**Conclusions of Law**

The temporary change in place of use proposed in Temporary Transfer Application T-12899 is consistent with the requirements of ORS 540.570 and OAR 690-385-3500.

**Now, therefore, it is ORDERED:**

- The temporary changes in place of use proposed in Transfer Application T-12899, are approved.
- The former places of use **shall not** be irrigated as part of these water rights during the 2018 irrigation season.
- The use shall revert to the authorized place of use after the 2018 irrigation season.

4. Any application for permanent transfer of Certificate 80929 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Divisions 380 or 385. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
5. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture of Certificate 80929 under ORS 540.610.
6. The use of water on the lands from which the water right is transferred and at the new temporary place of use during the same irrigation season or calendar year is prohibited and may subject the district and landowner to civil penalties.
7. The water user shall maintain and operate the existing measurement devices and shall make such improvements as may be required by the Department.
8. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
9. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 80929.
10. The use of the remaining water rights described by Certificate 80929 not involved in this transfer shall continue to be in accordance with the terms and conditions of Certificate 80929.
