

Marion County

IN THE MATTER OF THE APPLICATION
OF HERMAN M. GOSCHIE FOR THE
APPROVAL OF A CHANGE IN POINT OF
APPROPRIATION OF GROUND WATER

On November 23, 1976, Herman M. Goschie filed an application in the office of the Water Resources Director for the approval of a change in point of appropriation of ground water from a certain aquifer pursuant to the provisions of ORS 537.705.

Certificate of water right recorded at Page 31796, Volume 23, State Record of Water Right Certificates, in the name of Carl H. Goschie describes an existing right of record for the use of not to exceed 0.49 cubic foot per second from a well for irrigation of a certain 5.8 acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$ and 33.3 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 6, Township 6 South, Range 1 East, W.M., with a date of priority of January 8, 1959.

Water for the said right is diverted from a well located 7 chains North and 0.5 chains West from the South quarter-corner of Section 6, being within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 6, Township 6 South, Range 1 East, W.M.

The applicant herein, trustee for Wanda Goschie, owner of the lands above described, proposes to change, without loss of priority, the point of appropriation of water from the certain aquifer to a point located 60 feet North and 2,000 feet East from the Southwest corner of Section 6, being within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 6, Township 6 South, Range 1 East, W.M.

Mr. Keith Palmer, Watermaster of District No. 16, has filed a statement to the effect that the proposed change in point of appropriation may be made without injury to existing rights.

No objection having been filed and it appearing that the proposed change in point of appropriation may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of appropriation described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of appropriation shall not exceed the quantity of water available at the old point of diversion, and shall not exceed 0.49 cubic foot per second.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgement of the watermaster it becomes necessary to install head-gates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of appropriation of water made on or before October 1, 1977.

It is FURTHER ORDERED that the certificate of water right heretofore issued to Carl H. Goschie and recorded at Page 31796, Volume 23, State Record of Water Right Certificates, is canceled, and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to Herman M. Goschie, Trustee.

Dated at Salem, Oregon, this 21st day of January, 1977.

JAMES E. SEXSON
Director
