8. A pump and pipeline system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12672.
9. The proposed change would not result in enlargement of the right.
10. The proposed change would not result in injury to other water rights.

Conclusions of Law

The change in place of use proposed in Transfer Application T-12672 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in place of use proposed in Transfer Application T-12672 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 57086 and any related decree.
3. Water right Certificate 57086 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
4. The former place of use of the transferred right shall no longer receive water under the right.
5. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2020**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.

6. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.
