17. Temporary Transfer Application T-12696 proposes to temporarily transfer water rights within the boundaries of Columbia Improvement District. The district was notified of the proposed temporary transfer and indicated that the district did not object to the transfer.

Temporary Transfer Review Criteria

18. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
19. Pumps, booster stations, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights are present.
20. The proposed changes would not result in enlargement of the rights.
21. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary changes in place of use proposed in Temporary Transfer Application T-12696 are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The temporary changes in place of use proposed in Temporary Transfer Application T-12696 are approved.
2. The former places of use **shall not** be irrigated as part of these water rights during the 2017 irrigation season.
3. The use shall revert to the authorized place of use at the end of the 2017 irrigation season.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
5. A subsequent application for permanent transfer of Certificates 68536, 61848, 61849, 83517, 86857, 86992 and 86993 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this

temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.

6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 68536, 61848, 61849, 83517, 86857, 86992 and 86993.
7. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at **each** (new and existing) points of appropriation.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
8. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
9. The use of the remaining water rights described under Certificates 68536, 61848, 61849, 83517, 86857, 86992 and 86993 shall continue to be in accordance with the terms and conditions of Certificates 68536, 61848, 61849, 83517, 86857, 86992 and 86993.
