Findings of Fact

Background

1. On April 12, 2012, CARLTON NURSERY CO. LLC filed an application to change the place of use under Certificates 79467 and 79468. The Department assigned the application number T-11399.
2. Notice of the application for transfer was published on April 17, 2012, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On December 17, 2012, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11399 to the applicant. The draft Preliminary Determination cover letter noted some deficiencies in the maps that would need to be corrected before a Final Order could be issued. The cover letter set forth a deadline of January 17, 2013, for the applicant to respond. The applicant's agent clarified that a re-description of the right was being requested, and submitted revisions to the application and maps, as well as providing the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. Revised application pages and maps were submitted on January 2, March 6 and April 1, 2013.
5. On April 11, 2013, the Department sent a copy of a revised draft Preliminary Determination proposing to approve Transfer Application T-11399 to the applicant. The revised draft Preliminary Determination cover letter also requested a replacement map (1 of 3). The applicant's agent requested that the Department proceed with issuance of a Preliminary Determination.
6. On June 7, 2013, the Department issued a Preliminary Determination proposing to approve Transfer Application T-11399 and sent a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on June 18, 2013, pursuant to ORS 540.520 and OAR 690-380-4020. Transfer Review Criteria [OAR 690-380-4010(2)]

15. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
16. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-11399.
17. The proposed change would not result in enlargement of the rights.
18. The proposed change would not result in injury to other water rights.

Conclusions of Law

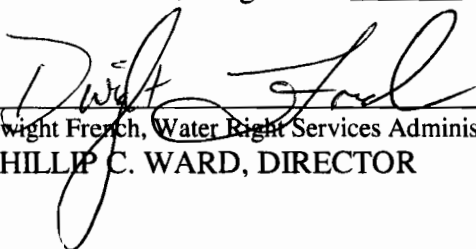

The change in place of use proposed in Transfer Application T-11399 is consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in place of use proposed in application T-11399 approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 79467 and 79468 and any related decree.
3. Water right certificates 79467 and 97468 are cancelled. New certificates will be issued describing portions of the rights not affected by this transfer.

4. The former place of use of the transferred rights shall no longer receive water under the rights.
5. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2014**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
6. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.
