ORDER APPROVING
TRANSFER NO. 4560

On July 31, 1980, an application was filed in the office of the Water Resources Director by Donald R. and JoAnne M. Hewitt for approval of changes in place of use and point of diversion of water from Mays Creek, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 46270, Volume 38, State Record of Water Right Certificates, in the name of David S. Blair, describes a right which includes the use of not to exceed 0.08 cubic foot per second from Mays Creek for irrigation of a certain 6.5 acres in SE 1/4 SW 1/4, Section 32, Township 34 South, Range 3 West, W.M., with a date of priority of March 6, 1947.

Water for the said right is diverted, through the Mays Creek Ditch, from a point located 35 feet North and 1675 feet East from West Quarter Corner, Section 32, being within SE 1/4 NW 1/4, Section 32, Township 34 South, Range 3 West, W.M.

The applicants herein, owners of the lands above described, propose to sever the rights therefrom and, without loss of priority, to irrigate in lieu thereof a certain 3.2 acres in SE 1/4 SW 1/4, Section 32, Township 34 South, Range 3 West, W.M., from a point of diversion located 820 feet North and 140 feet West from South Quarter Corner of said Section 32, being within the SE 1/4 SW 1/4 of said Section 32; and 1.3 acres in SE 1/4 SW 1/4 of said Section 32 and 2.0 acres in NE 1/4 NW 1/4, Section 5, Township 35 South, Range 3 West, W.M., from a point of diversion located 370 feet South and 320 feet West from North Quarter Corner of Section 5, being within the NE 1/4 NW 1/4, Section 5, Township 35 South, Range 3 West, W.M.

Notice of the application, pursuant to ORS 540.520(2), was published in the Mail Tribune, a newspaper printed and having general circulation in Jackson County, Oregon, for a period of three weeks in the issues of August 14, 21 and 28, 1980.

Mr. David C. Hendrix, Watermaster, has filed a statement to the effect that the proposed changes in place of use and point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed changes in place of use and point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested changes in place of use and point of diversion, as described herein, without loss of priority, are approved.

It is FURTHER ORDERED that the quantity of water diverted at the new points of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made on or before October 1, 1982.

It is FURTHER ORDERED that said water so transferred shall be applied to beneficial use on or before October 1, 1982.

It is FURTHER ORDERED that the certificate recorded at page 46270, Volume 38, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicants herein.

Dated at Salem, Oregon this 15th day of October, 1980.
