

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Stage Gulch)	PROPOSED ORDER APPROVING
2008 Annual Allocation of Ground Water,)	ALLOCATION OF GROUND WATER
Under Water Right Certificate 76130,)	AND OPPORTUNITY FOR HEARING
Umatilla County, Oregon)	

David Ditchen, c/o Golden Valley Farms
77975 Morehouse Road
Stanfield, OR 97875

ORS 537.730 and 537.735 establish the process by which the Water Resources Commission may designate an area of the state as a critical ground water area. OAR Chapter 690, Division 507 implements the statutes and provides the Department procedures and criteria for the purpose of managing the ground water resource and evaluating requests for allocation of ground water.

OPPORTUNITY FOR HEARING

You are entitled to a hearing on this matter as provided by the Administrative Procedures Act (Chapter 183, Oregon Revised Statutes). If you want a hearing, you must file a written request for hearing directed to Ms. Juno Pandian, Manager, Well Construction and Compliance Section, Water Resources Department, 725 Summer Street NE, Suite A, Salem, Oregon 97301-1271. The request for hearing must state your grounds for disagreement with proposed action and must be received by the Department by 5:00 P.M. on September ___, 2007 (within 30 days of the date of service of this notice). You will be notified of the date set for hearing if a hearing is requested.

Failure to request a hearing by September ___, 2007, shall waive the right to hearing under ORS Chapter 183. You may choose not to request a hearing. If no request for hearing is received within the time set out above, or upon failure to appear at a hearing where one has been set, the existing agency file will be designated as the record in this case and the Department will issue a Final Order.

AUTHORITY

- 1) Oregon Administrative Rules (OAR) 690-507-0750 states in pertinent part that the Director issued an order on May 15, 1991, declaring the Stage Gulch Critical Groundwater Area. The order described the exterior boundaries and divided the area with eight subareas for the purposes of managing the groundwater resource. The response of ground-water levels to pumpage in each subarea is largely independent of pumpage within other subareas.

- 2) OAR 690-507-0770 states in pertinent part that the use of water from the basalt groundwater reservoir within the Stage Gulch Critical Groundwater Area shall be limited to the sustainable annual yield. Water from the basalt groundwater reservoir in the Stage Gulch Critical Groundwater Area shall be used for irrigation only during the irrigation season. The irrigation season shall begin on the 1st of March and end on the 30th of November. The Department shall not accept any new applications for appropriation of water from the basalt groundwater reservoir within the Stage Gulch Critical Groundwater Area.
- 3) OAR 690-507-0780 states in pertinent part that appropriation of groundwater from the Stage Gulch Critical Groundwater Area is prohibited unless the water user meets certain requirements. A water user authorized by OAR 690-507-0810 to pump water from the basalt groundwater reservoir shall satisfy the following conditions:
 - Wells shall have an access port with a minimum diameter of 3/4 inch. The access shall be adequate to determine the water level at any time;
 - A water user may install a functioning airline with a pressure gage in addition to the access port.
 - A water user shall install and maintain a totalizing flow meter on each well authorized by OAR 690-507-0810 except wells authorized for irrigation of ten acres or less. The meter shall meet the requirements of OAR 690-507-0785.
- 4) OAR 690-507-0810 states in pertinent part that the method for distributing the sustainable annual yield from the basalt groundwater reservoir within each managed subarea in the Stage Gulch Critical Groundwater Area is as follows:
 - A water user who intends to pump water for any authorized use except municipal use during any year shall make a request to the Department in Salem by July 1st of the preceding year on forms provided by the Department;
 - The Department shall assume that municipal water users intend to pump a quantity of water equivalent to the average pumped for the previous three (3) years, unless the municipal water user informs the Department otherwise by July 1st;
 - The distribution of groundwater for any authorized use except municipal use shall be based on the priority dates of the water rights within the individual subarea;
 - In determining the amount of groundwater each water user is allocated to pump during the next calendar year or irrigation season, the Department may consider:
 - ♦ Requests for allocations received;
 - ♦ The sustainable annual yield;
 - ♦ The limits of the groundwater rights;
 - ♦ The relative dates of priority, with preference given without regard to priority date for municipal use;

- ◆ Historical usage;
 - ◆ Whether or not a water user is physically capable of pumping and putting to a beneficial use the quantity requested; and
 - ◆ Any other factors deemed appropriate by the Department.
- If pumpage for a particular year exceeds the sustainable annual yield for a subarea, the total subarea allocation for the second year after that occurrence shall be reduced by that volume.
 - If any water user requests more water than has been historically used, the Department may allocate less water than requested if, upon investigation, it appears unlikely the user will pump the volume requested.
 - If any water user requests less water than has been historically used, the Department may allocate more water than requested if, upon investigation, it appears likely that the user will pump more than the volume requested.

FINDINGS OF FACT

- 1) David Ditchen is a senior water right holder in Subarea C.
- 2) Water Right Certificate 76130 is perfected under Permit G-10452, having a priority date of June 13, 1983, and authorizes irrigation of 78.5 acres.
- 3) The sustainable annual yield for Subarea C is 400 acre-feet.
- 4) In 2006, 400 acre-feet of water was allocated in Subarea C.
- 5) Flow meter and power meter data collected by Department staff indicate that 186 acre-feet of water was pumped from permitted wells in Subarea C in 2006.
- 6) The Subarea C allocation for 2008 is 400 acre-feet, the sustainable annual yield.
- 7) On May 31, 2007, the Department sent letters requesting water users within the Stage Gulch Critical Ground Water Area to submit their 2008 requests for the volume of water needed.
- 8) David Ditchen filed a request for water use in 2008, Stage Gulch Critical Ground Water Area, Subarea C, authorized under Water Right Certificate 76130.
- 9) David Ditchen requested 235.5 acre-feet for 2008 under Water Right Certificate 76130.
- 10) Flow meter and power meter records indicate that annual pumpage from the permitted well has varied. Less water was pumped in 2006 than in prior years. Therefore, the 2008 allocation is for 5 acre-feet.

