-----

FINDINGS AND ORDER  
OF  
DETERMINATION

Now at this time the above entitled matter coming on for consideration by the State Engineer, and it appearing that all evidence and testimony has been taken in the above entitled proceeding, and the State Engineer having carefully considered all of such evidence and testimony and the engineering data and information gathered in accordance with law, and being now fully advised in the premises, makes and orders to be entered of record in his office the following:

FINDINGS AND ORDER OF DETERMINATION

1.

That on the 24th day of November, 1909, there was filed in the office of the Board of Control of the State of Oregon (afterwards State Water Board, and now State Engineer) a petition signed by Chas. Dahlke, requesting a determination of the relative rights of the various claimants to the use of the waters of Rock Creek and its tributaries, a tributary of John Day River; that on the 6th day of January, 1910, there was filed in the office of the Board of Control a petition signed by P. H. Dennison and F. S. Dennison requesting a determination of the relative rights to the use of the waters of a Branch of Balm Creek, a tributary of John Day River; that on the 15th day of August, 1910, there was filed in the office of the Board of Control a petition signed by D. Walter Fisk, Wm. Taylor, Wm. Veitch and Oregon Lumber Company, requesting a determination of the relative rights to the use of the waters of Strawberry Creek and its tributaries; a tributary of John Day River; that on the 3rd day of September, 1910, there was filed in the office of the Board of Control a petition signed by S. S. Wolever, requesting a determination of the relative rights to the use of the waters of Rock Creek and its tributaries, a tributary of John Day River; that on the 16th day of March, 1911, there was filed in the office of the Board of Control a petition signed by John N. Geisler, requesting a determination of the relative rights to the use of the waters of Belshaw Creek and its tributaries, a tributary of John Day River; that on the 24th day of June, 1912, there was filed in the office of the Board of Control a petition signed by J. W. Bates, requesting a determination of the relative rights to the use of the waters of Isham

Creek and its tributaries, a tributary of John Day River; that on the 27th day of February, 1914, there was filed in the office of the State Water Board a petition signed by Emmet Cochran, requesting a determination of the relative rights to the use of the waters of Birch Creek and its tributaries, a tributary of John Day River; that on the 5th day of April, 1914, there was filed in the office of the State Water Board a petition signed by Albert Harper, requesting a determination of the relative rights to the use of the waters of Cap Suttle Creek and its tributaries, a tributary of John Day River; that on the 25th day of April, 1916, there was filed in the office of the State Water Board a petition signed by W. K. France, C. Schott, Est., by Coh Seott, H. L. Wiseman and Chas. Dahlke, requesting a determination of the relative rights to the use of the waters of Rock Creek and its tributaries, a tributary of John Day River; that on the 2nd day of February, 1917, there was filed in the office of the State Water Board a petition signed by W. K. France and Chas. Dalke, requesting a determination of the relative rights to the use of the waters of John Day River and its tributaries; that on the 20th day of September, 1919, there was filed in the office of the State Water Board a petition signed by James C. Gilchrist, requesting a determination of the relative rights to the use of the waters of West Branch, a tributary of Bridge Creek, a tributary of John Day River; that on the 9th day of December, 1919, there was filed in the office of the State Water Board a petition signed by Donna Mcfitt, requesting a determination of the relative rights to the use of the waters of Rock Creek and its tributaries, a tributary of John Day River; that on the 20th day of September, 1920, there was filed in the office of the State Water Board a petition signed by E. M. Stephens, requesting a determination of the relative rights to the use of the waters of Bridge Creek and its tributaries, a tributary of John Day River; that on the 19th day of May, 1924, there was filed in the office of the State Engineer a petition signed by Lester V. Cooke, Mary B. Cooke, Athena M. Edwards, and Arda L. Edwards, requesting a determination of the relative rights to the use of the water of Butte Creek and its tributaries, a tributary of John Day River. That thereafter the office of the State Water Board was abolished by law, and its work and duties devolved upon the State Engineer. That the State Engineer after a full investigation and due consideration of said petitions, finding the facts and conditions such as to justify it, made and entered an order fixing a time for the beginning of such examinations and investigations and surveys as would enable him to determine the relative rights of the various claimants to the use of the waters of John Day River and all of its tributaries, except those upon which such a determination had already been made.

2.

That a notice was prepared by the State Engineer setting forth the fact that such examinations, surveys and investigations of the flow of the stream and of the ditches diverting water therefrom were being conducted, and said notice was published in two issues of the Condon Globe-Times, a newspaper published weekly in the

town of Condon, Gilliam County, Oregon, said two issues being those of March 20th and 27th, 1925; and said notice was published in two issues of the Blue Mountain Eagle, a newspaper published weekly in the town of Canyon City, Grant County, Oregon, said two issues being those of March 20th and 27th, 1925; and said notice was published in two issues of the Fossil Journal, a newspaper published weekly in the town of Fossil, Wheeler County, Oregon, said two issues being those of March 20th and 27th, 1925, said newspapers having general circulation in the counties in which such stream is situated.

3.

That duly qualified assistants of the State Engineer did proceed to make examinations, surveys and measurements of said stream and its tributaries, and of the ditches and canals or other works diverting water therefrom and surveys of the lands irrigated, and gathered such data and information as were essential to the proper determination of the relative rights of the parties interested; which said observations and measurements were reduced to writing and made a matter of record in his office. And the State Engineer did cause to be prepared a set of maps or plats on a scale of four inches to the mile, showing with substantial accuracy the course of said stream and its tributaries, the location of each ditch or canal diverting water therefrom, and the number of acres of land which had been irrigated in each legal subdivision; blue prints of said maps and plats being now on file and a part of the record herein.

4,

That as soon as practicable after the examination and measurements were completed as described in the preceding paragraph, the State Engineer did prepare a notice setting forth a place and time certain when he would begin the taking of testimony (statements and proofs of claim) as to the relative rights of the various claimants to the use of the waters of said stream and its tributaries, that said notice was published in two issues of the Condon Globe-Times, a newspaper published weekly in the town of Condon, Gilliam County, Oregon, said two issues being those of May 6th and 13th, 1927; and said notice was published in two issues of the Blue Mountain Eagle, a newspaper published weekly in the town of Canyon City, Grant County, Oregon, said two issues being those of May 6th and 13th, 1927; and said notice was published in two issues of the Fossil Journal, a newspaper published weekly in the town of Fossil, Wheeler County, Oregon, said two issues being those of May 6th and 13th, 1927; said newspapers having general circulation in the counties in which each stream is situated, the last publication of said notice in each case being at least 30 days prior to the first date fixed for the taking of claims by the State Engineer.

5.

That the State Engineer did send by registered mail to each person, firm or corporation claiming a right to the use of any of the waters of said stream, and to each

person, firm or corporation owning or being in possession of lands bordering on or having access to said stream or its tributaries, insofar as said claimants and owners and persons in possession could reasonably be ascertained, a notice similar to such published notice, setting forth the date when the State Engineer or his authorized assistants would receive the statements and proofs of claim of the various claimants to the waters of said stream and its tributaries. That said notice was mailed at least 30 days prior to the date set therein for the receiving of claims in each instance. And the State Engineer did enclose with each of said notices a blank form upon which the claimant or owner could prepare in writing all the particulars necessary for the determination of his rights, under oath.

6.

That the times and places when and where the State Engineer, or his duly authorized assistant should attend and receive the claims of the various parties were fixed as follows, to-wit:

On Wednesday and Thursday, June 15 and 16, 1927, in the Circuit Court Room of the County Court House at Condon, Oregon.

On Friday and Saturday, June 17 and 18, 1927, in the Circuit Court Room of the County Court House at Fossil, Oregon.

On Monday, June 20, 1927, at the School House at Spray, Oregon.

On Tuesday, June 21, 1927, at the Community Hall at Dayville, Oregon.

On Wednesday, Thursday and Friday, June 22, 23, 24, 1927, in the Circuit Court Room of the County Court House at Canyon City, Oregon.

On Saturday, June 25, 1927, at the Opera House at Bates, Oregon.

And for a period of 30 days, beginning June 29, 1927, at the office of the State Engineer in the Capitol Building, at Salem, Oregon.

The above hearings as set out were continued until each of said contests was fully heard, settled or otherwise disposed of.

11.

Contest No. 1

Ira G. Boyce and Clara A. Boyce  
Contestants,  
vs.  
Geo. Clark and A. A. Yokum,  
Contestees.

This contest came on for hearing and was settled by stipulation. The rights of Contestees will be tabulated in accordance with the provisions thereof.

12.

Contest No. 2

Estate of A. H. Akin, Deceased, and  
Lancy S. Hows,  
Contestants,  
vs.  
Edward C. Dodson and Sophia A. Dodson,  
Contestees.

A stipulation was filed in settlement of this contest wherein the Contestee admitted that the Contestant was the owner of the Akin ditch, through which the Contestee conveyed the water to be used for the irrigation of Contestees lands and for domestic purposes. It was further stipulated that contestee would be permitted to use said ditch of Contestants, but Contestees would only be entitled to water in said ditch for the irrigation of their lands and for domestic use after the Contestants had first received sufficient water in the said Akin ditch for their use as claimed under Proof No. 4. The stipulation as above set forth will govern the rights of the parties to this Contest insofar as the use of the ditch is concerned but nothing herein contained shall be construed so as to effect the priority of the water right as claimed by either party to the contest or between them.

This stipulation made and entered into this 1st day of April, 1929 between W. K. France and Dorothy B. France, contestants in the matter of the adjudication of the waters of Rock Creek, Gilliam County, Oregon by the State Engineer, said contest coming on to be heard on this 1st day of April, 1929 and the following named contestees being present in person and by their respective attorneys, L. T. Parker, W. P. West, Frank Marick B. Marick by J. D. Weed and H. H. & Carl Hendricks their attorneys of record. A. Wheelhouse, Chas. Story, W. R. Kurtz, Administrator of the estate of Wm. Head, deceased by their attorney Sam E. Van Vactor and the said contestants appearing in person and by their attorney Mark Weatherford, and the said contestants and contestees by their respective attorneys having agreed upon the purposed distribution of the waters of said Rock Creek within the limits hereinafter defined and for the purpose of putting the same into the form of a stipulation, so that the same maybe entered by a decree by the State Engineer upon the termination of his findings.

1. It is hereby stipulated and agreed by and between the respective parties hereto that as between all of the parties to this stipulation binding themselves, their heirs, representatives and assigns and the land now owned by them that for all purposes, as between them and each of them, and the use and appropriation of the waters of Rock Creek, that there shall be deemed to be no priority of rights as to the use of said waters of Rock Creek, Gilliam County, Oregon, or any part thereof.

2. That hereafter and for each and every week of the irrigating season the parties hereto owning land down the creek from and including the land owned by W. P. West shall have the exclusive use of said water beginning Sunday noon and ending Wednesday evening at six o'clock and that the other parties to this stipulation and owning the land beginning with the land owned by Chas. Story and A. Wheelhouse down to and including the land owned by Frank Marick shall have the exclusive use of all of the water of said Rock Creek for that part of the week beginning Wednesday at six o'clock and ending Sunday noon.

3. That as between the parties hereto, the first group and area of land shall be designated as area "A" and the second group shall be designated as area "B",

4. That as between the parties owning land in Area "B" in the event there is insufficient water to meet the desire of each member of said group then the said

water shall be apportioned pro rata during the same period, the same to be used by said group equally according to the number of acres under irrigation and owned by each party.

5. That for the period of the week that the said waters of Rock Creek are designated to be used by group "A" and there is insufficient water to meet the desired requirements of any member of said group then the said water shall be apportioned equally according to the number of acres owned and now under irrigation by each party.

6. It is further stipulated and agreed that at and when the said stream of water flows a sufficient quantity of flood water as to meet the requirements to all the parties of this stipulation, each and every party shall have free and unhampered use to all of said water that maybe required to irrigate his said land. That at any time there is an insufficient water to meet the need of irrigation of land owned by any of the parties hereto or their successors such party shall automatically call into operation the division of said water as hereinabove specifically provided by giving notice to the other users within the groups named.

7. It is further stipulated and agreed by all the parties hereto that in the event the parties to either group fail or refuse to abide by this stipulation or the members of a group fail or refuse, as between each other, to abide by this stipulation that the water master having jurisdiction over the entire area is hereby given specific authority to enforce the terms of this agreement and stipulation.

