Authority

OAR Chapter 690, Division 086, establishes the process and criteria for approving water management and conservation plans required under the conditions of permits, permit extensions and other orders of the Department.

Findings of Fact

1. The Knappa Water Association submitted a Water Management and Conservation Plan (plan) to the Water Resources Department (Department) on June 12, 2013. The required statutory fee for review of the plan was received by the Department on June 12, 2013. The plan was required by a condition set forth in the final order issued on August 3, 2010, approving an extension of time for Permit G-11676 and G-13427.
2. The Department published notice of receipt of the plan on June 18, 2013, as required under OAR Chapter 690, Division 086. No comments were received.
3. The Department provided written comments on the plan to Knappa Water Association August 30, 2013. In response, Knappa Water Association submitted a revised plan on February 28, 2022, and the final revised plan on July 12, 2022.
4. The Department reviewed the revised plan and finds that the revised plan is consistent with the relevant requirements under OAR Chapter 690, Division 086.
