

Maximum Duty that can be applied to an acre:

Not to exceed 9.91 acre-feet (af) per acre per year.

The above listed rates and duty reflect allowance of a 45% transmission loss as determined by decree of the Circuit Court of Deschutes County, dated March 24, 1933. Those lands not served from the district main canal systems, but by direct pumping from the Deschutes River, are not allowed the 45% transmission loss.

Now, therefore, it is ORDERED:

1. The proposed changes in place of use to the water rights evidenced by Certificates 83571 and 76714 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 83571 and 76714 and any related decree.
3. The former places of use shall no longer be irrigated as part of these water rights.
4. The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.
5. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2018**. A Claim of Beneficial Use shall be submitted by COID to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
6. Water right Certificates 83571 and 76714 are modified. The Department will issue superseding certificates describing the rights when it determines it is necessary for record keeping.