8. It is further stipulated and agreed that this stipulation be and the same is hereby offered and submitted in lieu of evidence in the trial of said contest and maybe considered as evidence by the State Engineer's office in adjudicating the rights of the parties hereto under said contest as between each other and that a final decree and adjudication may be made and entered of record as provided by law based upon this stipulation and in accordance with the terms thereof.

9. It is further stipulated and agreed that this stipulation shall in no way effect the rights of any party thereto as to the rights of such party to the waters of Rock Creek, Gilliam County, Oregon or their priorities therein as between such party and any other water user on said stream and not a party to this stipulation.

10. It is further stipulated and agreed that the area of irrigatable land owned by any of the parties hereto shall be and is hereby fixed as shown by the survey made by the State Engineer's office of the State of Oregon which survey is hereby agreed shall be fixed and final as between all of the parties hereto.

11. It is further stipulated and agreed that it is not the intention of any of the parties hereto by this stipulation to fix or in any way effect the right or rights that any of the parties have or claim in or to any partnership irrigation ditch which any of the parties may be interested in at this time or the use of the same, the intention being that the partnership rights or joint owner rights in any irrigation ditch which any of the parties have or claim shall in no wise be effected by this stipulation and the rights of such parties shall not be enhanced or curtailed by anything stated in this stipulation.

12. It is further stipulated that portion of the lands heretofore belonging to the Jas. Stephens estate has been purchased by A. Wheelhouse who is now the owner thereof, and that the land of the partnership of Horst & Wheelhouse of which estate A. Wheelhouse is executor of the Last Will and Testament and that contestee Frank Marick is the owner of the remaining portion of the Jas. Stephens estate lands.

In Witness Whereof, We have hereunto set our hands this day and year first above written.

Mark Weatherford  
Attorney for Contestants.

Sam E. Van Vactor  
Attorney for A. Wheelhouse, as executor of the estate of Henry Horst deceased and the partnership estate of Wheelhouse & Horst and Chas. T. Story and W. R. Kurtz, Administrator of the estate of Wm. Head deceased, Contestees.

H. H. & Carl Hendricks

J. D. Weed  
Attorneys for L. T. Parker, W. P. West, Frank Marick, B. Marick, Contestees.

The lands involved and referred to in paragraph 5 of the above stipulation and designated as being in group "A" are those lands beginning with the lands of W. P. West in the SW $\frac{1}{4}$ SW $\frac{1}{4}$  Section 13, T. 1 N., R. 20 E. W. M., and down Rock Creek including all the lands of said W. P. West, Wm. Head, Dorothy France and ending with and including the lands of L. T. Parker in the SE $\frac{1}{4}$ NE $\frac{1}{4}$  Section 17, T. 1 N., R. 20 E. W. M., and as more particularly described in the Proofs of claims filed in the proceedings by the parties included in said group "A" being Nos. 1447 - 608 - 609 - 471 and 1031 respectively, and as set forth and described in the tabulation of rights hereinafter made a part of these findings.

The lands involved and referred to in paragraph 4 of the above stipulation, and referred to as being in group "B", are those lands beginning with and including the lands of C. F. Story in the W $\frac{1}{2}$  of the NW $\frac{1}{4}$ , and the NW $\frac{1}{4}$ SW $\frac{1}{4}$  Section 32, T. 1 N., R. 21 E. W. M., down Rock Creek and including the remainder of the lands of C. F. Story and the lands of A. Wheelhouse - J. E. Stephens, except 9.6 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ , and to and including the lands of B. Marick terminating in the NW $\frac{1}{4}$ NE $\frac{1}{4}$  and the NE $\frac{1}{4}$ NW $\frac{1}{4}$  Section 24, T. 1 N., R. 20 E. W. M., and as more particularly described in Proofs of Claim filed in these proceedings by the parties included in said group "B" being Nos. 1314 - 1450 - 1255 - 1256 and 805 respectively, and as set forth and described in the tabulation of rights hereinafter made a part of these findings.

The rights of the parties to those contests will be tabulated as claimed, but the water master in distributing the water between the parties to these contests will do so in accordance with the provisions of the above stipulation.

BEFORE THE STATE ENGINEER OF THE STATE OF OREGON.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS  
TO THE WATERS OF JOHN DAY RIVER, A TRIBUTARY OF COLUMBIA  
RIVER.

S T I P U L A T I O N.

Comes now Herman Oliver and Frank Oliver, partners as Oliver Brothers, Mrs. C. J. Bartlett and F. M. Fisk by George H. Cattanaach, their attorney; Smith Brothers by Errett Hicks, Edwin D. Hicks and Percy A. Cupper, their attorneys; Sarah J. Olp, Philip J. Kuhl, William Hall, Walter Ross and Walter Clyde Campbell, by Earl B. Moore, their attorney; Zoe Stephenson, David W. Moyer and G. W. Lamson by W. H. Strayer, their attorney; William Young, Anna Young, Estate of Henry A. Johnson, Berton Howard, Charles Howard and C. E. Ridgeway, By George J. Bentley, their attorney; and in full settlement of all contests between the parties hereto in the above entitled proceedings and for the purpose of promoting the economical and efficient use of the waters of Indian and Pine Creeks,

IT IS HEREBY STIPULATED AND AGREED BY AND BETWEEN THE PARTIES HERETO AS FOLLOWS:

1. That the rights of all the parties hereto shall be as set forth in their respective statements and proofs of claim filed in these proceedings, except as the same may be modified and changed by any stipulations made and entered into by and between any one or more of the parties above named with any one or more of the other parties above named, and except further as specifically set out herein.

2. That the rights to the use of the waters of Indian Creek claimed by Smith Bros. under claim No. 1222 filed in these proceedings is hereby recognized as a valid and existing right, and for and in consideration of the transfer of other rights hereinafter referred to, Smith Bros. hereby transfer all their rights in and to the waters of Indian Creek to the other claimants to the waters of Indian Creek. Said water rights shall retain their priority of 1864 and be distributed to said Indian Creek claimants as follows:

(a) To Herman and Frank Oliver, with a priority of 1864, sufficient for the irrigation of 150 acres, located and described as follows:

32.2 acres in SE $\frac{1}{4}$  NE $\frac{1}{4}$ ;  
12.9 acres in NE $\frac{1}{4}$  NE $\frac{1}{4}$ ;  
13.7 acres in NW $\frac{1}{4}$  NE $\frac{1}{4}$ ;  
28.1 acres in NE $\frac{1}{4}$  NW $\frac{1}{4}$ ;  
12.1 acres in NW $\frac{1}{4}$  NW $\frac{1}{4}$ ;  
36.4 acres in SW $\frac{1}{4}$  NW $\frac{1}{4}$ ;  
14.6 acres in SE $\frac{1}{4}$  NW $\frac{1}{4}$ ;  
all in Sec. 19, Tp. 13 S., R. 33 E., W. M.

(b) The remainder of said waters shall be distributed among the other claimants to the said waters of Indian Creek in the order of their priorities as determined by the decree of the court.

3. That said Smith Bros. shall convey said water rights and their interest in the John Long Ditch from Indian Creek to Pine Creek to the above claimants to the waters of the said Indian Creek and in the event of their failure so to do, this stipulation shall be deemed to constitute a sufficient conveyance thereof.

4. That the rights of Herman and Frank Oliver to twelve and one-half second feet of the waters of Pine Creek diverted through the Hillis ditch with a priority date of 1864, is hereby recognized and acknowledged and the said Herman and Frank Oliver hereby transfer to Smith Bros. all their rights, title and interest in and to the Hillis ditch and the said Herman and Frank Oliver will convey said water rights and ditch to Smith Bros. by quitclaim deed and in the event of the failure of said Herman and Frank Oliver to so convey said ditch and water rights, this stipulation shall be deemed to constitute a sufficient conveyance thereof.

5. That the rights claimed by Smith Bros. to the waters of Pine Creek through the John Long Ditch, with a priority of 1864, under claims numbered 12-23, 12-24 and 12-25 are hereby recognized as valid and existing rights prior in time and superior in right to the rights claimed by Herman and Frank Oliver to twelve and one-half second feet through the Hillis ditch for mining purposes and herein transferred to Smith Bros., which said right also has a priority of 1864. That Smith Bros. shall have the full and complete right to the waters of Pine Creek for the irrigation of the lands described under

claim No. 12-23 in lieu of the supplemental right as set forth in said claim.

6. That it appears in the filing of the claim of Mrs. C. J. Bartlett for water rights in Section 24, Township 13 South, Range 32 E., W. M. an error occurred in that a right was claimed for a greater area from Pine Creek and a lesser area from Indian Creek than was actually irrigated from said streams; that in truth and in fact there was actually irrigated from Indian Creek three hundred acres described as follows:

NE $\frac{1}{4}$ NE $\frac{1}{4}$ --40 acres	NE $\frac{1}{4}$ NW $\frac{1}{4}$ --30.2	SE $\frac{1}{4}$ SE $\frac{1}{4}$ --40
NW $\frac{1}{4}$ NE $\frac{1}{4}$ --26.2	NW $\frac{1}{4}$ NW $\frac{1}{4}$ --35.2	NE $\frac{1}{4}$ SE $\frac{1}{4}$ --23.4
SW $\frac{1}{4}$ NE $\frac{1}{4}$ --30.8	SW $\frac{1}{4}$ NW $\frac{1}{4}$ --18.0	All in Tp. 13 S.,
SE $\frac{1}{4}$ NE $\frac{1}{4}$ --39.2	SE $\frac{1}{4}$ NW $\frac{1}{4}$ --17.1	Range 32 E., W. M.

and there is actually irrigated from Pine Creek 150 acres described as follows: SE $\frac{1}{4}$  SW $\frac{1}{4}$ --28 acres; NE $\frac{1}{4}$  SW $\frac{1}{4}$ --30; SW $\frac{1}{4}$  SE $\frac{1}{4}$ --40; NW $\frac{1}{4}$  SE $\frac{1}{4}$ --10 acres; SW $\frac{1}{4}$  NW $\frac{1}{4}$ --21 acres; SE $\frac{1}{4}$  NW $\frac{1}{4}$ --20.9 acres; all in Tp. 13 south, Range 32 E., W. M.

7. That notwithstanding the relative priorities as above set forth to the waters of Pine Creek, the right of Mrs. C. J. Bartlett to irrigate the above described 150 acres with the waters of Pine Creek shall be superior to the right of Smith Bros. to irrigate the lands described under claim numbered 12-25 up to July 1st of each and every year and after July 1st of each and every year, Mrs. C. J. Bartlett shall not be entitled to any of the waters of Pine Creek for the above described lands until Smith Bros. rights are fully satisfied.

8. That the point of diversion of the water rights claimed by Herman and Frank Oliver from Pine Creek through the Hillis Ditch for the irrigation of ten and one-half acres under claim No. 995 and the point of diversion of the water rights claimed by John Brazil from Pine Creek through the Hillis Ditch for the irrigation of 9.5 acres under claim No. \_\_\_\_, to which said rights Herman and Frank Oliver have succeeded, shall be and the same is hereby transferred from a point on Pine Creek to a point on the John Day river below the mouth of Pine Creek, without loss of priority as set forth in said claim. Said water shall be diverted by means of pumps on or near the lands to be irrigated.

Said transfer will eliminate the transmission losses in eleven miles of canal from the present point of diversion to the lands, resulting in a substantial saving of water.

9. Subject to the approval of the State Engineer, the duty of water for all lands affected by this stipulation except as herein specifically otherwise provided, shall be one miner's inch per acre prior to July 1st and one-half miner's inch per acre after July 1st.

Contestants,

vs.

Henry A. Johnson Estate, Jessie M.  
Johnson, Administratrix,  
Contestee.

The Contestee under Proof No. 693 claimed a right to irrigate 73.2 acres of land from the waters of Indian Creek with date of priority of 1876. The contest was settled by stipulation, wherein Contestee agreed to advance the date of priority to 1877. The right will be tabulated accordingly.

18.

Contest No. 14

Zoa A. Stephenson and David W. Moyer,  
Contestants,

vs.

Mrs. J. C. Bartlett,  
Contestee.

This contest was settled by stipulation, wherein the rights of Contestants were made superior in right and prior in time to those of Contestee. As the rights of Contestants are of 1877 priority and the Contestee has a right of 1877 for 125.4 acres, under Proof No. 70, and the remainder of Contestee's lands being of subsequent priority the stipulation will be recognized as to the acreage of equal priority, and the water master will distribute the water between the parties to this contest accordingly.

Contest No. 20

Zoa A. Stephenson and David W. Moyer,  
Contestants,  
vs.  
Mabel E. Muldrick,  
Contestee.

This contest was directed against Proof No. 935, wherein Contestee claimed a right to irrigate 441.1 acres from Overhold Creek (better known as the East Fork of Indian Creek) with date of priority of 1874. The contest was settled by stipulation, the Contestee agreeing to make the right for 81.8 acres located within Section 3, T. 14 S. R., 33 E., W. M. inferior and subsequent in time to the right of Contestant having an 1877 priority. Insofar as the stipulation would attempt to waive the Contestee's priority, as to the Contestant, for the 81.8 acres, it must be construed as a waiver against all other users on said stream having a priority earlier than 1877. The Contestee will be allowed a right for the 81.8 acres, with a priority of 1877, but such right will be inferior and subsequent in time to that of Contestant. In all other respects, than here noted, the right of Contestee will be allowed as claimed, and will be so tabulated.

This contest was directed against Proof No. 506, wherein Contestee claimed an interest in the so-called Rathjen or Galiboo ditch. The water right as claimed was not contested, and the Contestee made no appearance at the hearing. The Contestee will be allowed a water right as claimed but in no event shall Contestee construe such findings as to allow said Contestee an interest or right in said ditch.

The Contestee stipulated with the above Contestants in settlement of the Contests. In each contest the Contestee acknowledged the Contestant to have a superior and prior right. The Contestee should not be permitted to waive his right as to one claiming a later priority and maintain it against others of the same class. The Contestee will be allowed a water right from Rock Creek for the irrigation of 96.4 acres with priority of 1906, but such right shall be inferior and subsequent to that of Contestant James Murtha (Contest No. 23) and inferior to the right of the City of

Lonerock (Contest No. 86) diverting water for municipal use which is a superior right and use to that of Contestee. In all other respects the stipulations filed in settlement of the above contests will be disregarded.

29.

Contest No. 25

P. W. McRoberts, Trustee, Contestant,  
vs.  
W. R. Mascall, Contestee.

This contest was directed against Proofs Nos. 819 and 820. Under Proof No. 819 Contestee claimed a right to irrigate 94.9 acres of land, with priority of April 12, 1870, situated within Sections 21, 28 and 29, Township 12 S., R. 26 E. W. M., from Cottonwood Creek, diverting the water through the Northside Cottonwood ditch. Under Proof No. 820 Contestee claimed a right, with priority of April 12, 1870, to irrigate 15.9 acres, located within Sections 28 and 29, Township 12 S., R. 26 E. W. M., diverting the water from Cottonwood Creek through the Southside Cottonwood ditch. At the beginning of the hearing Contestee withdrew his claim for 21.6 acres in Section 21 and put on proof as to the remainder of his claims.

The testimony indicates that there were ditches on the lands of Contestee in Section 28 as early as 1871, and in all probability a part of the lands were irrigated as early as 1870, and additional lands were prepared and put under cultivation within a few years thereafter, with the exception of 13 acres within the NW $\frac{1}{4}$  NW $\frac{1}{4}$  of Section 28, Township 12 S., R. 26 E. W. M., which do not appear to have been irrigated until about 1904.

The lands lying within Section 29 were road lands and belonged to the Eastern Oregon Land Company, the Contestee having purchased them in 1919. The testimony would indicate that these lands were first irrigated by a man by the name of Woods, who died in 1898. How long before these lands were irrigated does not appear from the record. The Contestee will be allowed a water right for the irrigation of all the lands claimed in Section 28, (with the exception of 13 acres) from Cottonwood Creek with date of priority of 1870. The 13 acres in the NW $\frac{1}{4}$  NW $\frac{1}{4}$  Section 28, Township 12 S.,

R. 26 E. W. M, will be allowed a water right from Cottonwood Creek with priority of 1904. The lands within Section 29 will be given a water right from Cottonwood Creek with date of priority of 1898. The rights of Contestee will be tabulated in accordance with the Findings herein made.

Contest No. 27

Stewart Livestock Company, a corporation,  
Contestant,  
vs.  
L. V. Stewart,  
Contestee.

This contest was settled by stipulation, wherein it was provided that the Contestants right to the use of the waters from Aldrich Creek, for the irrigation of 13.6 acres, would be superior in right and prior in time to that of Contestee, and that the Contestee's right for the irrigation of 28 acres from Flat Creek would be superior in right and prior in time to that of Contestant. It appears that no other parties would be injured by the stipulation, and its terms will be made a part of these findings, and the water master directed to distribute the water accordingly.

Contest No. 29

W. J. Gollyhorn and Sarah E. Gollyhorn,  
Contestants,  
vs.  
Jack Vaughan,  
Contestee.

A stipulation was filed in settlement of this contest, wherein it was agreed that the water right allowed under Proof No. 510, in the name of Contestant, for the irrigation of 36.6 acres from Indian Creek and a spring located in the ~~SE 1/4~~ Section 35,

Township 10 S., R. 29 E. W. M., and that allowed under Proof No. 1395, in the name of Contestee, for the irrigation of 36.6 acres, from the waters of Indian Creek be distributed equally between the parties to this contest. The stipulation also provided that the acreage under Proof No. 510 be reduced from 44.2 acres to 36.6. The rights of the parties will be tabulated in accordance with the stipulation, and the water master directed to rotate the water equally between the Contestant and Contestee.

W. C. Gibbs,  
Contestant,  
vs.  
Badger Gold Mining and Milling Company,  
and The Homesteake Gold Mining Company,  
Contestees.

This contest having come on for hearing was settled by stipulation, wherein the Contestee acknowledged a right of Contestant to an adverse use for that quantity of water necessary for the irrigation of 15 acres, the quantity of water to be determined by the findings hereinafter made in regard to the duty of water. The rights of the parties will be allowed as claimed with the exception that Contestant will be allowed a prior right to that of Contestee for sufficient water to irrigate 15 acres.

Contestee.	)	

THAT WHEREAS, D. M. BUTLER and E. A. BUTLER under the name of D. M. BUTLER, made Statements and Proofs of Claim No. 184 and 185 for the irrigation of 38.4 acres of land from Big Dog Creek and Little Dog Creek in Section 32, Township 13 South, Range 32 E.

AND WHEREAS, Wm. C. ELLIOTT, made Statement and Proof of Claim No. 406 for the irrigation of certain lands from said Dog Creek.

AND WHEREAS, The said D. M. Butler and E. A. Butler have initiated a contest against the said Wm. C. Elliott in the above entitled proceedings before the State Engineer of the State of Oregon, in which the said D. M. Butler and E. A. Butler set up a certain Decree of the Circuit Court of the State of Oregon for Grant County, which Decree was dated March 3rd, 1890, and which Decree is recorded in Volume D of the Circuit Court Journal of Grant County, Oregon, on page 501 thereof.

AND WHEREAS, The said Wm. C. Elliott has succeeded to the interests of D. B. Rinehart and E. A. Starr, Plaintiffs in the suit in which said Decree was entered.

IT IS THEREFORE STIPULATED AND AGREED AS FOLLOWS as between the said D. M. Butler and E. A. Butler, Contestants and the said Wm. C. Elliott, Contestee, to-wit:

That the said Decree hereinbefore described shall be and remain hereafter a full and complete determination of the rights of the parties herein as to the waters

of Big Dog Creek and Little Dog Creek, a tributary, and that the said D. M. Butler and E. A. Butler, shall be entitled as in said Decree set forth, to the prior uses of said waters for a period of thirty-six hours each week, beginning Wednesday morning at six o'clock, A. M., and to continue through said Wednesday and Wednesday night, and the succeeding Thursday until six o'clock in the evening of said Thursday, after which time, the said Wm. C. Elliott is to have the exclusive use of said water.

AND IT IS FURTHER STIPULATED That said contest initiated by the said D. M. Butler and E. A. Butler against the said Wm. C. Elliott shall be dismissed.

IT IS FURTHER STIPULATED AND AGREED That this Stipulation shall be binding upon the parties hereto, their heirs, executors, administrators and assigns in the adjudication of the waters of the John Day River, and the said parties do hereby request the State Engineer to so adjudge.

IN WITNESS WHEREOF, The parties have hereto set their hands to triplicates hereof, this 22nd day of August, 1928.

In the Presence of:

	<u>D. M. Butler</u>

Contest No. 36

Herbert Ricco and Henry Ricco,  
Contestants,

vs.

H. H. Clifford, Callie Green, Rebecca  
C. Wolverton and Geo. L. Velvin,  
Contestees

The rights of the Contestees involved in this contest will be considered separately.

H. H. CLIFFORD:

No appearance was made by Contestee Clifford at the hearing and no proof offered in support of his Claim No. 240. The right under said Proof of Claim 240 will be denied.

CALLIE GREEN:

Contestee Green filed Proof No. 525 claiming a right to irrigate 46.4 acres from the waters of Dad's Creek with date of priority of 1865. This claim was contested mainly on the grounds that the use by Contestant was adverse to that of Contestee. The lands of Contestant are irrigated with water being diverted from Dad's Creek through what is known as Dad's ditch, having its intake in the NW $\frac{1}{4}$  NW $\frac{1}{4}$  Section 16, Township 12 S. R. 14 E. W. M. being several miles up stream from the lands of Contestee.

Dad's ditch was built about the year of 1866 and was first used to convey water into the Dixie Creek watershed where it was utilized in connection with mining operations. When the water was no longer used for mining purposes is not clearly shown by the testimony, but it appears rather certain not after 1895. In order to force the water in

Dad's Creek into the ditch it was the practice to place a dam in the creek where Dad's ditch has its intake. This dam was not of a permanent character but had to be replaced after the high water receded each year, and when damaged by other causes. The testimony would indicate that a certain amount of water found its way through the dam and flowed on down the creek. The quantity of water which thus escaped was not definitely brought out and the testimony in this respect was somewhat conflicting.

The lands of the Contestee were first occupied by a squatter sometime prior to 1868. One witness testified that he was familiar with the lands in 1870 and from all appearances the improvements in the way of buildings, fences and ditches did not look new, but estimated they must have been from three to four years old. The witness further testified that W. B. Davis was then living on the land and raised crops of vegetables and hay, and that the lands were irrigated. Other witnesses testified that the lands were irrigated from the waters of Dad's Creek and that there was usually a good supply of water flowing in the stream during the early years. The Contestee testified that she had never had trouble getting sufficient water to raise crops until the last seven or eight years, as to whether or not the shortage was due to a natural diminution of the flow in the stream or on account of the Contestants control of the water at the dam where Dad's ditch has its intake is not clear, and the testimony is conflicting.

The lands of Contestants do not appear to have been irrigated in 1865 but at that time were unfenced and open, just when irrigation was first practised does not appear from the record. In 1897 the owner of the so called Dad's ditch conveyed said ditch and water rights to the predecessors in interest of the Contestants and Contestee Wolverton. The water was first used for mining purposes and the testimony would indicate that the mining season usually ended July 1, sometimes extending into August, if the water conditions were such as to permit the operations to continue. The quantity of water necessary to carry on the mining work was not brought out but one party testified that less than 50 inches was sufficient. What use the water was put to after the mining operations ceased is not clear. In 1880 there is evidence tending to show the owners of Dad's ditch permitted the use of the water for irrigation purposes when it would not interfere with their use.

That the Contestee's lands have been irrigated and crops grown thereon from early time is clearly established, but that such right was initiated in 1865 is not supported by the evidence. It also appears that the lands claimed by Contestee on the west side of Dad's Creek in the amount of 5 acres, located within the SW $\frac{1}{4}$ NE $\frac{1}{4}$  Section 6, Township 13 S. R. 34 E. W. M., were not irrigated till a later date, when the water was first used on this land is not established. The Contestee will be allowed a water right for the irrigation of 41.4 acres with priority of 1868.

The Contestants depend upon the right initiated through Dad's ditch as the basis of their claim. The water was used in connection with hydraulic mining purposes, which

usually ended July 1, of each year. The conveyances of said ditch and water rights to the predecessors of the Contestant and Contestee Wolverton conveyed no greater right than the grantor had. The Contestants will be allowed a water right for their lands as claimed, with date of priority of 1866, up to July 1st of each year, and from July 1st to the end of the irrigation season of each year a like right with date of priority of 1897, when Dad's ditch was first conveyed to the predecessors in interest of the Contestant and Contestee Wolverton.

IT IS HEREBY STIPULATED AND AGREED by and between Contestants Herbert Ricco and Henry Ricco, and Contestee Rebecca C. Wolverton, as follows:

1. That this stipulation shall, if found regular and proper by the State Engineer of the State of Oregon, be taken and deemed as a full and final settlement of Contest No. 36 in this Matter, as the same pertains to Claim No. 1140 of Contestants' and to Claim No. 1472 of Contestee, and said State Engineer shall make his Findings and Order of Determination in accord herewith.

2. That Contestants and Contestee Rebecca C. Wolverton, are the sole owners of Dad's Ditch, as referred to in said Claims No. 1140 and 1472, the Contestants owning together an undivided two-thirds interest therein and Contestee Rebecca C. Wolverton, owning an undivided one-third interest therein.

3. That the priority of Contestants and the priority of Contestee shall be identical as to time.

4. That Contestans shall have the right to irrigate their lands in Grant County, Oregon, with the waters of Dad's Creek and Dad's Ditch, and as set out in their Claim No. 1140, that is to say:

15 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$ ;  
36 acres in SW $\frac{1}{4}$ NE $\frac{1}{4}$ ;  
14 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
15 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
5 acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$ ;  
2 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$ , in Section 19, Town-  
ship 12, South, Range  
34, E. W. M.

5. That Contestee Rebecca C. Wolverton, shall have the right to irrigate her lands in Grant County, Oregon, with the waters of Dad's Creek and Dad's Ditch, and as

set out in her Claim No. 1472, that is to say:

11 acres in NW $\frac{1}{4}$ NW $\frac{1}{4}$ ,  
7 acres in SW $\frac{1}{4}$ NW $\frac{1}{4}$ , in Section 19, Town-

24 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$ , in Section 24, Town-  
ship 12, South, Range  
33, E. W. M.

6. That when the waters flowing in Dad's Ditch are insufficient to give continuous irrigation for all the lands above described of both Contestants and Contestee, Rebecca C. Wolverton, said Contestants and Contestee Rebecca C. Wolverton, shall rotate in the use of all waters flowing in and into and through said Dad's Ditch in the following manner, that is to say:

- (a) When necessary during the irrigation season, Contestants shall use all said waters for two-thirds of the time, and Contestee shall use all said waters for one-third of the time.
- (b) If the parties shall ever disagree as to specific dates with reference to such rotation, the State Engineer or the Water Master in charge shall designate the same.

7. That said Contest shall be dismissed as to Contestee Rebecca C. Wolverton, all without cost to either party.

Dated this 5th day of March, 1929.

With the exception of the acreage allowed Contestee Wolverton, the stipulation will control the rights of Contestee. The same limitation as to priority will govern the right of Contestee as was imposed on Contestants i.e. said Contestee will be allowed a priority of 1866 for the lands claimed and as hereinafter shown, by the tabulation, till July 1st of each year, and a priority of 1897 from July 1st to the end of the irrigation season.

GEORGE VELVIN

A stipulation was filed in settlement of this contest. The rights of the parties will be governed by the terms thereof, a copy of which follows:

8. That this contest shall be dismissed as to Contestee Geo. L. Velvin, all without cost to either party.

41.

Contest No. 38

R. E. McFadden and W. A. Pehling,  
Contestants,

vs.

George Trosper,  
Contestee.

Contestee filed Proofs Nos. 1361 and 1365. Under Proof No. 1361 a right for the irrigation of 146.9 acres from Rock Creek and Rock Creek Lake with date of priority of 1868 was claimed. At the time of hearing, this claim was amended by Contestee reducing the acreage claimed to 103 acres, all of said lands being within Section 36, Township 12 S., R. 24 E. W. M. Under Proof No. 1365 a water right is claimed for the irrigation of 16.5 acres from Rock Creek with priority of 1890, 8 acres of which are within Section 11, and 8.5 acres within Section 14, Township 13 S., R. 24 E. W. M.

It appears that in 1915 a suit was started in the Circuit Court for Wheeler County, wherein S. S. Wolever appeared as plaintiff and George Trosper and P. Trosper appeared as defendants. The cause of the suit arose over the use of the waters from Rock Creek and Rock Creek Lake, or reservoir. The lands upon which the waters were used

are the same as now owned and for which a water right is sought by the parties to this contest. The lands formerly owned by the plaintiff to said suit now being owned by Contestant McFadden and those formerly owned by P. Trosper are now owned by Contestant Pehling. Contestee Trosper owned the lands or was leasing a part of the lands, at the time of said suit, that are involved in this contest. A Decree was rendered in said suit in 1916, wherein each of the parties thereto were allowed a water right for an undivided third of the waters flowing in the then called partnership ditch, and diverted from Rock Creek, and it further provided that plaintiff (now Contestant McFadden) should be entitled to one-fourth of the waters stored and diverted from Rock Creek Lake, or reservoir. The Decree also provided for the rotation of the water between the parties, which would indicate that the date of priority for all to be the same. The particular acreage to which the water was to be applied was not set out in the Decree nor was the quantity of water, then diverted, and to which the parties were entitled, definitely determined. The Decree rendered was indefinite in many respects, but must be recognized insofar as possible in these findings. The Contestants and Contestee will be allowed a water right for the lands included under their respective claims, with date of priority of 1899. The number of acres each of the parties in the fore mentioned suit, were irrigating at the time was not determined, and no evidence was submitted in these proceedings establishing such acreage. There is evidence that certain of the lands irrigated through the partnership ditch at the time of the former Decree are now served through different ditches. The record is not complete and no attempt will be made to fix a rotation schedule between the parties to this contest. The quantity of water to which each is entitled will be determined by the acreage each has and the general finding made hereinafter fixing the duty of water.

Altho no claim was made for the right to store a definite quantity of water in Rock Creek Lake, or reservoir, our records would show the capacity of such storage to be about 500 acre feet. This right will be allowed with date of priority of 1899, Contestant McFadden being allowed the use of one-fourth of the water stored and Contestee Trosper three-fourths of the amount stored. Said parties are also given the right to refill the reservoir during any particular season, in the event that such storage does not interfere with other rights on the stream.

Contest No. 39

R. E. McFadden and W. A. Pehling,  
Contestants,  
vs.  
Paul H. Owens and Mrs. P. F. Owens,  
Contestees.

This contest was settled by stipulation, wherein it was agreed that the rights of Contestant would be superior in right and prior in time to those of Contestee. Contestee

claims a right with priority of 1866. The stipulation also provided that Contestee should maintain his priority as to all other users. Such a stipulation is impractical to administer and amounts to a waiver of the earlier priority. One claiming a water right should not be allowed to have two different priorities. The Contestee will be allowed a priority for the acreage claimed dating 1899, and such right to be inferior in right and later in time to that of Contestant.

IT IS HEREBY STIPULATED between the contestants R. E. McFadden and W. A. Pehling, and their attorneys Hubbard and Godwin and the contestee P. R. Barnhouse, and H. H. & Carl Hendricks, his attorneys as follows:

1. That this stipulation shall be in full settlement of the above entitled contest.
2. That the right of the contestee P. R. Barnhouse for the irrigation of 75 acres of his irrigated land from the waters of Rock Creek, as shown in his proof of claim No. 61, is superior in time and prior in right to the right of the contestant W. A. Pehling.
3. That the right of the contestee for the irrigation of 5 acres of his land from Rock Creek, as shown by his proof of claim No. 61, which land is selected by said contestee to be in the SE corner of the SE $\frac{1}{4}$  of the SE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of Section 2 in Township 13 S. Contest No. 43

R. E. McFadden and W. A. Pehling,  
 Contestants,  
 vs.  
 R. N. Erikson,  
 Contestee.

The Contestee under Proof No. 417 claimed a right to irrigate 184.3 acres

from the waters of Rock Creek with date of priority of 1866. The contest was directed against the acreage and priority as claimed by Contestee. It was admitted at the hearing, by Contestants, that 24.1 acres of the land for which a water right is claimed were not irrigated till 1915. The Contestant admits the early right for 95.6 acres within Section 12, but contests the right insofar as the remainder of the lands are concerned, being within Sections 11, 14 and 23, Township 13 S. R. 24 E. W. M.

It appears that the lands of Contestee were irrigated from the waters of Rock Creek through an old mining ditch, known as the Upper ditch, which was constructed some time prior to 1866. The lands, for which a water right is claimed by Contestee, in Section 12 and 14, were taken up and settled on in the eighties by the owners of said ditch. The testimony shows that the water, when not used for mining purposes, was used on the lands of Contestee for irrigation. The use appears to have been continuous and when the mining operations failed the water was used exclusively for irrigation purposes. The testimony as to the irrigation, or the chain of title to the lands in Sections 11 and 23, is not clear and is not of sufficient character to support the claim of Contestee. The water right for these lands will be denied, as will the right for the irrigation of 24.1 acres admitted by the Contestee not to have been irrigated till 1915. If it is desired to get a right to irrigate these lands Contestee should secure a permit in accordance with the statutory provisions from the State Engineer. In all other respects the rights of Contestee will be allowed as claimed, and will be so tabulated.

Contestees.

This contest was directed against Proof No. 1357, wherein Contestees claim a right for mining purposes to 27 second feet of water with date of priority of 1865. The appropriation is claimed to have been made from a number of small streams tributary to the John Day River, and the water is conveyed through a series of ditches from the John Day water shed over a divide into the water shed of Burnt River, in Baker County. The claim of Contestees was contested on the grounds of an abandonment and adverse user, by Contestant Fred C. Smith, of the waters of Lightning Creek. The abandonment on the part

of the Contestees was alleged to have occurred between the years of 1911 and 1922. The testimony indicates that the water was used in connection with mining operations intermittently throughout this period, and there was no intent shown on part of Contestees to abandon their properties, or the ditches and water rights.

Contestant, Fred C. Smith, filed an application with the State Engineer to secure a permit to appropriate 3 cubic feet per second of water from Lightning Creek. The permit was granted and subsequently a water right certificate was issued entitling said Contestant the use of said amount of water under date of priority of April 11, 1916. The point of diversion made by said Contestant is down stream about a mile from that of Contestee. The evidence does not disclose that the use of the water by said Contestant was uninterrupted for the required period necessary to establish a right by adverse user, against the Contestees herein.

The Contestee, Pete Mann Irrigation Company, filed Proof No. 1050 claiming a right for irrigation purposes to the use of 150 miners inches, or 3.75 second feet of water from Dry Gulch, Spring, Lightning, Clear and Salmon Creeks, with date of priority of 1867, and also certain rights under State Engineer's Permits Nos. 1651 and 3262 granted to P. A. Mann, predecessors to the Travillion and Golden Bowl Mining Company's interests, and who appear herein as Contestees. The claim by the Irrigation Company, as set forth, is based upon a contract entered into between the Travillions and the Company dated April 8th 1921, wherein the Travillions agreed to sell the Company their interest in the Virginia and Quartz Gulch ditches, known as the Mann and Travillion ditches situated in Grant and Baker Counties, State of Oregon between Clear Creek and Bear Gulch located in Townships 9 and 10 South, Range 35 East together with all their right, title and interest in and to all water rights owned by said Travillions between said Clear Creek and Bear Gulch, and no more, such water being used in the development and operation of what is commonly known as the Winterville placer mining claims. The contract provided for the maintenance of the said ditches and the right of Travillion interest to use the water in connection with their mining operations and other conditions which are unnecessary to set out for the purpose of these Findings.

No claim was filed in these proceedings by Contestees Travillions or the Golden Bowl Mining Company based upon Permits Nos. 1651 and 3262, nor has a water right certificate been issued. The evidence as to the quantity of water used by the Contestees is not clear nor sufficiently established to allow the rights claimed under the permits aforementioned to be here determined. The Pete Mann Irrigation Company, in filing its claim, did not specify the forty acre tracts of lands upon which it intended to use the water for which different priorities were claimed.

Contestee, C. E. Travillion under Proof No. 1357 will be allowed 27 second feet of water, with date of priority of 1865, as claimed, and as more specifically set out in the tabulation of rights hereinafter set forth and made a part of these findings. No

attempt will be made in these proceedings to determine the rights under permits Nos. 1651 and 3262, but it is suggested that the statutory procedure be followed in perfecting these rights.

The Pete Mann Irrigation Company has a State Engineer's Permit No. 5733, filed February 10th 1921. Water right certificate has not been issued nor has final proof been made. The Company should perfect its right in accordance with the statutory procedure. The rights of said company, by virtue of its contract with the Travillion interests, cannot be determined in these proceedings, as the rights are not perfected under the permits nor is the quantity of water intended to be transferred definitely set out. Whatever rights the Pete Mann Irrigation Company might claim through the Travillion interests, under its contract, is a matter for future consideration. After the rights under permits Nos. 1651 and 3262 have been perfected it would then be proper for the parties of interest to apply to the State Engineer, under the statute, for a change in place and character of use.

