Three Sisters Irrigation District

Findings of Fact

Background

1. On September 28, 2011, the Department issued a final order, recorded in Special Order Volume 85, Pages 469 – 472, approving district permanent transfer application T-10907. The order established October 1, 2012, as the date for completion of the authorized change in place of use.
2. On April 4, 2013, the Department received a claim of beneficial use and associated map for Transfer Application T-10907.
3. On August 12, 2013, the Department received an amended claim of beneficial use and associated map for Transfer Application T-10907.
4. The Department reviewed the claim of beneficial use and final proof maps submitted by the applicant for district permanent transfer T-10907.
5. The claim of beneficial use did not contain map(s) of the point(s) of diversion from the source. However, since these changes are for place of use only within an irrigation district, and do not involve changes in point of diversion, the existing map(s) on file with the Department are sufficient to identify the point(s) of diversion from the source.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

6. The claims of beneficial use and final proof map for portions of Transfer Application T-10907 identify the completed change differently from that authorized by the final order approving the transfer application.
7. The change in place of use under Certificate 74135 authorized in the order was as follows:
