

**Before the Water Resources Director
Jefferson County**

FINAL ORDER

Pursuant to ORS 541.329 (District Water Rights Mapping Provision), a petition requesting approval and acceptance of district maps showing the location and use of all water rights within and served by a district was submitted to the Oregon Water Resources Commission on June 30, 1993, by the petitioner:

**NORTH UNIT IRRIGATION DISTRICT
2024 NW BEECH STREET
MADRAS, OREGON 97741**

The perfected water rights petitioned are evidenced by Certificates 51231, 51232, and 51233, as modified by transfers T-5307, T-5474, T-5475, T-5565, T-5601, T-5608, T-5755, T-5863, T-5866, T-5956, T-6092, T-6136, T-6208, T-6311, and Special Order Volume 43, page 239.

Certificate 51231 allows use of the waters of the Deschutes River, Wickiup Reservoir, and Haystack Reservoir, tributaries of the Columbia River, for irrigation of 49,999.9 acres and domestic use (1.0 cfs). The points of diversion are located as follows:

- Deschutes River - SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 29, T17S, R12E, W.M.; 1,700 feet South and 730 feet West from NE Corner, Section 29.
- Wickiup Reservoir - SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 7, T22S, R9E, W.M.
- Haystack Reservoir - SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 27, T12S, R13E, W.M.

Certificate 51232 allows the use of the water of the Crooked River, a tributary of the Deschutes River, for supplemental irrigation of 49,999.9 acres on lands having a primary water right under Certificate 51231. The point of diversion is located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 13, T14S, R13E, W.M.; 590 feet North and 2,790 feet East from W $\frac{1}{4}$ Corner, Section 13.

Certificate 51233 allows the use of the waters of the Crooked River, a tributary of the Deschutes River, for irrigation of 8,820.8 acres. On May 11, 1989, Order 6208 (Volume 43, page 239) cancelled 3.1 acres of water right leaving 8,817.7 acres of perfected water right. The point of diversion is located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 13, T14S, R13E, W.M.; 590 feet North and 2,790 feet East from W $\frac{1}{4}$ Corner, Section 13.

A proposed order issued by the Director of the Water Resources Department on November 20, 1995, proposed to approve the petitioner's maps and petition. Pursuant to ORS 541.331 and OAR 690-13-310(4), WaterWatch submitted comments on April 9, 1996. Of the rights petitioned by the District, WaterWatch found that some rights lay outside the District boundary. This

finding was confirmed by Staff. As a result, the District submitted an amended petition with those rights outside of the District boundary removed. Other issues raised by WaterWatch are not applicable to the HB-3111 remapping process.

The rights of record to be modified by the amended petition are in **Attachment 1**. A summary of the rights to be modified is in **Table 1**.

New water right certificates will be issued to North Unit Irrigation District conforming to the said amended petition. The new certificates will supersede Certificates 51231, 51232, and 51233.

FINDINGS

The Director has examined the petition and maps submitted by North Unit Irrigation District and a report prepared by Department staff. The said report is on file at the Water Resources Department. Based upon the examination and report, the Director finds:

1. North Unit Irrigation District is a "district" as defined in ORS 541.325(1).
2. The District has met the notice requirements of ORS 541.329(4).
3. The District filed its petition and maps in a timely manner.
4. The District paid the fees required under ORS 536.050(1)(o).
5. The District certified that the notice requirements of ORS 541.329(4) were met.
6. The content and quality of the District's petition and maps meet the requirements of ORS 541.329
7. On April 9, 1996, WaterWatch submitted comments in accordance with ORS 541.331(1) and OAR 690-13-310(4). WaterWatch found that a minor amount of petitioned lands lay outside the District boundary. As a result, the District submitted an amended petition. The other issues raised by WaterWatch are not applicable to the HB-3111 remapping process.
8. The acreage petitioned, as adjusted in response to comments received from WaterWatch, is within the limits of the eligible water rights and the limits set in ORS 541.331(4).
9. The proposed changes may be made without injury to existing water rights.
10. This order does not affect or make any legal determinations regarding any water right permit within the District.

Therefore, the Director finds that NORTH UNIT IRRIGATION DISTRICT has met the requirements of ORS 541.325 to 541.333.

FINAL ORDER

NOW, THEREFORE, it is hereby ORDERED that the petition for the District's maps of water rights is accepted and approved. Certificates 51231, 51232, and 51233 are cancelled. New certificates of water right conforming to the approved petition (Attachment 2) will be issued to NORTH UNIT IRRIGATION DISTRICT.

It is FURTHER ORDERED that remaining right certificates be issued for those portions of Certificates 51231, 51232, and 51233 NOT modified by the petition.

It is FURTHER ORDERED that the original seasons, priority dates, rates, duty limitations, and all other conditions and limitations (except for place and type of use) contained in the original certificates will remain in effect for each superseding certificate issued.

WITNESS the signature of the Oregon Water Resources Director, affixed

this 30th day of July, 1996.

Martha O. Pagel, Director
