7. An additional point of diversion is necessary to convey the water to the proposed temporary place of use. Temporary Transfer Application T-13520 proposes to move the authorized point of diversion approximately 1253.0 feet north to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
8 S	5 W	WM	31	NW SW	2230 FEET NORTH AND 80 FEET EAST FROM SW CORNER OF SECTION 31

**Temporary Transfer Review Criteria**

8. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
9. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights are present.
10. The proposed changes would not result in enlargement of the rights.
11. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

**Conclusions of Law**

The temporary changes in place of use and additional point of diversion to convey water to the temporary place of use proposed in Temporary Transfer Application T-13520 are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

**Now, therefore, it is ORDERED:**

1. The temporary change in place of use and additional point of diversion to convey water to the temporary place of use proposed in Temporary Transfer Application T-13520 are approved.
2. The former place of use **shall not** be irrigated as part of these water rights during the 2020, 2021, 2022, 2023 and 2024 irrigation seasons.
3. The use shall revert to the authorized place of use at the end of the 2024 irrigation season. The authorization to use the additional point of diversion shall be terminated concurrently.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
5. A subsequent application for permanent transfer of Certificates 39185 and 47648 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.

6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 39185 and 47648.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. The use of the remaining water rights described by Certificate 39185 and 47648 shall continue to be in accordance with the terms and conditions of Certificates 39185 and 47648.
