

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

WHEELER COUNTY

IN THE MATTER OF THE APPLICATION )  
OF ALBERT M. AND SHIRLEY A. GARBER )  
FOR APPROVAL OF A CHANGE IN )  
POINT OF DIVERSION OF WATER )  
-----

ORDER APPROVING  
TRANSFER 5276

On June 1, 1983, an application was filed in the office of the Water Resources Director by Albert M. and Shirley A. Garber for approval of a change in point of diversion of water from John Day River, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 47232, Volume 40, State Record of Water Right Certificates, in the name of William I. Chapman, describes a right which includes the use of not to exceed 0.07 cubic foot per second from John Day River, for irrigation of 3.6 acres in NE 1/4 SW 1/4, Section 6, Township 9 South, Range 25 East, WM with a date of priority of January 19, 1959.

Water for the said right is diverted from a point located 1560 feet North and 1870 feet East from the Southwest Corner of Section 6, being within the NE 1/4 SW 1/4 of Section 6, Township 9 South, Range 25 East, WM.

The applicants herein, owners of the lands above described, propose to change the point of diversion therefrom, to a point located 1500 feet North and 2350 feet East from the Southwest Corner of Section 6, being within the NE 1/4 SW 1/4 of Section 6, Township 9 South, Range 25 East, WM.

Jerry S. Rodgers, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the proposed change in point of diversion is approved, without loss of priority.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right and shall not exceed 0.07 cubic foot per second.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the Watermaster it becomes necessary to install headgates and measuring devices:

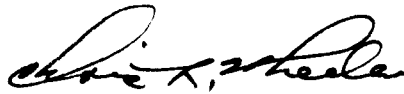

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said Watermaster.

It is FURTHER ORDERED that the construction work shall be completed and water used from the proposed point of diversion on or before October 1, 1985.

It is FURTHER ORDERED that the certificate recorded at page 47232, Volume 40, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

Dated at Salem, Oregon this 20th day of July, 1983.

CHRIS L. WHEELER  
Deputy Director

NOTE: The approval of a water right transfer application does not confirm the status of the right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.
