

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application) FINAL ORDER APPROVING AN
T-13405, Douglas County) ADDITIONAL POINT OF DIVERSION

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

Applicant

LOOKING GLASS ORGANIC FARMS LLC
PO BOX 717
JEFFERSON, OR 97352

Findings of Fact

1. On April 6, 2020, LOOKING GLASS ORGANIC FARMS LLC filed an application for an additional point of diversion (APOD) under Certificates 37907, 38691, 57718, and 93735. The Department assigned the application number T-13405.
2. Looking Glass Organic Farms LLC will be responsible for completion of the changes.
3. Notice of the application for transfer was published on April 28, 2020, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
4. On July 24, 2020, the Department contacted the applicant’s agent by written correspondence to notify the applicant and the applicant’s agent of deficiencies in the application. Supplemental Form D submitted with the application, identified the confirming certificate for the changes made under Certificate 93735 would not remain in the name of the Lookingglass Olalla Water Control District. The additional point of diversion as proposed under Certificates 37907 and 57718 would involve an upstream move, causing injury to Instream Water Right Certificate 73069. The Department requested that the deficiencies be resolved by August 24, 2020.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. On July 28, 2020, the applicant's agent submitted a revised application removing point of diversion POD 5 under Certificate 37907, and POD 4 under Certificate 57718, from the application.
6. On July 29, 2020, the agent submitted a revised Supplemental Form D, resolving the deficiencies. Lookingglass Olalla Water Control District certified that they consented to the applicant's proposed water right application and maps.
7. After proof of completion, any water right certificate issued to confirm the changes to Certificate 93735 under Transfer T-13405 is to remain in the name of the Lookingglass Olalla Water Control District. All other confirming certificates will be issued in the name of the receiving land owner.
8. On August 20, 2020, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-13405 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of September 21, 2020, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
9. On November 4, 2020, the Department issued a Preliminary Determination proposing to approve Transfer T-13405 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on November 10, 2020, and in the Roseburg News Review newspaper on November 7 and 14, 2020, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

10. The first right to be transferred is as follows:

Certificate: 37907 in the name of JUANITA V. FORD (perfected under Permit S-30686)
Use: IRRIGATION of 35.4 ACRES
Priority Date: JULY 29, 1965
Rate: 0.44 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre feet per acre for each acre irrigated during the irrigation season of each year.

15. Transfer Application T-13405 proposes an additional point of diversion approximately 1772.9 feet downstream to:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
28 S	7 W	WM	2	NW SE	40	APOD 39A - 2630 FEET NORTH AND 1630 FEET WEST FROM THE SE CORNER OF SECTION 2

16. The fourth right to be transferred is as follows:

Certificate: 93735 in the name of LOOKINGGLASS OLALLA WATER CONTROL DISTRICT (perfected under Permit S-46786)
Use: IRRIGATION OF 1245.4 ACRES, SUPPLEMENTAL IRRIGATION OF 658.5 ACRES, DOMESTIC USE FOR ONE FAMILY INCLUDING IRRIGATION OF NOT TO EXCEED ONE-HALF ACRE LAWN AND NONCOMMERCIAL GARDEN EACH, AND GENERAL PARK USES
Priority Date: MARCH 17, 1981

Maximum

Volume: 5778.0 ACRE-FEET (AF), BEING 5770.0 FOR IRRIGATION AND SUPPLEMENTAL IRRIGATION. 4.0 AF FOR DOMESTIC USE, AND 4.0 AF FOR GENERAL PARK USES

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

Total					1245.4	658.5

17. Transfer Application T-13405 proposes an additional point of diversion approximately 0.3 mile downstream from re-diversion POD 39 to:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
28 S	7 W	WM	2	NW SE	40	APOD 39A - 2630 FEET NORTH AND 1630 FEET WEST FROM THE SE CORNER OF SECTION 2

18. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

Transfer Review Criteria [OAR 690-380-4010(2)]

19. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
20. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-13405.
21. The proposed changes would not result in enlargement of the rights.
22. The proposed changes would not result in injury to other water rights.
23. All other application requirements are met.

Conclusions of Law

The additional point of diversion proposed in Transfer Application T-13405 is consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The additional point of diversion proposed in Transfer Application T-13405 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 37907, 38691, 57718, and 93735, and any related decree.
3. Water right Certificates 37907, 38691, 57718, and 93735 are cancelled. A new certificate will be issued describing that portion of Certificate 57718 not affected by this transfer.
4. The quantity of water, as authorized by the water right described under Certificate 37907, diverted at the new additional point of diversion (APOD 39A), together with that diverted at the original point of diversion (POD 2), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 2).
5. The quantity of water, as authorized by the water right described under Certificate 38691, diverted at the new additional point of diversion (POD 39A), together with that diverted at the original point of diversion (POD 1), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 1).
6. The quantity of water, as authorized by the water right described under Certificate 57718, diverted at the new additional point of diversion (POD 39A), together with that diverted at the original point of diversion (POD 3), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 3).
7. The quantity of water, as authorized by the water right described under Certificate 93735, diverted at the new additional point of diversion (POD 39A), together with that diverted at the original point of diversion (POD 2) and points of re-diversion (PODs 1, 3, 3A, 4-10, 10A, 10B, 11-14, 14A, and 15-57), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 2) and points of re-diversion (PODs 1, 3, 3A, 4-10, 10A, 10B, 11-14, 14A, and 15-57).
8. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each new point of diversion.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
9. The water user shall maintain and operate a fish screening and/or by-pass device, as appropriate, at the point of diversion consistent with the Oregon Department of Fish and Wildlife's operational and maintenance standards.

10. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2022**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
11. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

Dated in Salem, Oregon on

JAN 26 2021

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
THOMAS M BYLER, DIRECTOR
Oregon Water Resources Department