Contestee filed Proof No. 1178 claiming a right to irrigate 20 acres from Fox Creek. A stipulation was filed in settlement of the contest wherein Contestee acknowledged an adverse use of the water by Contestant for the acreage claimed under Proof No. 569. The rights of Contestee will be determined accordingly.

Contest No. 49

C. E. Travillion, Amanda F. Travillion  
and Pete Mann Irrigation Company, a voluntary  
association of irrigationists, Contestants,  
vs.  
R. N. Jones, L. A. Woodward and Frank  
Littlefield, A. B. Potts and Bird F.  
Lewis, Wm. Gardner and W. Waldo, Contestees.

This contest was directed mainly against the use and claim of the Contestees herein to the various ditches namely: the Man and Travillion ditch, Virginia ditch and the Salmon Creek ditch, which appear to be owned by the Contestants herein. No evidence was submitted by the Contestees showing that they had any interest in said ditches. The Contestees will be allowed a water right in accordance with their various permits secured from the State Engineer, providing the conditions imposed by the statute are fulfilled, entitling said Contestees to a water right certificate. In those cases where certificate has been issued such certificate will govern the rights of the parties, but in no event shall such right entitle the Contestees to the use or interest in the aforementioned ditches.

A stipulation was filed in part settlement of the contest, wherein the rights of the Contestee to a water right as set forth in their respective permits and applications were recognized, and the rights of Contestees L. A. Woodward and Frank Littlefield were set out. The paragraph of said stipulation setting forth the rights of Contestees Woodward and Littlefield is as follows, and is hereby made a part of these Findings:

"That the rights of Frank Littlefield and L. A. Woodward in and to the waters involved herein are defined and limited by their Certificate of Water Right No. 34840, as duly issued by the State Engineer of the State of Oregon: that said Certificate of Water Right grants

them a priority date of December 10, 1926, for five second feet of water from Salmon Creek, the same to be taken through that certain ditch noted on the maps of the State Engineer as "Rabbit Mine Ditch"; that said Rabbit Mine Ditch is sometimes designated in the maps and files in this Cause as "Carpenter Ditch" and "Little Salmon Ditch"; that said Littlefield and Woodward use and intend to use said waters upon their mining properties in Sections 3 and 10, Township 10, South, Range 35, E. W. M., in Grant County, Oregon, and at the head of Olive Creek and above the ditch of said Clair E. Travillion and Amanda F. Travillion and said Golden Bowl Mining Company, as indicated upon the State Engineer's maps and designated as Quartz Gulch Ditch or Pete Mann Ditch: That said Littlefield and Woodward may take from said Salmon Creek, and at the head of said designated Rabbit Mine Ditch, such waters as may be obtained at the point where Salmon Creek and said designated Rabbit Mine Ditch intersect as belonging to said Clair E. Travillion and Amanda F. Travillion, G. Evert Baker, Golden Bowl Mining Company and Pete Mann Irrigation Company and the individual members thereof, and conduct the same through said designated Rabbit Mine Ditch to said properties belonging to them, the said Littlefield and Woodward, as so located at the head of said Olive Creek: that said Littlefield and Woodward shall have the full and unrestricted right to use said waters, and all thereof, upon said mining properties to them belonging, as last above referred to, but the said Littlefield and Woodward shall at their own expense keep and maintain said ditch in a good state of repair and in such condition that no unreasonable seepage shall exist therein, and shall return all said waters into said Quartz Gulch or Pete Mann Ditch, all in such manner that said waters may be taken into and through said ditch of Travillion and others, and in addition the said Littlefield and Woodward shall at their own expense keep and maintain proper slum dams and other apparatus above the ditch of Travillion and others, all in such manner and to such extent that the slum and debris from the operations of said Littlefield and Woodward on said Rabbit properties shall in no manner interfere with said ditch of Travillion and others by allowing slum, gravel and other debris to flow into the same."

Toney and Zoe Anlee Toney, Minor Children

Contestants,

vs.

E. R. Shown,

Contestee.

The Contestee filed Proofs Nos. 1194 and 1196. Under Proof No. 1196 Contestee claimed a right to irrigate 70 acres from Girds Creek with date of priority of 1895. This claim was amended at the time the claims were open for inspection changing the date of priority to 1869. Under Proof No. 1194 Contestee claimed a right to irrigate 25.8 acres from Girds Creek with date of priority of 1884. At the time of hearing this contest a motion to amend the claim was made so as to change the priority from 1884 to 1869. The testimony shows that the earliest irrigation of the lands covered by Contestee's claim was about 1869, when between 3 and 7 acres were put under a ditch. This acreage apparently lies in the S $\frac{1}{2}$  of the SW $\frac{1}{4}$  of Section 4, Township 11 S., R. 22 E. W. M. The remainder of the land does not appear to have been irrigated prior to the construction of the so-called upper ditch in 1895, which has its intake from Girds Creek in the NE $\frac{1}{4}$ SE $\frac{1}{4}$  Section 10, Township 11 S., R. 22 E. W. M. The testimony is vague as to the number of

acres irrigated under the ditch. The maps which were prepared by the State Engineer and made a part of these proceedings would indicate a total of 43.2 acres irrigated. The Contestee accepted these maps as showing the irrigated lands correctly and filed no map in contradiction thereto. The Contestee will be allowed a right for the irrigation of 7.8 acres in the  $S\frac{1}{2}$  of the  $SW\frac{1}{4}$ , Section 4, Township 11 S., R. 22 E. W. M. with priority of 1869, and a right for the irrigation of 35.4 acres, located in Section 9, with priority of 1895, the particular acreage being more specifically described in the tabulation hereinafter made a part of these findings.

The Contestant herein filed Proof No. 1354, claiming a right to irrigate 28.38 acres from Girds Creek, with priority of 1895. At the hearing a motion was made on part of the Contestant to change the date of priority, claiming the lands in Section 3 and lying north of Girds Creek to have a priority of 1884 and those south of the Creek and located within Section 10, Township 11 S., R. 22 E. W. M. to have a priority of 1891. The Contestants rejected the maps, as prepared by the State Engineer, on the ground that the lands irrigated were not correctly shown and filed a map showing the lands irrigated as claimed. The testimony would indicate that some time prior to 1886 a ditch was constructed having its intake on the north side of Girds Creek in the  $SE\frac{1}{4}$  of the  $SW\frac{1}{4}$  Section 3, Township 11 S., R. 22 E. W. M. The testimony was not clear as to the amount of lands irrigated from this ditch, but it appears to have been between 3 and 10 acres. In 1888 the so-called Middle ditch was constructed having its intake in the  $NE\frac{1}{4}$  of the  $NW\frac{1}{4}$  of Section 10, Township 11 S., R. 22 E. W. M. This ditch was built for the purpose of furnishing the lands with water covered by Contestants claim lying within Section 10. The testimony does not show how much land was irrigated by the Contestant from the ditch. The State Engineer's map shows a total of 5 acres and due to the absence of any testimony to the contrary this acreage will be deemed conclusive. The Contestant will be allowed a right for the irrigation of 10 acres in Section 3 with date of priority of 1886 and 5 acres in the  $NW\frac{1}{4}$  of Section 10, Township 11 S., R. 22 E. W. M., with date of priority of 1888. There is no evidence of sufficient character to establish an abandonment of the water right on part of the Contestees.

Contest No. 51

Winlock Hendricks,	Contestant,
vs.	
E. R. Shown,	Contestee.

The rights of Contestee were disposed of by the findings made in Contest No. 50, paragraph 53 herein, and will not be considered in connection with this contest. The Contestant herein filed Proof No. 613 claiming a right to irrigate 60.3 acres from

Girds Creek and a spring located within the ~~North~~ Section 32, Township 10 S. R. 22 E. W. M.

The testimony would indicate that 6 or 7 acres of the lands of Contestants were first irrigated in 1873, the next irrigation would appear to have occurred sometime near 1887. One witness testified that the lands irrigated at the time of these proceedings appeared to be about the same as when he saw the lands in 1890. The Contestant will be allowed the right to irrigate 7 acres with date of priority of 1873, and the remainder of 60.3 acres with date of priority of 1887. The lands for which a water right is allowed will be more specifically set forth in the tabulation hereinafter made a part of these findings.

vs.  
Edwards and Cooke, Contestees.

This contest was settled by stipulation a copy of which follows:

BEFORE THE STATE ENGINEER OF THE STATE OF OREGON, WHEELER COUNTY  
IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS TO THE  
USE OF THE WATERS OF THE JOHN DAY RIVER AND ITS TRIBUTARIES  
A TRIBUTARY OF THE COLUMBIA RIVER

C. B. Zachary, Contestant, )  
vs ) STIPULATION  
Edwards and Cooke, Contestees. )

It is hereby stipulated and agreed by and between John H. Lewis and E. R. Woods, attorneys for Edwards and Cooke, contestee and Percy A. Cupper, attorney for the contestant, in full settlement of the above entitled contest, as follows:

1. That subject to the conditions hereinafter set forth, the rights of the contestant and contestees shall be as set forth in their respective statements and proofs of claims filed in the above entitled proceedings, provided however that the duty of water during the low water season on Butte Creek shall be one half ( $\frac{1}{2}$ ) inch per acre, for such period during each season as may be fixed by the State Engineer for all lands on Butte Creek, in Wheeler County, Oregon, and contestant herein agrees that he will not participate in any proceedings to change the time when such one half inch per acre shall apply.
2. Contestant herein shall begin the irrigation of his land, on or before March 20th, of each season and continue to irrigate said land as much as possible, in keeping with good agricultural practice until the beginning of the period fixed by the State Engineer in his findings and order of determination in these proceedings when the low water season duty of water shall apply, and said contestant will not enforce his priority against other water users above him on the stream, prior to the last above mentioned date each season.
3. That regardless of relative priority of contestant and contestees contestant shall be entitled to divert at all times, for the irrigation of his lands the quantity of water allowed by the State engineer for the irrigation thereof, without objections or interference from contestees, providing that during the period fixed by the State Engineer when the low water season duty shall apply, contestant shall be entitled to divert one half inch to the acre for which he claims a water right, and no more.
4. In the event that contestant fails or neglects to divert the water as herein provided, the water shall be distributed in accordance with the relative priorities, during the season of any year that any such failure or neglect shall occur, which said priorities

shall be as set forth in their respective statements of claim herein.

5. This stipulation shall be binding upon the heirs, executors, administrators and assigns of the contestant and contestees and shall be a covenant running with the land.

6. The provisions of this stipulation shall be enforced by the water master as provided by law and the contestant and contestees hereby agree to submit to his jurisdiction.

Dated this 2nd day of April, 1929.

Percy A. Cupper  
Attorney for Contestant.

E. R. Woods  
John H. Lewis  
Attorneys for Contestees.

The above stipulation will be enforced insofar as it is not in conflict with the general findings herein pertaining to the duty of water and the determination of the irrigation season.

G. W. Reynolds and Jennie E. Meyer, Administratrix of the estate of M. L. Brown, Contestants,  
vs.  
Norman Caverhill and Mildred E. Hayes, Contestees.

STIPULATION IN SETTLEMENT OF  
CONTEST

It is HEREBY STIPULATED AND AGREED by and between the said Contestants, G. W.

