

IN THE MATTER OF THE DETERMINATION OF )  
 THE RELATIVE RIGHTS OF THE VARIOUS )  
 CLAIMANTS TO THE USE OF THE WATERS OF )     D E C R E E  
WALLOWA RIVER AND ITS TRIBUTARIES, A )  
 TRIBUTARY OF GRANDE RONDE RIVER.     )

-----  
 Now at this time, the above entitled matter coming on for the entry of a decree upon the findings of fact and order of determination of the State Water Board heretofore filed herein, and exceptions to said findings having been filed with the Court by the Alder Slope Ditch Company, a claimant herein, and after due hearing and consideration of such exceptions the Court having heretofore denied the same, and it appearing that said findings and order of determination of said Board should be in all things confirmed, and the Court being now fully advised in the premises,

NOW, THEREFORE, it is hereby CONSIDERED, ORDERED, ADJUDGED and DECREED that the findings of fact and order of determination of the State Water Board as heretofore filed with this Court be and they are hereby in all things confirmed, and are hereby approved, adopted and made the findings of fact, conclusions of law, order of determination and decree of this Court in the above entitled matter, and shall be entered as such on the records of this Court, said findings of fact and order of determination of said Board being as follows, to-wit:

FINDINGS OF FACT

1.

That Wallowa River is a non-navigable, natural water course, tributary to Grande Ronde River, and that said stream and its tributaries and the lands irrigated therefrom are situate within Wallowa County, Oregon.

2.

That Mary J. Creighton, by W. Al Jones, her attorney in fact; Jay H. Dobbin, J. A. Eggleston and F. F. McCully, users of the waters of said stream above named, on June 14, 1911, filed with the above entitled Board a petition requesting a determination of the relative rights to the waters of said stream and its tributaries; and after due investigation, the facts and conditions were found by the said Board to be such as to justify such determination.

3.

That by an order of said Board duly made and entered of record at a meeting held on the 17th day of July, 1914, Monday, May 31st, 1915, was fixed as the time when the State Engineer would commence an examination of said stream and its tributaries, and of the ditches diverting water therefrom; and the time and place for the beginning of the taking of testimony as to the relative rights of the claimants to said waters, as follows: Tuesday, June 1st, 1915, at the City Hall, in Wallowa, Wallowa County, Oregon, at the hour of 10 o'clock A.M.

4.

That said Board did prepare a notice, setting forth the date when the State Engineer would begin the investigation of the flow of said stream and the ditches diverting water therefrom; and the places and times when the Superintendent of Water Division No. 1 would commence the taking of testimony as to the rights of the parties claiming water from said stream and tributaries, and that said notice was published in two issues of a newspaper having a general circulation in the County of Wallowa, wherein said stream and tributaries are situated, to-wit: The Enterprise Record Chieftain, a weekly newspaper published at Enterprise, Wallowa County, Oregon; the first publication of said notice being on the 15th day of April, 1915, and the last publication thereof on the 22nd day of April, 1915.

5.

That said Division Superintendent of Water Division No. 1 did send by registered mail to each person, firm and corporation claiming the right to the use of any of the waters of said stream and its tributaries; and to each person, firm and corporation owning or being in possession of lands bordering on and having access to said stream or its tributaries, in so far as such claimants, owners and persons in possession could be reasonably ascertained, a similar notice to such published notice, setting forth the time when the State Engineer or his assistant would begin the examination of said stream and tributaries, and ditches diverting water therefrom, and also the times when and the places where said Superintendent would commence the taking of testimony as to the rights to the waters of said stream and tributaries thereof, being as follows, to-wit: on Tuesday, June 1, 1915, at the City Hall, in Wallowa, Wallowa County, Oregon, at 10 o'clock A.M.; on Friday, June 4, 1915, at the City Hall, in Lostine, Wallowa County, Oregon, at 10 o'clock A. M.; on Monday, June 7, 1915, at the County Court House, in Enterprise, Wallowa County, Oregon, at 10 o'clock A. M.; on Monday, June 14, 1915, at the City Hall in Joseph, Wallowa County, Oregon, at 10 o'clock A. M.; and after June 16th, 1915, for a period of sixty days at the office of Superintendent of Water Division No. 1, at the State House, in Salem, Oregon.

6.

That said Superintendent did, in addition to said notice, enclose therewith a blank form on which said claimants or owners should present in writing all the particulars necessary for the determination of the rights to the waters of said stream or its tributaries; due proof whereof being now a part of the record of these proceedings.

7.

That upon the date named in said notice therefor, to-wit: May 31st, 1915, the duly qualified assistant of the State Engineer did proceed to make an examination of said stream and tributaries thereof, and of the works diverting water therefrom, and that said observations and measurements have been reduced to writing and made a matter of record in the office of the State Engineer of the State of Oregon; that said State Engineer did cause to be made maps or plats on a scale of not less than one inch to the mile, showing with substantial accuracy the course of said stream, the location of each ditch or canal diverting water therefrom, and the legal subdivision of lands which have been irrigated or were susceptible of irrigation from ditches and canals already constructed, and thereafter, and prior to the date fixed for said hearing and taking of testimony, did file the same in his office as a matter of record therein, and make and file in the office of the State Water Board, certified copies thereof, as a part of the record of these proceedings, and that said maps are now a part of the record herein.

8.

That upon the date named in said notice for the commencement of the taking of testimony herein said Superintendent did, at the times and places specified in said notice, commence the taking of testimony, and did continue the taking of the same until completed, due proof whereof having been made and filed and being now a part of the record of these proceedings.

9.

That upon the completion of the taking of testimony herein, the said Superintendent of Water Division No. 1 did at once give notice by registered mail to the various claimants that at the time and place named in said notice all of said evidence so taken would be open to public inspection at said place for a period of ten days, to-wit: from and including Monday, October 4th, 1915, to and including Thursday, October 14, 1915, (Sundays excepted), at the County Court House, at Enterprise, Wallowa County, Oregon, due proof of the sending of said notice by registered mail to each claimant having been made and filed, and being now a part of the record of these proceedings; that said Superintendent did also state in said notice that the determination of the State Water Board in these proceedings would be heard by the Circuit Court of the State of Oregon, for Wallowa County, in which county said stream and the tributaries thereof are situated.

10.

That during the period fixed in said notice of public inspection and at the place named therein, said Division Superintendent did attend and keep said evidence so taken open to public inspection as stated in said notice, and did allow inspection thereof by all persons interested therein; due proof whereof being now a part of the record herein.

11.

That it appearing that the Superintendent of Water Division No. 2 had heretofore been indirectly interested in the waters of said stream, and upon it further appearing that he would otherwise be prevented from taking charge of the adjudication proceedings herein, at his request, by order of said Board, it was ordered that the taking of testimony so far as it related to said stream should be under the direction of the Superintendent of Water Division No. 1 of Oregon.

12.

That in settlement of proposed contests the following stipulations were made and entered into in this proceeding, as between the parties thereto named in such stipulations, to-wit:

1. - Stipulation between and signed by Jas. H. Buchanan, Ernest Buchanan, T. N. Estes, N. P. Rollinger, and F. D. McCully; relative to the rights of the parties to such stipulation in and to the waters of Prairie Creek through the Estes Ditch, made on October 13, 1915, as follows:

"It is hereby stipulated and agreed by and between James H. Buchanan, Ernest Buchanan, N. P. Rollinger, T. N. Estes and F. D. McCully; that whereas the above named parties are the owners of certain lands through which the Estes Ditch, a tributary of Prairie Creek, runs and whereas the above named persons are the sole claimants of the waters of Prairie Creek from said Estes Ditch and have heretofore filed our verified claims before the State Water Board claiming a preference right to said water as follows, to-wit: James H. Buchanan, 4 acres priority 1888; Ernest Buchanan, 5 acres priority 1888; T. N. Estes, 14 acres priority 1878; N. P. Rollinger, 1 acre priority 1878; F. D. McCully, 100 acres priority 1881 and, Whereas certain of the above named parties have claimed a greater amount of water than has actually been used for continuous irrigation and there are not sufficient waters in said Ditch for the proper irrigation of the lands set forth in the claims of the above parties, and whereas it is the desire of the above named parties, the sole claimants of said water, to avoid any contest between the said claimants and to preserve the priority of the waters of Prairie Creek through said Estes Ditch, therefore in consideration of the premises

and the mutual agreements of the parties hereto it is hereby stipulated and agreed as follows, to-wit:

"That F. D. McCully, T. N. Estes, N. P. Rollinger, James H. Buchanan, and Ernest Buchanan shall have and enjoy a right to the water of said Estes Ditch for stock and domestic use during the entire year and of the priority mentioned in their respective claims on file with the State Water Board of the State of Oregon;

"That T. N. Estes shall have the right to use sufficient water to irrigate not more than seven acres from said Estes Ditch during the months of June, July and August of each and every year;

"That James H. Buchanan, shall have and enjoy the right to the use of sufficient water to irrigate not over one acre during the months of May, June and July, from the waters of said ditch with a priority as claimed in his claim filed in the office of the State Water Board and upon the lands described in said claim.

