

(790.6 acres) formerly under Certificate 76106 now assigned to Certificate 74146, as modified by any transfers, including T-12548, completed pursuant to ORS 540.580.

- c. Also consistent with these orders, Certificate 76106 was cancelled with the issuance of confirming water right Certificate 81332 for the use of the waters of Tumalo Creek for instream use with priority date December 8, 1961, and the issuance of diminishment remaining right Certificate 88894 for use of the water of Upper Tumalo Reservoir for supplemental uses. Certificate 81332 was issued to the State of Oregon in exchange for TID receiving the State of Oregon's portion of conserved water under Certificate 74148.
- d. Thus, consistent with these orders, the entirety of the conserved water under Certificate 74148 (3,746 ac-ft) became the applicant's portion for supplemental irrigation under the same Certificate 74148. The conserved portion of water was assigned to serve the place of use (790.6 acres) described under Certificate 76106 for supplemental irrigation with the April 7, 1911 priority date.
- e. When the Department determines it is necessary for record keeping, it will issue a single superseding certificate for Certificate 74148 for supplemental irrigation. The superseding certificate will include both the place of use originally under Certificate 74148, and the place of use for the 790.6 acres as had been described in Certificate 76106, as modified by any transfers, including T-12548, completed pursuant to ORS 540.580.

Findings of Fact

2. On December 29, 2016, TUMALO Irrigation District (TID) filed a district transfer application to permanently change the place of use under Certificates 74146, 74147, 74148, 74149, and 76520. The Department assigned the application number T-12548.
3. Notice of the District Permanent Transfer Application was published on December 27, 2016, and a correcting notice to include supplemental water rights was published on February 7, 2017, pursuant to ORS 540.580 and OAR 690-385-4400. No comments were filed in response to the notices.
4. On February 1, 2017, TID modified the application to include supplemental water right certificates, and on February 16, 2017 TID submitted superseding correcting maps.
5. The portion of the first right to be transferred is as follows:
 - Certificate:** 74146 in the name of TUMALO IRRIGATION DISTRICT (confirmed by decree of the Circuit Court of the State of Oregon for Deschutes County)
 - Use:** IRRIGATION of 21.80 acres
 - Priority Dates:** AUGUST 5, 1990, SEPTEMBER 1, 1900 and MAY 27, 1907
 - Rate & Duty:** The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-SEVENTIETH of one cubic foot per second (or its equivalent) and 1.8 acre-feet, measure at or within one-half mile of the land to be irrigated, for each acre irrigated during the irrigation season of each year.

3. The former places of use shall no longer be irrigated as part of these water rights.
4. The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.
5. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2018**. A Claim of Beneficial Use shall be submitted by TID to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
6. Water right certificates 74146, 74147, 74148, 74149, and 76520 are modified. The Department will issue superseding certificates describing the rights when it determines it is necessary for record keeping.