REYNOLDS and M. L. BROWN estate, and the said contestees, NORMAN CAVERHILL and MILDRED E. HAYES in full settlement of all matters set forth in said contest as follows:

1. Contestants, G. W. Reynolds and M. L. Brown estate shall be entitled to a water right from Riley Creek for the irrigation of all lands for which a water right is asserted in the claims of the said G. W. Reynolds and M. L. Brown estate filed in the above entitled proceedings with priority dates as set forth in said claims and which said claims are hereby referred to and made a part of this stipulation;

2. Contestees, Norman Caverhill and Mildred E. Hayes shall be entitled to a water right from Riley Creek for the irrigation of all lands for which a water right is asserted in the claims filed by said Contestees, Norman Caverhill and Mildred E. Hayes in the above entitled proceedings with priority dates as set forth in said claims subject to the condition hereafter set forth which said claims are referred to and made a part of this Stipulation;

3. The quantity of water to which the contestants, G. W. Reynolds and M. L. Brown estate, and contestees, Norman Caverhill and Mildred E. Hayes shall be entitled, shall be the quantity of water allowed by the State Engineer or as such quantity may be modified by the Circuit Court or in the event of an appeal, by the Supreme Court;

4. That the said contestants, G. W. Reynolds and M. L. Brown estate shall each take sufficient water for stock and domestic use and for the irrigation of a garden not to exceed one acre in extent and said right shall be superior to any and all rights of the said contestees, Norman Caverhill and Mildred E. Hayes, subject to the condition that should the Blue Mountain Ditch which now supplies the contestees, Norman Caverhill and Mildred E. Hayes be injured by waterspout or other act of God so that the same will not carry water sufficient for stock purposes, then and in that case the said Mildred E. Hayes is to have sufficient water for stock and domestic use equally and upon the same basis as the said contestants, G. W. Reynolds and M. L. Brown estate, for such reasonable time as may be necessary to repair the same, and which said rights for stock and domestic uses are hereby declared superior to all other rights herein;

5. That from and after June 15th of each and every year the rights of the Contestants, G. W. Reynolds and M. L. Brown estate to the waters of Riley Creek as fixed and determined by the State Engineer or as the same may be modified by the courts shall be superior to the rights of the contestees, Norman Caverhill and Mildred E. Hayes;

6. That whenever prior to June 15th of any year, there is insufficient water in the John Day River at the point which all the contestees, Norman Caverhill and Mildred E. Hayes divert water from said stream to supply their rights under the Blue Mountain Ditch as fixed and determined by the State Engineer or as the same may be modified by the Courts, the waters of Riley Creek shall be pro-rated between the contestants, G. W. Reynolds and M. L. Brown estate, and the contestees, Norman Caverhill and Mildred E. Hayes in proportion to the area of land of the parties hereto entitled to water from Riley Creek under the findings of the State Engineer as the same may be modified by the Courts, regardless of the relative priority of such rights.

7. IT IS FURTHER STIPULATED That nothing herein contained shall interfere with the rights of the said Mildred E. Hayes and the said Norman Caverhill to any flood or surplus waters of said Riley Creek after the said G. W. Reynolds and M. L. Brown estate have had sufficient water for the irrigation of lands for which claims have been asserted by them, the amount and duty of such waters to irrigate the said lands of the said G. W. Reynolds and M. L. Brown estate to be determined by the State Engineer.

AND IT IS FURTHER STIPULATED That the failure of the contestees, Norman Caverhill and Mildred E. Hayes to properly maintain their ditches, dams or other works for the diversion of water from the John Day River shall not entitle them to the diversion of waters of Riley Creek as herein set forth.

The water master will distribute the water in accordance with the above insofar as it does not conflict with the general findings herein pertaining to the establishment of the irrigation season. The rights of the parties will be allowed as claimed.

first and prior right to the use of the waters of the said stream through what is known as the Beymer ditch, and that the rights of the contestee shall be held and considered subsequent and subject to the rights of the contestants through said ditch, and that the State Engineer shall so find and enter in his decree in this proceeding.

Based thereon it is further stipulated that the contestee in the above entitled matter and the whole thereof, shall be dismissed.

Dated this 21st day of September, 1928.

Geo. H. Cattanach

Attorney for Contestants.

J. W. Beymer

Contestee.

The water will be distributed between the parties hereto in accordance with the above stipulation and a water right certificate will be issued setting forth in substance the provisions thereof.

Contest No. 70

W. E. White, Roy C. Boggs and M. C. Merrill,

Contestants,

vs.

Guy Boyer,

Contestee.

The Contestee filed Proof No. 143 claiming a right for the irrigation of 85.2 acres of land from Cottonwood Creek with date of priority of 1894. From the evidence it would appear that the lands involved in this contest were first irrigated in 1906 from the Lawrence Sweek ditch. There is a little testimony indicating that the predecessor of the Contestee herein used water from Cottonwood Creek as early as 1890 or 1893, for the irrigation of 12 or 15 acres of land above that now owned by Contestee, but there is nothing in the record which would show that this water had been transferred and used on the lands for which a water right is claimed by Contestee, in these proceedings.

It appears that in 1909 the Beymer ditch was constructed and followed practically the same route through Contestee's lands as the original Sweek ditch, which was then abandoned. In consideration for the right of way through the lands of Contestee it was understood that the Contestee's lands be given a prior right over that of the other users from the Beymer ditch.

The map prepared by the State Engineer shows a total of 50.8 acres of Contestee's land to be irrigated. The map was accepted by the Contestee as showing the lands correctly, but not as showing all the irrigable land. The testimony does not substantiate the contention of Contestee in this respect. From the evidence submitted it would appear that there were about 3 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$  of Section 19, Township 9 S., R. 28 E., W. M., and 4 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 19, Township 9 S.,

R. 28 E., W. M., which were not irrigated under the Sweek ditch and not until 1909, when the Beymer ditch was built.

The Contestee will be allowed a water right for the irrigation of 43.8 acres with date of priority of 1906, and in addition thereto a water right for those lands covered by State Engineer's Permit No. 1851. The Contestee will further be entitled to the first right to the use of the water conveyed thru the Beymer ditch, having its intake in the NW $\frac{1}{4}$ NW $\frac{1}{4}$  of Section 30, Township 9 S., R. 28 E., W. M., for the lands herein allowed a water right and such right shall be superior and prior to those of all other water users from said ditch.

Contest No. 71

D. W. Fisk, Contestant,  
 vs.  
 Wm. C. Elliott, Contestee.

This contest was settled by stipulation, a copy of which insofar as the rights of the parties are concerned, is as follows:

"BEFORE THE STATE ENGINEER OF THE STATE OF OREGON.

Wm. C. Elliott,	Contestee.	)	

For the purpose of settling all controversies of the parties hereto as to their respective rights to the use of the waters of Big Dog Creek and Little Dog Creek, in Grant County, Oregon, tributaries to the main fork of the John Day river, the parties hereto appearing as follows: The contestant by Geo. H. Cattnach and Earl B. Moore, his attorneys, and the contestee by Errett Hicks and J. W. Biggs, his attorneys,

It is hereby stipulated as follows:

FIRST: That the amounts and description of lands set forth in the claim of both contestant and contestee to the waters of Big Dog Creek and Little Dog Creek are correct.

SECOND: That the rights to the use of the waters of said creeks are as follows:

That the contestee shall have a prior right to the use of the waters of said creeks upon 45.1 acres described as follows:

37.1 acres in the SE $\frac{1}{4}$  SE $\frac{1}{4}$  of Sec. 30;  
 8 acres in the NE $\frac{1}{4}$  NE $\frac{1}{4}$  of Sec. 31.

That the second right to the use of the waters of said creeks shall be in the contestant for 5 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$  of Sec. 32.

That the third right shall be in the contestee for 77.6 acres described as follows:

38 acres in the NW $\frac{1}{2}$  SE $\frac{1}{4}$  of Sec. 30;  
5 acres in the SW $\frac{1}{2}$  SE $\frac{1}{4}$  of Sec. 30;  
34.6 acres in the SW $\frac{1}{2}$  SW $\frac{1}{4}$  of Sec. 29.

That the fourth right shall be in the contestant for 37 acres described as follows:

3 acres in the NW $\frac{1}{2}$  NE $\frac{1}{4}$  of Sec. 32;  
10 acres in the NE $\frac{1}{4}$  NW $\frac{1}{4}$  of Sec. 32;  
16 acres in the NW $\frac{1}{4}$  NW $\frac{1}{4}$  of Sec. 32;  
7 acres in the SE $\frac{1}{4}$  SW $\frac{1}{4}$  of Sec. 29;  
1 acre in the SW $\frac{1}{4}$  SW $\frac{1}{4}$  of Sec. 29.

That the fifth right therein shall be in the contestee described as follows:

27 $\frac{1}{2}$  acres in the NW $\frac{1}{4}$  SW $\frac{1}{4}$  of Sec. 29;  
17.8 acres in the NW $\frac{1}{4}$  SE $\frac{1}{4}$  of Sec. 30;  
21.3 acres in the SW $\frac{1}{4}$  SE $\frac{1}{4}$  of Sec. 30;  
6 acres in the NE $\frac{1}{4}$  NE $\frac{1}{4}$  of Sec. 31;  
6.1 acres in the NW $\frac{1}{4}$  NE $\frac{1}{4}$  of Sec. 31, all of the above described lands being in Township 13 south, Range 32 E., W. M."

The water will be distributed between the parties in accordance with the above stipulation, and their water rights will be tabulated as claimed.

Under Proof No. 407 Contestee claimed a right to irrigate 8.8 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 30, Township 13 S., R. 32 E., W. M., from Little Pine Creek with date of priority of 1880. Contestant claimed a right to irrigate 48.9 acres from the same source with priority of 1888. It was stipulated between the parties that Contestee advance his priority so as to be subsequent to that of Contestant, therefore Contestee will be allowed a right as claimed with priority of 1889.

Contest No. 77

E. D. Weissenfluh and Zella D. Plant,  
 Contestants,  
 vs.  
 W. C. Gibbs, Pernice P. Carter and Nellie  
 Cochran,  
 Contestees.

This contest came on for hearing and on motion of the attorney for the Contestees, Pernice P. Carter and Nellie Cochran, the name of W. M. Carter is substituted as Contestee in place of the aforementioned Contestees.

A stipulation was filed in settlement of the controversy between the Contestant Zella D. Plant and the said Contestee Carter, wherein it was agreed that all the said parties should have equal priorities. The rights of Contestees Carter and Cochran will be tabulated accordingly.

The record is not clear as to what disposition was made as to the rights of Contestee W. C. Gibbs although there is some evidence that the contest was settled by stipulation. There being no stipulation on file disposing of the contest and there having been no testimony taken the Contestee will be allowed his rights as claimed.

The following agreement was filed and will govern the distribution of the water between the parties thereto.

This agreement made and entered into this 20th day of July, 1929 between Nellie Welsh Cochran, acting by and through her husband and agent Emmett Cochran, William Carter and Edgar Weissenfluh all of Long Creek, Grant County, Oregon,

WITNESSETH:

WHEREAS, each of the above named parties are ranch owners in northern Grant County and own ranch property adjoining and contiguous to that stream known as Long Creek from which they use water for irrigation and stock purposes; and,

WHEREAS, the waters of the said Long Creek are now in course of adjudication in the Engineer's office of the State of Oregon which adjudication is not yet completed; and said parties are each involved in contested rights before the said Engineer's office and such rights have not yet been determined and it is understood among said parties that the said Edgar Weissenfluh's water rights out of said Creek are inferior to the rights of the said Nellie Welsh Cochran and William Carter.

Now therefore and in consideration of the sum of \$1.00 in hand paid by the said Edgar Weissenfluh to the said Nellie Welsh Cochran and the said William Carter, each, and for the further consideration that the said Weissenfluh has dismissed his water contest against Nellie Welsh Cochran and William Carter and in a consideration of a feeling of fairness and right dealings between man and man the said Nellie Welsh Cochran and the said William Carter do, hereby, agree that they will allow sufficient water to pass by their premises in the natural bed of Long Creek to reach a point 100 yards below the bridge at the road crossing Long Creek on the premises now belonging to Edgar Weissenfluh and located  $\frac{3}{4}$  of a mile north of Long Creek and particularly known as the ranch where the old grist mill is situated whenever there is sufficient water in the creek to reach that far. This water is intended to enable the said Edgar Weissenfluh to have stock water when water is low in said creek, but is not intended to deprive the said Nellie Welsh Cochran of William Carter of stock water. This agreement is personal between the parties mentioned and is intended

to abrogate and limit the rights the said Nellie Welsh Cochran and the said William Carter get by virtue of the ultimate water adjudication of said creek to the extent herein mentioned, reserving unto the said Weissenfluh the rights and absolute right in stock water to the extent mentioned, and is intended to bind the heirs, executors, administrators and assigns of the said Nellie Welsh Cochran and the said William Carter.

Contest No. 78

Henry Ringsmyer,

Contestant,

vs.

F. L. Officer and W. H. Stirritt,

Contestees.

The Contestant filed Proof No. 1144 claiming a right to irrigate 95.1 acres from the John Day River with date of priority of 1873. Contestee Officer filed a Proof No. 982 claiming a right to irrigate 55.7 acres with date of priority of 1868, and Contestee Stirritt filed claim No. 1302 claiming a right to irrigate 55.7 acres with date of priority of 1868, both Contestees claiming the water from the same source as the Contestant.

A stipulation was filed in settlement of this contest, wherein it was alleged that Contestant by some error claimed a priority for his water right of 1873, whereas, it should have been 1865. The priority of 1865 was acknowledged to be correct by the Contestees and it was provided in the stipulation that Contestant's right should be prior in time and superior in right to that of Contestees. No motion to amend the claim of Contestant was made, nor was any testimony introduced substantiating the early date of priority. The Contestant will be allowed a priority date of 1865, and the rights will be so tabulated.

