**Applicable Law**

ORS 537.455 to 537.500 authorize and establish the process in which a water right holder may submit a request for an allocation of conserved water. OAR Chapter 690, Division 18, implements the statutes and provides the Department's procedures and criteria for evaluating conserved water applications and for implementing the use of the conserved water.

Pursuant to ORS 537.470(3), the Department determined the allocation of conserved water under Conserved Water Application CW-98. Any person or agency allocated conserved water under ORS 537.470 may reserve the water instream for future out-of-stream use or otherwise use or dispose of the conserved water. Any person or agency to whom conserved water is allocated shall notify the Commission of any change in the type of use, place of use, or point of diversion. The notice must be submitted 60 days before the actual the change.

The Director shall approve a change in the type of use, place of use, or point of diversion for conserved water, if: 1) the proposed new use is within the area described under OAR 690-018-0050(4)(h); 2) the proposed change would not constitute an expansion of the right; and c) the approval is consistent with OAR 690-005-0045 (Standards for Goal Compliance and Compatibility with Acknowledged Comprehensive Plans).
