

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Instream Lease Application) DETERMINATION and FINAL ORDER ON
IL-1824, Jackson County) PROPOSED INSTREAM LEASE

Authority

Oregon Revised Statute (ORS) 537.348 establishes the process in which a water right holder may submit a request to lease an existing water right for instream purposes. Oregon Administrative Rule (OAR) Chapter 690, Division 077 implements the statutes and provides the Department's procedures and criteria for evaluating instream lease applications.

Lessor

Rogue River Valley Irrigation District
3139 Merriman Road
Medford, OR. 97501
rroid@rroid.org

Findings of Fact

1. On June 23, 2020, Rogue River Irrigation District filed an application to lease a portion of Certificates 85288, 85876, 85877, 80575, 80576, 80577, 83729, and Surface Water Permit S-4951 for instream use. The Department assigned the application number IL-1824.
2. Interest in a portion of the water right to be leased instream has been conveyed from the original landowners. The lease application identifies RRVID as the interest holder in the portions of the water rights to be leased. Individual agreements, along with supporting documentation, identify that interest in a portion of the right to be leased is held by the RRVID. For the purpose of this instream lease, the Department has determined that the RRVID is an interest holder in the right and is authorized to lease the pertinent portions of the water rights instream.

3. The portion of the first right to be leased is as follows:

Certificate:	85288 in the name of the Rogue River Valley Irrigation District (perfected under Permit E-19)
Use:	Primary Irrigation of 343.03 and Supplemental Irrigation of 10.6 Acres
Priority Date:	July 23, 1909
Quantity:	Rate: 4.22 Cubic Foot per Second (CFS) for Primary Irrigation and 0.07 for Supplemental Irrigation

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Volume: 1029.09 Acre-Feet (AF) for Primary Irrigation and 31.80 AF for Supplemental Irrigation

Limit: One-hundredth CFS per acre

4. Certificate 85288 does not specify a duty limit per acre. However, based on information provided by the applicant, an appropriate duty limit per acre, for purposes of this instream lease, is 3.0 acre-feet per acre considering the quantity of water that could be used beneficially and without waste. This is reflected in the volume specified in Finding of Fact No. 3.
5. Certificate 85288 is a deficient water right. If water were diverted simultaneously to all authorized lands described in the right at the maximum rate and duty allowed at the maximum rate and seasonal volume for the water right would be exceeded. In the event water were diverted simultaneously to all authorized lands described in the right at the maximum rate and duty allowed, the portion of the right involved in this instream lease would be limited as described in the table below, these are also the quantities by which the diversion under Certificate 85288 shall be reduced, if this instream lease is approved.

Instream Rate	Instream Volume
4.29 CFS	1060.89 AF

6. The portion of the second right to be leased is as follows:

Certificate: 85286 in the name of the Rogue River Valley Irrigation District (confirmed by Decree at Volume 14, Page 498)

Use: Primary Irrigation of 9.6 Acres

Priority Date: September 14, 1899

Quantity: **Rate:** 0.18 Cubic Foot per Second (CFS)
Volume: 43.20 Acre-Feet (AF)

Season of Use: April 1 to October 1

Source: North and South Forks of Little Butte Creek, tributaries to Little Butte Creek

Authorized Points of Diversion (POD):

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
36 S	2 E	WM	20	SE NE	NORTH FORK LITTLE BUTTE CREEK: 40 FEET NORTH AND 620 FEET WEST FROM THE E1/4 CORNER OF SECTION 20
36 S	2 E	WM	29	NE SE	SOUTH FORK LITTLE BUTTE CREEK: 780 FEET SOUTH AND 400 FEET WEST FROM THE E1/4 CORNER OF SECTION 29

Authorized Place of Use:

37 S	1 W	WM	6	NW SW	9.6	2500

7. The portion of the third right to be leased is as follows:

Certificate: 85876 in the name of Rogue River Valley Irrigation District (constructed under Permit R-50; perfected under Permit S-407)

Use: Supplemental Irrigation of 353.63

Priority Date: MARCH 31, 1910

Quantity: **Rate:** 4.35 Cubic Foot per Second (CFS)

Volume: 1060.89 Acre-Feet (AF)

Limit: The amount of water used for irrigation is limited to a diversion of one-eightieth of one cubic foot per second per acre (or its equivalent) for each acre irrigated during the irrigation season of each year.

Source: Four Mile Lake Reservoir, Cascade Canal, and Fish Lake Reservoir tributary the Rogue River

9. The portion of the fifth right to be leased is as follows:

Certificate: 80575 in the name of the Rogue River Valley Irrigation District (perfected under Permit S-1706)

Use: Supplemental Irrigation of 82.39 Acres

Priority Date: June 24, 1913

Quantity: **Rate:** 1.01 Cubic Foot per Second (CFS)

Volume: 247.17 Acre-Feet (AF)

Limit: The amount of water used for irrigation, together with the amount secured under any other prior right existing for the same lands, is limited to a diversion of one-eightieth of one cubic foot per second (or its equivalent) for each acre irrigated during the irrigation season of each year

Source: Bear Creek, tributary to the Rogue River

15. Certificates 85288, 80575, 80576, 80577, 85876, 85877, 83729, and permit S-4951 do not specify the irrigation season; nor is an irrigation season specified by Basin Program or Decree. For the purposes of instream leasing, an irrigation season of March 1 through October 31, consistent with OAR 690-250 shall be used to establish when water may be protected instream.
16. There are supplemental irrigation water rights, appurtenant to all or a portion of the lands described in the above Findings. The Lessors have requested that the Supplemental water rights be included as part of this lease application. The supplemental right will be protected instream in the amounts to which the rights would be available to make up a deficiency.