This contest was settled by stipulation, wherein Contestant acknowledged a prior and superior right in Contestee for the irrigation of 6 acres located in the

SW $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 6, Township 14 S., R. 33 E., W. M. As to the remainder of the lands claimed by Contestant under Proof No. 694 it was stipulated between the parties that Contestants right be superior and prior to that of Contestee. As both Contestant and Contestee claim a priority of the same year the stipulation will govern the rights of the parties and be recognized in full settlement of this contest.

This contest was withdrawn, the controversies having been stipulated in other contests to the satisfaction of the parties concerned.

Numerous stipulations were filed by parties to these proceedings in settlement of controversies to avoid contests. Wm. C. As between said parties it was stipulated that Sasser's rights be superior and prior to those of Elliott's. The water will be distributed between the parties accordingly.

A stipulation was filed in avoidance of a contest by and between Ray H. Brisbois and C. P. Johnson and J. R. Johnson, a copy of which follows and shall govern the rights of said parties:

Comes now RAY H. BRISBOIS, of Izee, Grant County, Oregon, who made statement and proof of claim No. 163, in the above entitled matter, and C. P. JOHNSON and J. R. JOHNSON, of the same place, who made proof No. 686, and stipulate and agree in the above entitled matter as follows, to-wit:

THAT WHEREAS, The South Fork is a tributary of said John Day River, AND WHEREAS, The said Ray H. Brisbois owns an interest in certain lands on said River on which he claims a priority in the waters thereof as of November 10, 1905, for the irrigation of 61.3 acres under said proof No. 163.

AND WHEREAS, The said C. P. Johnson and J. R. Johnson own certain lands which are irrigated by the waters of said South Fork in which they claim a priority as of 1880 for the irrigation of 19.8 acres under proof No. 686.

AND WHEREAS, Both of said areas herein described are irrigated by a certain ditch known as the Brisbois Ditch set forth and described in the applications thereof.

AND WHEREAS, It is to the mutual advantage of each of the parties hereto that the waters appurtenant to the lands described in said applications No. 163 and 686 be used in rotation upon said lands.

AND WHEREAS, The said Ray H. Brisbois held a priority and use in said Ditch previous to 1905, and that by an error he filed a priority as of said date, AND WHEREAS an amendment is impracticable and expensive,

IT IS THEREFORE AGREED AS FOLLOWS: That for and in consideration of the sum of ONE AND NO/100 DOLLARS, paid by the said Ray H. Brisbois to the said C. P. Johnson and J. R. Johnson, and in further consideration of the mutual advantage to the parties hereto, that the said C. P. Johnson and J. R. Johnson do hereby agree that as long as there is sufficient water in the South Fork for the irrigation of the lands under both of said proofs of claim that each shall take under the priorities which will eventually be granted to said lands under said adjudication.

IT IS FURTHER PROVIDED That in the event the flow of said river drops below such a point that the said Ray H. Brisbois takes no water under his 1905 priority, then and in that case, said water adjudicated to the said C. P. Johnson and J. R. Johnson shall be divided as follows:

To the said C. P. Johnson and J. R. Johnson, one-third of said water, and to the said Ray H. Brisbois two-thirds of said water.

AND IT IS FURTHER PROVIDED That in case of a partial failure of the said Ray H. Brisbois in getting his full quote of water under the 1905 priority, then and in that case the said deficiency shall be drawn from the rights herein granted, but not to the excess thereof, and it is further provided that the water so granted to the said Ray H. Brisbois shall not be used upon any other lands except said 61.3 acres designated in said proof of claim No. 163.

IT IS FURTHER PROVIDED That the changes of use set forth in this agreement shall not be exercised in any way as to effect the priorities of any other persons, except the parties to this agreement, and that by entering into this agreement, the parties hereto are not sacrificing or yielding up any priorities whatsoever.

IT IS FURTHER PROVIDED That the said Ray H. Brisbois will use the water herein granted according to the rules of the State Engineer, and to the best uses of irrigation, and that as long as the same is not needed by him, shall revert to the use of the lands of the said C. P. Johnson and J. R. Johnson, AND IT BEING FURTHER PROVIDED That this

grant shall not in any way be construed to separate the waters herein granted from being appurtenant to the lands under proof No. 686, but that this agreement is construed only as a temporary use during the times of failure of said 1905 priority.

IT IS FURTHER STIPULATED AND AGREED That this agreement shall be binding upon the heirs, executors and administrators and assigns of the parties hereto.

IT IS FURTHER STIPULATED That the said State Engineer shall be furnished a signed copy of this agreement for his files in the adjudication of the waters of the John Day River, and its tributaries, and that in making his orders and decrees, that he be requested to enter the same in conformance with this agreement.

That Wyllie Creek has its source about the center of Section 21, Township 11 South, Range 30 E., W. M., and flows westerly and empties into Mines Creek, in Township 11 South, Range 29 E., W. M., and

WHEREAS, Each and all of the above named parties use the waters of the said Wyllie Creek either directly from said stream or from said Mines Creek, and

WHEREAS, Said Wyllie Creek flows a considerable stream of water during the early part of the season but by the 1st of July the flow is so reduced that the waters of said stream, if undisturbed, would not reach any of the parties to this stipulation with the exception of W. E. Hiatt, who owns the first tract of land thereon, and

WHEREAS, The other parties to this stipulation all have a priority of right on said stream over the said W. E. Hiatt but owing to the condition, as above set forth, the water would be of no value to any of them after the 1st day of July of each year,

It is therefore STIPULATED and AGREED by and between all of the parties hereto

GRANT COUNTY

IN THE MATTER OF THE DETERMINATION OF )  
THE RELATIVE RIGHTS TO THE WATERS OF )  
JOHN DAY RIVER AND ITS TRIBUTARIES, A ) STIPULATION.  
TRIBUTARY OF COLUMBIA RIVER. )

Comes now ARIZONA BARNES, who made proofs No. 58 and 59, respectively for the irrigation of lands in the W $\frac{1}{2}$  of the NW $\frac{1}{4}$  of Sec. 25, Twp. 13 S. R. 29, E., W. M., and HENRY J. GREGG who made proof No. 529 for the irrigation of lands in the NE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of Sec. 26, Twp. 13 S. R. 29, E., W. M., before the State Engineer in the above entitled matter.

AND WHEREAS, The said ARIZONA BARNES claims priority under said proofs to the waters of McClellan Creek as of the year 1874, and 1876, and WHEREAS, the said HENRY J. GREGG, claims priority under said proof to the waters of McClellan Creek as of the year 1870.

AND WHEREAS, The said McClellan Creek flows a considerable stream of water during the early portion of the season, but recedes about May 15th, so that the water is reduced to such a point as not to supply the needs of both the parties hereto.

IT IS AGREED AND STIPULATED That the said ARIZONA BARNES shall take from said stream sufficient water to irrigate 18 acres of land in the W $\frac{1}{2}$  of the NW $\frac{1}{4}$  of said Sec. 25, and the said HENRY J. GREGG shall take from said stream sufficient water for the irrigation of 28.3 acres of land in the NE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of said Sec. 26, until May 15th of each and every year, and that should said stream recede to such a point that it will not fully supply both of said parties, then each shall take their respective portions upon an acreage basis as in this paragraph set forth.

IT IS FURTHER UNDERSTOOD AND AGREED That after May 15th, of each and every year, that the said ARIZONA BARNES shall have the right to take sufficient water for the irrigation of her lands under said claim to the extent of 18 acres thereof, and that the said HENRY J. GREGG, shall be entitled to any surplus after the needs of the said ARIZONA BARNES are fully supplied.

IT IS FURTHER STIPULATED AND AGREED That this agreement shall be binding upon said parties hereto, their heirs, executors, administrators and assigns, in the adjudication of the waters of the John Day River, and the said parties do hereby request the State Engineer to so adjudge.

IN WITNESS WHEREOF, The parties have hereunto set their hands to triplicates hereto, this 1st day of August, 1928.

In the presence of:

Earl B. Moore

Arizona Barnes

Henry J. Gregg

A stipulation was filed in avoidance of a contest by and between W. M. Carter, Nellie Cochran and W. C. Gibbs, a copy of which follows, and shall govern the distribution of the water between the parties thereto:

BEFORE THE STATE ENGINEER OF THE STATE OF OREGON,  
GRANT COUNTY.

IN THE MATTER OF THE DETERMINATION OF )  
THE RELATIVE RIGHTS TO THE WATERS OF )  
LONG CREEK, A TRIBUTARY OF JOHN DAY ) STIPULATION.  
RIVER, A TRIBUTARY OF COLUMBIA RIVER. )

It is hereby stipulated and agreed by and between the above named parties W. M. Carter is the owner as successor in interest of Philip Woodall, of the  $S\frac{1}{2}$   $SE\frac{1}{4}$  of Section 2; the  $NE\frac{1}{4}$   $NE\frac{1}{4}$  of Section 11, and the  $NW\frac{1}{4}$   $NW\frac{1}{4}$  of Section 12, Township 10 south, Range 30 E., W. M., and is the owner of the water rights appurtenant to said land as set forth in the statement and proof of claim of said Philip Woodall, being proof No. 1480, as the same appears in the office of the State Engineer.

That Nellie Cochran is the owner as successor in interest of Allen Porter, of the  $N\frac{1}{2}$   $SE\frac{1}{4}$ ,  $W\frac{1}{2}$   $NE\frac{1}{4}$ ,  $E\frac{1}{2}$   $NE\frac{1}{4}$  of Section 19;  $E\frac{1}{2}$   $NE\frac{1}{4}$  and  $SE\frac{1}{4}$  of Section 18;  $W\frac{1}{2}$   $NW\frac{1}{4}$  of Section 20, and  $W\frac{1}{2}$   $SW\frac{1}{4}$  of Section 17, Township 10 south, Range 31 E., W. M., and is the owner of the water rights appurtenant to said land as set forth in the statement and proof of claim of said Allen Porter, being proof No. 1061, as the same appears in the office of the State Engineer, as the said statement and proof of claim was thereafter amended by the said Nellie Cochran, and that the said W. C. Gibbs is the owner of the land and the water right appurtenant thereto as set forth in his statement of proof of claim, being proof No. 498.

That the said parties desire to avoid any contest in the said matter and having agreed among themselves, do therefore further stipulate as follows: That the said W. M. Carter and the said Nellie Cochran each have a prior right in the waters of said stream over the said W. C. Gibbs for such of the waters of said stream as they are lawfully entitled to divert therefrom, and that such prior right shall at all times be recognized and that the State Engineer be and he is hereby authorized and requested to so find in this adjudication, with the following exception: That if the said stream shall at any time become so low that the wants of the several parties cannot be supplied, that they shall each be entitled to divert from such stream with an equal priority, three miners' inches of water for the purpose of irrigating their respective gardens.

Dated this 18 day of August, 1928.

W. M. Carter

Nellie Cochran

W. C. Gibbs

The following stipulation was filed in avoidance of contest and shall govern the rights of the parties thereto in the use of the ditch referred to therein:

IT IS HEREBY STIPULATED AND AGREED, by and between Guy H. Hill, Jr. of Baker City, Oregon, and Frank Waldon of Prairie City, Oregon, in the above entitled cause, that the ditch diverting water from Big Branch of Strawberry Creek, in the SE $\frac{1}{4}$  of SE $\frac{1}{4}$  of Sec. 13, Tp. 13, S. R; 33 E.W. M. and flowing in a northerly direction, thence Easterly along the edge of the valley to serve lands of said Hill between said ditch and the stream in the East 1/2 of the East 1/2 of said Sec. 13, and to serve lands of said Waldon in the West 1/2 of the NW $\frac{1}{4}$  of Sec. 18, Tp. 13, S. R. 34 E.W.M., sometimes called the Waldon Ditch, shall be known as the William Meadors Ditch, and that as between the parties hereto, their rights to water through said ditch for said lands shall be, and are hereby made of equal priority as between the parties hereto, notwithstanding the date of priority which may have been claimed or allowed.

WITNESS our hands this 4th day of August 1928.

