26. The district temporary transfer application satisfies the criteria of ORS 540.570 and OAR 690-385-3000, contains the information required under OAR 690-385-3200, and includes a map meeting the requirements of OAR 690-385-3300.
27. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
28. The water rights are subject to transfer as defined in OAR 690-385-0100(17).
29. Diversion structures, district canals, pumps, pump stations, ditches, pipeline, and sprinkler systems sufficient to use the full amount of water allowed under the existing rights are present.
30. The Oregon Department of Fish and Wildlife has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is currently equipped with an appropriate fish screen.
31. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.
32. The proposed change in places of use, as conditioned, will not result in enlargement of the rights as defined in OAR 690-385-0100(6).
33. The proposed change in places of use would not result in injury to other water rights as defined in OAR 690-385-0100(4).
34. All other applicable requirements for district temporary water right transfers are met.

Conclusions of Law

The temporary changes in points of diversion and places of use proposed in Temporary Transfer Application T-14215 are consistent with the requirements of ORS 540.570 and OAR 690-385-3500.

Now, therefore, it is ORDERED:

1. **Prior to diverting water**, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary. The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards.

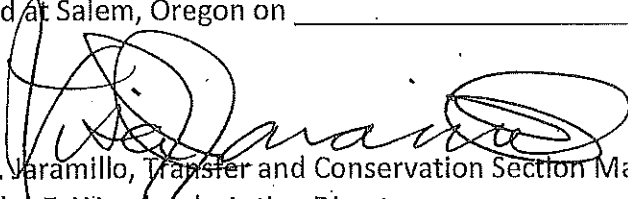

If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

2. The temporary changes in points of diversion and places of use proposed in Transfer Application T-14215, as conditioned above, are approved.
3. The former places of use **shall not** be irrigated as part of these water rights during the 2023 irrigation season.
4. The use shall revert to the authorized places of use after the **2023** irrigation season.
5. Any application for permanent transfer of Certificates 30021, 82489, 94969, 94970, 97089, 94967, and 96377 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Divisions 380 or 385. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture of Certificates 30021, 82489, 94969, 94970, 97089, 94967, and 96377 under ORS 540.610.
7. The use of water on lands from which the right is transferred and in the new temporary location during the same irrigation season or calendar year is prohibited and may subject the district and the landowner to civil penalties.
8. Water use measurement conditions:
 - a. **Before water use may begin** under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion.
 - b. The water user shall maintain the meters or measuring devices in good working order.

- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
9. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
10. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 30021, 82489, 94969, 94970, 79089, 94967, and 96377, and Permits G-15586 and S-54980.
11. The use of the remaining water rights described by Certificates 30021, 82489, 94969, 94970, 79089, 94967, and 96377, and Permits G-15586 and S-54980 not involved in this transfer shall continue to be in accordance with the terms and conditions of Certificates 30021, 82489, 94969, 94970, 97089, 94967, and 96377, and Permits G-15586 and S-54980.
