3. The lease application includes the information required under OAR 690-077-0076(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(1). No comments were received in response to that notice.

4. The instream use is as follows:

MARYS RIVER, tributary to the WILLAMETTE RIVER

Instream Reach: From the POD, as described in Finding of Fact #2, to the mouth of Mary’s River

Certificate	Priority Date	Instream Rate	Period Protected Instream
37067	June 16, 1964	0.50 CFS	January 1 through December 31

5. Other conditions to prevent injury and enlargement are:

The instream right created herein shall be treated as junior to the Applicant’s other water rights.

6. If approved, this instream lease is not reasonably expected to significantly affect land use as prescribed by ORS 197.180, OAR Chapter 660, Divisions 30 and 31, and OAR Chapter 690, Division 5.

7. Based upon review of the application, comments received, information provided by the Department’s Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. This finding is made through an abbreviated review recognizing that the lease may be modified or revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.

8. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077-0070 or OAR 690-077-0075 a new injury review shall be required. Transfers will be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of future leases or transfers.

9. The Lessor has requested that the lease commence on January 1, 2012 and terminate on December 31, 2017. However, OAR Chapter 690, Division 77, limits the term of a lease to five years. Therefore, this lease will terminate December 31, 2016.

CONCLUSIONS OF LAW

The Department concludes that the lease will not result in injury or enlargement pursuant to OAR 690-077-0077. The lease conforms to the applicable provisions of OAR 690-077-0015.

ORDER

Therefore, it is ORDERED:

1. That the Lease as described herein is APPROVED.
2. The former place of use will no longer receive water as part of these rights, any supplemental rights, or any other layered water rights for irrigation use, including ground water registrations during the term of the lease.
3. The lessor *shall* have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use (December 1) or after the period of allowed use has begun for the water right(s) being leased, water shall not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur.
4. The lease will commence on January 1, 2012 and terminate on December 31, 2016.

Dated at Salem, Oregon this 19 day of August 2011.