 EMMA L VELVIN. )

IT IS HEREBY STIPULATED AND AGREED, by and between the Peoples West Coast Hydro-Electric Corporation, a corporation organized and existing under the laws of the State of Delaware, and Emma L. Velvin, of Prairie City, Oregon, that said Velvin shall for irrigation purposes have the first and the prior right as between the parties hereto, to one half or so much thereof as she may lawfully be entitled, of the waters flowing in what is known as Warnsprings Branch, which rises in a cluster of springs near the center of the N $\frac{1}{2}$  of Sec. 18, Tp. 13 S. R. 34 E.W.M. and flows in a northerly direction to the power canal of the first party above mentioned, notwithstanding anything to the contrary in the claims filed in the above entitled cause, or the decree to be entered therein, and any right which said Hydro-Electric Corporation may have to such waters shall be, and is hereby made subsequent in right to those of said Emma L. Velvin for irrigation purposes.

WITNESS our hands this 9th day of August 1928.

101.

A number of claims were filed in these proceedings whereby the Claimant claimed a right to the use of water for stock and domestic purposes by virtue of being a riparian owner. In all cases where it was shown that Claimants did not make use of the water prior to February 24th 1909, the claims will be denied.

102.

George L. Gibbs filed Proof No. 1511 claiming a right to the use of 5 second feet of water from Swamp Gulch, tributary of Deadwood Creek and Deadwood Creek tributary of Big Creek, for placer mining purposes, with date of priority of 1865. Said proof of claim was not filed until June 22nd, 1928, being after the time of filing claims had expired. The claim was accepted with the understanding the same might be contested by any party to these proceedings after the findings of the State Engineer had been filed with the Circuit Court.

It appearing that the water claimed is returned to the Middle Fork of the John Day River after having been used and that no other rights would be injured by the Claimant's use. The claim is allowed subject to be contested, as above indicated.

103.

Marick and Fanger filed Proof No. 804 claiming a right to irrigate 76.7 acres from John Day River with priority of 1904, of which an inchoate right for 10 acres was claimed. It appears that in 1924 the Claimants enlarged their ditch and had not completed the appropriation at the time these proceedings were instituted in 1927. The Claimants have not shown that degree of diligence which would entitle them to an inchoate right for the 10 acres, and the claim is therefore denied. If it is desired to get a water right for these lands they should apply to the State Engineer for a permit, as provided by statute. The Claimants will be entitled to a water right as claimed for 66.7 acres with date of priority of 1904.

104.

B. Marick claimed a right to irrigate a total of 81 acres from Rock Creek with date of priority of 1868. Of the 81 acres, Claimant claimed an inchoate right for 22.8 acres. Considering the time which has expired since the initiation of the right the claim for the inchoate right is denied and Claimant will be allowed a right for the irrigation of 58.2 acres

105.

A number of claims were filed in these proceedings for water to be used in

connection with mining purposes without designating the period of use. In all such cases where it appears a conflict might occur with irrigation rights the season for which the water may be used for mining will be restricted to the non-irrigation season.

106.

#### DUTY OF WATER

The John Day river drains an area in Central Oregon which lies mostly within The Blue Mountains and partly within Gilliam, Wheeler, Grant, Morrow and Umatilla Counties.

The drainage area estimated above the gaging station at Mac Donald which is near the mouth of the river has been estimated by the U. S. Geological Survey as 7,800 square miles. This basin is bounded on the South and West by the Deschutes River Valley, on the South and East by the watersheds of Silvies River, Malheur River, Burnt River and Powder River, and on the North and East by the Grande Ronde River, Umatilla River and Willow Creek.

The John Day River watershed lies in a somewhat compact body but is broken up by numerous tributaries. The country which it drains is rough and mountainous, the tributaries and main branches lying for the most part in narrow valleys enclosed by forested hills, the valleys often being canyonlike in character.

The main river is divided into four principal branches, the John Day River proper, the North Fork, the Middle Fork and the South Fork.

Stock raising is the principal industry carried on within the watershed, the country being admirably adapted to this type of agriculture. Mining is also of considerable importance. Fruits and vegetables are grown to some extent but mostly for home consumption. Irrigation is used largely for the raising of grass for stock use.

The climate in general is rather harsh with short growing seasons and a comparatively light precipitation.

Considering the extent of the territory covered by this adjudication and the different conditions existing on the various streams involved, it is deemed impractical at this time to permanently fix and determine the duty of water. After taking into consideration the general practice in the use of the water, the available supply, and all other available data the right to the use of the water from the John Day River and tributaries is herein tentatively determined and shall be limited to the diversion of the amount of water which can be applied to beneficial use and shall be further limited as follows:

1. MAIN JOHN DAY RIVER ABOVE PICTURE GORGE: (Sec. 17, T. 12 S. R. 26 E.W.M.)

A rate of flow limited to one-fortieth of one cubic foot per second per acre during the irrigation season.

A quantity of water limited to one acre foot per acre during any calendar month prior to July 1st, and thereafter not to exceed three-fourths of one acre foot per acre, and a total limitation during the irriga-

tion season not to exceed five acre feet per acre.

2. MAIN JOHN DAY RIVER BELOW PICTURE GORGE, AND THE NORTH AND MIDDLE FORKS OF THE JOHN DAY RIVER:

A rate of flow limited to one-fortieth of one cubic foot per second per acre during the irrigation season.

A quantity of water not to exceed one acre foot per acre during any calendar month and a total quantity during the irrigation season not to exceed five acre feet per acre.

3. SOUTH FORK OF JOHN DAY RIVER AND TRIBUTARIES, ALL TRIBUTARIES OF THE MAIN JOHN DAY RIVER, AND OF THE NORTH AND MIDDLE FORKS OF THE JOHN DAY RIVER:

A rate of flow limited to one-fortieth of one cubic foot per second per acre prior to June 1st, and thereafter not to exceed one-eightieth of one cubic foot per second per acre during the remainder of the irrigation season.

A quantity of water limited to one acre foot per acre during any calendar month prior to June 1st, and not to exceed, during the irrigation season, four acre feet per acre.

That the maximum quantity of water to which the owners of such lands are entitled to divert for the irrigation thereof is accordingly so fixed and tentatively determined, subject to the use of water by rotation as hereinafter provided; provided that in no case shall more water be applied to said lands than can be beneficially used thereon, and such water to be measured at the point of diversion of the appropriator's individual ditch from the river or other channel from which the diversion is made.

In case the water flowing in the channel of the stream sinks or fails to flow down the channel so as to be of benefit to an appropriator having the right to its use, the water master shall allow the diversion thereof by the next appropriator in order of priority who can make a beneficial use of such water.

The irrigation season of the John Day River and its tributaries is hereby fixed as the period from April 1st to September 30th of each year.

The above provisions pertaining to the duty of water shall be in force and govern the distribution thereof for a period of three years dating from the time these findings are signed by the State Engineer and continuing thereafter until such time as the State Engineer shall enter his order in final determination of the duty of water. That at the expiration of the three year period, if no exceptions are filed with the State Engineer to the duty of water as tentatively fixed herein, such findings shall become final. In the event any party or parties should file exceptions to these findings with the State Engineer, said State Engineer shall, after due notice, set a date, no later than sixty days after the three year period has expired for the purpose of holding a hearing to consider said exceptions. After said hearing has been held the State Engineer shall proceed, if deemed necessary, to make further investigations of whatever character is required to determine the duty of water, and if it is found that no further investigation is required then the State Engineer shall enter his supplemental findings with the Circuit Court.

DISTRIBUTION BETWEEN WATER USERS ON THE  
TRIBUTARIES AND THE JOHN DAY RIVER.

It appears that it has long been the practice for the water users on the tributaries of the John Day River to use the water on the particular tributary independently from those on the river regardless of priorities. It further appears that a deviation from this practice would result in a waste of water, for when the waters begin to recede it is not likely that there would be a sufficient flow in the tributaries to warrant its distribution to water users on the main river. In view of the custom and practice which has been in force for years the river and tributaries will be considered as independent streams for the purpose of administration, instead of one stream system, insofar as it applies to rights initiated prior to the beginning of these proceedings. The water master shall distribute the water between the users on each particular tributary of the John Day River in accordance with the respective priorities on such tributary regardless of priorities on the river. This method of distribution shall also apply between the users of the water of the tributaries of the North, Middle and South Forks of the John Day River.

STOCK AND DOMESTIC USE

All parties herein allowed the right to the use of water for irrigation shall be entitled to use such water for stock and domestic purposes; provided, that during the irrigation season such appropriators shall not be entitled to any water for stock or domestic purposes in addition to the quantity which they are entitled to divert for irrigation purposes. Outside of the irrigation season, the rights to the use of water for stock and domestic purposes as herein confirmed, shall entitle the owners thereof to one-tenth of a cubic foot per second for each one thousand head of stock, measured at the place of use; provided, that at no time shall more water be diverted for such purposes than is reasonably necessary for such purposes, and to prevent the ditches and channels used for such purposes from being completely frozen. Rights for stock and domestic purposes shall continue throughout the year and shall have preference over, and shall be superior to, rights for irrigation purposes at all times; provided, that the use of water for stock purposes shall be restricted to the ditches or channels which have customarily been used for such purposes, and that all water users shall so far as practicable provide stock watering holes or ponds into which stock water may be diverted periodically.

ROTATION.

The water master of the district in which ~~John Day~~ River and its tributaries may

be situated, may arrange such system or systems of rotation as may be best applicable to the conditions arising from time to time in the distribution of water on such stream. When two or more appropriators agree between themselves as to a system of rotation, the water master shall distribute water to them in accordance with such agreement, provided that in so doing he does not interfere with the rights of other appropriators.

110.

AFFURTENANCY.

That the rights to the use of water for irrigation purposes hereby confirmed are appurtenant to the lands herein described, and the rights of use of the waters of said John Day River and its tributaries by virtue of such rights are limited and confined to the irrigation of the lands described herein to the extent of said lands herein set forth, and the priorities of right herein confirmed confer no right of use of the waters of said river and its tributaries on any lands other than those specified tracts to which such rights are herein set forth as appurtenant, and each and every person shall be and hereby is prohibited, restrained and enjoined from diverting and using water from said river on such other lands without lawful permits first obtained from the State Engineer.

111.

PRIORITIES.

That except as otherwise determined herein, the order of the rights of the respective appropriators of the waters of said John Day River and its tributaries, and in which order they are entitled to divert and use the said water shall be and is according to the date of the relative priority of the rights as herein set forth and determined, and the first in order of time according to the date of relative priority shall be and is the first in order of right, and so on down to the date of the date of the latest right, and those having prior rights are entitled to divert and use the waters of said river and its tributaries when necessary for beneficial use in connection with the irrigation of their respective lands or other useful and beneficial purposes for which they are decreed the right of use, at all times against those having subsequent rights without let or hindrance, and whenever the water is not required by the appropriator having a prior right to its use for the purpose for which said water was appropriated, he must and shall permit it to flow down the natural channel of the stream as it was wont to flow in its natural course without hindrance or diversion thereof, and those having subsequent rights are entitled to the use of such water and to divert the same to the extent of their rights of appropriation according to the order of priority of their rights; and at all times the waters shall be beneficially economically and reasonably used without waste by those having a right to the use of such water, and no

rights of appropriation are hereby confirmed to divert a greater quantity of water than such appropriator can beneficially use for the purpose to which the water is to be put.

112.

That except as otherwise modified herein, the rights of the various appropriators of water from John Day River and its tributaries, arranged in a tabulated form, with the dates of relative priority of such appropriations, the number of acres to which such appropriations are applied and are now limited, the use or uses to which said water is applied, the name of the ditch or other means by which the water so appropriated has been diverted, the name of the stream or other source from which the water has been used, and the description of the lands upon which the water has been used, the tabulated rights of each appropriator being set opposite and following his name and post office address, are as follows, to-wit:

Rights under Permits of State Engineer

This adjudication proceeding involves principally those water rights which were initiated prior to February 24, 1909, on which date the Oregon water code became effective, and which are tabulated in Paragraph 112 hereof. Rights initiated after that date are evidenced by permits issued by the State Engineer. Several parties filed claims herein, based upon use of water commenced after the above date, and without having secured such permits. It appearing that valid appropriations could not have been made under those circumstances, such claims have been rejected. Each and every appropriator having rights under such a permit or certificate for the use of water from John Day River or its tributaries, shall have such rights as are provided by law, and which shall be perfected in the manner provided by law and by the rules and regulations of the State Engineer, and shall be administered in a like manner as those rights herein determined.

And the State Engineer of Oregon, being fully advised in the premises, it is hereby considered and ordered, that the relative rights of the various claimants to the use of the waters of John Day River and its tributaries, be and the same are hereby determined and settled as set forth in the foregoing Findings and Order of Determination.

Dated this 26th day of June, 1930, at Salem, Oregon.
