, all of which is under date of 1899. There was considerable testimony herein that the Packwood Ditch was not used by contestants until 1899 or 1900. It appears in fact they did clean the ditch in 1898, but that their lands had been irrigated by other ditches from Burnt River prior to that time, and the use of the Packwood Ditch amounted merely to a change in the point of diversion, so that the dates of the use will be left the same and the rights of the parties tabulated accordingly.

9.

Contest No. 8

Charles Wendt, Henry Wendt, N. N. Elliott, W. E. Lovelace, Milton Eddy, Frank Elliott, Frank Leatherman, Jasper Wicks, Otis Elliott, Johanna Elliott, John L. Sullivan, Morris Sullivan, John Trimble, James Trimble, O. C. Koontz, M. E. Davidson, Wm. Fleetwood, Charles Fleetwood, E. H. Ware, J. M. Fleetwood, Jerry Fleetwood, Caleb A. Butts, Fred Boyer, Richard Boyer, Charles Cole, Barney Eastham, Walter L. Eastham, Ralph Yeakley, Ed Sullivan, Mike Sullivan, T. B. Van Cleave, Mary A. Van Cleave,

Contestants,

vs.

The Eastern Oregon Land Company, a corporation,

Contestee.

The claim of the Eastern Oregon Land Company is based upon an appropriation made on the 9th day of November, 1867, by the Burnt River Ditch & Mining Company, and also upon State Engineer's permits Nos. 2025 and R 327, filed in the office of the State Engineer October 6, 1911, and December 30, 1913, respectively, for an enlargement of the ditch constructed under the first named appropriation, and the storage of the water in the Willow Creek watershed, Permit No. 2025, having been amended October 25, 1913. The name of the ditch constructed by the Burnt River Ditch & Mining Company was the Eldorado Ditch, and the appropriation will hereafter be referred to by that name.

The appropriation contemplated the construction of a ditch which would intercept the waters of the tributaries of Burnt River, which enter that stream from the south, from Shasta Gap, in the vicinity of Malheur City, westward to and including Last Chance Creek, and the carriage of such waters along and across the dividing ridge between Burnt River and Willow Creek, and their use on the Willow Creek side. The ditch was completed in accordance with this plan, with reasonable diligence, and the water diverted and used accordingly.

The Eldorado ditch was first used for conveying water from the various tributaries of Burnt River to Malheur City and vicinity, where it was sold for mining purposes. By various conveyances, ownership passed to the Eastern Oregon Land Company, the present claimant. Until the Eastern Oregon Land Company commenced to use the water on its own lands, the ditch was operated from year to year by the owners and lessees, and the water was used by the operators in their own mines, or sold for mining and agricultural purposes to such persons as offered to purchase; and the appropriation has been maintained to the extent hereinafter set forth.

Oregon

The Eastern Land Company owns a large amount of land in Township 16 and 17 South, Range 43 E.W.M., and townships 16 and 17 South, Range 44 E.W.M., amounting to 4818 acres, which land is covered by the State Engineer's permits, and which lands said company intends to irrigate by means of the water in the Eldorado ditch. Inasmuch as the water had already been taken by the Eldorado ditch from the watershed of Burnt River and placed in the watershed of Willow Creek, the change in the place of use of the water, or in the use to which the water was put, would not in any manner affect any of the appropriators from Burnt River. The use of the water for irrigation on Lower Willow Creek, would, however, make it impossible to divert the water across the divide between the Willow watershed and the Burnt River watershed at a point known as Beam Creek Divide, and carry it from that point in the natural channel of Willow Creek. The Eastern Oregon Land Company began to use the water from the Eldorado Ditch on Lower Willow Creek for irrigation of its own lands about the year 1912. In the year 1914 complaints were filed and temporary injunctions issued restraining the Eastern Oregon Land Company from using water from said ditch for irrigation between the first day of May and the first day of September of each year, and in the operation of the ditch since that time due regard has been paid to these injunctions;

The amount of water that has been conveyed across into the Willow Creek watershed through the Eldorado ditch has varied considerably during the different years, and a large amount of somewhat conflicting testimony and evidence has been sub-

mitted as to the quantity of water diverted from the various streams at different periods. However, by taking into consideration all of the evidence, and making a careful examination of the same, it has been possible to determine with a fair degree of accuracy the extent to which the original appropriation has been maintained. The testimony shows that during the early mining days the practice was to begin cleaning the ditch at the lower end as early as the season would permit, filling the ditch from the lower streams, and only turning in the upper streams as needed. However, for some years prior to the purchase of the ditch by the Eastern Oregon Land Company the demand for water became less, and consequently the ditch was somewhat neglected and its carrying capacity was decreased; and on this account, for many years some of the water was allowed to flow down the natural channel, especially during the early season of the year, and was used below for irrigation by the contestants to a considerable extent. This condition especially prevailed with respect to Last Chance Creek, from which no water has been diverted through the Eldorado ditch for a period of some 12 or 15 years, and the right of the contestee to the use of water from that stream has therefore been lost by non-use.

It is necessary under the law applicable to the facts of this case, and is to the practical advantage of all parties under the circumstances existing, that the amount of water to be awarded to the Eastern Oregon Land Company under this Eldorado ditch right shall be determined and measured at Beam Creek Gap, the point of diversion from the Eldorado ditch into the Willow Creek watershed; that in view of the evidence referred to, showing diminished use of water in the later years, the quantity so awarded should be twelve and one-half cubic feet per second, continuous flow, being substantially the equivalent of 500 miner's inches under a 6 inch pressure, and there is awarded and decreed to the Eastern Oregon Land Company under a priority of November 9, 1867, so much of the flow of the tributaries of Burnt River intercepted by the Eldorado ditch, from and including East Camp Creek up to and including Elk Creek, as may be necessary to supply such continuous flow of 12½ second feet at Beam Creek Gap, subject, however, to the conditions hereinafter stated as to time and order of diversion of various streams.

In the operation of the Eldorado ditch from the beginning, it has been the practice to clean and open up the ditch each spring, proceeding from the lower end toward the upper end, and taking the waters of the various streams in the order in which they were reached, and as needed to supply the required flow. The Court finds from the evidence that the appropriators and their successors in title acquired and have asserted, exercised and maintained the right so to divert and take the waters

of the various streams at the dates following, namely: East Camp Creek April 15; West Camp Creek and streams between it and East Camp Creek, June 1; Bull Run Creek and streams between it and West Camp Creek, June 15; South Fork of Burnt River and streams between it and Bull Run Creek, July 1; Elk Creek July 15; and the right of the Eastern Oregon Land Company under said priority of 1867 to take the waters of said stream from said respective dates up to the latest time in each year that the water can be carried through the Eldorado ditch to Beam Creek Gap is hereby confirmed, adjudged and decreed; provided, that the total amount taken from all streams shall not exceed the quantity necessary to supply a flow of $12\frac{1}{2}$ second feet, or 500 miner's inches under a six inch pressure, at Beam Creek Gap, under reasonably careful and efficient operation of the ditch, and the water so required shall be taken from the various streams in the order in which they are reached, going upward along the ditch.

The Eastern Oregon Land Company and its predecessors in interest by their diversion of water into Willow Creek from Beam Creek Gap have abandoned the water and their water right in and from all streams below Beam Creek Gap, to-wit: Copper Creek, Mud Springs Creek, Rock Creek, Flint Creek, Independence Creek, Deer Creek, Reed Creek, Steep Creek, Koontz Creek, Cottonwood Creek, and Mahogany Flat Creek, and have no right to take and divert any water from any of said streams under said appropriation of 1867, or at all.

