On July 15, 1985, affidavits were filed in the office of the Water Resources Director by William C. and Wanda Cox for approval of a change from primary to supplemental use of a portion of a water right from a well and cancellation of the balance of said water right.

The certificate recorded at page 38859, Volume 30, State Record of Water Right Certificates, in the name of William C. Cox, describes a right which includes the use of not to exceed 0.12 cubic foot per second from a well for primary irrigation of 15.2 acres in SW 1/4 NE 1/4, Section 31, Township 4 North, Range 28 East, WM, with a date of priority of February 15, 1968.

Water for the said right is diverted from a point located 740 feet North and 940 feet East from the Center of Section 31, being within the SW 1/4 NE 1/4 of Section 31, Township 4 North, Range 28 East, WM.

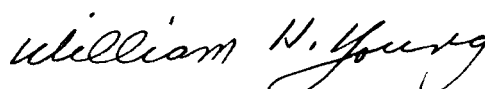

The affiants herein, owners of the lands above described, propose to change the right from primary irrigation of 12.8 acres to supplemental irrigation of 12.8 acres on the same lands, and to cancel the balance of 2.4 acres of primary irrigation right.

No objections having been filed and it appearing that the proposed diminution of water right may be made without injury to existing rights, the petition should be approved.

NOW, THEREFORE, it hereby is ORDERED that the proposed change from primary irrigation to supplemental irrigation is approved, without loss of priority, and the right for irrigation of 2.4 acres is cancelled.

It is FURTHER ORDERED that the certificate recorded at page 38859, Volume 30, State Record of Water Right Certificates, is canceled; and a certificate of water right be issued to the applicant herein designating said water right as supplemental on the aforesaid lands, and including the balance of said right for supplemental irrigation of 23.6 acres.

Dated at Salem, Oregon, this 5th day of August, 1985.
