Transfer Review Criteria (OAR 690-380-4010)

18. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
19. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12215.
20. The proposed changes, as conditioned, would not result in enlargement of the right.
21. The proposed changes would not result in injury to other water rights.
22. All other application requirements are met.