"That Ernest Buchanan, shall have the right to the use of sufficient water to irrigate not over one acre during the months of May, June and July of each and every year, from said ditch, with a priority for said amount as claimed in the claim of Ernest Buchanan on file with the State Water Board.

"That N. P. Rollinger, shall have the right to the use of sufficient water to irrigate not over one acre from the waters of said ditch during the months of June and July and August of each and every year with a priority of time as claimed in his application on file with the State Water Board for said amount and for the lands described in said application.

"That F. D. McCully, shall have the right to the use of the remaining water in said Estes Ditch with a priority of time as claimed in his application on file with the State Water Board, for the purpose of irrigating the land described in his application for water in said ditch, on file with the State Water Board. The said N. P. Rollinger, James H. Buchanan, Ernest Buchanan and T. N. Estes agree that they will allow sufficient water to pass through said ditch at all times to reach the land of F. D. McCully, for stock and domestic use and it is mutually understood, stipulated and agreed that the said F. D. McCully shall be entitled to the use of all the water in said ditch for irrigating purposes, except the water above reserved to the said Rollinger, James H. Buchanan, Ernest Buchanan and T. N. Estes."

2. - Stipulation by and between Florence A. Cook and Crow Brothers, a partnership, relative to the rights of the parties through the Cook ditch, from Spring Creek, entered into on October 13, 1915, as follows:

"In the matter of determination of the relative rights to the use of the waters of the Wallowa River a tributary of the Grande Ronde and more particularly to the waters of a spring and in the northern part of Sections 33 and 34, Twp. 1 South of Range 43 East. W. M., which is a tributary of the South Fork of the Wallowa River.

"It is hereby stipulated and agreed by and between Florence A. Cook, party of the first part, a claimant herein to the waters of the above mentioned Spring Creek through the Cook ditch and between Crow Brothers, a partnership by S. P. Crow, agent, claimant herein to the waters of the same spring creek and through the same ditch, that:

"1st, As between them the said Florence A. Cook is entitled to the first and prior right to the use of said water for the irrigation of 27 acres described as follows:

"25 acres NW of the NW $\frac{1}{4}$  and 2 acres of the NE of the NW $\frac{1}{4}$  Section 34, Twp. 1 South Range 43 East, W. M., and that said firm of Crow Brothers, party of the second part, is entitled to the second right and is next in order of priority for the irrigation of 50 acres described as follows, 26 acres NW of the NW $\frac{1}{4}$ , of Section 27, and 24 acres SW of the SW $\frac{1}{4}$  of Section 22, Twp. 1 South, Range 43 East W. M.

"2nd, That said Crow Brothers, party of the second part is the owners of the ditch and right of way through and across the lands of said Florence A. Cook, party of the first part, and that said Florence A. Cook is entitled to the use of said ditch for the purpose of conveying water for irrigation of her lands, said party of the first part hereby agreeing to maintain and keep in good repair that part of the ditch situated on lands owned by her.

"3rd, That in order to procure the most beneficial and economical use of the water, some system of rotation is necessary, and it is hereby agreed that said Florence A. Cook, party of the first part, is entitled to the use of all of the water in said ditch for the irrigation of the said 27 acres owned by her heretofore described when needed and used by her for that purpose and that at all other times the said Crow Brothers, party of the second part, shall be entitled to the use of all the water in said ditch for the irrigation of their lands as heretofore described, except that at all times said Florence A. Cook, party of the first part, shall be entitled to a reasonable amount of said water for stock and domestic purposes."

3. - Stipulation by and between the City of Enterprise, a municipal corporation, and F. A. Clarke, relative to the rights of the parties in and to the waters of Wallowa River, entered into on October 5, 1915, as follows:

"Now, at this time, comes the City of Enterprise, a municipal corporation, by and through its attorney, Thos. M. Dill, acting pursuant to a motion of the Common Council, as party of the first part, and F. A. Clarke, party of the second part, and

"Whereas, it appears from the statements and proofs of claim on file herein by said respective parties that there is a conflict as to the date when the appropriation of water was made through the city ditch described in their several proofs; now, therefore, in consideration of the settlement of said conflict, and to avoid contests herein it is mutually agreed and Stipulated:

"First: That the City Ditch was constructed, commenced the year 1898, as alleged in the statement and proof of the City of Enterprise on file herein, and that said ditch was completed in the year 1899; that the waters of said Wallowa River were first diverted through said ditch and applied to beneficial use in the year 1899.

"Second: That the relative rights of the said City of Enterprise, party of the first part, and F. L. Clarke, second party, are equal in point of time and priority and that said claimants are entitled to equal rights of priority; that, otherwise the rights of the said claimants are as set forth in their respective statements and proofs of claim on file in the above entitled proceedings.

"Third. That the State Water Board shall prepare its findings herein in accordance with this Stipulation and that the Decree of the Circuit Court hereinafter to be entered in confirmation of said Findings, shall be in accordance with the terms of this Stipulation."

4. - Stipulation by and between the Enterprise Mercantile & Milling Co., a private corporation, and S. A. Gotter and Ben Gotter, partners doing business under the firm name of Gotter Brothers, entered into on October 18, 1915, as follows:

"Agreement between the Enterprise Mercantile & Milling Company, a private corporation, and S. A. Gotter and Ben Gotter, partners doing business under the firm name and style of Gotter Brothers, of Enterprise, Oregon, as to their relative rights to the use of the waters of the Wallowa River under prior appropriation, diversion and use for power purposes.

"It is hereby stipulated and agreed by and between the Enterprise Mercantile and Milling Company, a private corporation, of the State of Oregon, and S. A. Gotter and Ben Gotter, partners doing business under the firm name and style of Gotter Brothers, of Enterprise, Oregon, that the State Water Board of the State of Oregon, in determining the relative rights of the respective parties hereto in and to the use of the waters of the Wallowa River for power purposes under prior appropriation, diversion and use, may determine said rights as follows, to-wit:

"That the Enterprise Mercantile & Milling Company, by and through its predecessors in interest, did appropriate, divert and make use of the waters of said stream by means of ditches and flume in the year 1888, for the purpose of furnishing power to operate a

flouring mill at the points as designated in the statement and proof of claim on file with the above entitled Water Board, said appropriation being sufficient to furnish water for developing 109½ theoretical horse power, and that the appropriation, use and diversion of the said waters for said purposes has been continuous and constant since said date.

"That the said S. A. Gotter and Ben Gotter, by and through their predecessors in interest, did appropriate and divert and use of the waters of the said stream in the year 1888, for power purposes in operating a planing mill sufficient water to operate said planing mill and develop sixty and one half theoretical horse power, and did obtain from the said Enterprise Mercantile & Milling Company through its predecessor in interest a right, by way of deed, to take the said waters through the ditch and flume of the Enterprise Mercantile & Milling Company, diverting the same from the flume of the said Enterprise Mercantile & Milling Company, at a point agreed upon, and did obtain a right to the use of all of the water flowing or that could be flowed through the ditch and flume of the Enterprise Mercantile & Milling Company that was not necessary for the use of the said Enterprise Mercantile & Milling Company in its operation of its mill, sufficient to develop one hundred nine and one half theoretical horse power for milling and power purposes; that the appropriation, diversion and use of the waters of said stream by said S. A. Gotter and Ben Gotter has been continuous and constant since said date for said purposes, at the points shown by the statement and proof of claim on file with the above Water Board.

"That it is hereby recognized, admitted and stipulated that the appropriation, diversion and use of the waters of said stream by the said Enterprise Mercantile & Milling Company in an amount sufficient to operate the mill of said Company at that time and to develop 109½ theoretical horse power is prior and superior to the claim of the said S. A. Gotter and Ben Gotter and their heirs or assigns; and that the said S. A. Gotter and Ben Gotter have no right, title or ownership in and to the ditch and flume of the said Enterprise Mercantile & Milling Company and that their right to take water therefrom for their power purposes is by way of deed from the Enterprise Mercantile & Milling Company through its predecessor in interest, except that the said S. A. Gotter and Ben Gotter have a right to the use of all of the water originally appropriated, diverted and used at and from the date of appropriation and diversion through said ditch and flume, except what amount is necessary to furnish power for the said Enterprise Mercantile & Milling Company under their prior appropriation for said purposes, and the right to take said waters at the point of division in the flume of the said Enterprise Mercantile & Milling Company, where the same now is and always has been divided between the parties hereto.

"And the parties hereto ask that the determination of their rights be settled and made in accordance with this agreement and stipulation.

"In Witness Whereof, the parties hereto have this 18th day of October, 1915, set their hands and seals in triplicate."

5. - Stipulation between W. H. Weaver, John Bookout, Catharine Weaver, and F. A. Wagner, (Union Wallowa Investment Co., successor in interest), as follows:

"Comes now the claimants to the waters of Bookout's Creek and its tributaries and to Weaver Creek and its tributaries, said streams being identified by the attached plat which is made a part of this agreement, and for the purpose of settling and determining their rights amicably agree as follows:

"That the waters of Weaver Creek shall be divided at a point in the SE $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 8 Twp. 2 S. R. 44 East, one half of said waters to be diverted so as to flow down to and upon the lands of the successors in interest to J. W. Weaver, and the remaining one half of said waters to be allowed to flow down to and upon the lands of W. H. Weaver and John Bookout, said W. H. Weaver and John Bookout to divide said water equally between themselves.

"That as between W. H. Weaver, F. A. Wagner, and John Bookout, in their rights as to the use of the waters of Bookout's Creek and its tributaries, said W. H. Weaver is entitled to the use of two-fifths of the waters of said stream, said F. A. Wagner is entitled to the use of one-fifth of the waters of said stream, and said John Bookout is entitled to the use of two-fifths of the waters of said stream."

That the map referred to is attached to the original stipulation on file herein, and may be found at page 82 of Volume 6 of the record herein. That the Union Wallowa Investment Company is now the owner of the lands and water rights claimed by said F. A. Wagner which were the subject of said stipulation.

6. - Stipulation in settlement of proposed contest between Hurricane Irrigating Ditch Company, a corporation, and E. P. Castor and Jennie Page, entered into on October 14, 1915, as follows:

"Whereas, the above named parties have filed their claims with the Board of Control of the State of Oregon in the matter of the determination of the relative rights to the use of the waters of Wallowa River and its tributaries, and each of the parties above named claims the right to the use of waters of Hurricane Creek, a tributary of said Wallowa River, and,

"Whereas, there was some question between the parties hereto concerning the right to the use of the waters of said Hurricane Creek, and the above named proposed

contestant intended to file a statement of contest against the above named proposed contestees:

"Now therefore, in settlement of such proposed contest it is hereby stipulated and agreed by and between the parties above named that the rights of the above named E. P. Castor and Jennie Page in and to the waters of said Hurricane Creek are as follows: and that the adjudication and determination herein shall be as follows:-

"The rights of the said Jennie Page to the use of the waters of said Hurricane Creek for irrigation, domestic and stock use were initiated in the year of 1893, and in said year of 1893 the said Jennie Page irrigated forty (40) acres of land in the SE $\frac{1}{4}$  of the NE $\frac{1}{2}$  of Sec. 36, Twp. 2 South of Range 44 E. W. M., and such land was so irrigated with waters of said Hurricane Creek.

"And ever since said year of 1893 the said Jennie Page has used such water for domestic and stock use, and has irrigated, and now irrigates, said forty (40) acres with waters of said Hurricane Creek.

"The rights of the said E. P. Castor to the use of the waters of said Hurricane Creek were initiated in the year of 1879 so far as concerns domestic and stock use, and in said year of 1879 the said E. P. Castor appropriated and used, and still appropriates and uses the waters of said Hurricane Creek for domestic and stock use. And in the year of 1881 the rights of the said E. P. Castor to the use of the waters of said Hurricane Creek were initiated so far as concerns the matter of irrigation. In said year of 1881 the said E. P. Castor irrigated twenty (20) acres of land in the NE $\frac{1}{4}$  of the NE $\frac{1}{2}$  of Section 36, in said Twp. and Range, and such land was so irrigated with waters of said Hurricane Creek. And ever since said year of 1881 the said E. P. Castor has irrigated, and now irrigates, said twenty (20) acres with waters of said Hurricane Creek.

"In the year of 1883 the said E. P. Castor irrigated twenty seven and  $\frac{1}{2}$  acres (27 $\frac{1}{2}$ ) acres of land in the NW $\frac{1}{4}$  of the NE $\frac{1}{2}$  and the NE $\frac{1}{4}$  of the NE $\frac{1}{2}$  of said Section 36. And ever since said year of 1883 the said E. P. Castor has irrigated, and now irrigates said twenty seven and one-half (27 $\frac{1}{2}$ ) acres with waters of said Hurricane Creek.

"In the year of 1892 the said E. P. Castor irrigated thirty three (33) acres of land in the SW $\frac{1}{4}$  of the NE $\frac{1}{2}$  of said Section 36. And ever since said year of 1892 the said E. P. Castor has irrigated, and now irrigates, said thirty three (33) acres with waters of said Hurricane Creek.

"Except as otherwise stated, stipulated or agreed herein the rights of all the parties to this stipulation and agreement are to be determined by and through their statements and proofs now on file with said Board of Control. And this stipulation

and agreement is intended to cover the rights of the said Jamie Page and E. P. Castor in the waters of said Hurricane Creek only so far as such rights are claimed through what is commonly known as the Old Settlers Slough Ditch."

13.

That within the time fixed by law therefor, the following contests were initiated by the filing with said Superintendent of notices or statements of contest in writing, verified as required by law; and the said Superintendent did thereafter fix a time and place for the hearing of said contests, and in the case of each contests, the contestant and each person, association or corporation whose rights were thereby contested, were duly and regularly notified of the time and place fixed for the hearing of such contest; said contests being as follows, to-wit:

Contest No.	Contestant		Contestee
1	Alder Slope Ditch Company	vs.	Moonshine Ditch Company
2	Moonshine Ditch Company, a corporation,	vs.	Alder Slope Ditch Company, a corporation
3	Moonshine Ditch Company, a corporation,	vs.	Hurricane Creek Irrigating Ditch Co., a corporation
4	A. S. Bennett and N. J. Sinnott	vs.	Hurricane Irrigating Ditch Co., C. E. Crowe and Grace Crowe, S. P. Crowe, I. M. Crowe, Charles E. Crowe, Victoria Haas, Linnie Basim, Laura Langston, Carl Whitmore, J. R. Harris, R. F. Stubblefield, claiming through the Hurricane Irrigating Ditch Co., and R. A. Shinn, W. S. Hayes, S. H. Bonner, W. H. Robbins, Jennie Page, E. P. Castor and Rosetta Shinn.
5	Creighton Ditch	vs.	The Big Bend Water Ditch Company, a corporation, Dobbin Ditch Company, a corporation, and Wrenn & Dobbin Ditch Company, a corporation.
6	The Creighton Ditch	vs.	The Granger Water Ditch Company, a Corporation
7	The Dobbin Ditch Company, a corporation, The Wrenn Dobbin Ditch Co., a corporation, The Big Bend Water Ditch Company, a corporation, and the Craig Ditch Co., a co-partnership.	vs.	The Creighton Ditch.
8	Granger Water Ditch Company	vs.	Mary J. Creighton, H. E. and Geo. F. Dawson as Dawson Brothers.
9	The Dobbin Ditch Company, a corporation, The Wrenn Dobbin Ditch Co., a corporation, The Big Bend Water Ditch Company, a corporation, and the Craig Ditch Co., a co-partnership,	vs.	The Island Irrigating Water Ditch Company, a corporation.

Contest No.	Contestant	vs.	Contestee
10	The Joseph Milling Company, a corporation, and Joseph Light and Power Company, a corporation		J. M. Mitchell and Henry Mitchell.
11	N. D. Varner		W. E. Daggett and S. T. Daggett
12	S. L. Magill, C. J. Allen, Gideon Wolfe, Wm. Sherod, H. E. Driver and J. T. Willett		S. W. Miles

14.

CONTESTS NOS. 1 and 2: ALDER SLOPE DITCH CO. VS. MOONSHINE DITCH CO.:

MOONSHINE DITCH CO. VS. ALDER SLOPE DITCH CO.:

Contests Nos. 1 and 2, being in the nature of cross contests, and between the same parties, each contesting the other's claim, were set for hearing, and pursuant to notice regularly given, came on to be heard, whereupon, in the presence of the Superintendent and during the progress of the said hearing and on June 26, 1916, a stipulation as in open court, was made and entered into between the parties to said contests, by and through their respective attorneys, which stipulation was dictated to the reporter at said hearing and transcribed and made a part of the record herein, and is set forth in full at pages 408 to 415, inclusive, of Volume 7 of the record herein, and is hereby referred to and by reference incorporated herein.

That it was thereby stipulated and agreed that certain statements made therein should be taken and deemed as true facts for the purpose of determining the priority of the rights as between the parties.

Based upon such stipulation and statement of agreed facts, the Board therefore finds as follows:

1. - That on the 28th day of November, 1901, G. L. Cole, W. P. Newby and A. E. Cole met for the purpose of organizing a corporation under the general laws of the State of Oregon, which incorporation was to be known as the Moonshine Ditch Company. That on said 28th day of November, 1901, said G. L. Cole, W. P. Newby, and A. E. Cole caused articles of incorporation to be made and on said date they signed the same as the incorporators of said proposed Moonshine Ditch Company, which articles were executed in triplicate and under said articles the business of said Moonshine Ditch Company was and is to be carried on in Wallowa County, Oregon, and the principal office of said corporation was and is Joseph, Oregon.

That said articles of incorporation were duly signed, witnessed and acknowledged, on said date, so as to entitle them to be recorded, and the same were recorded as follows, to-wit:

One of said articles was recorded and filed in the office of the County

Clerk of Wallowa County, Oregon, on the 29th day of November, 1901; one was filed in the office of the proposed corporation with the Secretary thereof, in Joseph, Wallowa County, Oregon, on the 29th day of November, 1901, and on the 29th day of November, 1901, one of the said articles was forwarded to the Secretary of State, and was afterwards on the 4th day of December, 1901, by him filed in said office of the Secretary of State of the State of Oregon.

2. - That on the morning of the 30th day of November, 1901, at about eight o'clock of said day, G. L. Cole, one of said incorporators, acting as agent of the said Moonshine Ditch Company, posted a notice in writing at the point of diversion of the said Moonshine Ditch Company, on Hurricane Creek, which notice was afterwards recorded in the office of the County Clerk of Wallowa County, Oregon, on December 7th, 1901, a copy of said notice and maps accompanying same being set forth in said stipulation, and appearing on pages 409 to 410 inclusive, of said Volume 7 of the record herein, and by reference thereto the same is hereby incorporated into and made a part of these findings.

3. - That since December 4, 1901, said Moonshine Ditch Company has been and now is a corporation created, organized and existing under the laws of the State of Oregon; that on or about the 5th day of May, 1902, said Moonshine Ditch Company, in pursuance of the said notice, and in compliance therewith, commenced the construction of a ditch along the line of the proposed route, as shown by the aforesaid notice, and which construction was followed up with reasonable diligence, and the waters of Hurricane Creek diverted therefrom through said ditch and within a reasonable time placed to beneficial use for irrigation, domestic and stock use upon the lands under said ditch.

4. - That on the 25th day of November, 1901, the Alder Slope Ditch Company was and now is a corporation duly organized and existing under and by virtue of the laws of the State of Oregon; that on the 30th day of November, 1901, at four o'clock in the afternoon of said day, the said Alder Slope Ditch Company caused to be posted on Hurricane Creek, a notice in writing at the point of diversion, a copy of which notice was afterwards recorded in the office of the County Clerk of Wallowa County, on the 2nd day of December, 1901, a copy of said notice being set forth at pages 411 to 414, inclusive, of said Volume 7 of the record herein, and also by reference hereby incorporated herein as a part of these findings.

5. - That sometime during the Spring of 1902, the said Alder Slope Ditch Company commenced the construction of a ditch along the line of the proposed route, as shown by said notice, which construction was followed up with reasonable diligence,

and the water diverted from Hurricane Creek through said ditch within a reasonable time and placed to a beneficial use for irrigation, domestic and stock use upon the lands under said ditch.

6. - That the State Water Board in the determination of said rights, shall be guided by the report and surveys of the State Engineer as to the acreage, amount of land irrigated by each company, the amount of water which they flowed through their ditches, and diverted to a beneficial use, subject to the right of exception and appeal as to the amount of water, and priorities.

7. - It is understood, in making these findings that the Alder Slope Ditch Company does not admit nor stipulate that the Moonshine Ditch Company was on the 30th day of November, 1901, an organized incorporation, or that G. L. Cole was the agent of such corporation, but that the Board in determining the question of priority shall consider the acts of the incorporators of the Moonshine Ditch Company as set forth in this stipulation.

15.

CONTEST NO. 3: MOONSHINE DITCH CO. vs. HURRICANE IRRIGATING DITCH CO.:

Upon the hearing of this contest, the following stipulation was made and agreed upon between the parties, on June 26, 1911, to wit:

"It is stipulated and agreed in open court, by and between the contestant and the contestee, all parties being present, that the contestee above named is entitled to water sufficient to irrigate all of the lands of its stockholders, together with water sufficient for a certain power wheel or water wheel, as such lands and water wheel are shown by the claims of the stockholders of the said contestee now on file herein, and that such rights for irrigation and power purposes or water wheel are prior to the rights of contestant herein, the amount of water necessary or proper for the irrigation of such lands, and the running of such water wheel to be determined by the State Water Board, but the contestant and contestee herein expressly reserve the right to take exceptions to the determination or adjudication of the Water Board, insofar as such determination or adjudication concerns the amount of water allowed and reserves, so far as they can, the right to hereinafter introduce evidence, if they care to do so, concerning the amount of water proper or necessary for the irrigation of said lands. We make this reservation for the reason that we realize the tests made by the State Engineer were made last year and during that year there was an unusual amount of precipitation, and we are of the opinion that the tests would not be reliable tests in case of ordinary dry years, and it may be that contestee in this case will make tests of its own to determine this matter."

CONTEST NO. 4: A. S. BENNETT and N. J. SINNOTT vs. HURRICANE CREEK IRRIGATING DITCH COMPANY, ET AL.:

This contest came regularly on for hearing pursuant to notice duly and regularly given, on June 26, 1916, and after considerable testimony had been taken and evidence offered therein on behalf of the respective parties thereto, and adjournments of said hearing had been had from time to time to suit the convenience of the parties and their witnesses, the parties to said contest entered into a written stipulation, and submitted the same to and filed the same with the Superintendent on October 6, 1916, whereby it was stipulated and agreed by and between the contestants, and the contestees, Hurricane Irrigating Ditch Company, C. E., Grace, S. P., M., and Charles E. Crow, Victoria Haas (Moody), Linnie Basim, Carl Whitmore, J. R. Harris, and R. F. Stubblefield, as follows, to-wit:

"First: - that the evidence submitted by the above named contestants and contestees shall be and is withdrawn from the consideration of the Board, and that said contest shall be dismissed and disregarded.

"Second:- It is further agreed that the rights of the parties hereto shall be fixed and ascertained by the Board and the Court from the statements and claims of the different parties.

"Third: - It is further stipulated and agreed that in case of a shortage of water there shall be no priority of right between the contestants and contestees signing this Agreement, but that they shall all take as of equal right; and in case of any shortage in the amount of water so that there shall not be enough to supply the amount allowed to each and all of them, then each shall suffer a loss of such per cent. of his, her, or its water as the shortage bears to the total amount of water allowed to all of them.

"Fourth: - This agreement shall be carried into the findings and decree of the Water Board and of the Circuit Court."

CONTESTS NOS. 5, 6, 7 and 8: CREIGHTON DITCH vs. THE BIG BEND WATER DITCH COMPANY, et al; THE CREIGHTON DITCH vs. THE GRANGER WATER DITCH COMPANY; THE DOBBIN DITCH COMPANY vs. THE CREIGHTON DITCH: GRANGER WATER DITCH COMPANY vs. MARY J. CREIGHTON, ET AL:

These contests involved the relative priorities of the rights claimed by the Dobbin Ditch Company, Big Bend Water Ditch Company, and the Granger Water Ditch Company, corporations, and Craig Ditch Company, a co-partnership, on the one side, and the Creighton Ditch, on the other. All of the ditches involved divert water from the North Fork

of Wallowa River in the vicinity of the town of Joseph, Wallowa County, Oregon. The contests came on for hearing pursuant to notice duly and regularly given, and at the hearing it was stipulated, in open court, that the said contests should be consolidated for the purpose of the record to be made therein.

Considerable testimony was taken at the hearing and the hearing was adjourned from time to time to suit the convenience of the parties and their witnesses, after reasonable notice to all persons interested. The said contests having come on for hearing, pursuant to preceding notice of adjournment thereof, on October 18, 1916, the parties to said several contests, appearing through their several attorneys, entered into a stipulation in settlement of their relative rights as between themselves, in the presence of the Superintendent and with the same effect as in open court, which stipulation was dictated to the reporter at said hearing, mutually agreed upon and by direction of all parties transcribed and made and now is a part of the record therein. That it was thereby stipulated and agreed mutually between all of the parties to said contests as follows, towit:

"It is stipulated and agreed by and between the parties to these contests in open court that the rights of the parties shall be determined as follows:

"First - The Creighton Ditch takes 250 inches of water, miners measurement, under a six inch pressure, and prior to the rights of all other parties to this contest.

"Second - The Granger Ditch takes whatever water is awarded it by the Water Board and prior to the rights of all of the other parties to this contest with the exception of said 250 inches to the Creighton Ditch.

"Third - The Dobbin Ditch Company then takes its water as such water may be allowed by the Water Board prior to the rights of all of the other parties to this contest with the exception of said 250 inches to the Creighton Ditch and the right of the Granger Ditch as set out in the second part of this stipulation.

"Fourth - The Craig Litch takes water as such water may be allowed to them by the Water Board and prior to the rights of all of the other parties to this contest with the exception of said 250 inches to the Creighton Litch and the right of the Granger Ditch and of the Dobbin Ditch as heretofore stated.

"Fifth - The Wrenn-Dobbin Ditch and the Big Bend Ditch and the water that would be due or allowed the Creighton Ditch by the Water Board other than said 250 inches shall all be on an equal basis and shall be of the priority granted to any of said Wrenn-Dobbin, Big Bend and the said Creighton so far as concerns the Creighton, other than the 250 inches aforesaid. The intention being that there shall be no priority between the Wrenn-Dobbin, Big Bend and the Creighton as in this paragraph

mentioned. But other than as stated in this stipulation the rights of all the parties to this contest so far as concerns those rights when compared with the rights of the parties not parties to this contest, shall be determined according to their claims on file with the Water Board; and it is stipulated and agreed that this stipulation between the parties to this contest shall be made a part of the adjudication of the Water Board and of the Court."

18.

CONTEST NO. 9: THE DOBBIN DITCH COMPANY vs. THE ISLAND IRRIGATING WATER DITCH COMPANY:

This contest was set for hearing and came on for hearing on June 22nd, 1916, the parties appearing by their attorneys, whereupon, upon motion of attorneys for the contestants, the said contest was in all things dismissed.

19.

CONTEST NO. 10: THE JOSEPH MILLING COMPANY and JOSEPH LIGHT & POWER COMPANY vs. J. M. and HENRY MITCHELL.

This contest came on for hearing pursuant to notice duly and regularly given, and the hearing thereof having been adjourned from time to time, after reasonable notice to all parties, the taking of testimony and evidence therein was commenced. The following facts appear:

1. - The contestants, the Joseph Milling Company and the Joseph Light & Power Company, are corporations organized and incorporated under the laws of the State of Oregon; and filed herein jointly Proof No. 248, of Volume 3 of the record herein, claiming a right to the waters of Wallowa River for power purposes initiated in the year 1882 by virtue of appropriation, diversion and use; the extent of the right thus claimed being more fully set forth in said Proof No. 248, to which reference is hereby made.

2. - That Henry Mitchell, contestee herein, filed in this proceeding Proof No. 317, of Volume 4 of the record herein, whereby and wherein he claimed a right to the waters of said Wallowa River for irrigation, stock and domestic purposes, for the making of ice, and for a fish pond, and that said right was initiated in the year 1879; that it appears that water for said purposes is diverted through Silver Lake Ditch. That James M. Mitchell filed Proof No. 520, of Volume 4 of the record herein, claiming a right by appropriation of the waters of said Wallowa River, initiated August 30, 1880 for irrigation, stock and domestic purposes.

3. - From the statements set forth in the said proofs of said Henry and J. M. Mitchell it appears that in 1880 J. M. Mitchell and others constructed the Mit-

chell ditch to divert water from Wallowa River for irrigation purposes, and that said J. M. Mitchell irrigated prior to the year 1892 certain lands from said ditch, and that in about 1892 the Silver Lake Ditch (more fully described in Proof No. 382, of Volume 4 of the record herein) was constructed by the Silver Lake Ditch Company, a corporation, apparently along the line of a portion of said Mitchell ditch, which last named ditch was enlarged and became a portion of said Silver Lake ditch; and by agreement verbally made, but subsequently and in 1911 reduced to writing, as it is alleged, the Silver Lake Ditch Company gave to said J. M. Mitchell the right to divert certain quantities of water to his lands; that it is alleged that said J. M. Mitchell has sold to said Henry Mitchell 150 inches of water through said Silver Lake Ditch. That from the proof on behalf of Henry Mitchell (No. 317) it appears that the lands described in said proof were first irrigated in about the year 1893 from said Silver Lake Ditch.

4. - That in the year 1910 the contestants herein, as plaintiffs, and the Joseph Water Works Company, a private corporation, as plaintiff, commenced a suit in the Circuit Court of the State of Oregon for Wallowa County by filing a complaint in said Court wherein said contestants and the said Joseph Water Works Company were plaintiffs, and the City of Joseph, a municipal corporation, J. H. Thompson, its mayor, I. H. Robinson, J. A. Blevins, Wesley Duncan, Ed Berland, Ed. Eben and J. M. Thompson, councilmen of said City of Joseph, J. M. Mitchell, the Farmer's Water Ditch Company, a private corporation. The Dobbin Ditch Company, a private corporation, the Wrenn-Dobbin Ditch Company, a private corporation, the Big Bend Water Ditch Company, a private corporation, and the Silver Lake Ditch Company, a private corporation, were defendants. That it appears from said complaint that said J. M. Mitchell, contestee herein, was engaged as contractor for the said defendant City of Joseph in constructing a municipal water works system, and that said J. M. Mitchell was joined as defendant in said suit as the agent or contractor for said City of Joseph, and it further appears to the Board that at all times during the progress of said suit, said J. M. Mitchell appeared therein in the capacity of contractor or agent for said City of Joseph and not in his individual capacity; that the right of said J. M. Mitchell to the use of the waters of said Wallowa River was not involved and not in issue in said suit. That subsequently such further proceedings were had in said suit as resulted in the entry of a decree therein as against the defendants, wherein it was ordered, adjudged and decreed that the plaintiffs, the Joseph Milling Company and the Joseph Light & Power Company, were entitled to 50 second feet of water from Wallowa River for power purposes, as a prior right to the rights of all the defendants in said suit, except the right of the defendant the Silver Lake Ditch Company to divert 50 inches of water, miners measure under six inch pressure. That

the Board finds that said decree was not intended to and did not bind nor conclude the said defendant, J. M. Mitchell, as to any rights theretofore acquired by him by appropriation of the waters of said Wallowa River for the irrigation of the lands described in his said proof; nor estop him from setting up and asserting the rights claimed by him in his said proof herein.

20.

CONTEST NO. 11 - N. D. VARNER vs. W. E. DAGGETT AND S. T. DAGGETT:

The above entitled contest having come on for hearing after due and legal notice to the said contestees above named, contestant N. D. Varner appeared in person and by his attorney, but the contestees appeared not, and were and now are in default. Evidence having been offered on behalf of the said contestant in supporting the allegations of his statement and notice of contest, it appears that heretofore and on the 23rd day of October, 1909, a final decree was entered in a certain suit in the Circuit Court of Wallowa County, Oregon, wherein Joseph Farnsworth was plaintiff, and S. T. Daggett and W. E. Daggett, contestees herein, were defendants, wherein it was ordered, adjudged and decreed that the defendant S. T. Daggett be perpetually restrained and prohibited from in any manner, in person or by agents, attorneys or employees, diverting or interfering with the waters flowing in and through plaintiff's water ditch described in the complaint in said suit, and the findings of fact therein, or from in any manner throwing or placing obstructions in said ditch, or from permitting hogs to go into or wallow in said ditch, or pollute the waters in said ditch, and from restraining and prohibiting plaintiff, his agents or employees, from going upon and along the line of said ditch for the purpose of cleaning and removing obstructions therefrom, and making repairs thereon. That it appears that said plaintiff in said suit was the predecessor in interest of the said contestant herein in the ownership of the lands described in the proof of said contestant, and in the ditch described in the complaint and findings of fact in said suit referred to in said decree.

21.

That as between James B. Kooch and L. L. Hambleton and W. P. Hambleton, it appears that heretofore and on the first day of May, 1893, a decree was made and entered in that certain suit in the Circuit Court of the State of Oregon, for Wallowa County, wherein James B. Kooch was plaintiff and said L. L. Hambleton and W. P. Hambleton were defendants, whereby and wherein it was adjudged and decreed that said L. L. Hambleton was the owner of one-half of all the natural flow of the waters of Spring Branch Creek, situated in Wallowa County, Oregon, by virtue of prior appropriation,

and that the plaintiff, J. B. Kooch was the owner of the other undivided one-half thereof, and that the defendant W. P. Hambleton, as riparian proprietor upon said stream above the lands of said J. B. Kooch, was entitled at all times to the reasonable use of the waters of said stream to have the same flowing through his premises in the natural channel of said stream, and to use the same for domestic and household purposes and for the watering of domestic animals; and that said J. B. Kooch has the right to use the said one-half of the waters of said stream for any and all purposes, subject to the rights of said W. P. Hambleton as hereinbefore indicated. That it appears that said L. Hambleton, defendant in said suit, was the predecessor in interest of said N. D. Varner, claimant herein, in the ownership of the lands and water rights described in the proof of said N. D. Varner.

22.

CONTEST NO. 12 - S. L. MAGILL, C. J. ALLEN, GIDEON WOLFE, WM. SHEROD, H. E. DRIVER and J. T. WILLETT, vs. S. W. MILES:

In the above entitled contest, the following stipulation was made and entered into on the 26th day of October, 1915, by and between the said contestants and the contestee, said S. W. Miles, to-wit:

"Whereas, the above entitled contest has been commenced by the filing of Statement of Contest with the above named Board of Control;

"Now, therefore, in settlement of this contest it is hereby stipulated and agreed by and between the parties above named that the rights of the above named S. W. Miles, contestee, in and to the waters of the South Fork of the Wallowa River, so far as the same are claimed through what is commonly known as the Miles Ditch and against which this contest was commenced, are as follows, and the adjudication and determination herein shall be as follows:-

"In the year of 1882 the said S. W. Miles established and fixed his right to the use of the waters of said South Fork of the Wallowa River for domestic and stock use, and through said S. W. Miles Ditch.

"In the year of 1882, the said S. W. Miles irrigated through said Miles Ditch sixty (60) acres of land, thirty-seven (37) acres thereof being in the SE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of Section 4, in Township 1 South of Range 43 E. W. M., and twenty-three (23) acres thereof being in the SW $\frac{1}{2}$  of the SW $\frac{1}{4}$  of said Section 4; and ever since said year of 1882 the said S. W. Miles has irrigated, and now irrigates, said sixty (60) acres, through said Miles Ditch and with waters of said South Fork of the Wallowa River.

"In the year of 1886 the said S. W. Miles irrigated through said Miles Ditch sixty (60) acres of land, forty (40) acres thereof being the NW $\frac{1}{4}$  of the SW $\frac{1}{4}$  of said

Section 4, and twenty (20) acres thereof being the  $\frac{1}{2}$  of the SW $\frac{1}{4}$  of the NW $\frac{1}{4}$  of said Section 4; and ever since said year of 1886 the said S. W. Miles has irrigated and now irrigates, said sixty (60) acres, through said Miles Ditch and with waters of said South Fork of the Wallowa River.

"That the right of the said S. W. Miles to irrigate lands through said Miles Ditch, and with waters of said South Fork of the Wallowa River, except as to the above one hundred and twenty (120) acres mentioned and described, is subsequent and inferior in right and in time to the rights of contestants in and to the waters of said South Fork of Wallowa River, as such rights of contestants are claimed through what is commonly known as the George Jacobs Ditch and what is commonly known as the ditch of the Middle Valley Irrigation & Water Ditch Company. And the right of the said S. W. Miles to irrigate lands through said Miles Ditch, and with waters of said South Fork of the Wallowa River, except as to said one hundred and twenty (120) acres was initiated and established in the year of 1895.

"Except as otherwise stated, stipulated or agreed herein the rights of all the parties to this stipulation are to be determined by and through their statements and proofs now on file with said Board of Control. And this stipulation and agreement is intended to cover the rights of the said S. W. Miles in and to the waters of said South Fork of the Wallowa River only so far as such rights are claimed through what is commonly known as the Miles Ditch; and is not intended to affect the rights of the said S. W. Miles as such rights may be claimed through any other ditch."

23.

That as between the claimants herein using water through the Chamberlain Ditch and owning shares of stock in the Chamberlain Ditch Company, a corporation, owner of said ditch, it is agreed that the following statement of fact with reference to the construction of said ditch and use of the water from said Chamberlain Ditch is correct;

"That Henry K. Chamberlain settled upon the Southwest quarter of the Southwest quarter of Section 15, and the North half of the Northwest quarter, and the Southeast quarter of the Northwest quarter of Section 22, in Township 1 North Range 42 East of W. M., containing 160 acres, about the year 1883, and thereafter said lands were patented to him as a homestead in the year 1888. That C. W. Moore is the successor in interest of said Chamberlain, and is now the owner of said premises. That thereafter said Chamberlain acquired title to the South half of the Southwest quarter of Section 10, and the Northwest quarter and the North half of the Southwest quarter of Section 15, Township 1 North Range 42 East of W. M., containing 320 acres from the United States, and that patent was issued to him. That in the year 1883, said Chamberlain commenced

the construction of that certain ditch described in these proofs as the Chamberlain Ditch, and extended the same down over and across said homestead for the irrigation thereof, and thereafter extended the same down over and across said last described lands for the irrigation thereof. That on the 20th day of June, 1891, said Chamberlain conveyed to Duncan McDonald and H. McDonald, the said described lands, being the South half of the Southwest quarter of Section 10, the Northwest quarter, and the North half of the Southwest quarter of Section 15, Township 1 North Range 42 East of W. M., "together with the undivided two-thirds interest of a certain water ditch now used for saw mill and irrigating purposes, and extending on to said premises and used in irrigating the same." That said deed contained covenants of warranty that said lands were free from all encumbrances, and that the grantor would warrant and defend the same. That the lands now owned by said C. W. Moore, and the lands last described, were irrigated from said ditch prior to the year 1893, and that the various claimants named herein who are described as the owners of said last described premises in their several proofs, have succeeded to all the right, title and interest of said Duncan and H. McDonald in and to said premises and water rights conveyed by said deed by said Chamberlain.

"That in the year 1893 an enlargement and extension of said ditch was made, whereby additional lands were brought under irrigation, and that the lands described in the proofs herein not including the said lands formerly owned by said Chamberlain as above described, are entitled to appurtenant water rights dating from the year 1893."

24.

GRANGER WATER DITCH COMPANY vs. H. E. and GEO. F. DAWSON:

The Granger Water Ditch Company filed a notice of contest against Mary J. Creighton and H. E. and Geo. F. Dawson, doing business as Dawson Brothers. In so far as the claim of Mary J. Creighton is concerned, a stipulation was entered into between said Granger Water Ditch Company and other ditch companies and Mary J. Creighton, disposing of the matters in controversy between those claimants, said stipulation being set forth in Paragraph 17 of the Findings herein. As between the Granger Water Ditch Company and said Dawson Brothers, a stipulation was entered into that the appropriation claimed by Dawson Brothers should be determined from the testimony of the witness M. B. Davis, and from the testimony so taken the Board finds that sometime about the year 1884 the Dawson Brothers ditch and flume was constructed with a capacity sufficient to supply to the planing mill described in the proof of said Dawson Brothers herein thirty second feet of water. That by the installation of a more modern power wheel, a greater efficiency in power development has been since secured, but that there has been no material or substantial increase in the quantity of water diverted and utilized in the

production or development of power to operate said planing mill, and that during all times since the construction of said ditch the quantity of water required for beneficial use in the operation of said planing mill has been about thirty second feet.

25.

DUTY OF WATER:

That Wallowa River rises on the northern slope of the Wallowa Mountains and flows in a northwesterly course to its junction with the Grande Ronde River. From a torrential, glacier-fed stream in the mountains at its source, it emerges into Wallowa Lake. Immediately below the lake the river enters the "Upper Valley", the first of a series of three agricultural valleys through which it flows. This valley extends from the town of Joseph, Oregon, near its southern end to a point a short distance below Enterprise, where the river enters a narrow canyon five miles in length. At the lower end of the canyon the hills on the west side give way, forming Lostine Valley, in which the town of Lostine is located in the south central part. In this valley, Wallowa River is joined by the South Fork, which furnishes most of the water to the land irrigated in this valley. Wallowa Valley, the third of the three valleys, is separated from Lostine Valley by a ridge running in a northerly direction. Below Wallowa Valley the stream follows a narrow canyon to its junction with Grande Ronde River. The principal tributaries of Wallowa River in the Upper Valley are Hurricane Creek and Prairie Creek, in Lostine Valley the South Fork of Wallowa River, and in Wallowa Valley Bear Creek, while the Minam River joins Wallowa River below Wallowa Valley and is not used for irrigation.

That the irrigation season extends from May first to October first of each year and that during the irrigation season practically the entire flow of Wallowa River and its tributaries in the Upper Valley is diverted for the irrigation of lands in this valley. Return seepage from these irrigated lands, springs, and the tributaries flowing into Wallowa River in the two lower valleys, furnish an ample supply of water for the irrigation of the lands in these valleys, rendering the water supply of each of the three valleys independent of the other.

That owing to the varying conditions of use of water, available supply, capacity of ditches, practice in applying the water, and other conditions affecting the use of water from the various sources of supply involved in this proceeding, the rights to the use of water from these various sources differ as to quantity, head diverted and other important features.

That the waters of Wallowa River, South Fork of Wallowa River and its tributaries, Hurricane Creek and its tributaries and Bear Creek and its trib-

utaries, are used for irrigation and other purposes, and it is important that grain, which is one of the principal crops in this section, be irrigated at a certain stage of its growth, and all grain will therefore require irrigation at about the same time. In order to furnish all water users with an ample head of water at the same time and to utilize the available supply during flood periods, many of the ditches diverting water from these streams have been constructed of unusually large capacity for the service of the lands irrigated therefrom. This condition renders a limitation on the head of water to be diverted impracticable, and the appropriations should accordingly be limited to beneficial use and not to exceed a definite quantity diverted in any period of thirty days.

// That, after taking into consideration the general practice in the use of water, the available supply, and all other available data, the State Water Board is of the opinion that not to exceed one and one-half acre feet per acre can be beneficially applied to lands irrigated from the said Wallowa River, South Fork of Wallowa River and its tributaries, Hurricane Creek and its tributaries, and Bear Creek and its tributaries, during any period of thirty days prior to July 31st of each year, and thereafter not to exceed one acre foot per acre for the remainder of the irrigation season; that the maximum quantity which the owners of such lands are entitled to divert for the irrigation thereof is accordingly so fixed and determined, subject to the use of water by rotation as hereinafter provided; provided, that in no case shall more water be applied to such lands than can be beneficially used thereon.

That the waters of Little Hurricane Creek, Weaver Creek, Smith Creek, Alder Creek, Murry Creek, Funk Creek, Newby Creek, Reavis Creek, Heas Branch, Cole Spring, and all other sources of supply involved in this proceeding excepting Wallowa River, South Fork of Wallowa River and its tributaries, Hurricane Creek and its tributaries, Bear Creek and its tributaries, and Prairie Creek and its tributaries, are used for irrigation and other purposes; and after taking into consideration the prevailing practice in the use of this water, the quantity of water available, the comparative uniformity of flow during the irrigation season, due in a large measure to return seepage from irrigated land, and all other data available, the State Water Board is of the opinion that not to exceed one acre foot per acre can be beneficially used on the lands irrigated from these streams during any period of thirty days prior to July 31st of each year, and thereafter not to exceed one acre foot per acre for the remainder of the irrigation season; that the maximum quantity which the owners of such lands are entitled to divert for the irrigation thereof is accordingly so fixed and determined, subject to the use of water by rotation as hereinafter provided for; provided, that in no case shall more water be applied to such lands than can be beneficially used thereon.

That the waters of Prairie Creek and its tributaries are used for irrigation and other purposes, and owing to the limited supply of water for the irrigation of the comparatively large area which has been successfully irrigated therefrom, a limitation on the head of water to be diverted for irrigation purposes from this stream is not only practicable but essential to the successful use of the waters of said Prairie Creek and its tributaries; and the State Water Board is of the opinion that not to exceed one-eightieth of one cubic foot per second per acre can be beneficially used on the lands irrigated from Prairie Creek and its tributaries; and the maximum quantity which the owners of such lands are entitled to divert for the irrigation thereof is accordingly so fixed and determined, subject to the use of water by rotation as hereinafter provided for; provided, that in no case shall more water be applied to such lands than can be beneficially used thereon. "

That Wallowa Lake is used as a reservoir for the storage of water by certain corporations, known as "Associated Ditch Companies", to supplement the appropriations from Wallowa River for the irrigation of lands served by the Farmer's Water Ditch, Big Bend Ditch, Silver Lake Ditch, Citizen's Water Ditch, Dobbins Ditch, and the Wrenn-Dobbin Ditch. Water is stored in the lake by means of a dam across its outlet, creating a storage reservoir with an area of 1,534 acres, a depth of 5.7 feet, and a capacity of 8,740 acre feet. It is the practice to fill this storage reservoir during May and June, drawing water off when needed for irrigation, and to store additional water whenever practicable during the month of July when the same cannot be beneficially used for irrigation, thereby storing more water each year than the maximum storage capacity of the reservoir. It appears that 9,230 acre feet of water was stored in this reservoir in 1912 and that this is the maximum amount that has been so stored; and the State Water Board therefore fixes and determines 9,230 acre feet as the quantity of water which the owners of this reservoir are entitled to store therein.

26.

DOMESTIC USE:

That there are numerous springs and small streams tributary to Wallowa River which are utilized by the claimants thereto for stock and domestic purposes, and in some instances for irrigation purposes, to a limited extent. These small streams include Little Hurricane Creek, Weaver Creek, Smith Creek, Alder Creek, Murray Creek, Scotch (or Scotts) Creek, Funk Creek, Newby Creek, Reavis Creek, Haas Branch, Cole Spring, and numerous unnamed springs, spring branches, and small streams tributary to said Wallowa River. In many instances the use of water for irrigation is supplementary to a diversion for that use from the Wallowa River or a large tributary, and the water

from said small streams and springs so used to supplement the flow in large irrigation ditches is commingled therewith and it is impossible to determine definitely or at all the area of land actually irrigated from these supplementary sources, or to segregate the amount utilized as a supplementary supply for irrigation. In some instances a much larger area of land is claimed as irrigated by such supplementary supply than could be irrigated therefrom by such waters if used alone.

The principal purposes to which such waters are applied is for domestic and stock use and in practice such use has been given a preference as among the several claimants to such waters. The Board therefore finds that the waters of such streams and springs shall first of all be distributed to the several claimants thereto for stock and domestic purposes, and any surplus thereof over and above the amount reasonably necessary to supply such domestic and stock needs may be diverted by and shall be distributed to the appropriators of said waters in the order of their respective rights thereto as herein found and determined.

The quantity required to supply domestic and stock needs in all of said cases necessarily fluctuates from time to time; and each of said claimants should be entitled to divert and use from said streams, springs and spring branches such amount as may be reasonably necessary to supply their ordinary household and domestic supply, and to supply water to the usual number of head of stock ordinarily kept upon the farms of such claimants; and as all of said claimants appear to be riparian proprietors of lands bordering upon said waters, there should be no priority among them as between their rights to the use of said waters for domestic and stock purposes.

27.

#### SUPPLEMENTARY SUPPLY:

In many instances in the tabulated statement in the order of determination herein, it appears that two or more ditches or sources of supply are utilized to irrigate the same lands, and one ditch or source of supply is utilized in such case to supplement another ditch or source of supply for the irrigation of the same lands. In such cases it is indicated in said tabulated statement that the right is supplementary in character.

A claimant utilizing water from two or more ditches or sources of supply for the same lands should be entitled only to the amount per acre from all of said sources combined herein found necessary for the proper irrigation of said lands, and upon the diversion of the quantity herein allowed per acre for irrigation of a given tract of land from one or more sources or ditches, should be deemed and considered to have fully satisfied his needs and requirements and should have no further right to divert water

from other and additional sources of ditches for said lands.

In many instances these supplementary rights for irrigation are for the diversion of water from the small tributary streams, springs and spring branches described in the paragraph herein immediately preceding, to which claimants for stock and domestic purposes are found herein to have a first and preferred right. Whenever it appears from the tabulated statement of rights herein that a claimant herein is determined to have a right to divert water for the irrigation of certain lands from said Wallowa River, Hurricane Creek, Bear Creek or Prairie Creek, and that he has an additional right for the irrigation of the same lands, supplementary in character, to divert water from any small stream, spring or spring branch described in the paragraph immediately preceding, then, as against claimants to said last described waters for irrigation having no other source of supply for the irrigation of their lands, the claimant having such supplementary right should first be required to utilize the waters from the other and larger source before he should be permitted to claim priority of right to such supplemental supply.

As respects Wallowa River, Bear Creek, Hurricane Creek and Prairie Creek, the claimants to water therefrom through two or more ditches for the irrigation of the same lands should, in their discretion, be permitted and entitled to divert water from either source in such quantity as they may respectively determine, not exceeding in total quantity diverted from all sources or ditches the quantity herein fixed and allowed per acre.

28.

ROTATION:

Rotation in the use of water for irrigation purposes, especially among the appropriators of small amounts of water, has been practiced in the past and tends to materially increase the duty of water and insures a more equitable distribution. Provisions for rotation should therefore be incorporated in the order of determination and in the decree herein.

ORDER OF DETERMINATION

- I -

That the following named claimants herein are entitled to rights of appropriation to the waters of the particular stream or streams set opposite their respective names as of the priority, to the extent and for the uses and purposes set forth in the following tabulated statement; and each of the following named claimants is entitled to the entry of a decree herein, and to the issuance of a water right certificate in accordance therewith, determining, establishing and confirming their respective rights to the waters of the stream or streams set opposite their respective names under the heading "stream," as of the date of priority, in the amount or quantity of water per acre for irrigation purposes, as provided in paragraph II immediately following this paragraph, and for other purposes (except stock and domestic use) in the quantity of water set forth opposite their respective names in the following tabulated statement; for the irrigation of the number of acres, or development of the horsepower indicated, by means of the ditch, upon the lands described hereinunder, as such priority date, indicated quantity of water, number of acres or horsepower, use, ditch, and lands, are hereunder set forth or described in tabulated form opposite the name of the claimant entitled to the right thereby defined, to-wit:

(Note: The quantity of water for irrigation purposes shall be determined from paragraph II following, in each case, and is not set forth in this tabulated statement. For other uses, except domestic and stock, the quantity to which the claimant is entitled is set opposite his name under the heading "amount cubic feet per second".)

II.

The amount of water which each of the claimants named in the foregoing tabulated statement shall be entitled to divert for irrigation purposes during an irrigation season extending from May first to October first shall not exceed an amount actually beneficially used for said purposes and is limited to a maximum amount as hereinafter fixed and determined, to-wit:

All claimants therein named having a right to divert water from Wallowa River, South Fork of Wallowa River and its tributaries, Hurricane Creek and its tributaries, and Bear Creek and its tributaries, shall be entitled to divert therefrom (from the particular source or combined sources from whence they are entitled to divert water for irrigation) not to exceed one and one-half ( $1\frac{1}{2}$ ) acre feet for each acre of land actually irrigated (under the ditch or ditches of each such claimant) and described in the foregoing tabulated statement, during any period of thirty days during the irrigation season prior to July 31st of each year; and thereafter not to exceed one (1) acre foot per acre for said lands during the entire remainder of the irrigation season. For all lands irrigated with waters of tributary springs, spring branches, and streams not included in the foregoing sources of supply, and including Little Hurricane, Weaver, Smith, Alder, Murrey, Funk, Newby, and Reavis Creeks, Haas Branch, and Cole Springs, and other unnamed springs and spring branches, tributary to Wallowa River, but not to South Fork thereof, Hurricane, Bear and Prairie Creeks, each claimant thereto shall be entitled to divert therefrom not to exceed one (1) acre foot for each acre of land actually irrigated and described in the foregoing tabulated statement, during any period of thirty (30) days during the irrigation season prior to July 31st and thereafter not to exceed one (1) acre foot per acre for said lands, for the entire remainder of the irrigation season.

