By Decree of the Circuit Court for Jackson County, Oregon, entered April 26, 1919, In the Matter of the Determination of the Relative Rights to the Use of the Waters of Rogue River and Its Tributaries, a water right was established in the name of Wilbur W. Water for the said right is diverted, through the Comstock Ditch, from a point located 1000 feet North and 1190 feet East from the Southwest Corner of Section 5, being within the SW 1/4 SW 1/4 of Section 5, Township 40 South, Range 3 West, WM.

The applicants herein, owners of the lands above described, propose to change the point of diversion therefrom, and, without loss of priority, to a pump located 1420 feet North and 1280 feet East from the Southwest Corner of Section 22, being within the NW 1/4 SW 1/4 of Section 22, Township 39 South, Range 3 West, WM.

Bruce R. Sund, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion, together with that diverted at the old point of diversion, shall not exceed the quantity of water available at the old point of diversion under the subject right, and shall not exceed 0.125 cubic foot per second.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the Watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made on or before October 1, 1984.

It is FURTHER ORDERED that the certificate recorded at page 50339, Volume 44, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicants herein.