The above findings and orders relate only to said appropriation of November 9, 1867, and in no way affect the rights of the contestee under its other appropriations represented by State Engineer's permits Nos. 2025 and R. 327, which shall be governed by the laws relating to the completion and proof of rights under such permits. The fixing of dates herein for diversion of water from various streams under said appropriation of November 9, 1867, shall not be deemed to restrict any rights which may exist or be acquired under said permits.

10.

Contest No. 11

Jacob Butts,

Contestant,

vs.

Thomsen and Company, a corporation

Contestee.

That this contest was set down for hearing, the contestant appearing by W. H. Strayer and the contestee by W. L. Patterson and John L. Rand. No testimony was offered in support of the claim of the contestee, and it appears from the

said claim that water has not been used out of Rick Creek during each year after about the first of July. It further appears that the contestant has been using water since the appropriation made by him, without being called upon by the contestee to turn the water down. It follows, therefore, that the appropriations made by the parties hereto shall have the dates as claimed in the claims of contestant and contestee, but that on and after the first day of July of each year, the contestant shall have the full use of the water that comes to him or his ditch, without turning any water to the contestee, and the rights of the parties hereto as hereinafter tabulated shall be subject to this finding.

11.

Contest No. 12

Ella Powell Haskins and J. M. La Porte,
Contestants,

vs.

John Rouse and Michael Rouse,
Contestees.

That this contest involves only the land irrigated by the contestees through the Lancaster Ditch. It appears that about 37 acres of the land irrigated under that ditch is upon a desert entry made by William Chamberlain, and that the water was first used upon that desert entry about the year 1900. That the dates of priority, therefore, for the lands of John Rouse and Michael Rouse through the Lancaster Ditch shall be for 125 acres as of 1886 and 37 acres as of 1900. Inasmuch as the acreage is not segregated in the testimony, the tabulation hereinafter made shall give the total acreage under each priority, and the particular forty for each priority shall not be designated.

12.

Contest No. 13

Ella Powell Haskins and J. M. La Porte,
Contestants,

vs.

John Rouse and Michael Rouse,
Contestees.

That this contest involves the lands irrigated by the Drislane Lower Ditch as used by the contestees. From the testimony produced, it appears that the lands of contestees were irrigated as claimed, and the tabulation hereinafter made shall tabulate the same as claimed in the statement and proofs submitted.

13.

Contest No. 15

Ella Powell Haskins and J. M. La Porte,

Contestants,

vs.

Elizabeth McCullough and Alice Wham, successor in
interest and devisee of Joseph Wham, Deceased,

Contestees.

That part of the questions involved in this contest were decided in the finding under Contest No. 4. As to the rights of Elizabeth McCullough, has filed a disclaimer, and inasmuch as the contest states that the appropriation was made in 1912, the date of priority of Elizabeth McCullough's claim as filed will be placed as of 1912.

14.

Contest No. 16

Albert Hindman,

Contestant,

vs.

Chas. F. Chadwell,

Contestee.

That it appears that J. T. Giroux has succeeded to the interests of Charles F. Chadwell, and the above entitled contest was dismissed upon a stipulation which changed the date of statement and proof of claim of Charles F. Chadwell (J. T. Giroux, successor in interest) to 1906, and the tabulation hereinafter set forth shall show the date as so stipulated.

15.

Contest No. 17

Walter Dorsett and Mary Dorsett,

Contestants,

vs.

Emil F. Foersterling,

Contestee.

That this contest was settled by stipulation settling the priority dates of the contestee as 4 inches of water under 1887, 5 inches under 1891 and 5 inches in 1898. The claims filed by the contestee showed 4 acres in 1887, 2 acres in 1888, 7 acres in 1891, 5 acres in 1895 and 2 acres in 1902. The dates of priority for this acreage will therefore be changed so as to read 4 acres in 1887, 9 acres in 1891 and 7 acres in 1898.

16.

Contest No. 18

Walter Dorsett and Mary Dorsett,

Contestants,

vs.

Fred Foersterling,

Contestee.

That this contest was settled by a stipulation, wherein and whereby it was stipulated that the contestee should be entitled to 7 inches of water as of date of priority of 1909. Inasmuch as the claim states a date of priority of 1909 for 7 acres of land, the tabulation shall be the same as the claim, and not modified in any manner.

17.

Contest No. 19

Michael Rouse and John Rouse,

Contestants,

vs.

William Morfitt, Henry C. Elms, George W. Elms,
and Nancy A. Elms,

Contestees.

That this contest was settled by a stipulation wherein it was stipulated that the contestees shall have 100 inches of water of the South Fork of Burnt River through the Campbell-Elms Ditch as prior in time to the right of contestants to the use of the waters of Bull Run Creek through the ditches known as Rouse No. 1 and Rouse No. 2. It appears from the claims that H. C. Elms claims 267.5 acres, George W. Elms and Nancy A. Elms claim 222 acres and William Morfitt claims 360 acres, all through the Campbell-Elms Ditch under date of 1888, while Michael Rouse and John Rouse claim 48 acres through Rouse Ditch No. 1 and No. 2 under priority date of 1893. Under this stipulation, therefore, the water master will distribute the water one-fourth of 100 inches to H. C. Elms, one-fourth to George W. Elms and Sidney Elms (the latter the successor in interest of Nancy A. Elms), and one-half to William Morfitt, under date of 1888, and that after said 100 inches has been received by said individuals the said contestants Michael Rouse and John Rouse shall be entitled to divert and use through Rouse Ditches No. 1 and No. 2 sufficient water as provided in these findings for the irrigation of 48 acres of land with priority to said extent over the rights of Contestees H. C. Elms, George W. Elms, Sidney Elms and William L. Morfitt as to all of the waters of Bull Run Creek, save and except 100 inches thereof as herein set forth, and that subject to the right of the said contestants Michael Rouse and John

Rouse to divert sufficient of the waters of Bull Run Creek through Rouse Ditches No. 1 and No. 2 for the irrigation of 48 acres of land the entire right of contestees George W. Elms, H. C. Elms, Sidney Elms and William L. Morfitt, shall be distributed as of date 1888, and that subject to the right of said contestants Michael and John Rouse as herein set forth all the acreage of the contestees shall be tabulated under date of 1888.

18.

Contest No. 20

Michael Rouse, John Rouse, J. M. Shelton and Otto Paustain,

Contestants,

vs.

J. M. La Porte, Ella Powell Haskins, Adel Powell, Madge Powell, John Powell, Ella Powell Haskins, guardian of said John Powell,

Contestees.

That this contest was settled by the findings heretofore made under Contest No. 4.

19.

Contest No. 21

Michael Rouse, John Rouse, J. M. Shelton and Otto Paustain,

Contestants,

vs.

Harvey Phipps and E. B. Carlile,

Contestees.

That the above contest was dismissed as to contestee E. B. Carlile, and a stipulation was entered into wherein it was stipulated that of the lands claimed to be irrigated by contestee Harvey Phipps, 8 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, 18 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 23, 32 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, and 6 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24, T. 13 S. R. 36 E. W. M., should have a priority date of 1895, and the tabulation hereinafter set forth shall place the priority date of such acreage at said time.

20.

Contest No. 22

Michael Rouse and John Rouse,

Contestants,

vs.

Otis J. Elliott,

Contestee.

That this contest was stipulated, to the effect that the contestee should have priority dates for the use of water through the Cleary Ditch of 70 acres in 1879 and 109 acres in 1888, and the tabulation of the claim so fixes such priority date.

