

BEFORE THE STATE ENGINEER OF OREGON

Marion County

IN THE MATTER OF THE APPLICATION)
OF THE SANTIAM WATER CONTROL DIS-)
TRICT FOR AN EXTENSION OF TIME IN)
WHICH TO COMPLETE ITS INCHOATE)
WATER RIGHTS)

O R D E R
EXTENDING TIME

The Santiam Water Control District, successor in interest to the Willamette Valley Water Company and owner of the inchoate water right allowed under proof No. 145 (Fatjo Right) by decree of the court in the North Santiam River adjudication proceedings and owner of water right permits issued by the State Engineer and designated as permits Nos. E-81 and 1401, has filed with the State Engineer an application for a further extension of time in which to complete construction and make complete application of water under said water rights.

It appears that the time fixed for completion of said rights, heretofore extended by order of the State Engineer, expired on October 1, 1968.

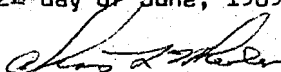

The State Engineer is authorized under the provisions of ORS 537.230 and 539.015 (5) to grant extensions of time, for good cause shown, within which to complete work or perfect a right under a water right permit or to complete an inchoate right allowed by court decree in an adjudication proceeding.

It appears from the application and supporting data that such reasonable diligence has been shown as entitles the Santiam Water Control District to a further extension of time.

No protest or objection has been filed against the State Engineer's approval of the application for further time.

NOW, THEREFORE, it hereby is ORDERED that the time within which to complete construction work and make complete application of water to beneficial use under the water rights allowed by the State Engineer's permits Nos. E-81 and 1401 and to complete the inchoate water right allowed under proof No. 145 (Fatjo Right) in the North Santiam River adjudication are extended to October 1, 1969.

Dated at Salem, Oregon, this 12th day of June, 1969.

CHRIS L. WHEELER
State Engineer
