Findings of Fact

1. The Water Resources Department issued an order approving Transfer Application T-8963 in the name of James A. Armstrong, on September 8, 2004. The order was recorded in Special Order Volume 61, at Pages 424-426. The order set a transfer completion date of October 1, 2005.
2. On January 20, 2009, the Department received an application for extension of time for transfer of water right T-8963 from Jim (James) Armstrong.
3. The applicant had completed the development of the plans and the budget for the project. The application for the grants had been submitted and approved and the applicant was waiting for the process of the grant funding to be issued. The applicant requested that the time for completion of beneficial use be extended to October 1, 2010.

8. The applicant has completed installation of mainline risers, pump, foot valve and the electrical panel, but the delay in obtaining funding, awarding and completion of contract work prevented him from finishing the irrigation system and putting the water to beneficial use by the deadline.
9. To fully complete the change, it will be necessary for the applicant to install wheel lines, plant a crop and put the water to beneficial use, and also submit a time-limited transfer to instream use for fisheries enhancement, along with the Claim of Beneficial Use.
10. The applicant has requested that the time for completion of beneficial use be extended to October 1, 2013.