21.

Contest No. 23

J. N. Shelton and Otto Paustain,

Contestants,

vs.

Belle M. Whited,

Contestee.

That this contest was stipulated to the effect that the contestee should have a priority date of 1900 for 30 acres in the $W\frac{1}{2}$ $NW\frac{1}{4}$ Section 29, T. 12 S. R. 37, through the Wham-Whited Upper Ditch, instead of a priority date of 1881, and the tabulation hereinafter set forth shall designate the priority as so specified.

22.

Contest No. 24.

Michael Rouse and John Rouse,

Contestants,

vs.

Sam Cavin, James Burnside, Harvey Phipps, Louise Tureman Haggerty, E. B. Carlile, J. M. LaPort, Ella Powell Haskins, Adel Powell, Madge Powell, John Powell, Ella Powell Haskins, guardian of said John Powell,

Contestees.

That the above entitled contest was dismissed with regard to Contestee E. B. Carlile, and as to contestees James Burnside, Harvey Phipps and Louise Tureman Haggerty, a stipulation was entered into wherein it was agreed that the rights of the contestants to the use of the waters through the Lancaster Ditch were prior in time to the rights of said contestees in the use of their water through the Cavin Ditch. As to the other contestees, testimony was taken and heard by the Water Board, and it was found that the rights of the contestants to the irrigation of lands under the Lancaster Ditch as claimed by them in their statement and proof of claim, are prior in time and superior in right to the rights of the contestees to the irrigation of lands under the Cavin Ditch as described and set out in their claim, and the lands as described under

each ditch shall be set forth in the tabulation hereinafter. Such description shall be the described lands, and those described as belonging to the contestants under the Lancaster Ditch shall have a right prior in time and superior in right to the lands owned by the contestees and described in the tabulation hereinafter under the Gavin ditch. But this finding shall only apply to the waters of Burnt River, and shall not apply to any springs which may supply water into the Gavin Ditch.

23.

Contest No. 25

Michael Rouse, John Rouse, Alfred Whited, Wilson Whited,
Belle M. Whited and Alice Wham,

Contestants,

vs.

Mary E. Davidson, Wm. Fleetwood, O. C. Koontz,
James Trimble and John Trimble,

Contestees.

That the above contest was settled by a stipulation, wherein and whereby it was agreed that the contestants, regardless of the dates of priority of the contestees, may have a right superior to the contestees, and may at all times divert water without regard to the dates of priority of the contestees, for the following described lands, to-wit:

37	a	in	SE $\frac{1}{4}$ SE $\frac{1}{4}$	Section 20	4	a	in	SE $\frac{1}{4}$ SW $\frac{1}{4}$	
30	a	in	SW $\frac{1}{4}$ SW $\frac{1}{4}$	Section 21	30	a	in	SW $\frac{1}{4}$ SE $\frac{1}{4}$	
32.5	a	in	NW $\frac{1}{4}$ NW $\frac{1}{4}$		37	a	in	SE $\frac{1}{4}$ SE $\frac{1}{4}$	
20	a	in	SW $\frac{1}{4}$ SW $\frac{1}{4}$		40	a	in	NE $\frac{1}{4}$ SE $\frac{1}{4}$	
23	a	in	NW $\frac{1}{4}$ SW $\frac{1}{4}$		21	a	in	NE $\frac{1}{4}$ SE $\frac{1}{4}$

In the distribution of water, the water master shall distribute to such described lands in accordance with such stipulation.

Contest No. 26 is a stipulation between Michael Rouse and John Rouse on the one hand, and Alfred Whited, Wilson Whited, Belle M. Whited and Alice Wham on the other hand, relative to the use of water from the Dresher Ditch, the Drislane Upper Ditch, the Drislane Lower East Side Ditch, the Wham-Whited Upper Ditch and the Wham-Whited Lower Ditch, as follows:

First: That the appropriation of water from the South Fork of Burnt River in Baker County, Oregon, appurtenant to the said ditches is: The said Rouses are entitled to a priority of appropriation of said waters to the extent of 250 miner's inches for use in any of the said ditches belonging to them, to-wit: the Drislane Upper Ditch, the Dresher Ditch and the Drislane Lower East Side Ditch.

Second: The said Whiteds and said Alice Wham are entitled to the next appropriation thereof, to be used through said Wham-Whited Upper Ditch and Wham-Whited Lower Ditch to the extent of 400 inches similarly measured.

Third: The said Rouses are entitled to the next appropriation thereof to the extent of 150 inches thereof similarly measured to be used by them in either or any of their said ditches.

In the distribution of water, the water master shall distribute the same in accordance with this stipulation, regardless of the priorities, having at all times due regard to the necessity for irrigation and whether at the time such diversion is made, it would be a beneficial use.

Contest No. 27

Walter W. Dorsett and Mary Dorsett,

Contestants,

vs.

Thomas Roach,

Contestee.

That this contest was settled by a stipulation, wherein it was provided that the contestee should have 1.5 inches of water as of a priority date of 1865 out of said stream for use upon the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 19, T. 12 S. R. 44 E. W. M., subject to the rights of C. H. Metzker to 15.5 inches of water, and that he should have 3 inches of water under date of 1882 for the irrigation of 4 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 30, same township and range.

Contest No. 28.

William Bohna, Fred Foersterling, E. F. Foersterling,
U. T. Engstrom, Frank Sewell and Thomas Roach,

Contestants,

vs.

Walter W. Dorsett and Mary Dorsett, his wife,

Contestees.

That this contest was settled by a stipulation. Said stipulation re-arranges the acreage as set forth in the claims, and under such stipulation it appears that the contestees irrigate 2.5 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, 17 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 9, 2 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, and 7 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4, T. 12 S. R. 44 E. W. M., for which land said contestees are entitled to divert from the waters of Sisley Creek 5 inches under priority date of 1881, 14 inches under date of 1900 and 3 inches under date of 1911. That they also irrigate 2.5 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, 8.5 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and 5 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3, T. 12 S. R. 44 E. W. M., for which lands said contestees are entitled to divert 17.5 inches under date of 1881 and 7.5 inches under date of 1896. That contestees also irrigate 15 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 9, T. 12 S. R. 44 E. W. M., for which lands said contestees are entitled to divert 7.5 inches under date of 1890 and 7.5 inches under date of 1897, and the tabulation hereinafter set forth shall specify the lands as in this finding describe, instead of the lands as described in the claims of said contestees.

Contest No. 29.

H. C. Elms, George W. Elms, Nancy A. Elms, and Wm. L. Morfitt,

Contestants,

vs.

John Rouse and Michael Rouse,

Contestees.

That this contest was dismissed. See testimony, Volume 1,
page 737.

Contest No. 30.

H. C. Elms,

Contestant,

vs.

The Eastern Oregon Land Company, a corporation,

Contestees.

That this contest is settled by the findings made in Contest No. 8.

29.

Contest No. 31.

H. C. Elms, George W. Elms, Nancy A. Elms, Wm. L. Morfitt,

Contestants,

vs.

Ella Powell Haskins, Adelaide Powell, Margaret Powell,
John Powell, Jr., and J. M. La Porte,

Contestees

That the findings in Contest No. 4, and the tabulation hereinafter made, set forth the respective rights of the parties hereto and settle the same.

30.

Contest No. 32.

Harvey L. Homewood and Leota Homewood, his wife,

Contestants,

vs.

Emily Hough,

Contestee.

That this contest was settled by a stipulation, wherein and whereby the contestants were to have prior right over the contestee for all water wherein their statement and proofs of claim herein had a priority date prior to and including the year 1887, and that the contestee should have a prior right to waters of Camp Creek wherein the contestant's statement and proof was for a date subsequent to 1887. The effect of this stipulation is to place the date of priority of Emily Hough at 1887 and the tabulation shall show the same.

31.

Contest No. 33.

William Sutherland and George Johnson,

Contestants,

vs.

Charles L. Low, J. M. Pearce, Gertrude Pearce, John Troy,
Ben C. Rizor, A. L. La Viers, Dorcas Hambleton, L. G.
Bradden, F. E. Eppinger and Harvey Hambleton.

Contestees.

That the above entitled contest was dismissed as to Charles L. Low, J. M. Pearce, Gertrude Pearce and Ben C. Rizor. As to contestee F. W. Eppinger, it was stipulated that said F. W. Eppinger should have the right to divert not more than 5 miner's inches of water from Alder Creek, or the springs feeding the same, for the purpose of domestic and stock purposes and for the

irrigation of a farm garden upon the premises described in his proof of claim, upon the condition that said water shall not be diverted away from the natural water shed of Alder Creek, and that the surplus water shall be turned back into Alder Creek through a well defined ditch channel, and along the most direct route. (Vol. 1, testimony, page 457.) As to the rights of contestee, L. G. Braden, it appears that the first water was used upon the Braden place in 1863 by a homesteader, and that afterwards the homestead was contested and the homestead entry cancelled, and the water then was used by the successful contestant first in 1866. There being no transfer of water right, the L. G. Braden date of priority will be fixed at 1866. The rights of contestee John Troy are the same as claimed in the statement and proof of claim.

The rights of contestee A. L. La Viers are set forth in the tabulation herein. It appears that said La Viers had filed an amendment to his claim claiming a date of 1863 in place of February 12, 1873, and such priority date of 1863 is the correct date. The contestee Dorcas Hambleton and Harvey Hambleton claim in their statement and proof of claim that they take water from Alder Creek, but from the testimony of Dorcas Hambleton it appears that in place of taking water from Alder Creek they take water from the Sawmill and Pratt Gulches, and from springs, being two regular springs and some other springs developed from two marshes. The date of priority shall remain the same, and the name of the creek will be changed in the tabulation in accordance with this finding.

32.

Contest No. 34.

Harvey L. Homewood and Leota Homewood,

Contestants,

vs.

Archie J. Murray, Angeline Murray, J. E. Rutherford, and
M. Rutherford, copartners as Rutherford Brothers,

Contestees.

That this contest was stipulated to the effect that the parties to the contest should have an equal date of priority to the use of water through the Homewood-Murray Upper Bench Ditch, and that the water used upon the lands irrigated from said ditch should be apportioned on the basis of the number of acres of land shown by the proof and belonging to each of said parties to be reclaimed and cultivated under said ditch. The water master shall distribute the water accordingly.

33.

Contest No. 35.

Fred Boyer,

Contestant,

vs.

James Trimble, John Trimble, Mary Davidson, O. C.
Koontz and Wm. Fleetwood,

Contestees.

That the above contest was dismissed on the 28th day of
April, 1919.

34.

Contest No. 36.

R. D. Shook,

Contestant,

vs.

Paul Herold,

Contestee.

That this contest was called for trial and hearing; that the
parties had been duly served with notice, but that neither of the parties desired
to submit any testimony. That the statements and proof of claimants shall be
tabulated as set forth in their original claims.

35.

Contest No. 37.

Thomson and Company, a corporation,

Contestant,

vs.

Fred E. Boyer,

Contestee.

That it appears that this contest involves the title to the old
Clark Creek ditch, and not the water rights of the parties, and this Board has no
jurisdiction to establish or settle the title to ditches.

36.

Contest No. 38.

C. H. Metzker,

Contestant,

vs.

Thomas Roach,

Contestee,

That this contest was settled by a stipulation, and is governed by the findings under Contest No. 27.

37.

Contest No. 39.

C. H. Metzker,

Contestant,

vs.

U. T. Engstrom,

Contestee.

That this contest was settled by a stipulation, wherein the contestee, U. T. Engstrom is to receive 3 miner's inches of water under a priority date of 1877, 8 inches under date of 1884 and 9 inches under date of 1890. It appearing that the contestee has 29 acres under irrigation, the distribution of such water will be prorated among the acreage, and gives such contestee 5 acres as of date of 1887, 10 acres as of 1884 and 14 acres as of 1890.

38.

Contest No. 40.

Walter W. Dorsett and Mary Dorsett,

Contestants,

vs.

Will Bohms,

Contestee.

That this contest was settled by a stipulation wherein the contestee was given 10 miner's inches of water as of date of 1880, 7 inches as of 1887 and 5 inches as of 1894. The contestee has 24 acres of land, and the distribution of water pro rata among the acreage would give the contestee 10 acres with a priority date of 1880, 7 acres as of 1887, and 7 acres as of 1894.

39.

Contest No. 41.

Walter W. Dorsett and Mary Dorsett,

Contestants,

vs.

George E. Morin and his successors in interest,

Contestees.

That this contest was stipulated, and it appearing that Frank Sewell is the successor in interest of George E. Morin, it was stipulated that the said contestee should have 4 miner's inches of water as of date of 1893.

3 inches as of 1898 for the lands irrigated in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20, T. 12 S. R. 44 E. W. M., and it appearing that there is 7 acres irrigated in those two forties, the acreage shall stand with 4 acres under date of 1893 and 3 acres under date of 1898. It appearing that Frank Sewell is also successor in interest of V. L. Sullivan, it was stipulated that for the lands tabulated under the name of Sullivan, said Frank Sewell should have 8.5 inches of water with a priority date of 1901, and it appearing that there is 8.5 acres irrigated, the priority date for the whole acreage so irrigated will be 1901.

40.

Contest No. 42.

Walter W. Dorsett and Mary Dorsett,

Contestants,

vs.

Virgil Sullivan,

Contestee.

That this contest is settled by the finding under Contest No. 41.

41.

Contest No. 43.

Thomas B. Van Cleave,

Contestant,

vs.

James M. Fleetwood,

Contestee.

That testimony was taken in this contest, and it appears that James M. Fleetwood had filed claims for water through the Ware-Fleetwood Ditch for a priority date of 1892, and through the James M. Fleetwood ditch under a date of 1895. From the testimony it appears that the lands irrigated by the Ware-Fleetwood ditch were first irrigated in 1896, but that the ditch was begun to be constructed in 1895. That the James M. Fleetwood ditch was constructed in 1902, and the lands began to be irrigated on that ditch the same year, so that the priority date for the James M. Fleetwood ditch is 1902. At the same time, the contestee asked to amend his claim to show 3 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, 5 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23, and 2 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 22, T. 12 S. R. 37 E. W. M., and such amendment is allowed and the tabulation shall so show. (Testimony, Vol. 1 p. 828.)

Contest No. 44.

Mary J. Holbrook,

Contestant.

vs.

Ada Peterson,

Contestee.

That this contest was settled by a stipulation in which Frank Fallers and G. J. Stull joined with the parties to said contest, and it was stipulated that at all times when the water flowing in the stream from which said parties use water is more than 75 miner's inches, measured immediately above the head of the ditches diverting water to the lands of G. J. Stull, then said water shall be apportioned to said parties to said stipulation as follows: .05 inches to the lands of F. Fallers, .40 inches to the lands of Ada Peterson, .40 inches to the lands of Mary J. Holbrook, and .15 inches to the lands of G. J. Stull, That when the water in said stream at said point of measurement is less than 75 inches, then said lands shall rotate in the use of the water as follows: The lands of Frank Fallers shall use said water beginning at 10 A.M. on Sunday and ending such use at 6 P.M. on Sunday; the lands of Ada Peterson shall use said water beginning at 5:30 P. M. on Sunday, for ditches above the lands of Frank Fallers, and at 6 P. M. Sunday for any land below said Fallers, and shall have the continuous use of such water up until 11:30 A.M. on Wednesday. The lands of Mary J. Holbrook shall use said water beginning at 11. A.M. Wednesday and shall have the continuous use of the waters of said stream until 5:30 A.M. Saturday, and the lands of G. J. Stull shall have the use of said water beginning at 5 A.M. Saturday and until 6 A.M. Sunday, it being estimated that it will take approximately four hours for the full head of water in said stream to run down the channel and be available for use on the lands of said Fallers. It was further stipulated that there was one spring on the Stull lands and about three springs on the Holbrook lands, and about three springs on the Peterson lands, and that the parties on whose lands the springs rise should have the full use of the waters from said springs and should not be required to turn any water from said springs down to the channel of said creek.

Contest No. 45.

Archie J. Murray,

Contestant,

vs.

J. H. Murrey,

Contestee.

That this contest was settled by the contestee changing the date of his claim from 1884 to 1890, and the tabulation shall so set out the use of water from Whiskey Creek by said contestee, as of date of 1890.

44.

Contest No. 46.

Thomsen and Company, a corporation,
Contestant,

vs.

Charles S. Cole,
Contestee.

That this contest was settled by the contestee, in open court, withdrawing his claim for any rights to stock water for stock purposes from the Old Clark Creek ditch. (Testimony, Vol. 1, page 168.)

45.

Contest No. 47. and Contest No. 48.

Archie J. Murray,
Contestant,

vs.

Harvey L. Homewood,
Contestee.

That these contests were settled by stipulation, and are governed by the findings under contest No. 34.

46.

Contest No. 49.

Archie J. Murray,
Contestant,

vs.

J. H. Murray,
Contestee.

That it appears that J. H. Murray filed with his claim a stipulation entered into by Harvey L. Homewood, A. J. Murray, R. L. Watkins, E. H. Ware, C. A. Butts, and Emily Hough, dated May 8, 1917, wherein it was stipulated that for the ditches of J. H. Murray which were subsequent in date of priority to the signers in said stipulation, that so long as there was as much water flowed in the stream as it left the land of J. H. Murray as there was in said stream when it entered the lands of said J. H. Murray, that he would be entitled to as much water as was necessary to irrigate his lands. The effect of this stipulation would be to give the said J. H. Murray the use of any spring water that rose upon his lands, and the use of water from the creek to take the

place of any seepage water that ran from his lands into the creek. The contestant above named contested such stipulation as to indefiniteness, but inasmuch as the stipulation can be carried out by the water master, the same will be allowed to stand, and the contest dismissed, and the water master shall follow such stipulation in the distribution of the water of West Camp Creek.

47.

Contest No. 50.

Walter W. Dorsett and Mary Dorsett,

Contestants,

vs.

C. H. Metzker,

Contestee.

That this contest was settled by a stipulation to the effect that the contestee should have 15.5 inches of water under date of 1865 and 4.5 inches of water after all of the other water users from said stream appearing in these proceedings have been supplied. It appears that said contestee has 17 acres under date of 1865. The date of such acreage shall be left as it is in the tabulation, and the water master shall distribute the water in accordance with said stipulation.

48.

Contest No. 51.

Walter W. Dorsett and Mary Dorsett,

Contestants,

vs.

Uno. T. Engstrom,

Contestee.

That this contest was settled by a stipulation, as is set out under Contest No. 39.

49.

That it was stipulated by the water users from Sisley Creek as to the amount of water which each water user was to receive and as to his priority date. It appears that the water in said creek is short during the greater part of the irrigation season, and the limiting of the number of inches which each water user is to receive is for the purpose of governing the distribution of water during the short season, and if the water in the stream is more than enough to supply the number of inches as set out in the settlement of the various contests between the

water users from Sisley Creek, then such remaining water in Sisley Creek shall be used and shared by the said parties upon their several lands in the same ratio or proportion as the several apportionments set out in said stipulation and as set out in the findings hereto relative to the contests between the water users from said Sisley Creek, bear to the total of all of the water in said creek, and this stipulation shall be followed by the water master until sufficient water has been delivered to each party for the irrigation of his lands, and no more.

It was further stipulated and agreed between C. H. Metzker and Thomas Roach, that said Roach may build and maintain at his own cost a ditch from Sisley Creek northerly across the lands of said Metzker to and upon the lands of said Roach which lie north of and immediately adjoining the lands of said Metzker, for the purpose of carrying not to exceed 10 miner's inches of water to and upon said lands of Roach, and that said Roach may also construct and maintain a waste water ditch from the northwest corner of the irrigated lands of Metzker westerly and along the extreme northern side of said irrigated lands of Metzker, to the lands of said Roach lying westerly from the lands of Metzker, and may run down all of the waste water from the lands of said Metzker, but neither of said ditches shall be constructed, maintained or operated in such a manner as to interfere with the proper irrigation of the Metzker lands, or be of any appreciable damage to said lands, nor shall the water so secured by such ditches be used upon any land which has not been granted a water right by this decree until after the said Roach shall have applied for and received a proper State Engineer's permit for any new lands so placed under irrigation thereby, and such water so secured for any new lands put under irrigation, shall have the date of priority so established by said State Engineer's permit.

50.

That it was stipulated between Geo. N. Malsburger and C. H. Metzker that the said Malsburger should have the use of the water for mining purposes through what is commonly known as Chicken Creek ditch for the operation of what is commonly known as the Chicken Creek Placer Mine, prior to the use of water by C. H. Metzker in the irrigation of his lands, said mine being above the premises of said C. H. Metzker.

51.

That it appears from the tabulation hereinafter set forth that Archie J. Murray claims certain lands to be irrigated from East Camp Creek through the Home Meadow Ditch and the Northeast Meadow Ditch, under a date of 1881, and E. H. Ware claims certain land to be irrigated through the Lower Whited-Barnes Ditch and Upper Whited-Barnes ditch, from Camp Creek, under date of 1881, and it was stipulated

between said Murray and Ware that the lands so irrigated by Ware under date of 1881 were prior in time to the lands so irrigated by said Murray under date of 1881.

It further appears that the heirs of J. R. Watkins, deceased, irrigate certain lands from the Upper-Whited-Barnes ditch and the Lower Whited-Barnes ditch under priority date of 1881, and it was stipulated that such lands were prior in time and superior in right to the said lands of Archie J. Murray irrigated under date of 1881 through the Home Meadow Ditch and Northeast Meadow ditch.

52.

Fred Griffith filed a claim for water in the North half of Section 12, T. 13 S. R. 43 E. W. M., but upon the survey of the engineers, it appears that the stream does not run upon said land and none of said land has been irrigated, and said claim for water right is denied.

53.

Mary J. Holbrook filed with her claim a certified copy of the decree in the case of Barnes vs. Ratcliff, in the Circuit Court of the State of Oregon for Baker County. It appears that no one has filed any water right for the lands owned by Ratcliff involved in that decree.

54.

Decree was filed in this proceeding from the Circuit Court of the State of Oregon for Baker County, wherein M. F. Sturgill and Leonard and Fada Neely and Edward Jackson and Ruby Jackson were parties, the first named being plaintiff. Said decree involved the following described lands belonging to the said parties; M. F. Sturgill, NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19; Defendants Neely, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 20; Defendants Jackson, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 15, NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ EW $\frac{1}{4}$ Section 22, all in T. 11 S. R. 44 E. W. M., and it was decreed by said Circuit Court that the plaintiff, M. F. Sturgill, should have a priority right as of date of 1889 for 25 miner's inches of water and of 1898 for 20 miner's inches, and that defendants Neely should have a right as of date of 1898 for 15 miner's inches and defendants Jackson should have a right as of date of 1902 for 12 miner's inches; and it appearing that the plaintiff Sturgill irrigates 50 acres of land and defendants Neely 14 acres of land, and defendants Jackson 24 acres of land, the Board finds that said plaintiff shall have 30 acres of land with a date of 1889 and 20 acres with a date of 1898; that the priority date of defendants Neely shall be 1898 and the priority date of defendants Jackson shall be 1902. Said decree further provides for rotation be-

tween the plaintiff and defendants, which rotation the water master shall follow so far as the same will not interfere with other priority rights.

55.

A decree was filed in this proceeding, which was rendered by the Circuit Court of the State of Oregon for Baker County, in the case wherein Michael Rouse, J. N. Shelton and Michael Rouse as executor, substituted for Edward Curop, were plaintiffs, and T. J. Whited, Joseph Wham, George Frosnot, W. E. Thompson, L. M. Haskins, Wm. Robertson, James Brown, Harvey Phillips, J. M. La Porte, Henry Elms, Thomas Elms, George Elms, Fulton Fleetwood, William Morrill, E. B. Carlile, Fred Shanklin, John McGrath, John Jones and Horace Walker were defendants. Said decree involved the following lands of plaintiffs; Michael Rouse, SW $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 28, SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 29, T. 12 S. R. 37 E. W. M.; J. N. Shelton, E $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 28, and NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 33, T. 12 S. R. 37 E. W. M., Edward Curop, N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 32, W $\frac{1}{2}$ NW $\frac{1}{4}$, Section 33 T. 12 S. R. 37 E. That Otto Paustain is successor in interest of Edward Curop. That said decree gave to the lands of Michael Rouse 100 inches of water for 100 acres of land, and to the lands of Edward Curop, now owned by Otto Paustain, 100 inches of water for 100 acres of land, and to the lands of J. N. Shelton 125 inches of water for 125 acres of land, all under date of 1887. In the claims herein filed on said lands, from the Curop Ditch, Otto Paustain claimed 89 acres under said date, and J. N. Shelton claimed 181.5 acres of said lands, from the said ditch. Said decree was rendered in 1908, and at that time said J. N. Shelton only had 125 acres in irrigation, and the Board has therefore placed the date of priority of Michael Rouse, J. N. Shelton and Otto Paustain through the Curop Ditch as 1887 for the lands of Otto Paustain, Michael Rouse and J. N. Shelton, except that for the lands of J. N. Shelton the Board has placed 125 acres under date of 1887 and 56.5 acres under date of 1908. Said decree further defined the rights of Ella M. Haskins, who has filed claims herein under the name of Adelaide Powell, Marguerette Powell, John Powell Jr., and Ella Powell Haskins, as prior in right for two old ditches, one on the north side and one on the south side of the South Fork of Burnt River, to the rights of said Ella Powell Haskins through the Tiger ditch and the new ditch. It appears that Ella Powell Haskins and others named in her claim have filed for the Powell-Hill ditch, Tiger ditch, East Side ditch and Lyman-Powell ditch; that the old ditches are the East Side and the Powell-Hill ditches, that the Tiger ditch was constructed in 1895 and the Lyman-Powell ditch in 1886, so that the water rights of Ella Powell Haskins and those named in her claims with her, shall be for the Tiger ditch, from the South Fork of Burnt River, under date of 1895, and for the Lyman-Powell ditch, under date of 1886, for the lands irrigated by both of them,

but the rights of these parties to the waters of Pole Creek shall not be affected, and the date for the irrigation of the lands under the Tiger ditch by the waters of Pole Creek shall remain as of date of 1887.

56.

A decree of the Circuit Court of the State of Oregon for Baker County was filed in these proceedings wherein J. W. Trimble was plaintiff and R. R. Ruddell and Clyde Ruddell were defendants. A priority date of 1878 out of Beaver Dam Creek was therein established for 2 acres in the SW $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 19 and 6 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 30, T. 12 S. R. 38 E. W. M., and the defendant's lands for 20 acres in the SW $\frac{1}{4}$ of Section 18 and NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 19 was established as having a date of 1902. That James Trimble has claimed in this proceeding 29 more acres in said Sections 19 and 30, and that for such additional acreage he holds Engineer's Permit No. 2359, and shall have the rights as are accorded by law to such permits, and when proven up on in accordance with law, shall have the rights as therein established under the priority date as given by such permit.

57.

A decree of the Circuit Court of the State of Oregon for Baker County in the case of Michael Rouse and John Rouse vs. H. C. Elms and Fennie Elms, his wife, Thomas J. Elms, George W. Elms, Fulton Fleetwood, William L. Morfitt, Fred Shanklin, Mrs. G. G. Nelson, wife of George C. Nelson, deceased, John McGrath, Sam Cavin, Lizzie Carnega, George F. Fleetwood, C. P. Lawrence and Margaret Lawrence, his wife, William Chamberlain, Harvey Phipps, John Jones, Horace Walker, George Whited and Belle Whited, his wife, Joseph Wham, Wilse Wham, T. J. Whited, J. N. Shelton, Ed Curop, M. L. Haskins, formerly Mrs. Powell, widow of John Powell, deceased, William Robertson, James Brown, George Fosnot, William A. Thompson and Joseph W. La Porte and E. B. Carlile, was filed in these proceedings, wherein it was determined that the plaintiffs, for their lands described as the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 21, SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 20, W $\frac{1}{2}$ of Section 28, E $\frac{1}{2}$ of Section 29 and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 29, T. 12 S. R. 37 E. W. M., were entitled to a flow of 250 inches of water prior to all of the defendants; then the defendant Whited should be entitled to the use of the water diverted through the upper ditch of Wham and Whited in the amount determined in a suit between himself and others as plaintiff against others as defendants, and thereafter the plaintiffs should be entitled to 150 inches of water prior to all of the other defendants except said defendant Whited. That it was determined in the case of Whited vs. Cavin that said Whited was entitled to 400 inches through the Wham-Whited Upper ditch, so that the distribution of water under this decree shall be 250 miner's inches to the plaintiffs Rouse, then 400 miner's inches to the defendant Whited, and then 150 miner's inches to the plaintiffs Rouse, again prior to the distribution of any water to the balance of the defendants therein. The above decree was rendered upon the theory that the amount of water necessary to irrigate an acre of land was one miner's inch, and whenever, under the administration of these findings, it is determined that a less amount

of water is necessary to irrigate an acre then as determined in said decree, then in that case such water shall be distributed in the same proportion as set forth in said decree.

58.

A decree of the Circuit Court of the State of Oregon for Baker County in a suit wherein Thomsen and Company, a corporation, was plaintiff, and John Trimble, James Trimble, O. C. Koontz, Fred Boyer, William Fleetwood, Charles Fleetwood and Mrs. M. E. Davidson were defendants, was filed in these proceedings, and it appearing that the claimants named in said suit have filed claims herein with dates of priority in accordance with the decree of said Circuit Court, the tabulation shall set forth their claims as given in the statements and proof of claimants.

59.

That H. C. Elms is the owner of a reservoir located in Sections 10 and 15 Township 13 S. R. 37 E. W. M., known as the Tucker Reservoir; the capacity of which is 400 acre feet, and has a right to divert the surplus water of Jobes Creek and South Fork of Burnt River with a priority of 1905 to fill said reservoir. The water impounded in said reservoir is to be used to irrigate lands in the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ and the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 10, the W $\frac{1}{2}$ of the NW $\frac{1}{4}$ of Section 10, the E $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Section 9, and the E $\frac{1}{2}$ of the SE $\frac{1}{4}$ of Section 9, all in township 13 S. R. 37 E. W. M.

60.

That the right of J. M. La Porte, as successor in interest of John B. Shaw, to irrigate from the waters of the Middle Fork of Burnt River, 10 acres in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$, 20 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19 T. 12 S. R. 37 E. W. M., shall be subsequent in time and inferior in right to the right of Anna M. Morgan, and heirs, executors, administrators and assigns, to irrigate 85 acres in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 19, the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$, and the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 20 T. 12 S. R. 37 E. W. M.

61.

That Bruce Dennis of La Grande, Oregon, be and he is hereby substituted as successor in interest and owner of all of the lands described in the tabulation in the findings of fact and order of determination of the State Water Board under the name of Archie J. Murray, Unity, Oregon. C. R. Williams, successor in interest; that said tabulation so appearing under said name of Archie J. Murray, Unity, Oregon. C. R. Williams, successor in interest, be amended by adding thereto, under date of 1883, the right to store water taken from East Camp Creek for the irrigation of the lands in said tabulation, tabulated under said priority date of 1883, and under said names;

That the tabulation in said findings of fact and order of determination under the name of Hardy B. Murray be amended by adding thereto the right to

store water in the Big reservoir for the irrigation of 18 acres of land from East Camp Creek under priority date of 1884, said lands being tabulated in said tabulation as being irrigated through a ditch under the name of Big Reservoir.

62.

That as to the exception of R..D. Shook to the State Water Board findings, which was referred to the State Water Board for the purpose of securing additional evidence, has been settled by a stipulation executed on the 13th day of December, 1924, by R. S. Shook and Paul Herold. Conforming to the said agreement the tabulation in the State Water Board findings is amended and corrected to read as tabulated herein.

That the 2 acres irrigated in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 24 T. 11 S. R. 43 E. W. M., and described in the tabulation herein is that portion of said legal subdivision lying above the ditch of said R. D. Shook, and being that portion of said legal subdivision, lying above the present location of said Shook ditch across said legal subdivision, and on the south side of Gold Fork of Manning Creek.

63.

That all claimants to the use of the waters of said stream who hold State Engineer's permits for the appropriation thereof, or who have proved up on such permits and received certificates of water right upon the same, shall have the right to use such water in accordance with their dates of priority as established by said permits or certificates, as the case may be, and in accordance with the laws of Oregon covering said permits and certificates of water right. The following persons holding State Engineer's permits have filed their claims in this proceeding, and their rights shall be such as their permits entitled them to, to-wit:

O. O. Bailey,	Durkee, Oregon.	Permit No. 1325
Martha A. Barton	Unity, Oregon.	Permit No. 726
J. A. Burton	Unity, Oregon.	Permit No. 2331
J. E. Derrick	Unity, Oregon.	Permit No. 3361
Hans P. Mikkelson	Durkee, Oregon.	Permit No. 1692
Herbert Morfitt	Unity, Oregon.	Permit No. 1816
Wm. L. Morfitt	Unity, Oregon.	Permit No. 639
Archie J. Murray	Unity, Oregon.	Permit No. 2680 & R 344
Hardy B. Murray	Unity, Oregon.	Permit No. 2555
Wilbert Nichols	Bridgeport, Oregon.	Permit No. 2958 & R 362
Abraham Odeen, et al		Permit No. 2579
F. C. & Clara M. Oxman	Durkee, Oregon.	Permit No. 1274
Hans Paustain	Unity, Oregon.	Permit No. 1666
John R. Scrivner	Unity, Oregon.	Permit No. 2579
Lawrence Williamson	Unity, Oregon.	Permit No. 1816
James Trimble	Hereford, Oregon.	Permit No. 2359

That upon a great deal of the land irrigated from Burnt River and its tributaries, there has been an excessive amount of water used, and a great deal of said land has become waterlogged, and the grasses growing upon the same are changing from the tame grasses to the wild grasses; that the irrigation season in the Upper Burnt River Valley begins about the first of April, and ends about the first of September, while in the lower Burnt River Valley it begins about the first day of April

and ends about the first day of October; that in order to irrigate any land good irrigation practice does not require the continuous flow of water upon each and every acre of the same, but does require a sufficient head of water to put the water over the ground; on tracts not exceeding ten acres, the head of water to be diverted for the use of irrigation upon any land hereinafter in the tabulation described by the water users, shall be limited to such an amount as shall be necessary to the beneficial irrigation of the land, not to exceed one twentieth of a second foot, or its equivalent, two inches under a six inch pressure, miners measurement, to the acre; and for all other lands, the head of water to be diverted shall be sufficient for the beneficial irrigation of the lands, not to exceed one-fortieth of a second foot or its equivalent, one inch under six inch pressure, miners measurement per acre, continuous flow, provided further, that no water user shall use more than three acre feet in an irrigation season.

65.

That all claimants herein to water for irrigation shall be entitled to use such water for stock and domestic purposes; that the right to the use of water for stock and domestic purposes is hereby confirmed and entitles the owner of such water right to divert and use such a quantity of water as is reasonably necessary for his household and stock use; the amount so diverted and used shall not exceed the rate of one-fortieth of one cubic foot per second for each one thousand (1000) head of stock, and the quantity diverted for irrigation purposes during the irrigation season shall include, when it is so diverted, such an amount as may be reasonably necessary for said stock and domestic purposes, and the right to divert and use the waters of said stream and its tributaries for stock and domestic purposes continues throughout the year.

66.

That the rights of appropriation hereby confirmed are appurtenant to the lands herein described for irrigation purposes, and the rights to the use of the waters of said stream and its tributaries by virtue of such rights of appropriation are limited and confined to the irrigation of the lands herein described to the extent of said lands as herein set forth, and the priorities herein confirmed confer no right of use of the waters of said stream and its tributaries, on lands other than those specified tracts to which such rights of appropriation are herein set forth as appurtenant, and each and every person shall be and hereby is prohibited, restrained and enjoined from diverting and using water from said stream on such other lands without lawful permit from the State Engineer.

67.

That the order of the rights of the respective appropriators of the waters of said stream and its tributaries, and in which order they are entitled to divert and use the said water, shall be and is according to the date of relative priority of the

right as herein set forth and determined, and the first in order of time according to the date of relative priority shall be and is the first in order of rights, and so on, down to the date of the latest priority, and those having prior rights are entitled to divert and use the waters of said stream and its tributaries, when necessary for beneficial use in connection with the irrigation of their respective lands, or other useful and beneficial purposes for which they are decreed a right of use at all times and against those having subsequent rights without let or hindrance, and whenever the water is not required by the appropriator having a prior right to its use for the purpose for which said water was appropriated, he must and shall permit it to flow down in the natural channel of the stream as it was wont to flow in its natural course, without hindrance or diversion thereof, and those having subsequent rights are entitled to the use of such water and to divert the same to the extent of their rights of appropriations, according to the order of their priority rights; and at all times the waters shall be beneficially, economically and reasonably used without waste by those having a right to do so by reason of the priority of their rights, and no rights of appropriation are hereby confirmed to divert a greater quantity of water into the head of the ditch or ditches of the appropriator having a valid right to divert the water than such appropriator can beneficially use for the purpose to which the water is to be put.

68.

That in distributing the water, the water master may arrange systems of rotation in either of the following manners:

1. By arranging a period of irrigation for the lands of a number of appropriators, then by giving to one of such appropriators all of the water belonging to the lands included in the system of rotation for a length of time proportionate to the period of irrigation as the amount of water to which he is entitled bears to the whole amount of water to which all the appropriators in such system are entitled, and so on, until all of the appropriators under the system of rotation are served; and such distribution of water shall be repeated in the same manner throughout the irrigation season.

2. When two or more appropriators agree among themselves as to the manner of rotation as to the use of water the water master shall distribute the water in accordance with such agreement, provided rights of other parties are not interfered with, and provided further that such agreement is in writing and on file with the water master;

69.

That the name and address of each appropriator of water from Burnt River and its tributaries, arranged in a tabulated form, together with date of relative

priority of such appropriation, the number of acres to which such appropriation is entitled, the use or uses for which said water was applied and is now applied and to which said use is limited, the name of the ditch or ditches through which such appropriation is diverted, the name of the stream or streams from which such appropriation is diverted, and the description of the land upon which such water is used, the tabulated rights of each appropriator being set opposite and following the name and post office address of each such appropriator, are as follows, to-wit:

Name and Postoffice Address of Appropriator	Date of Relative Priority	Amount Cubic Feet Per Second	Number Acres	Use	Name of Ditch	Stream	Description of Land or Place of Use
5820 Allen, A. J. Durkee, Oregon.	1887		20.5	Irrigation	Majors	North Fork Swayne Creek also called W. Fork	15 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$ 2 acres in SW $\frac{1}{4}$ NW $\frac{1}{4}$ 3.5 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, T. 11 S. R. 44 E. W. M.

R. 40 E. W. M.

Priority of claim to be established by survey of the land to be irrigated.

Cancelled by Decree
Vol. 16, p 407

That the Eastern Oregon Land Company has filed a claim here-
in for the use of the waters of the following named tributaries of Burnt River, for
irrigation, domestic and stock purposes, to-wit: Last Chance Creek, Elk Creek, Spring
Creek, Sheep Cree, South Fork of Burnt River, Bear Creek, Stevens Creek, Barney Creek,
Amelia Creek, Weiss Springs, Bull Run Creek, West Camp Creek, Jr., Shirts Creek, Jobs
Creek, Skull Creek, West Camp Creek, Whiskey Creek, Long Creek, Johnson Creek, East
Camp Creek, Copper Creek, Mud Springs Creek, Rock Creek, Flint Creek, Independence
Creek, Deer Creek, Reed Creek, Steep Creek, Koontz Creek, Cottonwood Creek and
Mahogany Flat Creek. That the extent of the appropriation of said Company from the
above named streams through the Eldorado Ditch under its right dating from November 9,
1867, has been hereinbefore fixed in Paragraph 9. That said Company asks that such
appropriation be made appurtenant to the lands described in its claim, and also asks
the right to store such water for use upon said lands. That said rights of appro-
priation and storage are hereby confirmed, for use upon the lands hereinafter set forth.
It appears that parts of the land to which the Eastern Oregon Land Company desires to
make such water rights appurtenant, have a water right from Willow Creek in Malheur
County, and also have a water right from the above named streams under said Company's
flood water appropriation under State Engineer's permit No. 2025. And this appropria-
tion shall be deemed as supplementary to and in addition to such water rights, for the
irrigation of such lands.

That the lands to which such appropriation is hereby made appur-
tenant are not yet cultivated and irrigated, and said claimant is hereby allowed five
years from the 4th day of May, 1925, within which to put the said lands
under irrigation, or within such further time as the State Engineer may hereafter allow,
upon proper showing. That said company has not as yet provided any permanent facilities
for the storage of said water, and said time of five years from May 4 1925, shall
also apply to the providing of suitable reservoir for the utilization of said storage
right. That at the expiration of said five years, or extension thereof, the State Engineer
shall determine the extent to which said rights of appropriation and storage have been
completed and perfected, and the extent of said rights shall be limited to such amount or
volume of water as shall have been put to beneficial use by the expiration of said time.
That thereafter an order shall be entered by the State Engineer confirming the said rights
to the extent the same shall have been completed, and water right certificate shall be
issued to said claimant in accordance with such order. That the lands to which such water
shall be appurtenant and to which water rights as hereinbefore set out are appurtenant, are
described as follows, to-wit:

See letter from
Judge Knowlton,
May 1918, in

And it appearing to the Court that certain objections and contests have been heretofore filed and referred to the Court for testimony to be taken, and said testimony having not yet been taken and no findings having been made with reference thereto, and it appearing that among said contests, exceptions and objections are the following:

Eli Hawkins, contestant, vs. Dorcas Hambleton, Contestee; and
August B. Vandecar, contestant, vs. Fred A. Phillips, et al, contestees.

And the Court at this time being fully advised in the premises,
it is, therefore,

CONSIDERED, ORDERED, ADJUDGED, and DECREED that the testimony
in said objections, exceptions and contests be taken and that this decree in the above
entitled matter be made, subject to supplemental decree to be made by the Court on
said objections, exceptions and contests, after said testimony has been taken therein
and a determination thereof made by the State Engineer, and the above entitled Court
shall and does hereby retain jurisdiction in the above entitled matter for said purpose.

Done and dated at Baker, Baker County, Oregon this 4th day
of May, 1925.

J. W. Knowles

CIRCUIT JUDGE

State of Oregon.)
) SS:
County of Baker.)

I, the undersigned, County Clerk for Baker County, Oregon,
and ex-officio Clerk of the Circuit Court of said County and State, do hereby
certify that the foregoing copy of Decree and Order of Determination has been by me
compared with the original Decree and Order of Determination in the case of the
Determination of the Relative Rights of the Various Claimants to the use of the
Waters of BURNT RIVER and its Tributaries, a Tributary of Snake River, and that it is
a true and correct copy of said Original Decree and Order of Determination, and of
the whole thereof, as the same appears on file and of record in my office and now
in my official care and custody.

Witness my hand and seal of the Circuit Court this 19th day
of June, 1925.

A. B. Combs, Jr.,

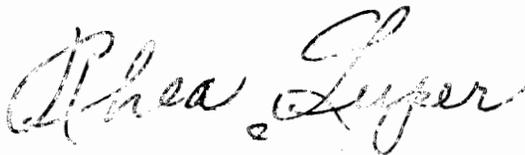

Clerk, Circuit Court.

SEAL

STATE OF OREGON)
) ss.
County of Marion)

I, RHEA LUPER, STATE ENGINEER, of the State of Oregon,
do hereby certify that the above and foregoing is a full, true and correct
copy of Decree in the matter of the determination of the Relative rights
to the Waters of Burnt River and its tributaries, a Tributary of the Snake
River, as received in the office of the State Engineer and entered of record
on May 4, 1925.

IN TESTIMONY WHEREOF, I have hereunto set my hand
this 4th day of May, 1925.

RHEA LUPER
STATE ENGINEER
