May 15 to Sept. 15 described herein as Season 3

**Priority Date:** October 31, 1900 and December 2, 1907

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

- The lease application includes the information required under OAR 690-077-0077(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(6). No comments were received.

4. The instream use has been modified from the application to prevent injury and enlargement and is as follows:  
 Deschutes River  
 Tributary to the Columbia River in the Deschutes Basin

**Instream Reach:** From the Central Oregon Canal POD (as described in Finding of Fact #2) to Lake Billy Chinook

Certificate	Source	Priority Date	Instream Rate (cfs)	Period Protected Instream
76358 primary	Deschutes R	10/31/1900	Season 1: 0.049 CFS Season 2: 0.066 CFS Season 3: 0.086 CFS	April 1 – Oct. 26
		12/2/1907	Season 3: 0.035 CFS	
76714 supplemental	Crane Prairie Reservoir	2/28/1913	Up to 6.94 AF (Sufficient quantities may be protected instream to make up any deficiency of the primary right)	April 1 – Oct. 26

5. Other conditions to prevent injury and enlargement are:

The amount of water to be leased instream under certificate 76358 does not include a 45% transmission loss associated with this right when used for its originally authorized purpose. The transmission loss may not be leased and protected instream.

6. Certificate 76714 is supplemental to certificate 76358. The portion of certificate 76714 being leased instream shall only be protected instream if the full rate and duty under certificate 76358 are not available during the period for which water is being leased instream.
7. Based upon review of the application, comments received, information provided by the Department’s Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. This finding is made through an abbreviated review recognizing that the lease may be modified or revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.
8. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077-0070 or OAR 690-077-0075 a new injury review shall be required. Transfers will be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of future leases or transfers.
9. The lease will terminate on October 31, 2005.

**CONCLUSIONS OF LAW**

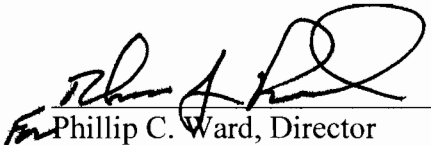

The Department concludes that the lease will not result in injury or enlargement, OAR 690-077-0077. The lease agreement conforms to the applicable provisions of OAR 690-077-0015.

## ORDER

Therefore, it is ORDERED:

1. That the Short-Term Lease as described herein is APPROVED.
2. The former place of use shall no longer receive water as part of these rights during the term of the lease.
3. The lease shall terminate on October 31, 2005.

Dated at Salem, Oregon this 22<sup>nd</sup> day of June 2005.
