O R D E R
EXTENDING TIME

Now, at this time, the above-entitled matter coming on for consideration before the State Engineer on the applications of the following-named parties for extensions of time within which to apply water to beneficial use:

<u>Transfer No.</u>	<u>Name</u>	<u>Extend Time To</u>
D 10	Chester A. Searcy	October 1, 1943
E 7	E. D. Robinson	October 1, 1943

Under certain orders of the State Engineer heretofore entered approving changes in place of use of water of the above-named parties, the time limits were fixed to apply water to beneficial use as provided by Section 116-606, O. C. L. A.

The time limits having expired, it is urgent that a decision be made upon these applications in order that the applicants may proceed to apply the water to beneficial use upon the lands to which the water was heretofore transferred.

Actual examination of the premises of applicants is practically impossible due to limited personnel and funds, and the State Engineer is, therefore, compelled to judge the matter of diligence entirely on the statement contained in the respective applications for extensions of time.

The statements contained in the applications for extensions of time indicate that each applicant has shown such reasonable diligence as entitles him to an extension of time.

No protests or objections to the granting of extensions of time have been filed.

NOW, THEREFORE, it hereby is ORDERED that the applications for extensions of time for applying water to beneficial use upon the new lands be and the same hereby are approved and that said time hereby allowed each applicant is set forth opposite his name and address as follows, to wit:
