

**BEFORE THE BOARD OF COUNTY COMMISSIONERS OF DOUGLAS COUNTY**

**AN ORDER IN THE MATTER OF )  
DECLARING A LOCAL DISASTER )  
AND REQUEST TO DECLARE A ) ORDER  
STATE OF DROUGHT EMERGENCY )  
FOR DOUGLAS COUNTY, OREGON )**

WHEREAS, the Douglas County Board of Commissioners finds that the Douglas County agricultural, livestock and forest products industries, and related businesses are experiencing economic hardship and potential serious injury and losses resulting from extreme weather conditions within the county; and

WHEREAS, the Natural Resources Conservation Service reports that as of June 5, 2015 the snowpack in the Umpqua basin is 0% of normal and as of June 1, 2015 they predicted "significant water shortages this summer". Stream flows on the South Umpqua, North Umpqua and the Umpqua Rivers have periodically fallen below historic minimum levels this year. Due to minimal snowpack and low stream flows, basin water managers expect to regulate surface water right users much earlier and to older priority dates than normal. This lack of surface water resources will negatively impact consumptive water users including irrigators, industrial and domestic users resulting in economic losses and hardship. Groundwater resources will also be affected by a lack of sufficient recharge resulting in reduced spring and well water supplies for household uses. The U.S. Drought Monitor shows most of Douglas County in a condition of moderate drought.

WHEREAS, the extended weather forecast for Douglas County projects higher than normal temperatures, and below average precipitation; and

WHEREAS, the above conditions will result in the loss of economic stability, decreased feed and pasture production, shortened growing season and decreased water supplies for Douglas County agricultural, livestock and vineyard producers. In addition, this multi-year cumulative drought has resulted in decreased fuel moisture and early onset fire danger; and

WHEREAS, the Douglas County Board of Commissioners determines that extraordinary measures must be taken to alleviate the suffering of citizens and livestock and to protect or mitigate economic loss, and to be responsive to the threat of wildfires.
