\*NOTE: The water rights already existing on the above described proposed place of use are supplemental to the water rights identified above during the 2013 irrigation season. See Transfer Application T-11598.

7. Additional points of appropriation are necessary to convey the water to the proposed temporary place of use. Transfer Application T-11599 proposes to add three points of appropriation, which are an average of approximately 1.9 miles northeast from the authorized point of appropriation to:

Twp	Rng	Mer	Sec	Q - Q	Measured Distances
3 N	28 E	WM	23	SW SE	L & L WELL #1 - 960 FEET NORTH AND 30 FEET EAST FROM THE S¼ CORNER OF SECTION 23
3 N	28 E	WM	26	NW NE	L & L WELL #2 - 930 FEET SOUTH FROM THE N¼ CORNER OF SECTION 26
3 N	28 E	WM	23	NW NW	L & L WELL #3 - 60 FEET SOUTH AND 820 FEET EAST FROM THE NW CORNER OF SECTION 23

8. Notice of the application for temporary transfer was published May 28, 2013, pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
9. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
10. Wells, pumps, pipeline, and sprinkler systems sufficient to use the full amount of water allowed under the existing rights are present.
11. The Department has determined that the proposed additional points of appropriation will develop the same source of water as the authorized existing point of appropriation and are within the same subarea of the Stage Gulch Critical Ground Water Area.
12. The proposed changes would not result in enlargement of the rights.
13. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

### **Conclusions of Law**

The temporary changes in place of use and additional points of appropriation are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

### **Now, therefore, it is ORDERED:**

1. The proposed temporary changes to the water rights evidenced by Certificates 76263 and 79993 are approved.
2. The former places of use **shall not** be irrigated as part of these water rights during the 2013 irrigation season.
3. At the end of the 2013 irrigation season all use of water under this temporary transfer shall automatically revert to the authorized places of use. The authorization to use the additional points of appropriation shall be terminated concurrently.
4. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
5. A subsequent application for a permanent transfer of Certificates 76263 and 79993 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.

6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 76263 and 79993.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. The water user shall maintain and operate the existing measurement devices and shall make such improvements as may be required by the Department.
9. The use of the remaining water right described by Certificates 76263 and 79993 and shall continue to be in accordance with the terms and conditions of Certificates 76263 and 79993.

Dated at Salem, Oregon this 22 day of July, 2013.