11) The use of water is limited to the place of use described in attached Water Right Certificate 76130.

DISCUSSION

David Ditchen is a senior water right holder in Subarea C. The sustainable annual yield for Subarea C is 400 acre-feet. Flow meter and power meter records indicate that the permitted wells pumped 186 acre-feet of water in 2006. The allocation for David Ditchen does not exceed the limits of the water right or the sustainable annual yield for Subarea C. Therefore, the 2008 allocation is for 5 acre-feet. This is consistent with OAR 690-507-0810.

CONCLUSIONS OF LAW

The allocation of ground water for the State Gulch Critical Ground Water Area for the year 2008 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580, and Oregon Administrative Rules Chapter 690, Division 507.

ORDER

Now, THEREFORE, it is ORDERED that 5 acre-feet is allocated to David Ditchen for the year 2008 under Water Right Certificate 76130 for Subarea C of the Stage Gulch Critical Ground Water Area.

Dated at Salem, Oregon this 10TH day of August, 2007.

Jerry S. Rodgers, Administrator
Technical Services Division

STATE OF OREGON

COUNTY OF UMATILLA

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DAVID DITCHEN
7385 HOWELL PRAIRIE RD
SILVERTON, OREGON 97875

confirms the right to use the waters of FIVE WELLS in the UMATILLA RIVER BASIN, for PRIMARY IRRIGATION OF 1.8 ACRES AND SUPPLEMENTAL IRRIGATION OF 76.7 ACRES.

This right was perfected under Permit G-10452. The date of priority is JUNE 13, 1983. This right is limited to not more than 0.98 CUBIC FOOT PER SECOND; being 0.17 CFS from WELL 1 when available with any deficiency in the available supply from well 1 to be made up by appropriation from WELLS 2, 3, 4, AND 5; 0.17 CFS from WELL 3 to be made up by appropriation from WELLS 2, 4, AND 5; 0.38 CFS from WELL 2 when available with any deficiency in the available supply from well 2 to be made up by appropriation from WELLS 1, 3, 4, AND 5; AND 0.26 CFS FROM WELL 5 when available with any deficiency in the available supply from well 5 to be made up by appropriation from WELLS 1, 2, 3, AND 4, or its equivalent in case of rotation, measured at the well.

The wells are located as follows:

- WELL 1 - SW 1/4 NE 1/4, SECTION 24, T 4 N, R 29 E, W.M.;
1220 FEET NORTH AND 1940 FEET WEST FROM E 1/4 CORNER, SECTION 24.
- WELL 2 - NW 1/4 NW 1/4, SECTION 25, T 4 N, R 29 E, W.M.;
750 FEET SOUTH AND 1180 FEET EAST FROM NW CORNER, SECTION 25.
- WELL 3 - SW 1/4 SE 1/4, SECTION 24, T 4 N, R 29 E, W.M.;
160 FEET NORTH AND 2660 FEET EAST FROM SW CORNER SECTION 24.
- WELL 4 - NE 1/4 SE 1/4, SECTION 36, T 4 N, R 29 E, W.M.;
90 FEET SOUTH AND 1100 FEET WEST FROM E 1/4 CORNER, SECTION 36.
- WELL 5 - SE 1/4 NE 1/4, SECTION 25, T 4 N, R 29 E, W.M.;
470 FEET NORTH AND 70 FEET WEST FROM E 1/4 CORNER, SECTION 25.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3 acre-feet for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein for supplemental irrigation shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

	SUPPLEMENTAL WELL 1	PRIMARY
NE 1/4 SW 1/4	4.8 ACRES	
NW 1/4 SW 1/4	4.0 ACRES	1.8 ACRES
NW 1/4 SE 1/4	4.4 ACRES	
	SECTION 24	
	TOWNSHIP 4 NORTH, RANGE 29 EAST, W.M.	

SUPPLEMENTAL WELL 3
SE 1/4 SW 1/4 7.1 ACRES
SW 1/4 SE 1/4 7.3 ACRES
SECTION 24

SUPPLEMENTAL WELL 2
SW 1/4 NW 1/4 5.3 ACRES
SE 1/4 NW 1/4 1.1 ACRES
NE 1/4 SW 1/4 1.6 ACRES
NW 1/4 SW 1/4 22.0 ACRES
SECTION 25
NE 1/4 SE 1/4 0.6 ACRES
SECTION 36

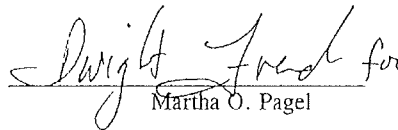

SUPPLEMENTAL WELL 5
SE 1/4 NE 1/4 5.9 ACRES
NE 1/4 SE 1/4 6.7 ACRES
NW 1/4 SE 1/4 5.9 ACRES
SECTION 25
TOWNSHIP 4 NORTH, RANGE 29 EAST, W.M.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a diminution to supplemental irrigation approved by an order of the Water Resources Director entered June 11, 1999, and supersedes Certificate 66824, State Record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed June 11, 1999.

Martha O. Pagel

Recorded in State Record of Water Right Certificates numbered 76130.
