- Certificate 62232 lists the reservoir dam as the point of diversion, but does not describe the location of the actual pumping point. However information is available from the transfer application and map indicating that the pumping point (which correlates with the location of an unlabeled arrow on the Final Proof Map for the right) is located as follows:

Pumping Point:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
6 S	4 W	WM	33	SE NE	1155 FEET NORTH AND 1751 FEET EAST FROM THE CENTER OF SECTION 33

- Temporary Transfer Application T-11235 proposes to temporarily change the place of use of the right to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
6 S	4 W	WM	33	SW NW	40.0
6 S	4 W	WM	33	SE NW	39.8
6 S	4 W	WM	33	NE SW	0.1
6 S	4 W	WM	33	NW SW	0.1

- Notice of the application for temporary transfer was published on April 26, 2011, pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.

Temporary Transfer Review Criteria

- Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
- The proposed change would not result in enlargement of the right.

9. The proposed change would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(6) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary change in place of use proposed in application Temporary Transfer Application T-11235 is consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The temporary change in place of use proposed in Temporary Transfer Application T-11235 is approved.
2. The former place of use **shall not** be irrigated as part of this water right during the 2011, 2012, 2013, 2014 and 2015 irrigation seasons.
3. The use shall revert to the authorized place of use at the end of the 2015 irrigation season.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the change causes injury to any existing water right.
5. A subsequent application for permanent transfer of Certificate 62232 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 62232.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. The Director may require the water user to install a totalizing flow meter or other suitable measuring device at the point of diversion. If the Director notifies the water user to install a flow meter or other measuring device, the water user shall install such device specified by the Director within the period allowed in the notice. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the Watermaster access to the meter or measuring device.
9. The use of the remaining water right described by Certificate 62232 shall continue to be in accordance with the terms and conditions of Certificate 62232.
