RE: Approval of District Temporary Transfer File T-8142 (L & L Farms)

Pursuant to ORS 540.570, Westland Irrigation District filed a request to move the place of use of certain water rights within the District for the 1999 irrigation season. The changes requested are enumerated on the attached sheet. Notice of the request was published in summary form by the Water Resources Department on January 5, 1999. Public comments were accepted for 30 days following publication. No comments were received.

The District submitted a letter dated February 19, 1999 requesting that the petition for temporary transfer be placed on hold due to assessment of potential damage to lands from a recent wind storm. The District submitted an amended petition for temporary transfer dated February 24, 1999.

Pursuant to ORS 540.570 (3) and OAR 690-21-060 (2) staff has reviewed the amended request for changes. This review finds that the proposed changes do not injure existing rights or result in enlargement of the subject rights. Therefore, the amended request as enumerated on the attached sheet and as conditioned below, is approved for the 1999 irrigation season.

1. The notice was received December 28, 1998. Pursuant to 540.570 (2) water will not be used on the subject lands until 60 days after the district's notice was received or the start of the irrigation season, whichever is later. However, because of the request to place the district's notice on hold, water will not be used on the subject lands until the issuance of the final order.
2. The "FROM" lands will receive no water under the rights involved with T-8142 for the 1999 irrigation season.

3. The "FROM" lands will receive no water under any other rights appurtenant to these lands for the 1999 irrigation season, unless water rights are transferred to the "FROM" lands. In no case shall a temporary transfer allow the enlargement of the water right.
4. There is an existing water right evidenced by Certificate 75119 on portions of the land to which this application requests to move water. The water user shall not use water under the existing water right evidenced by Certificate 75119 on this land during the 1999 irrigation season.
5. All restrictions and limitations contained in the decree or permit of the subject rights will apply to the "TO" lands. Water use from the wells shall not exceed the limits imposed by the Butter Creek and Stage Gulch Critical Groundwater Areas.
6. Pursuant to 540.570 (6), the Department may further condition or revoke a temporary transfer at any time to the extent necessary to avoid injury if the department finds the transfer is causing injury to an existing water right.
7. Pursuant to 540.570 (7), upon expiration of the temporary transfer period, all uses of water for which a temporary transfer is allowed under this section shall revert automatically to the terms and conditions of the original water right permit, certificate or an adjudication proceeding under ORS chapter 539 as evidenced by a court decree.

Copies of the approved request and associated maps are on file at the Department's North Central Region office in Pendleton.

Sincerely,

Bernadette Williams
