3. Transfer application T-11020, which modified the portion of Certificate 85815 not modified by T-10008, was approved on May 21, 2010. Water right Certificate 85815 is cancelled.
4. The quantity of water diverted at the additional point of appropriation, together with the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.

5. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at the new point of appropriation.
 - b. The water user shall maintain the meter or measuring device in good working order.
 - c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device are located within a private structure, the Watermaster shall request access upon reasonable notice.
