Temporary Transfer Review Criteria

9. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
10. A diversion structure and ditch sufficient to use the full amount of water allowed under the existing rights are present.
11. The proposed changes as conditioned would not result in enlargement of the rights.
12. The proposed change as conditioned would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary change in place of use proposed in Temporary Transfer Application T-12898 is consistent with the requirements of ORS 540.570 and OAR 690-385-8000.

Now, therefore, it is ORDERED:

1. The temporary change in place of use proposed in Temporary Transfer Application T-12898 is approved.
2. The use shall revert to the authorized place of use at the end of the 2018 irrigation season.
3. The approval of this temporary transfer may be revoked or modified if the Department finds the change causes injury to any existing water right.
4. A subsequent application for permanent transfer of Certificates 77288, 85974 and 85975 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
5. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 77288, 85974 and 85975
6. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
7. The use of the remaining water rights described by Certificates 77288, 85974 and 85975 shall continue to be in accordance with the terms and conditions of Certificates 77288, 85974 and 85975. •
