6. Water has been used within the last five years according to the terms and conditions of the rights and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
7. A diversion structure, district canals, ditches, pipeline, and sprinkler systems sufficient to use the full amount of water allowed under the existing right are present.
8. The district temporary transfer application satisfies the criteria of ORS 540.570 and OAR 690-385-4000, contains the information required under OAR 690-385-2000.
9. The water right is subject to transfer as defined in OAR 690-385-0100(17).
10. The proposed changes would not result in enlargement of the right.
11. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.570(6) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary changes in place of use proposed in Transfer Application T-11570 are consistent with the requirements of ORS 540.570 and OAR 690-385-3000.

Now, therefore, it is ORDERED:

1. The changes proposed in Transfer Application T-11570 are approved.

2. The temporary transfer is effective for the 2013 irrigation season.
3. The former places of use **shall not** be irrigated as part of these water rights during the 2013 irrigation season.
4. The use shall revert to the authorized place of use at the end of the 2013 irrigation season.
5. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water rights.
6. A subsequent application for permanent transfer of Certificate 80929 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
7. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 80929.
8. The use of the remaining water rights described by Certificate 80929 shall continue to be in accordance with the terms and condition of Certificate 80929.
9. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
10. The water user shall maintain and operate the existing measurement devices and shall make such improvements as may be required by the Department.
