

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Instream Lease Application) DETERMINATION and FINAL ORDER ON
IL-1028, Benton County) PROPOSED INSTREAM LEASE

Authority

Oregon Revised Statute (ORS) 537.348 establishes the process in which a water right holder may submit a request to lease an existing water right for instream purposes. Oregon Administrative Rule (OAR) Chapter 690, Division 077 implements the statutes and provides the Department's procedures and criteria for evaluating instream lease applications.

Lessor

Lee R. and Linda P. Parker
P.O. Box 69
Alsea, OR 97324
lparker@calpoly.edu; lp97324@gmail.com

Findings of Fact

1. On December 22, 2021, Lee R. and Linda P. Parker filed an application to renew instream lease IL-1028, involving a portion of Certificates 47048 and 44345 for instream use.

2. The portion of the first right to be leased is as follows:

Certificate: 44345 in the name of Lewis R. Steeprow (perfected under Permit S-35089)

Use: Irrigation of 14.0 acres

Priority Date: April 22, 1970

Quantity: **Rate:** 0.18 Cubic Foot per Second (CFS)

Volume: 35.0 Acre-Feet (AF)

Limit: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Source: BUMMER CREEK, tributary to SOUTH FORK ALSEA RIVER

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Authorized Point of Diversion (POD):

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
14 S	8 W	WM	13	NE NW	750 FEET SOUTH AND 1490 FEET EAST FROM THE NW CORNER OF SECTION 13

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
14 S	8 W	WM	13	NW NW	14.0

3. The portion of the second right to be leased is as follows:

Certificate: 47048 Fred H. and Esther Callahan (perfected under Permit S-36793)
Use: Irrigation of 23.2 acres
Priority Date: March 19, 1973
Quantity: **Rate:** 0.29 Cubic Foot per Second (CFS)
Duty: 58.0 Acre-Feet (AF)
Limit: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.
Source: BUMMER CREEK, tributary to the SOUTH FORK ALSEA RIVER

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
14 S	8 W	WM	13	SW NW	1860 FEET SOUTH AND 1130 FEET EAST FROM THE NW CORNER OF SECTION 13

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
14 S	8 W	WM	13	SW NW	23.2

4. Certificates 44345 and 47048 do not specify the irrigation season; nor is an irrigation season specified by Basin Program or Decree. For the purposes of instream leasing, an irrigation season of March 1 through October 31, consistent with OAR 690-250, shall be used to establish when water may be protected instream.
5. The lease application includes the information required under OAR 690-077-0076(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(1). No comments were received.

6. The instream use is as follows:

BUMMER CREEK, tributary to SOUTH FORK ALSEA RIVER

Instream Reach No. 1: From the POD for Certificate 47048, as described in Finding of Fact No. 3, to the POD for Certificate 44345, as described in Finding of Fact No. 2.

Certificate	Priority Date	Instream Rate (CFS)	Instream Volume (AF)	Period Protected Instream
47048	March 19, 1973	0.12	58.0	March 1 through October 31

Instream Reach No. 2: From the POD for Certificate 44345 to the mouth of Bummer Creek.

Certificate	Priority Date	Instream Rate (cfs)	Instream Volume (AF)	Period Protected Instream
44345	April 22, 1970	0.07 CFS	35.0 AF	March 1 through October 31
47048	March 19, 1973	0.12 CFS	58.0 AF	March 1 through October 31
TOTAL:		0.19 CFS	93.0 AF	

7. The amount and timing of the proposed instream flow is allowable within the limits and use of the original water rights.
8. The protection of flows within the proposed reach is appropriate, considering:
 - a. The instream water use begins at the recorded point of diversion;
 - b. The location of confluences with other streams downstream of the point of diversion.
 - c. There are no known areas of natural loss of streamflow to the river bed downstream from the point of diversion; and
 - d. Any return flows resulting from the exercise of the existing water right would re-enter the river downstream of the reach of the instream water right.
9. The total monthly quantities of water to be protected under the existing and proposed instream rights in the reach will provide for a beneficial purpose.
10. The total monthly quantities of water to be protected instream under existing and proposed instream rights in the reach do not exceed the estimated average natural flow.
11. If approved, this instream lease is not reasonably expected to significantly affect land use as prescribed by ORS 197.180, OAR Chapter 660, Divisions 30 and 31, and OAR Chapter 690, Division 5.
12. Based upon review of the application, information provided by the Department's Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. The order approving this instream lease may be modified or

revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.

13. If a right which has been leased is later proposed to be leased again, transferred and/or reviewed under an allocation of conserved water, a new injury review shall be required. For example, instream transfers will be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of any future transactions.
14. The Lessor has requested that the lease terminate on September 30, 2024. The lease has been submitted prior to the first day of the irrigation season. The lease may commence on March 1, 2022, being the first day of the irrigation season.
15. The Lessor has requested that there not be an option to terminate the lease.

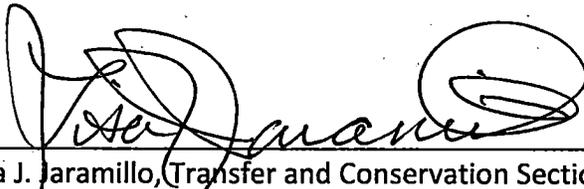

Conclusions of Law

The Department concludes that the lease will not result in injury or enlargement, OAR 690-077-0077. The lease conforms to the applicable provisions of OAR 690-077-0015.

Now, therefore it is ORDERED:

1. The Lease as described herein is APPROVED.
2. During each year of the term of the lease, the former place of use will no longer receive water as part of these rights, any supplemental rights, or any other layered irrigation water rights, including ground water registrations and permits.
3. The term of the lease will commence on March 1, 2022 and terminate on September 30, 2026. The lease may not be terminated by any party to the lease prior to specified termination date.

Dated at Salem, Oregon this day FEB 04 2022

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
Thomas M. Byler, Director, Oregon Water Resources Department
