ORDER

Therefore, it is ORDERED:

1. That the Lease as described herein is APPROVED.
2. During each year of the term of the lease, the former place of use will no longer receive water as part of these rights, any supplemental rights, or any other layered water rights for irrigation use, including ground water registrations.
3. The term of the lease will commence upon approval of the instream lease and terminate on October 31, 2017. For multiyear leases, the lessor *shall* have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use (July 23 through October 31) or after the period of allowed use has begun for the water right being leased, water shall not be used under the right leased until the following calendar year, unless the Director determines that enlargement would not occur.