17. The lease application includes the information required under OAR 690-077-0076(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(1). No comments were received.

18. The instream use is as follows:

Instream Points: At the points of diversion as described in Finding of Fact No's 3, 6, 7, 8, 9, 10, 11, 12, 13, and 14.

Certificate		Priority Date	Instream Rate (CFS)	Instream Volume (AF)	Period Protected Instream

	80576	9/6/1915	6.523	1591.34	
	80577	5/10/1916	0.51	124.53	
	83729	9/6/1915	1.52	370.76	
	S-4951	5/9/1910	0.01	3.25	
Totals:			22.763	5567.42	

19. For the term of the lease, the Supplemental Irrigation rights as described will be protected instream when the Primary Irrigation rights are not available at the rates as described in the above table.

20. Other conditions to prevent injury and enlargement are:

- A. Water protected instream Water shall be measured at the Bear Creek Gage, BCMO 143588000.
 - a. RRVID shall divert water at the PODs described in the findings above. Water shall be diverted and transported to Bear Creek in the Joint System Canal and the East Main Canal and then released from the canal through the control structure used to deliver water into Bear Creek for District patrons diverting from Bear Creek.
- B. RRVID shall maintain a minimum flow through the control structure used to deliver water into Bear Creek by keeping the bottom of the diversion board open, notching the diversion board or other method of passing water that is acceptable to the Watermaster, thereby allowing the leased water to return to Bear Creek at a constant rate.
- C. The portion of water protected instream under this lease shall be based on the same percentage of diversion and delivery rate that RRVID is diverting to rights of the same priority within the district. When RRVID is diverting water on a percentage basis, RRVID shall report to the District 13 Watermaster's office the percentage diverted under the July 23, 1909, and March 31, 1910 priority dates. This information only needs to be reported to the Watermaster's office once

RRVID is diverting water on a percentage basis (less than 1/100th cfs/acre). Subsequent reports need to be made to the Watermaster's office within one day of when changes are made to the percentage of water being diverted. Once RRVID begins diverting water on a percentage basis, the amount of water leased instream shall be adjusted by that same percentage. In the event that RRVID stops delivery of irrigation water prior to October 1, the Watermaster shall be notified and the delivery for instream use shall stop.

- D. The lessor shall make daily measurements of use during the existing use period. The measuring device shall be an inline flow totalizer that is place in the first length of mainline pipe near the pump, or another device acceptable to the Director. The daily measurements shall be submitted on a monthly basis to the Jackson County Watermaster.
21. The amount and timing of the proposed instream flow is allowable within the limits and use of the original water rights.
22. The protection of flows within the proposed reach is appropriate, considering:
- a. The instream water use begins at the recorded point of diversion;
 - b. The location of confluences with other streams downstream of the point of diversion.
 - c. There are no known areas of natural loss of streamflow to the river bed downstream from the point of diversion; and
 - d. Any return flows resulting from the exercise of the existing water right would re-enter the river downstream of the reach of the instream water right.
23. The total monthly quantities of water to be protected under the existing and proposed instream rights in the reach will provide for a beneficial purpose.
24. The total monthly quantities of water to be protected instream under existing and proposed instream rights in the reach do not exceed the estimated average natural flow.
25. If approved, this instream lease is not reasonably expected to affect land use significantly as prescribed by ORS 197.180, OAR Chapter 660, Divisions 30 and 31, and OAR Chapter 690, Division 5.
26. Based upon review of the application, information provided by the Department's Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. The order approving this instream lease may be modified or revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.
27. If a right which has been leased is later proposed to be leased again, transferred, and/or reviewed under an allocation of conserved water, a new injury review shall be required. For example, instream transfers will be subject to a full and complete review to

determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of any future transactions.

28. The Lessor had requested that the lease terminate on October 1, 2020.

Conclusions of Law

The Department concludes that the lease will not result in injury or enlargement, OAR 690-077-0077. The lease conforms to the applicable provisions of OAR 690-077-0015.

Now, therefore it is ORDERED:

1. The Lease as described herein is APPROVED.
2. During the of the term of the lease, the former place of use will no longer receive water as part of these rights, any supplemental rights, or any other layered irrigation water rights, including ground water registrations and permits.
3. The term of the lease commenced on June 1, 2020 and terminated on October 1, 2020.

Dated at Salem, Oregon this day JUL 30 2021.

Lisa Jaramillo, Transfer and Conservation Manager, for
Thomas M. Byler, Director, Oregon Water Resources Department
