

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Instream Lease Application) DETERMINATION and
IL-1195, Certificate 79515) FINAL ORDER ON PROPOSED
Douglas County) INSTREAM LEASE

Authority

ORS 537.348 establishes the process in which a water right holder may submit a request to lease an existing water right for instream purposes. OAR Chapter 690, Division 077 implements the statutes and provides the Department's procedures and criteria for evaluating instream lease applications.

Lessor

Wayne and Donna Spicer
345 Stratford Lane
Roseburg, OR 97471

Findings of Fact

1. On January 5, 2012 Wayne and Donna Spicer filed an application to renew instream lease L-201, involving a portion of Certificate 79515 for instream use. The Department designated the application number IL-1195.

2. The portion of the first right to be leased is as follows:

Certificate: 79515 in the name of JOE G. MACHADO JR (perfected under Permit S-46773)
Use: Irrigation of 2.25 acres
Priority Date: March 22, 1982
Quantity: **Rate:** 0.028 Cubic Foot per Second (CFS)
Volume: 5.62 Acre-Feet (AF)
Limit: One-eightieth CFS per acre, not to exceed 2.5 AF per acre per year
Source: North Umpqua River a tributary of the Umpqua River

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
26 S	6 W	WM	22	SE SE	120 FEET NORTH AND 450 FEET WEST FROM THE SE CORNER OF SECTION 22

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Authorized Place of Use:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
26 S	6 W	WM	23	SE SW	47	2.25

3. Certificate 79515 does not specify the irrigation season. OAR 690-250-0070 established a 245-day default irrigation season between March 1 and October 31. However, to provide the greatest benefit to the aquatic environment, and to avoid enlargement, the Applicants requested water be protected instream from July 23 to October 31.
4. The lease application includes the information required under OAR 690-077-0076(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(1). No comments were received in response to that notice.
5. The instream use is as follows:

North Umpqua River a tributary of the Umpqua River

Instream Reach: From the POD described in Finding of Fact #4, to the mouth of the North Umpqua River

Certificate	Priority Date	Instream Rate	Instream Volume	Period Protected Instream
79515	March 22, 1982	0.028 CFS	5.62 AF	July 23 to October 31

6. Other conditions to prevent injury and enlargement are:
 Within the specified stream reach, the amount of water to which this right is entitled shall not exceed the quantity of water legally available at the original point of diversion. Stream channel losses and gains calculated based on available data and the use of water by senior appropriators will determine the amount of water to which this right is entitled downstream from the original points of diversion within the specified stream reach.
7. If approved, this instream lease is not reasonably expected to significantly affect land use as prescribed by ORS 197.180, OAR Chapter 660, Divisions 30 and 31, and OAR Chapter 690, Division 5.
8. Based upon review of the application, comments received, information provided by the Department's Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. This finding is made through an abbreviated review recognizing that the lease may be modified or revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.
9. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077-0070 or OAR 690-077-0075 a new injury review shall be required. Transfers will be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of future leases or transfers.

10. The Lessor requested that the lease terminate on October 31, 2016.
11. The Lessor requested the option of terminating the lease early with written notice to the Department.

CONCLUSIONS OF LAW

The Department concludes that the lease will not result in injury or enlargement, OAR 690-077-0077. The lease conforms to the applicable provisions of OAR 690-077-0015.

ORDER

Therefore, it is ORDERED:

1. That the Lease as described herein is APPROVED.
2. The former place of use will no longer receive water as part of these rights, any supplemental rights, or any other layered water rights for irrigation use, including ground water registrations during the term of the lease.
3. The lease will terminate on October 31, 2016. The lessor *shall* have the option of terminating the lease by submitting a written request to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use (June 23) or after the period of allowed use has begun for the water right(s) being leased, water shall not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur.

Dated at Salem, Oregon this 8th day of August, 2012.

Dwight French, Water Right Services Administrator, for
Phillip C. Ward, Director

AUG 09 2012