That each claimant to the waters of Prairie Creek and its tributaries named in the foregoing tabulated statement shall be entitled to divert therefrom for each acre of the lands actually irrigated and described in said tabulated statement, not to exceed one-eightieth ( $1/80$ ) of one cubic foot per second.

That the "Associated Ditch Companies" not incorporated, including the several corporations owning the Farmers Water Ditch, Big Bear ditch, Silver Lake ditch, Citizens' Water ditch, Dobbin ditch and Whann-Dobbin ditch, as such corporations are named and designated in the foregoing tabulated statement, is entitled, as an association of such corporations, to store in Wallowa Lake, for such corporations, to supply said ditches with water supplementary to their direct diversions from said Wallowa River for the irrigation of the lands described opposite and under the names of said corporations, nine thousand two hundred thirty (9230) acre feet, when not required to supply prior rights of appropriation of said waters, and as of the priority date set opposite the name "Associated Ditch Companies" in the foregoing tabulated statement.

### III.

No precise limitation is placed upon the quantity of water which claimants for domestic and stock use may divert; but in each case the quantity diverted shall not exceed such quantity as may be reasonably necessary for those uses, which uses shall only include ordinary and usual household and domestic requirements, and such quantity as may be essential to supply the number of head of stock ordinarily and usually kept by each claimant.

### IV.

Claimants, named in the foregoing tabulated statement, to the waters of all tributary springs, spring branches, and streams involved herein, other than "allowa River, its South Fork, Bear Creek, Hurricane Creek and Prairie Creek, shall be entitled, first to the use of such waters for usual and ordinary riparian domestic and stock uses, without priority as among them, and, second, to the use of the surplus of said waters in the order of the priority of their several appropriations for irrigation and other uses as defined in said tabulated statement.

### V.

Rights of appropriation for supplementary irrigation in the foregoing tabulated statement, indicates that water is used from two or more ditches or sources of supply for the same land. In any event, in such case, the claimant of water user (including those water users from two or more corporation ditches) having such supplementary right shall be entitled to divert or use not to exceed the rate per acre allowed in paragraph II preceding for the same land, irrespective of the number of ditches, sources of supply, or supplementary rights of said claimant; that is to say, the quantity to which such claimant is entitled shall not exceed said rate per acre, whether water is diverted from one ditch or source, or several ditches or sources.

In all cases where a claimant is entitled according to the foregoing tabulated statement to divert water for irrigation from sources other than Wallowa River, Hurricane Creek, Bear Creek, South Fork of Wallowa River, and Prairie Creek, to supplement diversions through ditches from any of the last named streams, in distribution of the water, such claimant shall first be required to utilize the waters of any of the last named streams to which he is entitled, either under a corporation ditch, or as a direct appropriator, before he shall be entitled to utilize the waters from the supplementary source as against a claimant having a right to the last mentioned waters, and no other source of supply for his lands. As between appropriators each having supplementary rights this provision shall not apply, but priority of appropriation shall prevail. Priority of appropriation shall be the rule for distribution in all other cases of supplementary irrigation rights.

VI.

As between the Moonshine Ditch Company and the Alder Slope Ditch Company, corporations, diverting water from Hurricane Creek, it is determined that the Moonshine Ditch Company is entitled to priority of appropriation of the waters of said stream, and that its appropriation was initiated on the morning of November 30th, 1901, at about 8 A.M., and that the appropriation of the Alder Slope Ditch Company was initiated on the same day, but about 4 P. M. in the afternoon of said day, and subsequent to the initiation of said appropriation of said Moonshine Ditch Company; that both said appropriations were perfected and completed with reasonable diligence, and each thereof is entitled to relate back to the respective time of initiation thereof for priority.

VII.

That as between The Joseph Milling Company and Joseph Light & Power Company, contestants, and J. M. Mitchell and Henry Mitchell, contestees, it is determined that the contestee, J. M. Mitchell, is not barred or estopped by virtue of the decree described in Paragraph 19 of the Findings herein from setting up and asserting the rights claimed by him in his proof herein, and in the absence of other and additional evidence he is entitled to the rights set forth in the tabulated statement herein. That Henry Mitchell, contestee, is not entitled to any earlier priority for his lands than the year 1893, the year it appears water was first used upon said lands, according to his proof on file herein.

VIII.

That the decree mentioned and described in Paragraphs 19 and 20 of said Findings herein are hereby recognized and acknowledged, and are to be followed and observed in the distribution of water among the parties affected thereby and whose rights are therein involved and adjudicated.

IX.

That the stipulation set forth in the foregoing findings shall govern the distribution of water as among the parties thereto in so far as not inconsistent with the rights of those not parties to said stipulation or not bound thereby; and that the rights of the parties to said stipulation, and their successors in interest in so far as bound thereby, as set forth and determined in said foregoing tabulated statement, shall be subject to the provisions and conditions of said stipulation; but said stipulation shall not be binding upon any but those parties and claimants whose rights are therein involved and who were parties to the same; and except as between the said parties so bound by said stipulations, the foregoing tabulated statement shall prevail as to the priority of rights and the distribution and use of the waters herein involved, subject to

the general provisions hereof in modification thereof, relating to domestic and stock uses, supplementary rights and rotation in the use of water.

X.

That the waters of said stream and its tributaries shall be diverted under the rights of priority hereby confirmed, in the order thereof, according to the priority dates of the several rights, and at all times when those having prior rights shall not require the use of the quantities of water herein allowed them, or only part thereof, such water shall be at the disposal and subject to the use of those claimants having subsequent rights, in their priority order; and for the purpose of carrying into effect this principle, rotation in the use of water shall be required when necessary to secure a more economical and equitable distribution as among the several claimants; that where rotation is practicable among claimants utilizing the flow of the stream through ditches, a water master shall have authority to provide for a rotation in the following manner; such water master shall arrange the water users in groups or systems of rotation, first giving to the user who is first in priority an amount of water equal to the combined quantity of water to which all the users in said group or system are entitled, for a length of time bearing the same ratio to the whole time required to make the complete rotation through the whole group of users, as the quantity to which the said first user is entitled bears to the combined appropriations of said users, in said groups, and shall next serve the next user in point of priority with a like amount of water for his proportionate length of time, and so on, until all the users in said group are served; then the distribution of water shall be repeated in the same manner throughout the irrigation season; that in the case of two or more water users in said group or system having the same priorities, then the said water master shall distribute the water as between those users having the same priorities to the one whose ditch taps the stream nearest its source first, and the next lower down next, and so on; and in case two or more users have equal priorities and divert water through the same ditch, the water master shall distribute the water as between said users to the one whose lands are first covered by said ditch and nearest the head thereof, first, and to the next lower down on said ditch, next, and so on; and the provisions of this paragraph shall be applicable to groups or systems of ditches, jointly owned, as well as individually owned; and where two or more users agree as between themselves as to the manner and system of rotation in the use of water, the said water master shall distribute the water in accordance with such agreement; provided always that such arrangement into groups or systems of rotation, or distribution under such agreement, shall not interfere with the prior rights of any user not a member of such group or system, or a party to such agreement.

XI.

That the rights hereby confirmed for irrigation purposes are confined and limited to the irrigation of the lands hereinbefore described, and the waters appropriated as in the tabulated statement set forth are and shall remain appurtenant to said lands, as provided by law.

XII.

Each and every appropriator holding permits from the State Engineer of Oregon for the appropriation of water from Wallowa River and its tributaries, shall have such water right thereunder as is provided by law, and the rights of such appropriators shall be established in the manner provided by law for the issuing of water right certificates in such cases.

By order of the State Water Board of the State of Oregon, made and entered at an adjourned regular meeting of said Board, commenced and held on the 16th day of June, 1917, at the office of said Board, in the State House, at Salem, Oregon.

-----  
Dated this 20th day of January, 1919.

(Signed) J. W. Knowles

Circuit Judge.

STATE OF OREGON )  
                          ) ss  
County of Wallowa. )

I. L. E. JORDAN, County Clerk, for Wallowa County, State of Oregon, and officio Clerk of the Circuit Court, for said County and State, do hereby certify that the foregoing Transcript of Decree recorded in Vol. H, Page 7 to 83 inclusive, Records of Circuit Court, for Wallowa County, Oregon, has been by me compared with the original Decree and that the same is a true and correct copy of said original Decree, and of the whole thereof, as the same appears of record in my office and custody.

Witness my hand and seal of said Court this 24th day of February, A. D., 1919.

L. E. Jordan, Clerk

(Seal of Circuit Court)

STATE OF OREGON )  
                          ) ss  
County of Marion. )

I, R. W. Potter, Secretary of the State Water Board of Oregon, do hereby certify that the above and foregoing copy of Decree of the Circuit Court of the State of Oregon for Wallowa County has been by me compared with, and the same is a full, true and correct copy of, the certified copy of such decree as received in the office of the State Water Board and entered of record herein on the 26th day of February, 1919.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the Seal of the State Water Board of Oregon, this 26th day of February, 1919.

Secretary, State Water Board of Oregon.
