Oregon Revised Statute (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to temporarily transfer the place of use and, if necessary to convey the water to the temporary place of use, the point of appropriation authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

**Temporary Transfer Review Criteria**

- Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right are present.
- The proposed change would not result in enlargement of the right.
- The proposed change would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

**Conclusions of Law**

The temporary change in place of use proposed in Temporary Transfer Application T-13138 is consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

**Now, therefore, it is ORDERED:**

- The temporary change in place of use proposed in Temporary Transfer Application T-13138 is approved.

2. The former place of use **shall not** be irrigated as part of this water right during the 2019, 2020, 2021, 2022 and 2023 irrigation seasons.
3. The use shall revert to the authorized place of use at the end of the 2023 irrigation season.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the change causes injury to any existing water right.
5. A subsequent application for permanent transfer of Certificate 87413 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 87413.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. The use of the remaining water right described by Certificate 87413 shall continue to be in accordance with the terms and conditions of Certificate 87413.
