

STATE OF OREGON

COUNTY OF KLAMATH

ORDER APPROVING A CHANGE IN POINT OF APPROPRIATION

Pursuant to ORS 537.705, after notice was given and no objections were filed, and finding that no injury to existing water rights would result, this order approves, as conditioned or limited herein, TRANSFER 6730 submitted by

TERRY AND DESSA LEA HAGER
P.O. BOX 85
BEATTY, OR 97621.

The right to be modified, as evidenced by a PORTION of Certificate 68757, was perfected under Permit G-10140 with a date of priority of APRIL 22, 1983. The right allows the use of A WELL, in the SPRAGUE RIVER BASIN, for IRRIGATION OF 54.23 ACRES. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.68 cubic foot per second, if available at the original well; NE¼ NE¼, SECTION 21, T 36 S, R 12 E, W.M.; 100 FEET SOUTH AND 30 FEET WEST FROM THE NE CORNER, SECTION 21, or its equivalent in case of rotation, measured at the well.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.848. Any petition for judicial review must be filed within the 60 day period specified by ORS 183.484(2).

Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

The amount of water used for irrigation, together with the amount secured under any other right existing on the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to any reasonable rotation system ordered by the proper state officer.

The authorized place of use is as follows:

NE $\frac{1}{4}$ SE $\frac{1}{4}$	14.23 ACRES
SE $\frac{1}{4}$ SE $\frac{1}{4}$	40.00 ACRES

SECTION 21
TOWNSHIP 36 SOUTH, RANGE 12 EAST, W.M.

This use may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of this right or as those quantities may be reduced.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

The applicant proposes to change the point of appropriation to:

NE $\frac{1}{4}$ NE $\frac{1}{4}$, SECTION 28, T 36 S, R 12 E, W.M.; 777 FEET SOUTH AND 10 FEET WEST FROM THE NE CORNER OF SECTION 28.

THIS CHANGE TO AN EXISTING WATER RIGHT MAY BE MADE PROVIDED THE FOLLOWING CONDITIONS ARE MET BY THE WATER USER:

1. The proposed change shall be completed on or before October 1, 2001.

2. The quantity of water diverted at the new point of appropriation (well), together with the quantity diverted at the old point of appropriation, shall not exceed the quantity of water lawfully available from the original point of appropriation.
3. When required by the Department the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
4. Water shall be acquired from the same aquifer as the original point of appropriation.

Certificate 68757 is canceled. A new certificate will be issued to confirm that portion of the right NOT involved in this transfer. When satisfactory proof of the completed change is received, a new certificate confirming this water right will be issued.

WITNESS the signature of the Water Resources Director,

affixed DEC 15 1999.

For Martha O. Pagel, Director
